**COMMISSION REGULATION (EEC) No 2019/85****of 17 July 1985****fixing for the 1984/85 marketing year the yields of olives and olive oil**

THE COMMISSION OF THE EUROPEAN  
COMMUNITIES,

Having regard to the Treaty establishing the European  
Economic Community,

Having regard to Council Regulation No 136/66/EEC  
of 22 September 1966 on the establishment of a  
common organization of the market in oils and fats <sup>(1)</sup>,  
as last amended by Regulation (EEC) No 231/85 <sup>(2)</sup>,  
and in particular Article 5 (5) thereof,

Having regard to Council Regulation (EEC) No  
2261/84 of 17 July 1984 laying down general rules on  
the granting of aid for the production of olive oil and  
of aid to olive oil producer organizations <sup>(3)</sup>, and in  
particular Article 19 thereof,

Whereas, for the purpose of granting production aid to  
olive-growers who produce less than 100 kilograms of  
oil or are not members of a producers' organization,  
Article 18 of Council Regulation (EEC) No 2261/84 <sup>(3)</sup>  
provides that yields of olives and olive oil should be  
fixed for each homogeneous production zone on the  
basis of information supplied by the producer Member  
States ;

Whereas, in view of the information received, it is  
appropriate to fix these yields as specified in the  
Annex hereto ;

Whereas the measures provided for in this Regulation  
are in accordance with the opinion of the Management  
Committee for Oils and Fats,

HAS ADOPTED THIS REGULATION :

*Article 1*

1. For the 1984/85 marketing year, yields of olives  
and olive oil and the relevant production zones shall  
be as specified in Annex I hereto.
2. The production zones are defined in Annex II.

*Article 2*

This Regulation shall enter into force on the third day  
following its publication in the *Official Journal of the  
European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member  
States.

Done at Brussels, 17 July 1985.

*For the Commission*

## COMMISSION REGULATION (EEC) No 2020/85

of 22 July 1985

fixing the import levies on cereals and on wheat or rye flour, groats and meal

THE COMMISSION OF THE EUROPEAN  
COMMUNITIES,

Having regard to the Treaty establishing the European  
Economic Community,

Having regard to Council Regulation (EEC) No  
2727/75 of 29 October 1975 on the common organi-  
zation of the market in cereals <sup>(1)</sup>, as last amended by  
Regulation (EEC) No 1018/84 <sup>(2)</sup>, and in particular  
Article 13 (5) thereof,

Having regard to Council Regulation No 129 on the  
value of the unit of account and the exchange rates to  
be applied for the purposes of the common agricul-  
tural policy <sup>(3)</sup>, as last amended by Regulation (EEC)  
No 2543/73 <sup>(4)</sup>, and in particular Article 3 thereof,

Having regard to the opinion of the Monetary  
Committee,

Whereas the import levies on cereals, wheat and rye  
flour, and wheat groats and meal were fixed by Regula-  
tion (EEC) No 3131/84 <sup>(5)</sup> and subsequent amending  
Regulations;

Whereas the 1985/86 marketing year for durum wheat  
begins on 1 July 1985; whereas the Council has not,  
to date, adopted the prices for this marketing year in  
respect of this product; whereas the Commission, in  
compliance with the tasks entrusted to it by the  
Treaty, is obliged to adopt the precautionary measures  
essential to ensure continuity of operation of the  
common agricultural policy as regards durum wheat;

Whereas, in order to ensure continuity of operation of  
the import arrangements for durum wheat and for  
durum wheat groats and meal, a price equal to the  
threshold price fixed for the 1984/85 marketing year  
and applicable as from 1 July 1984 should be taken  
into account in calculating the levies, namely 352,67  
ECU per tonne for durum wheat, and 547,09 ECU per

tonne for durum wheat groats and meal; whereas  
these prices shall be adjusted as from 1 August 1985  
by the same amounts as the monthly increments fixed  
by Regulation (EEC) No 1020/84 <sup>(6)</sup>;

Whereas, if the levy system is to operate normally,  
levies should be calculated on the following basis:

- in the case of currencies which are maintained in  
relation to each other at any given moment within  
a band of 2,25 %, a rate of exchange based on  
their central rate, multiplied by the coefficient  
provided for in Article 2b (2) of Regulation (EEC)  
No 974/71 <sup>(7)</sup>, as last amended by Regulation (EEC)  
No 855/84 <sup>(8)</sup>,
- for other currencies, an exchange rate based on the  
arithmetic mean of the spot market rates of each of  
these currencies recorded for a given period in  
relation to the Community currencies referred to  
in the previous indent, and the aforesaid coeffi-  
cient;

Whereas these exchange rates being those recorded on  
19 July 1985;

Whereas it follows from applying the detailed rules  
contained in Regulation (EEC) No 3131/84 to today's  
offer prices and quotations known to the Commission  
that the levies at present in force should be altered to  
the amounts set out in the Annex hereto,

HAS ADOPTED THIS REGULATION:

*Article 1*

The import levies to be charged on products listed in  
Article 1 (a), (b) and (c) of Regulation (EEC) No  
2727/75 shall be as set out in the Annex hereto.

*Article 2*

This Regulation shall enter into force on 23 July 1985.

## COMMISSION REGULATION (EEC) No 2022/85

of 22 July 1985

on minimum quality requirements for dried plums, and prunes, eligible for production aid

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 516/77 of 14 March 1977 on the common organization of the market in products processed from fruit and vegetables<sup>(1)</sup>, as last amended by Regulation (EEC) No 746/85<sup>(2)</sup>, and in particular Article 3d (4) thereof,

Whereas Article 3 of Regulation (EEC) No 516/77 provides for a system of production aid for certain products; whereas Article 3d (1) (b) of the Regulation lays down that aid shall be paid only in respect of products which meet minimum quality standards to be laid down;

Whereas the aim of such quality requirements is to avoid the production of products for which no demand exists or products which would create distortion of the market; whereas the requirements must be based on traditional, fair manufacturing procedures;

Whereas to facilitate compliance with such quality requirements, dried plums purchased by the processor should also be subject to certain quality requirements; whereas payment of the minimum price to producers should be subject to compliance with those requirements;

Whereas with a view to implementing the production aid system, this Regulation must be applied in conjunction with Commission Regulation (EEC) No 1599/84 of 5 June 1984 laying down detailed rules for the application of the system of production aid for products processed from fruit and vegetables<sup>(3)</sup>, as amended by Regulation (EEC) No 1455/85<sup>(4)</sup>, in particular as regards the examination of processed products;

Whereas the quality requirements laid down in this Regulation are measures for implementing the production aid system; whereas quality requirements for the marketing of the products have not yet been established by the Community; whereas national require-

ments to that end may continue to be applied by the Member States, provided they are compatible with the provisions of the Treaty on the free movement of goods;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Products Processed from Fruit and Vegetables,

HAS ADOPTED THIS REGULATION:

*Article 1*

1. To qualify for payment of the minimum price referred to in Article 3b of Regulation (EEC) No 516/77, dried plums derived from prunes d'Ente must comply with the characteristics set out in Annex I.
2. To qualify for payment of the aid referred to in Article 3c of Regulation (EEC) No 516/77, prunes must comply with the characteristics set out in Annex II.

*Article 2*

Verification of the requirements for dried plums shall be effected on the basis of samples taken by the processor from a lot. For this purpose, 'a lot' means the number of containers presented jointly by the same producer, or his recognized producers' group or an association of such groups for acceptance by a processor or his processors' group or an association of such groups. The samples shall be examined by the processor or, where appropriate, by his representative. The results of the verification shall be recorded.

*Article 3*

1. The processor shall daily, and at regular intervals during the processing period, verify that the prunes comply with the requirements for benefiting from aid. The result of the verification shall be recorded.
2. The net weight of each sample to be examined shall be not less than 1 kilogram.

*Article 4*

This Regulation shall enter into force on 1 September 1985.

<sup>(1)</sup> OJ No L 73, 21. 3. 1977, p. 1.

<sup>(2)</sup> OJ No L 81, 23. 3. 1985, p. 10.

## ANNEX I

## MINIMUM QUALITY REQUIREMENTS FOR DRIED PLUMS DERIVED FROM PRUNES D'ENTE

## DEFINITION

Dried plums must be obtained by dehydration from physiologically ripe fresh plums of the prunes d'Ente variety, of the *Prunus Domestica* L. species.

## I. MINIMUM CHARACTERISTICS

1. The dried fruit must be of sound and fair merchantable quality and fit for processing.
2. The dried fruit must be :
  - (a) well dried, with a moisture content of 21 to 23 % ;
  - (b) sound, that is to say, free from mould, rotting, insects, whether live or dead, and insect excrement ;
  - (c) fleshy, clean and free from dirt ;
  - (d) free from foreign smell and taste ;
  - (e) practically free from defective fruit and waste.
3. The following tolerances are allowed :
  - (a) *Dried plums for industrial uses* :
    - (i) Such plums may have slight and/or serious defects without limits but shall not have more than 10 % by weight of fruit with very serious defects,
    - (ii) The presence of not more than 0,3 % by weight of waste.
  - (b) *Other dried plums* :
    - (i) The presence of not more than 15 % by weight of fruit with defects, of which not more than 7,5 % by weight may be fruit with serious and very serious defects and where the fruit with very serious defects do not exceed 0,5 kilograms weight.
    - (ii) The presence of not more than 0,2 % by weight of waste.

## II. DEFECTS

Defects fall into three categories :

- slight defects, which are minor defects of the skin,
- serious defects, with are mainly serious defects of the skin,
- very serious defects, which are mainly defects where the pulp has been damaged.

The following definitions apply :

## A. Slight defects

1. *Terminal cracks or fissures*

These are cracks in the skin exceeding 10 mm in length at the end opposite the stem cavity. Such cracks must not exceed 15 mm, otherwise the defect is more serious and ranks as 'serious'.

2. *Small skin perforations*

This defect is deemed to be present if the skin is torn, damaged or missing over a length not exceeding 7 mm, and if the pulp does not emerge from the lesion. Such lesions may be caused by a fall on a hard surface, rough handling or insect attack.

3. *Callosities due to hail, of an aggregate area exceeding 3 mm in diameter*

Scars caused by hail. The aggregate diameter must not exceed 10 mm, otherwise the defect ranks as 'serious'.

4. *Grey patches, russetting or scabs, of an aggregate area exceeding 6 mm in diameter*

This defect consists of a hard thickening of the skin, making patches of various shapes. The aggregate diameter must not exceed 20 mm, otherwise the defect ranks as 'serious'.

**B. Serious defects**

1. *Consistency defect*

This effect is usually due to insufficient ripening, resulting in defective colouring and soft pulp with a skin characterized by numerous shallow wrinkles.

2. *Cracks due to bursting*

Non-terminal cracks due to bursting of the fruit, followed by healing with hard excrescences, over a length exceeding 10 mm.

3. *Terminal cracks*

Cracks at the apex exceeding 15 mm in length.

4. *Perforations*

Skin perforations revealing the pulp over an area exceeding 7 mm in diameter.

5. *Partly crushed fruit*

Partly crushed fruit, parts of fruit or markedly misshapen fruit with the pulp in evidence.

6. *Callosities due to hail*

Lesions due to hail, with scars over an aggregate area exceeding 10 mm in diameter.

7. *Grey patches or russetting*

Hard patches over an aggregate area exceeding 20 mm in diameter.

8. *Fissures*

Deep fissures revealing the kernel.

9. *Deformation due to sun scorch*

Severe deformation due to sun scorch, resulting in the virtual absence of pulp on part of one side of the fruit, with the skin adhering unwrinkled to the kernel.

**C. Very serious defects**

1. *Caramelized fruit*

Fruit caramelized by too much heat, showing very dark colouring of the pulp or gaps between the kernel and pulp, or characteristic swelling giving the shape of fresh fruit.

2. *Monilia-attacked fruit*

Fruit with light patches caused by Monilia attack, arrested by drying, but where the pulp, even if damaged, is only slightly altered.

3. *Soiled fruit*

Fruit soiled by the presence of foreign matter (especially earth) which could be removed.

4. *Completely crushed fruit*

Completely crushed fruit or parts of fruit.

**D. Waste**

The term 'waste' is used to mean any material that might be present in a consignment of dried plums but may not, because of its nature or condition, be offered for human consumption or, if it remained in the fruit consignment, whatever its destination, might :

- reduce the keeping qualities,
- impair the appearance,
- transmit unacceptable taste, odour or other defects to the rest of the fruit.

The following are regarded as 'waste' :

1. *Fruit bearing active mould*

Fruit bearing mould which is spreading.

2. *Moniliated-mummified fruit*

Individual fruits or fruits which are compacted or welded together, the pulp having been destroyed and mummified by the complete development of *Monilia*.

3. *Rotten fruit*

Fruit whose edibility is impaired or destroyed by micro-organisms (yeasts, moulds, bacteria).

4. *Fruit infested by insects and mites*

Fruits infested by live or dead animal pests (insects and mites at any stage in their biological cycle) or by insect excrement.

5. *Fruit encrusted with earth or other soil constituents*

6. *Burnt fruit*

Fruit burnt by excessive heat, showing gaps between the pulp and kernel, or characteristic swelling giving the shape of fresh plums.

7. *Foreign matter*

Individual inedible parts of the fruit, such as stems, kernels and skin fragments, and foreign bodies or matter such as leaves, twigs and other plant matter, soil constituents such as earth or stones.

---

**ANNEX II****MINIMUM QUALITY REQUIREMENTS FOR PRUNES****DEFINITION**

Prunes must be obtained from dried plums meeting the characteristics set out in Annex I.

**MINIMUM CHARACTERISTICS**

1. Prunes must be sorted and size-graded unless intended for industrial use ; the moisture content of the fruit must be 21 to 23 %. The fruit must also be :
    - intact, sound, fleshy, clean, free from mould, rotting and waste,
    - practically free from blemish liable to impair the quality or appearance of the product,
    - free from insects, whether live or dead, and insect excrement,
    - free from chemical residues,
    - free from abnormal smell and taste.
  2. The following tolerances are allowed :
    - (a) *Prunes for industrial uses*

Such prunes may have slight and/or serious defects without limits but shall not have more than 10 % by weight of fruit with very serious defects.
    - (b) *Other prunes*

The presence of not more than 15 % by weight of fruit with defects, of which not more than 7,5 % by weight of fruit with serious and very serious defects and where the fruit with very serious defects do not exceed 0,5 % by weight.
  3. The provisions of Annex I are applicable for determining the seriousness of the defects.

## COMMISSION REGULATION (EEC) No 2023/85

of 22 July 1985

fixing for the 1985/86 marketing year the minimum price to be paid to producers for dried plums and the amount of production aid for prunes

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the Act of Accession of Greece,

Having regard to Council Regulation (EEC) No 516/77 of 14 March 1977 on the common organization of the market in products processed from fruit and vegetables <sup>(1)</sup>, as last amended by Regulation (EEC) No 746/85 <sup>(2)</sup>, and in particular Articles 3b and 3c thereof,

Whereas Council Regulation (EEC) No 1277/84 of 8 May 1984 laying down general rules for the system of production aid for processed fruit and vegetables <sup>(3)</sup> contains provisions as to the methods for determining the production aid;

Whereas, under Article 3b (1) of Regulation (EEC) No 516/77, the minimum price to be paid to producers is to be determined on the basis of:

- (a) the minimum price applying during the previous marketing year;
- (b) the movement of basic prices in the fruit and vegetables sector;
- (c) the need to ensure the normal marketing of fresh products for the various uses;

Whereas Article 3c of the said Regulation lays down the criteria for fixing the amount of production aid;

whereas account must be taken of the difference between the minimum price for the raw material and the third-country price adjusted on a flat-rate basis at the raw material stage;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Products Processed from Fruit and Vegetables,

HAS ADOPTED THIS REGULATION:

*Article 1*

For the 1985/86 marketing year:

- (a) the minimum price referred to in Article 3b of Regulation (EEC) No 516/77 to be paid to producers for dried plums derived from prunes d'Ente, and
- (b) the production aid referred to in Article 3c of the same Regulation for prunes of the category corresponding to 66 fruit per 500 grams

shall be as set out in the Annex.

*Article 2*

This Regulation shall enter into force on the day following its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

**COMMISSION REGULATION (EEC) No 2024/85****of 22 July 1985****amending Regulation (EEC) No 147/85 laying down for the 1984/85 wine year detailed implementing rules for the distillation referred to in Article 41 of Regulation (EEC) No 337/79**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 337/79 of 5 February 1979 on the common organization of the market in wine <sup>(1)</sup>, as last amended by Regulation (EEC) No 798/85 <sup>(2)</sup>, and in particular Articles 41 (7) and 65 thereof,

Whereas the first indent of Article 3 (3) (b) of Commission Regulation (EEC) No 147/85 <sup>(3)</sup>, as last amended by Regulation (EEC) No 1023/85 <sup>(4)</sup>, lays down that, for producers in region 1 who do not provide the competent authorities, within the time limit specified in Article 7 (1) of that Regulation, with the information enabling the actual yield to be determined, the percentage of table wine to be delivered for distillation shall be 50 % of their production as determined by the competent authorities for that region ;

Whereas, taking into account the yields obtained in the said region during the marketing year, the penalty provided for has proved to be too strict in relation to the quantities that should normally be delivered under the compulsory distillation operation ; whereas, in addition, in the region in question, a considerable number of producers have not discharged their obligations with regard to the declaration, in particular as regards the yield obtained ; whereas this situation is, to a large extent, linked to the difficulties that have resulted from the introduction of a binding measure in a region that had never previously applied it and particularly to the delay in the setting-up of the required administrative structures, in particular with regard to the distribution of crop and production declaration forms ; whereas these delays have been compounded by the difficulties resulting, for the producers, from the overlap between national rules on the protection of individual information and Community rules ; whereas, for all of these reasons, it seems advisable to adapt the penalty provided for in the first indent of Article 3 (3) (b) of the Regulation ;

Whereas the cooperative wineries in region 1 have encountered special difficulties during the first year of

implementation of the distillation operation referred to in Article 41 of Regulation (EEC) No 337/79 in calculating the quantities to be delivered for compulsory distillation by members who had undertaken to contribute the grapes grown on part of their production area ; whereas, in order to attain the objectives assigned by the said Regulation, calculation of the quantities to be delivered for compulsory distillation by these members should be permitted on the basis of the yield of those part-areas of the holding in respect of which they have entered into a commitment to contribute the grapes grown thereon to the cooperative winery ;

Whereas the amendments made to the detailed implementing rules on distillation by Commission Regulation (EEC) No 953/85 <sup>(5)</sup> and the complexity of certain calculations have prevented certain producers from complying with the date set in Article 7 (1) of Regulation (EEC) No 147/85 for notification of the quantities to be delivered ; whereas the producers should not be penalized for a delay for which they are not entirely responsible ; whereas it would seem desirable to accept notifications sent until 31 May 1985 at the latest, which measure would not call into question the smooth running of the distillation operations ; whereas the final date by which Member States are to communicate to the Commission the volumes of wine to be distilled under that Regulation is set at 31 May ; whereas this Regulation introduces changes which will effect these volumes ; whereas, therefore, a new final date should be set for communicating the adjusted volumes ;

Whereas the Management Committee for Wine has not delivered an opinion within the time limit set by its chairman,

HAS ADOPTED THIS REGULATION :

*Article 1*

Regulation (EEC) No 147/85 is hereby amended as follows :

1. In the first indent of Article 3 (3) (b), '50 %' is replaced by '20 %'.

<sup>(1)</sup> OJ No L 54, 5. 3. 1979, p. 1.

<sup>(2)</sup> OJ No L 89, 29. 3. 1985, p. 1.

<sup>(3)</sup> OJ No L 16, 19. 1. 1985, p. 25.

<sup>(4)</sup> OJ No L 110, 23. 4. 1985, p. 14.

<sup>(5)</sup> OJ No L 102, 12. 4. 1985, p. 19.

2. The following is added to Article 3 (4) (a):

'However, where a member of a cooperative winery or a producer group in region 1 is committed to supply all the grapes grown on part of his production area at the time this Regulation comes into force, the yield to be considered may be that achieved on such a part-area.'

3. In the first subparagraph of Article 7 (1) '30 April 1985' is replaced by '31 May 1985'.

4. The following subparagraph is added to Article 7 (2):

'However, the volume to be distilled under Article 3 (3) (b), broken down by the classes set out in Article

3 (1) and (2), shall be communicated to the Commission before 31 July 1985.'

*Article 2*

This Regulation shall enter into force on the day following its publication in the *Official Journal of the European Communities*.

It shall apply with effect from 19 January 1985.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

## COMMISSION REGULATION (EEC) No 2025/85

of 22 July 1985

suspending advance fixing of the subsidy for colza, rape and sunflower seed

THE COMMISSION OF THE EUROPEAN  
COMMUNITIES,

Having regard to the Treaty establishing the European  
Economic Community,

Having regard to Council Regulation No 136/66/EEC  
of 22 September 1966 on the establishment of a  
common organization of the market in oils and fats <sup>(1)</sup>,  
as last amended by Regulation (EEC) No 231/85 <sup>(2)</sup>,  
and in particular Article 27 (4) thereof,

Having regard to Council Regulation (EEC) No  
1594/83 of 14 June 1983 on the subsidy for  
oilseeds <sup>(3)</sup>, and in particular the second subparagraph  
of Article 8 (3) thereof,

Whereas, under Article 8 of Regulation (EEC) No  
1594/83, the application of the provisions concerning  
advance fixing may be suspended if the volume of  
applications for advance fixing of the subsidy does not  
appear to be related to normal outlets for seeds  
harvested in the Community and if the certificate  
applied for has not yet been issued;

Whereas there is a danger that, if existing arrange-  
ments are adhered to, subsidies could be fixed in  
advance in the short term for quantities of colza, rape

and sunflower seed considerably in excess of the quanti-  
ties which might be expected under more normal  
conditions;

Whereas the above situation requires that application  
of the provisions concerning advance fixing of subsi-  
dies for the products concerned be temporarily  
suspended and that, in accordance with the second  
paragraph of Article 5 of Regulation (EEC) No  
1594/83, certificates should not be issued where the  
application is lodged between 22 and 24 July 1985,

HAS ADOPTED THIS REGULATION:

*Article 1*

Advance fixing of the subsidy for colza, rape and  
sunflower seed is hereby suspended in the case of  
certificates the application for which is lodged  
between 22 and 24 July 1985.

*Article 2*

This Regulation shall enter into force on 23 July 1985.

This Regulation shall be binding in its entirety and directly applicable in all Member  
States.

**fixing the import levies on white sugar and raw sugar**

THE COMMISSION OF THE EUROPEAN  
COMMUNITIES,

Having regard to the Treaty establishing the European  
Economic Community,

Having regard to Council Regulation (EEC) No  
1785/81 of 30 June 1981 on the common  
organization of the markets in the sugar sector<sup>(1)</sup>, as  
last amended by Regulation (EEC) No 1482/85<sup>(2)</sup>, and  
in particular Article 16 (8) thereof,

Whereas the import levies on white sugar and raw  
sugar were fixed by Regulation (EEC) No 1809/85<sup>(3)</sup>,  
as last amended by Regulation (EEC) No 2016/85<sup>(4)</sup>;

Whereas it follows from applying the detailed rules  
contained in Regulation (EEC) No 1809/85 to the  
information known to the Commission that the levies

at present in force should be altered to the amounts  
set out in the Annex hereto,

HAS ADOPTED THIS REGULATION:

*Article 1*

The import levies referred to in Article 16 (1) of Regu-  
lation (EEC) No 1785/81 shall be, in respect of white  
sugar and standard quality raw sugar, as set out in the  
Annex hereto.

*Article 2*

This Regulation shall enter into force on 23 July 1985.

## COMMISSION REGULATION (EEC) No 2027/85

of 22 July 1985

altering the import levies on products processed from cereals and rice

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 2727/75 of 29 October 1975 on the common organization of the market in cereals<sup>(1)</sup>, as last amended by Regulation (EEC) No 1018/84<sup>(2)</sup>, and in particular Article 14 (4) thereof,

Having regard to Council Regulation (EEC) No 1418/76 of 21 June 1976 on the common organization of the market in rice<sup>(3)</sup>, as last amended by Regulation (EEC) No 1025/84<sup>(4)</sup>, and in particular Article 12 (4) thereof,

Having regard to Council Regulation No 129 on the value of the unit of account and the exchange rates to be applied for the purposes of the common agricultural policy<sup>(5)</sup>, as last amended by Regulation (EEC) No 2543/73<sup>(6)</sup>, and in particular Article 3 thereof,

Having regard to the advice of the Monetary Committee,

Whereas the import levies on products processed from cereals and rice were fixed by Regulation (EEC) No 1734/85<sup>(7)</sup>, as last amended by Regulation (EEC) No 2015/85<sup>(8)</sup>;

Whereas Council Regulation (EEC) No 1027/84 of 31 March 1984<sup>(9)</sup> amended Regulation (EEC) No 2744/75<sup>(10)</sup> as regards products falling within sub-heading 23.02 A of the Common Customs Tariff;

Whereas, if the levy system is to operate normally, levies should be calculated on the following basis:

- in the case of currencies which are maintained in relation to each other at any given moment within a band of 2,25 %, a rate of exchange based on their central rate, multiplied by the coefficient provided for in Article 2b (2) of Regulation (EEC) No 974/71<sup>(11)</sup> as last amended by Regulation (EEC) No 855/84<sup>(12)</sup>,
- for other currencies, an exchange rate based on the arithmetic mean of the spot market rates of each of these currencies recorded over a given period in relation to the Community currencies referred to in the previous indent, and the aforesaid coefficient;

Whereas these exchange rates being those recorded on 19 July 1985;

Whereas the levy on the basic product as last fixed differs from the average levy by more than 3,02 ECU per tonne of basic product; whereas, pursuant to Article 1 of Regulation (EEC) No 1579/74<sup>(13)</sup> the levies at present in force must therefore be altered to the amounts set out in the Annex hereto,

HAS ADOPTED THIS REGULATION:

*Article 1*

The import levies to be charged on products processed from cereals and rice covered by Regulation (EEC) No 2744/75, as last amended by Regulation (EEC) No 1027/84, as fixed in the Annex to amended Regulation (EEC) No 1734/85 are hereby altered to the amounts set out in the Annex hereto.

## COUNCIL DIRECTIVE

of 16 July 1985

supplementing Directive 81/602/EEC concerning the prohibition of certain substances having a hormonal action and of any substances having a thyrostatic action

(85/358/EEC)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Articles 43 and 100 thereof,

Having regard to Council Directive 81/602/EEC of 31 July 1981 concerning the prohibition of certain substances having a hormonal action and of any substances having a thyrostatic action<sup>(1)</sup>, and in particular Article 7 thereof,

Having regard to the proposal from the Commission<sup>(2)</sup>,

Having regard to the opinion of the European Parliament<sup>(3)</sup>,

Having regard to the opinion of the Economic and Social Committee<sup>(4)</sup>,

Whereas Community control measures should be introduced to guarantee the uniform application, in all Member States, of the standards fixed in Directive 81/602/EEC;

Whereas such control measures must cover the various phases running from manufacturing to the sale of the substances and the veterinary pharmaceutical preparations referred to in Directive 81/602/EEC;

Whereas under Article 7 of Directive 81/602/EEC it is incumbent upon the Council to adopt in particular the detailed rules for carrying out controls covering farm animals in their farms of origin and at the slaughterhouse, and the meat of such animals and the meat products obtained therefrom;

Whereas provisions should be made for the official taking of samples at the slaughterhouse; whereas, furthermore, where there is a justified suspicion of infringement, provision should be made for the possibility taking such samples at the farm of origin;

Whereas the analysis of samples must be carried out in an officially approved laboratory;

Whereas, pending the adoption of a uniform Community method of analysis and reference methods, a common methodology should be adopted to be used in the event of dispute;

Whereas, where the presence of prohibited substances or of the residues of such substances is confirmed, an investigation should be made at the farm of origin in order to exclude the meat in question from human and animal consumption and to place the prohibited substances under official control;

Whereas in order to facilitate the implementation of the envisaged provisions, provision should be made for a procedure establishing close cooperation between the Member States and the Commission within the Standing Veterinary Committee set up by the Council Decision of 15 October 1968,

HAS ADOPTED THIS DIRECTIVE:

### *Article 1*

The Member States shall ensure that official on-the-spot random controls are made on the substances referred to in Directive 81/602/EEC at the manufacturing, handling, storage, transport, distribution and sales stages for the presence of prohibited substances and veterinary pharmaceutical preparations containing prohibited substances which may be intended to be administered to animals for fattening purposes.

<sup>(2)</sup> OJ No C 305, 22. 11. 1980, p. 2.

<sup>(3)</sup> OJ No C 50, 9. 3. 1981, p. 87.

<sup>(4)</sup> OJ No C 138, 9. 6. 1981, p. 29.

*Article 2*

Without prejudice to the controls provided for in Directives 64/433/EEC <sup>(1)</sup> and 72/462/EEC <sup>(2)</sup>, Member States shall ensure that controls on farm animals, the meat of such animals and the meat products obtained therefrom are carried out within their territories, in accordance with the following Articles, in order to secure compliance in particular with the provisions of Directive 81/602/EEC.

*Article 3*

Member States shall ensure that :

1. where there is justified suspicion of an infringement, the competent departments make or arrange to have made :
  - random controls on animals on their farms of origin, particularly in order to detect traces of implants,
  - an official control for the presence of the substances the use of which is prohibited on farms where animals are reared, kept or fattened ;
 such controls may include the official taking of samples ;
2. random samples are taken from animals from fattening farms.

*Article 4*

Member States shall ensure that, at the slaughterhouse, before slaughter the animals are examined and that samples are taken officially to reveal the illegal use of the substances referred to in Directive 81/602/EEC or the presence of residues of such substances. Depending on the nature of the substances sought, these samples are to be taken from :

- live animals, including specimens of urine or controls of any remains of solid implants, or
- carcasses after slaughter including a histopathological examination, or
- animals and meat.

*Article 5*

1. The samples referred to in Articles 3 and 4 shall be analysed in a laboratory approved by the competent authorities for the analysis of hormone residues.
2. Analysis of the samples provided for in paragraph 1 shall be carried out in accordance with methods to

be determined in accordance with the procedure laid down in Article 11, within eighteen months of notification of this Directive.

Pending decisions to this effect, the Member States shall, in the event of dispute, recognize the findings obtained by radio-immunoassay (RIA) and by thin layer chromatography or by gas chromatography.

3. All positive findings must, if contested, be confirmed by an official laboratory duly approved for the purpose by the competent authorities, using the reference methods established by virtue of Article 4 (1) (b) of Directive 64/433/EEC.

*Article 6*

1. Where the analysis referred to in Article 5 confirms the presence of prohibited substances or of residues either exceeding the maximum natural physiological levels for the authorized substances or proving that authorized substances have been used abusively, the competent authorities shall be informed immediately of :

- (a) all the particulars needed to identify the animal and its farm of origin. These particulars shall be determined in accordance with the procedure laid down in Article 10 ;
- (b) the result of the analysis.

2. The competent authorities shall then ensure that :

- (a) an investigation is made at the farm of origin to determine the reason for the presence of hormone residues ;
- (b) an investigation of the source or sources of the substance concerned is made, as necessary, at the manufacturing, handling, storage, transport, distribution or sales stage.

3. The competent authorities shall also ensure that :

- (a) the herd or animals at the farm of origin and the herds which, as a result of the investigations referred to in paragraph 2 may be considered to contain the residue in question, are officially marked and subjected to appropriate analysis ;
- (b) if these analyses reveal the presence of prohibited substances, the animals may not be placed on the market for human or animal consumption ;
- (c) if the analyses reveal the presence of residues of authorized hormone substances exceeding the limits mentioned in paragraph 1, the slaughter of the animals intended for human consumption shall be prohibited until it is possible to be sure that the residue level does not exceed the permitted limits. That period may in no case be shorter than the waiting period laid down for the

<sup>(1)</sup> OJ No L 121, 29. 7. 1964, p. 2012/64.

<sup>(2)</sup> OJ No L 302, 31. 12. 1972, p. 28.

preparation in question. However, where it is established that the conditions of use of the products have not been complied with, the animals concerned must be definitely excluded from human consumption;

- (d) the animals are not disposed of to other persons during the analysis period unless this occurs under the supervision of the official veterinarian.

4. By way of derogation from paragraph 3 (c), animals, the slaughter of which is prohibited, may be slaughtered before the end of the prohibition period if the competent authority is informed thereof before the proposed date of slaughter, and has been made aware of the place of slaughter. Animals which have been officially marked must be accompanied at the place of slaughter by an official veterinary certificate containing the information required under paragraph 1 (a).

The carcase of each animal the slaughter of which is communicated pursuant to the first subparagraph shall be officially subjected to analysis of the residue in question and shall be kept until the result of the analysis is known.

#### *Article 7*

Where, without prejudice to the provisions of Article 4 of Directive 81/602/EEC, the controls and investigations laid down in Articles 2 to 6 disclose the presence of prohibited substances, the Member States shall ensure that these substances are placed under official control until the necessary sanctions are imposed.

#### *Article 8*

Where the results of the controls carried out in one Member State indicate the need for investigation in one or more other Member States or in one or more third countries, the Member State concerned shall inform the other Member States and the Commission thereof.

Member States in which an investigation proves to be necessary shall take the necessary measures.

If the need arises, at the request of the Member State which has requested the investigation or on its own initiative, the Commission may send an expert on the spot.

The detailed rules of application of this Article shall be adopted in accordance with the procedure laid down in Article 10.

#### *Article 9*

1. Member States shall forward information to the Commission at least once a year on the control measures they have taken, including details of

samplings, analyses and investigations carried out for detection of the presence of residues of substances the use of which is prohibited.

2. On the basis of that information, the Commission shall report to the representatives of the Member States meeting in the Standing Veterinary Committee, hereinafter referred to as the 'Committee'. If necessary, measures may be taken in accordance with the procedure laid down in Article 10, to ensure uniform application of the controls provided for in this Directive.

#### *Article 10*

1. Where the procedure laid down in this Article is to be used, the matter shall be referred to the Committee immediately by its Chairman, either on his own initiative or at the request of a Member State.

2. The representative of the Commission shall submit to the Committee a draft of the measures to be adopted. The Committee shall deliver its opinion on the draft within a time limit which the Chairman may lay down according to the urgency of the matter. The opinion shall be delivered by a majority of forty-five votes, the votes of the Member States being weighted as provided for in Article 148 (2) of the Treaty. The Chairman shall not vote.

3. The Commission shall adopt the measures and implement them immediately where they are in accordance with the opinion of the Committee. Where they are not in accordance with the opinion of the Committee or if no opinion is delivered, the Commission shall immediately submit to the Council a proposal on the measures to be taken. The Council shall act by a qualified majority.

If within three months of the date on which a matter was referred to it the Council has not adopted any measures, the Commission shall adopt the proposed measures and implement them immediately, save where the Council has decided against the measures by a simple majority.

#### *Article 11*

1. Where the procedure laid down in this Article is to be followed, the Chairman shall refer the matter to the Committee without delay either on his own initiative or at the request of a Member State.

2. The representative of the Commission shall submit to the Committee a draft of the measures to be adopted. The Committee shall deliver its opinion on the draft within a time limit which the Chairman may lay down according to the urgency of the matter. The opinion shall be delivered by a majority of 45 votes, the votes of the Member States being weighted as provided for in Article 148 (2) of the Treaty. The Chairman shall not vote.

3. The Commission shall adopt the measures and implement them immediately where they are in accordance with the opinion of the Committee. Where they are not in accordance with the opinion of the Committee or if no opinion is delivered, the Commission shall immediately submit to the Council a proposal on the measures to be taken. The Council shall act by a qualified majority.

If within fifteen working days of the date on which the matter was referred to it the Council has not adopted any measures, the Commission shall adopt the proposed measures and implement them immediately, save where the Council has decided against the measure by a simple majority.

#### *Article 12*

Member States shall ensure, except where expenses are incurred by the application of Articles 3 and 6, that the expenses entailed by the controls referred to in Article 2 *et seq.* are charged against the fees laid down by Directive 85/73/EEC<sup>(1)</sup>.

#### *Article 13*

For the purposes of implementing Article 4 (2) (a) of Directive 72/462/EEC, the guarantees to be requested from third countries as regards compliance with the requirement laid down under (b) of the said provision

must not be more favourable than those provided for in this Directive.

In accordance with the procedure laid down in Article 11, guarantees at least equivalent to those resulting from application of this Directive may be accepted.

#### *Article 14*

Member States shall bring into force the laws, regulations and administrative provisions necessary to comply with this Directive by a date to be fixed by the Council, acting unanimously on a proposal from the Commission, before 31 December 1985.

Before that latter date, the Council, acting unanimously on a proposal from the Commission, shall adopt the Decision provided for in Article 5 of Directive 81/602/EEC.

#### *Article 15*

This Directive is addressed to the Member States.

## COUNCIL DECISION

of 16 July 1985

on the restructuring of the system of agricultural surveys in Greece

(85/360/EEC)

THE COUNCIL OF THE EUROPEAN  
COMMUNITIES,

Having regard to the Treaty establishing the European  
Economic Community, and in particular Article 43  
thereof,

Having regard to the proposal from the Commis-  
sion <sup>(1)</sup>,

Having regard to the opinion of the European  
Parliament <sup>(2)</sup>,

Having regard to the opinion of the Economic and  
Social Committee <sup>(3)</sup>,

Whereas it is necessary, for effective and balanced  
implementation of the common agricultural policy in  
Greece, to have statistical and farm accounting infor-  
mation of satisfactory scope and reliability on agricul-  
tural holdings in that country and on the production,  
processing and marketing of agricultural products ;

Whereas the Hellenic Republic is currently unable to  
provide the amount and quality of statistical data  
required for the formulation and follow-up of the  
common agricultural policy, thus making a restruc-  
turing of the information collecting and processing  
system highly desirable in order to create a more solid  
basis for the statistical information to be supplied ;  
whereas the system could at the same time be brought  
into line with those in the other Member States, thus  
improving comparability within the Community ;

Whereas, in pursuance of Council Regulation No  
79/65/EEC of 15 June 1965 setting up a network for  
the collection of accountancy data on the incomes and  
business operation of agricultural holdings in the  
European Economic Community <sup>(4)</sup>, as last amended  
by Regulation (EEC) No 2143/81 <sup>(5)</sup>, the Hellenic  
Republic is required to participate in this data  
network ; whereas this participation is currently facing  
serious infrastructure problems ; whereas it is therefore

desirable that the best advantage should be drawn  
from improvements in infrastructure whilst at the  
same time complying with the current rules governing  
the said data network ;

Whereas, in view of the geographical structure of the  
country and the small divisions of the agricultural  
production apparatus, the implementation of a modern  
system for compiling and processing data calls for very  
substantial resources ;

Whereas, because of economic and budgetary  
constraints, the Hellenic Republic does not have suffi-  
cient means to make the considerable effort involved  
in establishing a suitable infrastructure and a statistical  
system comparable to those which already exist in the  
other Member States ;

Whereas the implementation of an effective system for  
recording statistics in the agricultural sector in Greece  
will be in the interest of the Community and will  
contribute to the attainment of the objectives defined  
in Article 39 (1) (a) of the Treaty ;

Whereas a Community contribution to the financing  
of the measures to be taken must be envisaged  
without, however, making expenditure relating to  
administrative costs or personnel within the meaning  
of Article 1 (4) of Council Regulation (EEC) No  
729/70 of 21 April 1970 on the financing of the  
common agricultural policy <sup>(6)</sup>, as last amended by  
Regulation (EEC) No 3509/80 <sup>(7)</sup>, chargeable to the  
Community budget ;

Whereas the five-year programme (hereinafter called  
'the programme') submitted by the Hellenic Republic  
to meet Community requirements in the area of agri-  
cultural statistics involves overall expenditure of 61  
million ECU and whereas the Community contribu-  
tion should not exceed one third of that sum ;

Whereas, while the Hellenic Republic should retain  
responsibility for such planning in the light of existing  
administrative structures, certain conditions should be  
laid down to guarantee optimum utilization of the  
Community's financial contribution ;

<sup>(1)</sup> OJ No C 22, 24. 1. 1985, p. 8.

<sup>(2)</sup> OJ No C 94, 15. 4. 1985, p. 121.

<sup>(3)</sup> OJ No C 160, 1. 7. 1985, p. 15.

<sup>(4)</sup> OJ No 109, 23. 6. 1965, p. 1859/65.

<sup>(5)</sup> OJ No L 210, 30. 7. 1981, p. 1.

<sup>(6)</sup> OJ No L 94, 28. 4. 1970, p. 13.

<sup>(7)</sup> OJ No L 367, 31. 12. 1980, p. 87.

Whereas the Community must be able to ensure that the measures taken by the Hellenic Republic will help to attain the objectives of the joint action and will fulfil the conditions under which the Community financing is granted, and whereas the Commission will take the measures required to review the programme ;

Whereas a procedure should be laid down whereby the Member States and the Commission will cooperate closely in the Standing Committee on Agricultural Statistics,

HAS ADOPTED THIS DECISION :

#### *Article 1*

In order to organize in Greece a system for compiling and processing statistics and farm accounting data in the agricultural sector which will fully satisfy Community requirements in this field, the Hellenic Republic shall ensure :

- (a) the strengthening of the central technical and administrative infrastructure responsible for organizing, programming and implementing the compiling and processing of agricultural statistical data ;
- (b) the strengthening or creation of a regional technical and administrative infrastructure which ensures that the required surveys are carried out and that the data are forwarded to the National Statistical Service of Greece and to the Ministry of Agriculture ;
- (c) an improved basis for sampling by creating a register of agricultural holdings ;
- (d) the gradual introduction of a coherent programme of statistical surveys, conducted on the basis of samples at agricultural holding level, by interviewers chosen and specially trained for that purpose.

#### *Article 2*

The Hellenic Republic shall ensure that, once the restructuring is completed, the organization of the system referred to in Article 1 guarantees the holding of existing or future surveys at Community level and that these surveys fulfil the requirements of Community law as regards scope and purpose and the reliability and time limits prescribed, without any further financial aid being granted by the Community, other than the contribution provided for in this Decision, except in cases where Community contributions are also laid down for the other Member States.

#### *Article 3*

1. The organization of the new system of surveys referred to in Article 1 shall take the form of a programme which is to begin in 1986 and shall be

spread over a period of five years (1986 to 1990). The new system shall apply in particular to work on agricultural statistics provided for in the statistical programmes of the European Communities and to work designed to ensure the participation of the Farm Accountancy Data Network in the strengthened regional and national technical and administrative infrastructure.

2. The timetable for the introduction of the programme on the basis of the new system shall be as follows :

- first year :  
Macedonia ;
- second year :  
Macedonia, Thrace, Thessaly and Epirus ;
- third year :  
Macedonia, Thrace, Thessaly, Epirus, Central Greece and the Ionian Islands ;
- fourth year :  
Macedonia, Thrace, Thessaly, Epirus, Central Greece, the Ionian Islands and the Peloponnese ;
- fifth year :  
the whole of Greece.

3. The Hellenic Republic shall be entitled to submit amendments to the running of the programme. The Commission shall decide whether such amendments shall be approved, in accordance with the procedure laid down in Article 7.

#### *Article 4*

1. From 1986 until the end of the programme, the Hellenic Republic shall submit to the Commission, in June each year (t), an annual programme of measures for the purposes of applying Article 3. The first annual programme, which shall be presented not later than three months after this Decision comes into force, shall define the measures to be introduced in the year after it is submitted.

The annual programme shall contain information on :

- (a) all the surveys to be carried out in the following year (t + 1), particularly on the field of observation, the sampling plan, the questionnaires to be used, the anticipated statistical errors and the measures introduced to increase the reliability of the results ;
- (b) progress achieved in strengthening the technical and administrative apparatus both centrally and regionally ;
- (c) experience gained from the implementation of the previous annual programme (t — 1), including progress made in the institution of the new survey system at regional level in each production sector, the statistical errors recorded and the measures introduced to increase the reliability of the results ;

(d) a report on the financing of the programme and the use of the Community contribution.

2. At the request of the Commission, the Hellenic Republic shall supply additional information on the annual programme submitted in accordance with paragraph 1.

3. The Commission shall decide whether the annual programme shall be approved, in accordance with the procedure laid down in Article 7.

#### *Article 5*

1. The Commission shall take all the necessary steps to ensure that the running of the programme enables the objectives referred to in Article 1 to be achieved.

2. Every year and for the duration of the programme, the Commission shall submit to the Council a report on the implementation of the programme, in particular as concerns its technical and financial aspects.

#### *Article 6*

1. The Community shall contribute to the financing of the programme up to the amount of the appropriations entered for this purpose in the general budget of the European Communities and in accordance with the arrangements laid down in this Decision. The Community contribution shall be equal to not more than one third of the actual expenditure of the programme. The expenditure to be borne by the Community estimated necessary amounts to 20 million ECU for the entire programme.

2. The contribution shall be made available to the Hellenic Republic in yearly instalments after submission and approval of the annual programme referred to in Article 4 (1).

3. The annual distribution of the amount referred to in paragraph 1 shall depend on the progress made in the implementation of the programme.

#### *Article 7*

1. Where the procedure laid down in this Article is to be followed, the Chairman shall refer the matter to the Standing Committee on Agricultural Statistics, either on his own initiative or at the request of the representative of a Member State.

2. The Commission representative shall submit a draft of the measures to be adopted. The Standing Committee on Agricultural Statistics shall deliver its opinion on the draft within a time limit which the Chairman may lay down according to the urgency of the matters submitted for discussion. The opinion shall be delivered by a majority of 45 votes, the votes of the Member States being weighted as provided for in Article 148 (2) of the Treaty. The Chairman shall not vote.

The Commission shall adopt measures which shall apply immediately. However, if these measures are not in accordance with the opinion of the Standing Committee on Agricultural Statistics, they shall forthwith be communicated by the Commission to the Council. In that event, the Commission may defer application of the measures which it has adopted for not more than one month from the date of such communication.

The Council, acting by a qualified majority, may take a different decision within one month.
