Commission communication on the cumulation of aids for different purposes

(85/C 3/03)

In its communication of 21 December 1978 on regional aid schemes, the Commission announced its intention of examining with experts from the Member States the question of the cumulation of regional aids with other aids.

Having completed its examination, the Commission has reached the conclusion that significant cases of cumulation of aids should be notified to it to enable it to control the cumulative intensity of the aids and assess their effect on competition and trade between Member States. It therefore proposes to the Member States, under Article 93 (1) of the EEC Treaty, that they henceforth notify significant cases of cumulation of aids in accordance with the rules set out below.

I. Notification of significant cases of cumulation of aids

1. The Member States notify in advance to the Commission significant cases of cumulation of

aids, which are defined as those projects where the investment exceeds 12 million ECU or where the cumulative intensity of the aids exceeds 25 % net grant equivalent.

2. Cumulation of aids is defined as the application of more than one aid scheme to a given investment project.

An investment programme undertaken by a firm is defined as all investments in fixed assets (whether or not in the same place) necessary to carry out the project.

II. Derogations

The following cases will be exempt from notification:

1. cases where the investment does not exceed 3 million ECU, whatever the cumulative intensity of the aid;
