*(Acts whose publication is obligatory)*

**COMMISSION REGULATION (EEC) No 2384/85****of 30 July 1985****amending Council Regulation (EEC) No 3626/82 on the implementation in the Community of the Convention on international trade in endangered species of wild fauna and flora**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 3626/82 of 3 December 1982 on the implementation in the Community of the Convention on international trade in endangered species of wild fauna and flora <sup>(1)</sup>, as last amended by Regulation (EEC) No 3646/83 <sup>(2)</sup>, and in particular Article 4 thereof,

Whereas, at the fifth session of the conference of the parties to the Convention on international trade in endangered species of wild fauna and flora, held in Buenos Aires from 22 April to 3 May 1985, amendments were made to Appendices I and II to the Convention; whereas alterations were made to Appendix III to the Convention; whereas Appendices I, II and III of Annex A to Regulation (EEC) No 3626/82 should now be amended to incorporate the amendments accepted by the Community, and parts 1 and 2 of Annex C to that Regulation should be altered;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Committee on the Convention on International Trade in Endangered Species of Wild Fauna and Flora,

HAS ADOPTED THIS REGULATION:

*Article 1*

Appendices I, II and III of Annex A and parts 1 and 2 of Annex C to Regulation (EEC) No 3626/82 are hereby replaced by the Annexes to this Regulation.

*Article 2*

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

It shall apply from 1 August 1985.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 30 July 1985.

## ANNEX A

Appendices I and II <sup>(1)</sup> <sup>(2)</sup>

## Interpretation

1. Species included in these appendices are referred to:
  - (a) by the name of the species; or
  - (b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation 'spp.' is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purposes of information or classification only.
4. The abbreviation 'p.e.' is used to denote species which are possibly extinct.
5. An asterisk (\*) placed against the name of a species or higher taxon indicates that one or more geographically separate populations, sub-species or species of that species or taxon are included in Appendix I and that those populations, sub-species or species are excluded from Appendix II.
6. Two asterisks (\*\*) placed against the name of a species or higher taxon indicate that one or more geographically separate populations, sub-species or species of that species or taxon are included in Appendix II and that those populations, sub-species or species are excluded from Appendix I.
7. The symbol '—' followed by a number placed against the name of a species or higher taxon denotes that designated geographically separate populations, sub-species, species, groups of species or families of that species or taxon are excluded from the appendix concerned, as follows:
  - 101 Population of West Greenland.
  - 102 Populations of Bhutan, India, Nepal and Pakistan.
  - 103 Population of China.
  - 104 *Panthera tigris altaica* (= *amurensis*).
  - 105 Population of Australia.
  - 106 Populations of Afghanistan, Bhutan, Burma, India, Nepal and Pakistan.
  - 107 *Cathartidae*.
  - 108 Population of the United States of America.
  - 109 *Melopsittacus undulatus*, *Nymphicus hollandicus* and *Psittacula krameri*.
  - 110 Population of Zimbabwe and populations of the following countries subject to the specified annual export quotas:
 

Cameroon	20	Mozambique	1 000
Congo	1 000	Sudan	5 000
Kenya	150	United Republic	
Madagascar	1 000	of Tanzania	1 000
Malawi	500	Zambia	2 000
  - 111 Populations of Australia and Papua New Guinea and population of Indonesia subject to an annual export quota of 2 000.
  - 112 Population of Chile.
  - 113 Coastal population of Chile.
  - 114 All species which are not succulent.

<sup>(1)</sup> The entries '(C 1)' and '(C 2)' after the name of a species or a higher taxon show that one or more sub-species of species, of that species or taxon, appear in part 1 or 2 of Annex C to the Regulation.

<sup>(2)</sup> The translation of the Latin names are given as a guide only.

8. The symbol '+' followed by a number placed against the name of a species or higher taxon denotes that only designated geographically separate populations, sub-species or species of that species or taxon are included in the appendix concerned, as follows:

- + 201 Population of South America.
- + 202 Populations of Bhutan, India, Nepal and Pakistan.
- + 203 All North American sub-species and European population, except the USSR.
- + 204 Populations of Cameroon and Nigeria.
- + 205 Population of Asia.
- + 206 Population of India.
- + 207 Population of Australia.
- + 208 Populations of Afghanistan, Bhutan, Burma, India, Nepal and Pakistan.
- + 209 Population of Mexico.
- + 210 Populations of Algeria, Bourkina Faso, Cameroon, the Central African Republic, Chad, Mali, Mauritania, Morocco, Niger, Nigeria, Senegal and Sudan.
- + 211 All New Zealand species.
- + 212 Population of Chile.
- + 213 All species of the family in the Americas.
- + 214 Coastal population of Chile.

9. The symbol '=' followed by a number placed against the name of a species or higher taxon denotes that the name of that species or taxon shall be interpreted as follows:

- = 301 Includes family *Tupaiidae*.

10. In accordance with paragraph (b) (iii) of Article I of the Convention, 'the symbol †' followed by a number placed against the name of a species or higher taxon included in Appendix II designates parts or derivatives which are specified in relation thereto, for the purposes of the Convention, as follows:

- † 1 Designates all parts and derivatives, except:
  - (a) seeds, spores and pollen (including pollinia); and
  - (b) tissue cultures and flaked seedling cultures.
- † 2 Designates roots and readily recognizable parts thereof.
- † 3 Designates all parts and derivatives, except:
  - (a) seeds, spores and pollen (including pollinia);
  - (b) tissue cultures and flaked seedling cultures;
  - (c) fruits and parts and derivatives thereof of naturalized or artificially propagated plants; and
  - (d) separate stem joints (pads) and parts and derivatives thereof of naturalized or artificially propagated *Opuntia* spp. sub-genus *Opuntia*.
- † 4 Designates all parts and derivatives, except:
  - (a) seeds, spores and pollen (including pollinia);
  - (b) tissue cultures and flaked seedling cultures; and
  - (c) fruits and parts and derivatives thereof of naturalized or artificially propagated plants.
- † 5 Designates all parts and derivatives, except:
  - (a) spores and pollen (including pollinia); and
  - (b) tissue cultures and flaked seedling cultures.
- † 6 Designates all parts and derivatives, except:
  - (a) seeds, spores and pollen (including pollinia);
  - (b) tissue cultures and flaked seedling cultures; and
  - (c) separate leaves and parts and derivatives thereof of naturalized or artificially propagated *Aloe vera*.
- † 7 Designates all parts and derivatives, except:
  - (a) seeds, spores and pollen (including pollinia);
  - (b) tissue cultures and flaked seedling cultures;
  - (c) cut flowers of artificially propagated plants, and
  - (d) fruits and parts and derivatives thereof of artificially propagated *Vanilla* spp.

## Interpretation

1. Species included in this appendix are referred to:
  - (a) by the name of the species; or
  - (b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation 'spp.' is used to denote all species of a higher taxon occurring on the territory of the party which has submitted that taxon for inclusion in this appendix.
3. Other references to taxa higher than species are for the purpose of information or classification only.
4. An asterisk (\*) placed against the name of a species or higher taxon indicates that one or more geographically separate populations, sub-species or species, of that species or taxon, are included in Appendix I and that those populations, sub-species or species are excluded from Appendix III.
5. Two asterisks (\*\*) placed against the name of a species or higher taxon indicate that one or more geographically separate populations, sub-species or species, of that species or taxon, are included in Appendix II and that those populations, sub-species or species are excluded from Appendix III.
6. The symbol '=' followed by a number placed against the name of a species denotes that the name of that species shall be interpreted as follows:
  - = 372 Includes synonym *Tamandua mexicana*.
  - = 373 Includes synonym *Cabassous gymnurus*.
  - = 374 Includes synonym *Manis longicaudata*.
  - = 375 Includes generic synonym *Coendou*.
  - = 376 Includes synonym *Galictis allamandi*.
  - = 377 Includes generic synonym *Viverra*.
  - = 378 Also referenced *Tragelaphus eurycerus*; includes generic synonym *Taurotragus*.
  - = 379 Also referenced as *Ardeola ibis*.
  - = 380 Also referenced as *Egretta alba*.
  - = 381 Also referenced as *Columba mayeri*.
  - = 382 Also referenced as *Terpsiphone bourbonensis*.
  - = 383 Formerly included in genus *Natrix*.
7. The name of the countries placed against the names of species or other taxa are those of the parties submitting these species or taxa for inclusion in this appendix.
8. Any animal or plant, whether live or dead, of a species or other taxon listed in this appendix, is covered by the provisions of the Convention, as is any readily recognizable part or derivative thereof, except plant seeds, spores and tissue cultures (conference resolution 4.24).

<sup>(1)</sup> The entries '(C 1)' and '(C 2)' after the name of a species or a higher taxon show that one or more sub-species or species, of that species or taxon, appear in part 1 or 2 of Annex C to the Regulation.

<sup>(2)</sup> The translations of the Latin names are given as a guide only.

<sup>(1)</sup> With the exception of specimens of the species listed in Appendix II to the Convention, and the products and derivatives thereof, taken by the people of Greenland under licence granted by the competent authorities of Greenland or Denmark.

**Statement on Article 2**

The Council and the Commission state that, in view of the predominantly cultural nature of the making of certain handicraft articles in Greenland from specimens of *Cetacea* and of the low volume of such activity, it shall not be regarded as predominantly commercial, and that the granting of appropriate export and import licences may therefore be regarded as consistent with the relevant provisions of the Regulation.

The management authorities in Denmark will, in consultation with the Commission, monitor such exports and imports, which must not significantly exceed the present low level.
