

**Notice of initiation of an expiry review of the anti-dumping measures applicable to imports of grain-oriented flat-rolled products of silicon-electrical steel originating in the People's Republic of China (PRC), Japan, the Republic of Korea, the Russian Federation and the United States of America (USA)**

(2020/C 366/11)

Following the publication the Notice of impending expiry <sup>(1)</sup> of the anti-dumping measures in force on the imports of grain-oriented flat-rolled products of silicon-electrical steel originating in the People's Republic of China (PRC), Japan, the Republic of Korea, the Russian Federation and the United States of America (USA) the European Commission ('the Commission') received a request for a review pursuant to Article 11(2) of Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union <sup>(2)</sup> ('the basic Regulation').

**1. Request for review**

The request was lodged on 29 July 2020 by the *European Steel Association* ('Eurofer' or 'the applicant'), on behalf of producers representing more than 50 % of the total Union production of grain-oriented flat-rolled products of silicon-electrical steel ('GOES').

An open version of the request and the analysis of the degree of support by Union producers for the request are available in the file for inspection by interested parties. Section 5.6 of this Notice provides information about access to the file for interested parties.

**2. Product under review**

The product subject to this review is grain-oriented flat-rolled products of silicon-electrical steel, of a thickness of more than 0,16 mm, currently falling under CN codes ex 7225 11 00 (TARIC Codes 7225 11 00 11, 7225 11 00 15 and 7225 11 00 19) and ex 7226 11 00 (TARIC codes 7226 11 00 12, 7226 11 00 14, 7226 11 00 16, 7226 11 00 92, 7226 11 00 94 and 7226 11 00 96) and originating in the People's Republic of China, Japan, the Republic of Korea, the Russian Federation and the United States of America ('the countries concerned').

**3. Existing measures**

The measures currently in force are definitive anti-dumping duties imposed by Commission Implementing Regulation (EU) 2015/1953 of 29 October 2015 <sup>(3)</sup>.

**4. Grounds for the review**

The request is based on the grounds that the expiry of the measures would be likely to result in continuation or recurrence of dumping and injury to the Union industry.

**4.1. Allegation of likelihood of continuation or recurrence of dumping**

**4.1.1. Japan, the Republic of Korea, the Russian Federation and the United States of America (USA)**

In the absence of reliable data on domestic prices for these countries, the allegation of likelihood of continuation or recurrence of dumping is based on a comparison of a constructed normal value (manufacturing costs, selling, general and administrative costs (SG&A) and profit) in these countries with the export price (at ex-works level) of the product under review when sold for export to the Union and/or to a major third country. On this basis, the dumping margins calculated are significant for these countries.

Based on these comparisons, the applicant alleges that there is a likelihood of continuation of dumping from Japan, the Russian Federation and the USA and a likelihood of recurrence of dumping from the Republic of Korea.

<sup>(1)</sup> Notice of the impending expiry of certain anti-dumping measures (OJ C 40, 6.2.2020, p. 34).

<sup>(2)</sup> OJ L 176, 30.6.2016, p. 21.

<sup>(3)</sup> Commission Implementing Regulation (EU) 2015/1953 of 29 October 2015 imposing a definitive anti-dumping duty on imports of certain grain-oriented flat-rolled products of silicon-electrical steel originating in the People's Republic of China, Japan, the Republic of Korea, the Russian Federation and the United States of America (OJ L 284, 30.10.2015, p. 109).

#### 4.1.2. *The PRC*

The applicant claimed that it is not appropriate to use domestic prices and costs in the PRC, due to the existence of significant distortions within the meaning of point (b) of Article 2(6a) of the basic Regulation.

To substantiate the allegations of significant distortions, the applicant relied on the information contained in the country report produced by the Commission services on 20 December 2017 describing the specific market circumstances in the PRC <sup>(4)</sup>. In particular, the applicant referred to distortions affecting the steel sector, as steel is the main raw material to produce GOES, and to chapters on general distortions of energy, land and labour. In addition, the applicant relied on other reports such as the report of the U.S. Department of Commerce titled “China’s Status as a non-market economy” <sup>(5)</sup>, that shows that the Chinese government continues to maintain and exercise broad control over the allocation of resources to achieve specific economic outcomes. A report prepared by the Steel Industry Coalition named “Report on Market Research into the People’s Republic of China Steel Industry” (30 June 2016) <sup>(6)</sup> also shows extensive State support received by steel Chinese producers. Finally, the applicant referred to the Commission’s findings and conclusions in the anti-dumping investigation regarding certain organic coated steel products <sup>(7)</sup> and in the anti-subsidy investigation regarding hot-rolled flat steel products <sup>(8)</sup>.

As a result, in view of Article 2(6a)(a) of the basic Regulation, the allegation of continuation or recurrence of dumping is based on a comparison of a constructed normal value on the basis of costs of production and sale reflecting undistorted prices or benchmarks in an appropriate representative country with the export price (at ex-works level) of the product under review from the PRC when sold for export to a major third country which is not subject to measures. On this basis, the dumping margins calculated are significant for the PRC.

In light of the information available, the Commission considers that there is sufficient evidence pursuant to Article 5(9) of the basic Regulation tending to show that, due to significant distortions affecting prices and costs, the use of domestic prices and costs in the PRC is inappropriate, thus warranting the initiation of an investigation on the basis of Article 2(6a) of the basic Regulation.

The country report is available in the file for inspection by interested parties and on DG Trade’s website <sup>(9)</sup>.

#### 4.2. ***Allegation of likelihood of continuation or recurrence of injury***

The applicant has provided sufficient evidence showing likelihood of continuation or recurrence of injury.

The applicant has provided evidence that imports of the product under review from the countries concerned to the Union have remained significant in absolute terms and in terms of market share. The evidence provided by the applicant shows that the volumes and prices of these imported products under review put pressure on Union prices and had an adverse impact on profitability. Union producers were unable to raise prices despite steadily rising costs of production, which resulted in a deterioration of their economic situation.

The applicant has also provided evidence that, should measures be allowed to lapse, the current import level of the product under review from the countries concerned to the Union is likely to increase due to the exporting capacity of the exporting producers in the countries concerned and the attractiveness of the Union market. In addition, in the absence of measures, export prices in the countries concerned would be at a level low enough to injure the Union industry.

<sup>(9)</sup> Documents cited in the country report may also be obtained upon a duly reasoned request.

## 5. Procedure

Having determined, after consulting the Committee established by Article 15(1) of the basic Regulation, that sufficient evidence of a likelihood of dumping and injury exists to justify the initiation of an expiry review, the Commission hereby initiates a review in accordance with Article 11(2) of the basic Regulation.

The expiry review will determine whether the expiry of the measures would be likely to lead to a continuation or recurrence of dumping of the product under review originating in the countries concerned and a continuation or recurrence of injury to the Union industry.

Regulation (EU) 2018/825 of the European Parliament and of the Council <sup>(10)</sup>, which entered into force on 8 June 2018 (TDI Modernisation package), introduced significant changes to the timetable and deadlines previously applicable in anti-dumping proceedings. The time limits for interested parties to come forward, in particular at the early stage of investigations, are shortened.

The Commission also draws the attention of the parties that further to the COVID-19 outbreak a Notice <sup>(11)</sup> has been published on the consequences of the COVID-19 outbreak on anti-dumping and anti-subsidy investigations that may be applicable to this proceeding.

### 5.1. Review investigation period and period considered

The investigation of a continuation or recurrence of dumping will cover the period from 1 July 2019 to 30 June 2020 ('the review investigation period'). The examination of trends relevant for the assessment of the likelihood of a continuation or recurrence of injury will cover the period from 1 January 2017 to the end of the review investigation period ('the period considered').

### 5.2. Comments on the request and the initiation of the investigation

All interested parties are invited to make their views known on the inputs and the Harmonised System (HS) codes provided in the request <sup>(12)</sup> within 15 days of the date of publication of this Notice in the *Official Journal of the European Union* <sup>(13)</sup>.

All interested parties wishing to comment on the request (including matters pertaining to injury and causality) or any aspects regarding the initiation of the investigation (including the degree of support for the requests) must do so within 37 days of the date of publication of this Notice.

Any request for a hearing with regard to the initiation of the investigation must be submitted within 15 days of the date of publication of this Notice.

### 5.3. Procedure for the determination of a likelihood of continuation or recurrence of dumping

In an expiry review, the Commission examines exports that were made to the Union in the review investigation period and, irrespective of exports to the Union, considers whether the situation of the companies producing and selling the product under review in the countries concerned is such that exports at dumped prices to the Union would be likely to continue or recur if measures expire.

Therefore, all producers <sup>(14)</sup> of the product under review from the countries concerned, irrespective of whether or not they exported the product under review to the Union in the review investigation period, are invited to participate in the Commission investigation.

<sup>(10)</sup> Regulation (EU) 2018/825 of the European Parliament and of the Council of 30 May 2018 amending Regulation (EU) 2016/1036 on protection against dumped imports from countries not members of the European Union and Regulation (EU) 2016/1037 on protection against subsidised imports from countries not members of the European Union (OJ L 143, 7.6.2018, p. 1).

<sup>(11)</sup> <https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX%3A52020XC0316%2802%29>

<sup>(12)</sup> Information on HS codes is also provided in the executive summary of the review request, which is available on DG Trade's website ([https://trade.ec.europa.eu/tdi/case\\_details.cfm?id=2492](https://trade.ec.europa.eu/tdi/case_details.cfm?id=2492)).

<sup>(13)</sup> All references to the publication of this Notice will be references to publication of this Notice in the *Official Journal of the European Union* unless otherwise specified.

<sup>(14)</sup> A producer is any company in the countries concerned which produces the product under review, including any of its related companies involved in the production, domestic sales or exports of the product under review.

### 5.3.1. Investigating producers in the countries concerned

In view of the potentially large number of exporting producers in the countries concerned involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit the producers to be investigated to a reasonable number by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary, and if so, to select a sample, all producers, or representatives acting on their behalf, including the ones who did not cooperate in the investigation leading to the measures subject to this review, are hereby requested to provide the Commission with information on their companies within 7 days of the date of publication of this Notice. This information must be provided via TRON.tdi at the following address: <https://tron.trade.ec.europa.eu/tron/tdi/form/c6067b10-ad26-97ad-bd3e-cbafd65d08e6>. Tron access information can be found in sections 5.6 and 5.9 below.

In order to obtain the information it deems necessary for the selection of the sample of producers in the countries concerned, the Commission will also contact the authorities of the countries concerned and may contact any known associations of producers in the countries concerned.

If a sample is necessary, the producers will be selected based on the largest representative volume of production, sales or exports which can reasonably be investigated within the time available. All known producers in the countries concerned, the authorities of the countries concerned and associations of producers in the countries concerned will be notified by the Commission, via the authorities of the countries concerned if appropriate, of the companies selected to be in the sample.

Once the Commission has received the necessary information to select a sample of producers, it will inform the parties concerned of its decision whether they are included in the sample. The sampled producers will have to submit a completed questionnaire within 30 days from the date of notification of the decision of their inclusion in the sample, unless otherwise specified.

The Commission will add a note to the file for inspection by interested parties reflecting the sample selection. Any comment on the sample selection must be received within 3 days of the date of notification of the sample decision.

A copy of the questionnaire for producers in the countries concerned is available in the file for inspection by interested parties and on DG Trade's website (DG Trade's website ([https://trade.ec.europa.eu/tdi/case\\_details.cfm?id=2492](https://trade.ec.europa.eu/tdi/case_details.cfm?id=2492))).

Without prejudice to the possible application of Article 18 of the basic Regulation, companies that have agreed to their possible inclusion in the sample but are not selected to be in the sample will be considered to be cooperating ('non-sampled cooperating producers').

### 5.3.2. Additional procedure with regard to the PRC

Subject to the provisions of this Notice, all interested parties are hereby invited to make their views known, submit information and provide supporting evidence regarding the application of Article 2(6a) of the basic Regulation. Unless otherwise specified, this information and supporting evidence must reach the Commission within 37 days of the date of publication of this Notice.

Pursuant to point (e) of Article 2(6a), the Commission will, shortly after initiation, by means of a note to the file for inspection by interested parties, inform parties to the investigation about the relevant sources that it intends to use for determining normal value in the PRC pursuant to Article 2(6a) of the basic Regulation. This will cover all sources, including the selection of an appropriate representative third country where appropriate. Parties to the investigation shall be given 10 days from the date at which that note is added to that file to submit comments.

According to the information available to the Commission, a possible representative third country for the PRC in this case is Brazil. With the aim of finally selecting the appropriate representative third country, the Commission will examine whether there are countries with a similar level of economic development as the PRC, in which there is production and sales of the product under review and in which relevant data are readily available. Where there is more than one such country, preference will be given, where appropriate, to countries with an adequate level of social and environmental protection. With regard to the relevant sources, the Commission invites all producers in the PRC to provide information on the materials (raw and processed) and energy used in the production of the product under review within 15 days of the date of publication of this Notice. This information must be provided via TRON.tdi at the following address: <https://tron.trade.ec.europa.eu/tron/tdi/form/7e8efa2d-ad28-e0e8-3c6b-353cf296886>. Tron access information can be found in sections 5.6 and 5.9 below.

Furthermore, any submissions of factual information to value costs and prices pursuant to point (a) of Article 2(6a) of the basic Regulation must be filed within 65 days of the date of publication of this Notice. Such information should be taken exclusively from publicly available sources.

In order to obtain the information it deems necessary for its investigation with regard to the alleged significant distortions within the meaning of point (b) of Article 2(6a) of the basic Regulation, the Commission will also make available a questionnaire to the Government of the PRC.

### 5.3.3. Investigating unrelated importers <sup>(15)</sup> <sup>(16)</sup>

Unrelated importers of the product under review from the countries concerned to the Union, including those that did not cooperate in the investigation(s) leading to the measures in force, are invited to participate in this investigation.

In view of the potentially large number of unrelated importers involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit to a reasonable number the unrelated importers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all unrelated importers, or representatives acting on their behalf, including the ones who did not cooperate in the investigation leading to the measures subject to the present review, are hereby requested to make themselves known to the Commission. These parties must do so within 7 days of the date of publication of this Notice by providing the Commission with the information on their company(ies) requested in the Annex to this Notice.

In order to obtain information it deems necessary for the selection of the sample of unrelated importers, the Commission may also contact any known associations of importers.

If a sample is necessary, the importers may be selected based on the largest representative volume of sales of the product under review from the countries concerned in the Union, which can reasonably be investigated within the time available. All known unrelated importers and associations of importers will be notified by the Commission of the companies selected to be in the sample.

The Commission will also add a note to the file for inspection by interested parties reflecting the sample selection. Any comment on the sample selection must be received within 3 days of the date of notification of the sample decision.

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled unrelated importers. Those parties must submit a completed questionnaire within 30 days from the date of the notification of the sample selection, unless otherwise specified.

A copy of the questionnaire for unrelated importers is available in the file for inspection by interested parties and on DG Trade's website ([https://trade.ec.europa.eu/tdi/case\\_details.cfm?id=2492](https://trade.ec.europa.eu/tdi/case_details.cfm?id=2492)).

## 5.4. Procedure for the determination of a likelihood of a continuation or recurrence of injury

In order to establish whether there is a likelihood of a continuation or recurrence of injury to the Union industry, the Union producers of the product under review are invited to participate in the Commission investigation.

<sup>(15)</sup> Only importers not related to producers in the countries concerned can be sampled. Importers that are related to producers have to fill in Annex I to the questionnaire for these exporting producers. In accordance with Article 127 of Commission Implementing Regulation (EU) 2015/2447 of 24 November 2015 laying down detailed rules for implementing certain provisions of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code, two persons shall be deemed to be related if: (a) they are officers or directors of the other person's business; (b) they are legally recognised partners in business; (c) they are employer and employee; (d) a third party directly or indirectly owns, controls or holds 5 % or more of the outstanding voting stock or shares of both of them; (e) one of them directly or indirectly controls the other; (f) both of them are directly or indirectly controlled by a third person; (g) together they control a third person directly or indirectly; or (h) they are members of the same family (OJ L 343, 29.12.2015, p. 558). Persons shall be deemed to be members of the same family only if they stand in any of the following relationships to one another: (i) husband and wife, (ii) parent and child, (iii) brother and sister (whether by whole or half blood), (iv) grandparent and grandchild, (v) uncle or aunt and nephew or niece, (vi) parent-in-law and son-in-law or daughter-in-law, (vii) brother-in-law and sister-in-law. In accordance with Article 5(4) of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code, 'person' means a natural person, a legal person, and any association of persons which is not a legal person but which is recognised under Union or national law as having the capacity to perform legal acts (OJ L 269, 10.10.2013, p. 1).

<sup>(16)</sup> The data provided by unrelated importers may also be used in relation to aspects of this investigation other than the determination of dumping.

#### 5.4.1. *Investigating Union producers*

In view of the large number of Union producers involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission has decided to limit to a reasonable number the Union producers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling is carried out in accordance with Article 17 of the basic Regulation.

The Commission has provisionally selected a sample of Union producers. Details can be found in the file for inspection by interested parties. Interested parties are hereby invited to comment on the provisional sample. In addition, other Union producers, or representatives acting on their behalf, that consider that there are reasons why they should be included in the sample must contact the Commission within 7 days of the date of publication of this Notice. All comments regarding the provisional sample must be received within 7 days of the date of publication of this Notice, unless otherwise specified.

All known Union producers and/or associations of Union producers will be notified by the Commission of the companies finally selected to be in the sample.

The sampled Union producers will have to submit a completed questionnaire within 30 days from the date of notification of the decision of their inclusion in the sample, unless otherwise specified.

A copy of the questionnaire for Union producers is available in the file for inspection by interested parties and on DG Trade's website ([https://trade.ec.europa.eu/tdi/case\\_details.cfm?id=2492](https://trade.ec.europa.eu/tdi/case_details.cfm?id=2492)).

#### 5.5. ***Procedure for the assessment of Union interest***

Should the likelihood of continuation or recurrence of dumping and continuation or recurrence of injury be confirmed, the Commission will determine, pursuant to Article 21 of the basic Regulation, as to whether maintaining the anti-dumping measures would not be against the Union interest.

Union producers, importers and their representative associations, users and their representative associations, trade unions and representative consumer organisations are invited to provide the Commission with information on the Union interest. In order to participate in the investigation, the representative consumer organisations have to demonstrate that there is an objective link between their activities and the product under review.

Information concerning the assessment of Union interest must be provided within 37 days of the date of publication of this Notice, unless otherwise specified. This information may be provided either in a free format or by completing a questionnaire prepared by the Commission.

A copy of the questionnaires, including the questionnaire for users of the product under review, is available in the file for inspection by interested parties and on DG Trade's website ([https://trade.ec.europa.eu/tdi/case\\_details.cfm?id=2492](https://trade.ec.europa.eu/tdi/case_details.cfm?id=2492)). In any case, information submitted pursuant to Article 21 will only be taken into account if supported by factual evidence at the time of submission, which substantiates its validity.

#### 5.6. ***Interested parties***

In order to participate in the investigation, interested parties, such as producers in the countries concerned, Union producers, importers and their representative associations, users and their representative associations, trade unions and representative consumer organisations first have to demonstrate that there is an objective link between their activities and the product under review.

Producers in the countries concerned, Union producers, importers and representative associations who made information available in accordance to the procedures described in sections 5.2, 5.3 and 5.4 will be considered as interested parties if there is an objective link between their activities and the product under review.

Other parties will only be able to participate in the investigation as interested party from the moment they make themselves known, and provided that there is an objective link between their activities and the product under review. Being considered as an interested party is without prejudice to the application of Article 18 of the basic Regulation.

Access to the file available for inspection for interested parties is made via Tron.tdi at the following address: <https://tron.trade.ec.europa.eu/tron/TDI>. Please follow the instructions on that page to get access <sup>(17)</sup>.

<sup>(17)</sup> In case of technical problems please contact the Trade Service Desk by email: [trade-service-desk@ec.europa.eu](mailto:trade-service-desk@ec.europa.eu) or by telephone +32 22979797.

### 5.7. *Other written submissions*

Subject to the provisions of this Notice, all interested parties are hereby invited to make their views known, submit information and provide supporting evidence. Unless otherwise specified, this information and supporting evidence must reach the Commission within 37 days of the date of publication of this Notice.

### 5.8. *Possibility to be heard by the Commission investigation services*

All interested parties may request to be heard by the Commission investigation services. Any request to be heard must be made in writing and must specify the reasons for the request as well as a summary of what the interested party wishes to discuss during the hearing. The hearing will be limited to the issues set out by the interested parties in writing beforehand.

In principle, hearings will not be used to present factual information, which is not yet on file. Nevertheless, in the interest of good administration and to enable Commission services to progress with the investigation, interested parties may be directed to provide new factual information after a hearing.

### 5.9. *Instructions for making written submissions and sending completed questionnaires and correspondence*

Information submitted to the Commission for the purpose of trade defence investigations shall be free from copyrights. Interested parties, before submitting to the Commission information and/or data which is subject to third party copyrights, must request specific permission to the copyright holder explicitly allowing the Commission a) to use the information and data for the purpose of this trade defence proceeding and b) to provide the information and/or data to interested parties to this investigation in a form that allows them to exercise their rights of defence.

All written submissions, including the information requested in this Notice, completed questionnaires and correspondence provided by interested parties for which confidential treatment is requested shall be labelled 'Sensitive' <sup>(18)</sup>. Parties submitting information in the course of this investigation are invited to reason their request for confidential treatment.

Interested parties providing 'Sensitive' information are required to furnish non-confidential summaries of it pursuant to Article 19(2) of the basic Regulation, which will be labelled 'For inspection by interested parties'. These summaries must be sufficiently detailed to permit a reasonable understanding of the substance of the information submitted in confidence. If a party providing confidential information fails to show good cause for a confidential treatment request or does not furnish a non-confidential summary of it in the requested format and quality, the Commission may disregard such information unless it can be satisfactorily demonstrated from appropriate sources that the information is correct.

Interested parties are invited to make all submissions and request via TRON.tdi (<https://tron.trade.ec.europa.eu/tron/TDI>) including scanned powers of attorney and certification sheets. By using TRON.tdi or email, interested parties express their agreement with the rules applicable to electronic submissions contained in the document "CORRESPONDENCE WITH THE EUROPEAN COMMISSION IN TRADE DEFENCE CASES" published on the website of the Directorate-General for Trade: [http://trade.ec.europa.eu/doclib/docs/2011/june/tradoc\\_148003.pdf](http://trade.ec.europa.eu/doclib/docs/2011/june/tradoc_148003.pdf). The interested parties must indicate their name, address, telephone and a valid email address and they should ensure that the provided email address is a functioning official business email, which is checked on a daily basis. Once contact details are provided, the Commission will communicate with interested parties by TRON.tdi or email only, unless they explicitly request to receive all documents from the Commission by another means of communication or unless the nature of the document to be sent requires the use of a registered mail. For further rules and information concerning correspondence with the Commission including principles that apply to submissions via TRON.tdi and by email, interested parties should consult the communication instructions with interested parties referred to above.

## 6. **Schedule of the investigation**

The investigation shall normally be concluded within 12 months and in any event no later than 15 months from the date of the publication of this Notice, pursuant to Article 11(5) of the basic Regulation.

## 7. **Submission of information**

As a rule, interested parties may only submit information in the timeframes specified in section 5 of this Notice.

In order to complete the investigation within the mandatory deadlines, the Commission will not accept submissions from interested parties after the deadline to provide comments on the final disclosure or, if applicable, after the deadline to provide comments on the additional final disclosure.

## 8. **Possibility to comment on other parties' submissions**

In order to guarantee the rights of defence, interested parties should have the possibility to comment on information submitted by other interested parties. When doing so, interested parties may only address issues raised in the other interested parties' submissions and may not raise new issues.

Comments on the information provided by other interested parties in reaction to the disclosure of the definitive findings should be submitted within 5 days from the deadline to comment on the definitive findings, unless otherwise specified. If there is an additional final disclosure, comments filed by other interested parties in reaction to this further disclosure should be made within 1 day from the deadline to comment on this further disclosure, unless otherwise specified.

The outlined timeframe is without prejudice to the Commission's right to request additional information from interested parties in duly justified cases.

## 9. **Extension to time limits specified in this Notice**

Any extension to the time limits provided for in this Notice should only be requested in exceptional circumstances and will only be granted if duly justified. In any event, any extension to the deadline to reply to questionnaires will be limited normally to 3 days, and as a rule will not exceed 7 days. Regarding time limits for the submission of other information specified in the Notice of Initiation, extensions will be limited to 3 days unless exceptional circumstances are demonstrated.

## 10. **Non-cooperation**

In cases where any interested party refuses access to or does not provide the necessary information within the time limits, or significantly impedes the investigation, findings, affirmative or negative, may be made on the basis of facts available, in accordance with Article 18 of the basic Regulation.

Where it is found that any interested party has supplied false or misleading information, the information may be disregarded and use may be made of facts available.

If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 18 of the basic Regulation, the result may be less favourable to that party than if it had cooperated.

Failure to give a computerised response shall not be deemed to constitute non-cooperation, provided that the interested party shows that presenting the response as requested would result in an unreasonable extra burden or unreasonable additional cost. The interested party should immediately contact the Commission.

## 11. **Hearing Officer**

Interested parties may request the intervention of the Hearing Officer for trade proceedings. The Hearing Officer reviews requests for access to the file, disputes regarding the confidentiality of documents, requests for extension of time limits and any other request concerning the rights of defence of interested parties and third parties as may arise during the proceeding.

The Hearing Officer may organise hearings and mediate between the interested party/-ies and Commissions services to ensure that the interested parties' rights of defence are being fully exercised. A request for a hearing with the Hearing Officer should be made in writing and should specify the reasons for the request. The Hearing Officer will examine the reasons for the requests. These hearings should only take place if the issues have not been settled with the Commission services in due course.

Any request must be submitted in good time and expeditiously so as not to jeopardise the orderly conduct of proceedings. To that effect, interested parties should request the intervention of the Hearing Officer at the earliest possible time following the occurrence of the event justifying such intervention. Where hearing requests are submitted outside the relevant timeframes, the Hearing Officer will also examine the reasons for such late requests, the nature of the issues raised and the impact of those issues on the rights of defence, having due regard to the interests of good administration and the timely completion of the investigation.

For further information and contact details interested parties may consult the Hearing Officer's web pages on DG Trade's website: <http://ec.europa.eu/trade/trade-policy-and-you/contacts/hearing-officer/>

### 12. Possibility to request a review under Article 11(3) of the basic Regulation

As this expiry review is initiated in accordance with the provisions of Article 11(2) of the basic Regulation, the findings thereof will not lead to the existing measures being amended but will lead to those measures being repealed or maintained in accordance with Article 11(6) of the basic Regulation.

If any interested party considers that a review of the measures is warranted so as to allow for the possibility to amend the measures, that party may request a review pursuant to Article 11(3) of the basic Regulation.

Parties wishing to request such a review, which would be carried out independently of the expiry review mentioned in this Notice, may contact the Commission at the address given above.

### 13. Processing of personal data

Any personal data collected in this investigation will be treated in accordance with Regulation (EU) 2018/1725 of the European Parliament and of the Council <sup>(19)</sup>.

A data protection notice that informs all individuals of the processing of personal data in the framework of Commission's trade defence activities is available on DG Trade's website: <http://ec.europa.eu/trade/policy/accessing-markets/trade-defence/>.

### 4. OTHER INFORMATION

Please provide any other relevant information, which the company considers useful to assist the Commission in the selection of the sample.

### 5. CERTIFICATION

By providing the above information, the company agrees to its possible inclusion in the sample. If the company is selected to be part of the sample, this will involve completing a questionnaire and accepting a visit at its premises in order to verify its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed not to have cooperated in the investigation. The Commission's findings for non-cooperating importers are based on the facts available and the result may be less favourable to that company than if it had cooperated.
