PROCEDURES RELATING TO THE IMPLEMENTATION OF THE COMMON  
COMMERCIAL POLICY

EUROPEAN COMMISSION

**Notice of initiation of an expiry review of the anti-dumping measures applicable to imports of  
silicon originating in the People's Republic of China**

(2015/C 174/06)

Following the publication of a Notice of impending expiry<sup>(1)</sup> of the anti-dumping measures in force on the imports of silicon originating in the People's Republic of China, the European Commission ('the Commission') has received a request for review pursuant to Article 11(2) of Council Regulation (EC) No 1225/2009 of 30 November 2009 on protection against dumped imports from countries not members of the European Community<sup>(2)</sup> ('the basic Regulation').

**1. Request for review**

The request was lodged on 27 February 2015 by the Comité de Liaison des Industries de Ferro-Alliages (hereafter 'Euroalliages' or 'the applicant') on behalf of producers representing more than 25 % of the total Union production of silicon.

**2. Product under review**

The product subject to this review is silicon ('the product under review'), currently falling within CN code 2804 69 00.

**3. Existing measures**

The measures currently in force are a definitive anti-dumping duty imposed by Council Implementing Regulation (EU) No 467/2010<sup>(3)</sup>, as extended to imports of silicon consigned from the Republic of Korea, whether declared as originating in the Republic of Korea or not; and extended to imports of silicon consigned from Taiwan whether declared as originating in Taiwan or not, by Council Implementing Regulation (EU) No 311/2013<sup>(4)</sup> ('the existing measures').

**4. Grounds for the review**

The request is based on the grounds that the expiry of the measures would be likely to result in continuation of dumping and recurrence of injury to the Union industry.

**4.1. Allegation of likelihood of continuation of dumping**

Since, in view of the provisions of Article 2(7) of the basic Regulation, the People's Republic of China ('the PRC' or 'the country concerned') is considered to be a non-market economy country, the applicant established normal value for the imports from the PRC on the basis of the price in a market economy third country, namely the United States of America ('the USA'). The allegation of likelihood of continuation of dumping is based on a comparison of the normal value thus established with the export price (at ex-works level) of the product under review when sold for export to the Union.

On this basis the dumping margins calculated are significant for the country concerned.

<sup>(1)</sup> OJ C 371, 18.10.2014, p. 17.

<sup>(2)</sup> OJ L 343, 22.12.2009, p. 51.

<sup>(3)</sup> Council Implementing Regulation (EU) No 467/2010 of 25 May 2010 imposing a definitive anti-dumping duty on imports of silicon originating in the People's Republic of China, as extended to imports of silicon consigned from the Republic of Korea, whether declared as originating in the Republic of Korea or not, following an expiry review pursuant to Article 11(2) and a partial interim review pursuant to Article 11(3) of Regulation (EC) No 1225/2009 (OJ L 131, 29.5.2010, p. 1).

<sup>(4)</sup> Council Implementing Regulation (EU) No 311/2013 of 3 April 2013 extending the definitive anti-dumping duty imposed by Implementing Regulation (EU) No 467/2010 on imports of silicon originating in the People's Republic of China to imports of silicon consigned from Taiwan, whether declared as originating in Taiwan or not (OJ L 95, 5.4.2013, p. 1).

#### 4.2. *Allegation of likelihood of recurrence of injury*

The applicant alleges the likelihood of recurrence of injury.

In this respect the applicant has provided prima facie evidence indicating that imports from the PRC increased in the recent past and the market share of imports originating in the PRC is significant. The prima facie evidence also shows that, in absence of the anti-dumping duty, the prices of imports originating in the PRC would significantly undercut the Union industry prices. It is likely that such level of undercutting would jeopardise, if not eliminate, the profit margin currently achieved by the Union industry and lead to a recurrence of material injury.

Lastly, the applicant alleges that there is significant spare capacity in the PRC which would be used to increase exports to the EU should the anti-dumping measure lapse. Other important factors in that respect are the existence of trade barriers for the country concerned in other traditional third-country markets (inter alia the USA) and the attractiveness of the Union market.

### 5. Procedure

Having determined, after consulting the Committee established by Article 15(1) of the basic Regulation, that sufficient evidence exists to justify the initiation of an expiry review, the Commission hereby initiates a review in accordance with Article 11(2) of the basic Regulation.

#### 5.1. *Procedure for the determination of a likelihood of continuation or recurrence of dumping*

Exporting producers<sup>(1)</sup> of the product under review from the country concerned, including those that did not cooperate in the investigation(s) leading to the existing measures, are invited to participate in the Commission investigation.

##### 5.1.1. *Investigating exporting producers*

Procedure for selecting exporting producers to be investigated in the People's Republic of China

##### Sampling

In view of the potentially large number of exporting producers in the country concerned involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit the exporting producers to be investigated to a reasonable number by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary, and if so, to select a sample, all exporting producers, or representatives acting on their behalf, including the ones who did not cooperate in the investigation leading to the measures subject to the present review, are hereby requested to make themselves known to the Commission. These parties have to do so within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified, by providing the Commission with the information on their company(-ies) requested in Annex I to this Notice.

In order to obtain the information it deems necessary for the selection of the sample of exporting producers, the Commission will also contact the authorities of the PRC and may contact any known associations of exporting producers.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

If a sample is necessary, the exporting producers may be selected based on the largest representative volume of exports to the Union which can reasonably be investigated within the time available. All known exporting producers, the authorities of the country concerned and associations of exporting producers will be notified by the Commission, via the authorities of the country concerned, if appropriate, of the companies selected to be in the sample.

In order to obtain the information it deems necessary for its investigation with regard to exporting producers, the Commission will send questionnaires to the exporting producers selected to be in the sample, to any known association of exporting producers and to the authorities of the country concerned.

---

<sup>(1)</sup> An exporting producer is any company in the country concerned which produces and exports the product under review to the Union market, either directly or via third party, including any of its related companies involved in the production, domestic sales or exports of the product under review.

All exporting producers selected to be in the sample, any known association of exporting producers and the authorities of the country concerned will have to submit a completed questionnaire within 37 days from the date of notification of the sample selection, unless otherwise specified.

Without prejudice to the possible application of Article 18 of the basic Regulation, companies that have agreed to their possible inclusion in the sample but are not selected to be in the sample will be considered to be cooperating ('non-sampled cooperating exporting producers').

#### 5.1.2. *Additional procedure with regard to exporting producers in the non-market economy country concerned*

##### Selection of a market economy third country

In accordance with Article 2(7)(a) of the basic Regulation, in the case of imports from the country concerned normal value will be determined on the basis of the price or constructed value in a market economy third country.

In the previous investigation Brazil was used as a market economy third country for the purpose of establishing normal value in respect of the PRC. The applicant has provided prima facie evidence that the circumstances with regard to the Brazilian market, have since changed significantly. As a result, the applicant claims that Brazil is no longer an appropriate third country market economy. For the purpose of this investigation, the Commission thus envisages using the USA as an appropriate market economy third country, as proposed by the applicant. Interested parties are hereby invited to comment on the appropriateness of this choice within 10 days of the date of publication of this Notice in the *Official Journal of the European Union*. According to the information available to the Commission, other market economy suppliers of the Union may be located, inter alia, in Brazil, Norway, Russia and Australia. The Commission will examine whether there is production and sales of the product under review in those market economy third countries for which there are indications that production of the product under review is taking place.

#### 5.1.3. *Investigating unrelated importers* <sup>(1)</sup> <sup>(2)</sup>

Unrelated importers of the product under review from the country concerned to the Union are invited to participate in this investigation.

In view of the potentially large number of unrelated importers involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit to a reasonable number the unrelated importers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all unrelated importers, or representatives acting on their behalf, including the ones who did not cooperate in the investigation leading to the measures subject to the present review, are hereby requested to make themselves known to the Commission. These parties must do so within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified, by providing the Commission with the information on their company(ies) requested in Annex II to this Notice.

In order to obtain information it deems necessary for the selection of the sample of unrelated importers, the Commission may also contact any known associations of importers.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

If a sample is necessary, the importers may be selected based on the largest representative volume of sales of the product under review in the Union which can reasonably be investigated within the time available. All known unrelated importers and associations of importers will be notified by the Commission of the companies selected to be in the sample.

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled unrelated importers and to any known association of importers. These parties must submit a completed questionnaire within 37 days from the date of the notification of the sample selection, unless otherwise specified.

<sup>(1)</sup> Only importers not related to exporting producers can be sampled. Importers that are related to exporting producers have to fill in Annex I to the questionnaire for these exporting producers. For the definition of a related party see footnote 3 in Annex I or footnote 6 in Annex II.

<sup>(2)</sup> The data provided by unrelated importers may also be used in relation to aspects of this investigation other than the determination of dumping.

### 5.2. **Procedure for the determination of a likelihood of a continuation or recurrence of injury**

In order to establish whether there is a likelihood of a continuation or recurrence of injury to the Union industry, Union producers of the product under review are invited to participate in the Commission investigation.

#### *Investigating Union producers*

In order to obtain the information it deems necessary for its investigation with regard to Union producers the Commission will send questionnaires to known Union producers or representative Union producers and to any known association of Union producers, namely to:

- Ferropem,
- Ferroatlantica S.L.,
- RW. Silicium GmbH,
- Comité de Liaison des Industries de Ferro-Alliages (Euroalliages).

The aforementioned Union producers and the associations of Union producers must submit the completed questionnaire within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

Any Union producer and association of Union producers not listed above is invited to contact the Commission, preferably by email, immediately but no later than 15 days after the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified, in order to make itself known and request a questionnaire.

### 5.3. **Procedure for the assessment of Union interest**

Should the likelihood of continuation or recurrence of dumping and injury be confirmed, a decision will be reached, pursuant to Article 21 of the basic Regulation, as to whether maintaining the anti-dumping measures would not be against the Union interest. Union producers, importers and their representative associations, users and their representative associations, and representative consumer organisations are invited to make themselves known within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified. In order to participate in the investigation, the representative consumer organisations have to demonstrate, within the same deadline, that there is an objective link between their activities and the product under review.

Parties that make themselves known within the above deadline may provide the Commission with information on the Union interest within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified. This information may be provided either in a free format or by completing a questionnaire prepared by the Commission. In any case, information submitted pursuant to Article 21 will only be taken into account if supported by factual evidence at the time of submission.

### 5.4. **Other written submissions**

Subject to the provisions of this Notice, all interested parties are hereby invited to make their views known, submit information and provide supporting evidence. Unless otherwise specified, this information and supporting evidence must reach the Commission within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*.

### 5.5. **Possibility to be heard by the Commission investigation services**

All interested parties may request to be heard by the Commission investigation services. Any request to be heard must be made in writing and must specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*. Thereafter, a request to be heard must be submitted within the specific deadlines set by the Commission in its communication with the parties.

### 5.6. **Instructions for making written submissions and sending completed questionnaires and correspondence**

## 6. Non-cooperation

In cases where any interested party refuses access to or does not provide the necessary information within the time limits, or significantly impedes the investigation, findings, affirmative or negative, may be made on the basis of facts available, in accordance with Article 18 of the basic Regulation.

Where it is found that any interested party has supplied false or misleading information, the information may be disregarded and use shall be made of facts available.

If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 18 of the basic Regulation, the result may be less favourable to that party than if it had cooperated.

Failure to give a computerised response shall not be deemed to constitute non-cooperation, provided that the interested party shows that presenting the response as requested would result in an unreasonable extra burden or unreasonable additional cost. The interested party should immediately contact the Commission.

## 7. Hearing Officer

Interested parties may request the intervention of the Hearing Officer in trade proceedings. The Hearing Officer acts as an interface between the interested parties and the Commission investigation services. The Hearing Officer reviews requests for access to the file, disputes regarding the confidentiality of documents, requests for extension of time limits and requests by third parties to be heard. The Hearing Officer may organise a hearing with an individual interested party and mediate to ensure that the interested parties' rights of defence are being fully exercised.

(1) A 'Limited' document is a document which is considered confidential pursuant to Article 19 of Council Regulation (EC) No 1225/2009 (OJ L 343, 22.12.2009, p. 51) and Article 6 of the WTO Agreement on Implementation of Article VI of the GATT 1994 (Anti-Dumping Agreement). It is also a document protected pursuant to Article 4 of Regulation (EC) No 1049/2001 of the European Parliament and of the Council (OJ L 145, 31.5.2001, p. 43).

A request for a hearing with the Hearing Officer should be made in writing and should specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*. Thereafter, a request to be heard must be submitted within specific deadlines set by the Commission in its communication with the parties.

The Hearing Officer will also provide opportunities for a hearing involving parties to take place which would allow different views to be presented and rebuttal arguments offered on issues pertaining, among other things, to the likelihood of a continuation or recurrence of dumping and injury.

For further information and contact details interested parties may consult the Hearing Officer's web pages on DG Trade's website: <http://ec.europa.eu/trade/trade-policy-and-you/contacts/hearing-officer/>

#### **8. Schedule of the investigation**

The investigation will be concluded, pursuant to Article 11(5) of the basic Regulation within 15 months of the date of the publication of this Notice in the *Official Journal of the European Union*.

#### **9. Possibility to request a review under Article 11(3) of the basic Regulation**

As this expiry review is initiated in accordance with the provisions of Article 11(2) of the basic Regulation, the findings thereof will not lead to the existing measures being amended but will lead to those measures being repealed or maintained in accordance with Article 11(6) of the basic Regulation.

If any interested party considers that a review of the measures is warranted so as to allow for the possibility to amend the measures, that party may request a review pursuant to Article 11(3) of the basic Regulation.

Parties wishing to request such a review, which would be carried out independently of the expiry review mentioned in this Notice, may contact the Commission at the address given above.

#### **10. Processing of personal data**

Any personal data collected in this investigation will be treated in accordance with Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data <sup>(1)</sup>.
