COUNCIL REGULATION (EC) No 567/2004
of 22 March 2004
amending Regulation (EC) No 1257/1999 on support for rural development from the European
Agricultural Guidance and Guarantee Fund (EAGGF)

THE COUNCIL OF THE EUROPEAN UNION,

(3) Regulation (EC) No 1257/1999 should therefore be amended,

Having regard to the Treaty establishing the European Community,

Having regard to the Treaty concerning the accession of the Czech Republic, Estonia, Cyprus, Latvia, Lithuania, Hungary, Malta, Poland, Slovenia and Slovakia to the European Union ⁽¹⁾, and in particular Article 2(3) thereof,

HAS ADOPTED THIS REGULATION:

Having regard to the Act concerning the conditions of accession of the Czech Republic, Estonia, Cyprus, Latvia, Lithuania, Hungary, Malta, Poland, Slovenia and Slovakia ⁽²⁾, and in particular Article 57(2) thereof,

Article 1

Having regard to the proposal from the Commission,

The following paragraph 2b is hereby inserted in Article 33l of Regulation (EC) No 1257/1999:

Having regard to the opinion of the European Parliament,

‘2b. By way of derogation from Articles 21a, 21b and 21c, costs linked to investments needed to comply with a standard set by the Community before the date of accession, and binding for farmers from this date, or a later date, may be taken into consideration for determining the level of annual support. This possibility is limited to the first three years of the period of support, up to an annual ceiling of EUR 25 000 per farm. During this investment period, the degressivity provided for in Article 21c shall not apply. Loss of income and additional costs resulting from compliance with the standard may not be taken into consideration until the end of the investment period.

Whereas:

Investments supported under the first subparagraph are not eligible for the support provided for in Chapter I.’

(1) Chapter Va of Council Regulation (EC) No 1257/1999 of 17 May 1999 on support for rural development from the European Agricultural Guidance and Guarantee Fund (EAGGF) ⁽³⁾ provides for a support measure to assist farmers meeting recently introduced binding standards.

(2) As a result of accession, farmers in the Czech Republic, Estonia, Cyprus, Latvia, Lithuania, Hungary, Malta, Poland, Slovenia and Slovakia must deal with a large number of new standards based on Community legislation which they have to respect from the date of accession or at the later date. It is essential to provide support to cover at least a part of the cost of investments required to meet those standards. Therefore, special derogations should be laid down for implementing the ‘meeting standards’ measure in the new Member States.

Article 2

This Regulation shall enter into force on 1 May 2004, subject to the entry into force of the 2003 Act of Accession ⁽⁴⁾.

of rice eligible for intervention in the 2003/2004 marketing year**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 3072/95 of 22 December 1995 on the common organisation of the market in rice ⁽¹⁾, and in particular Article 8(b) thereof,

Having regard to Council Regulation (EC) No 1785/2003 of 29 September 2003 on the common organisation of the market in rice ⁽²⁾, and in particular Article 32(3) thereof,

Whereas:

- (1) The conditions governing the taking over of paddy rice by the intervention agencies are laid down in Commission Regulation (EC) No 708/98 ⁽³⁾.
- (2) Regulation (EC) No 1785/2003 limited the quantities bought in by the intervention agencies in the period from 1 April to 31 July 2004 to 100 000 tonnes. To distribute this quantity fairly over space and time, quantities must be laid down by producer Member State and by tranche.
- (3) To ensure that the total available quantity is used in full, provision should be made for the carry-over of unused quantities from one tranche to the next, and the final tranche should be available to the Community as a whole.
- (4) To avoid speculative applications, operators must be required to provide a security. This security should however be modulated on the basis of the category of operators, taking account of any other guarantees provided, and distinguishing in particular those producers and producer groups who have met the requirements of Commission Regulation (EC) No 1709/2003 of 26 September 2003 on crop and stock declarations for rice ⁽⁴⁾.
- (5) To strengthen the role of intervention as a safety net and encourage the production of good quality rice, the level of the minimum yield for milling required for intervention buying-in should be increased.

- (6) The Management Committee for Cereals has not delivered an opinion within the time limit set by its chairman,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EC) No 708/98 is amended as follows:

- (a) in Article 2(2), the second indent is replaced by the following:

- (b) the following Article 3a is inserted:

‘Article 3a

- (c) Article 4 is replaced by the following:

‘Article 4

To be eligible, the offer must be presented from 1 to 9 April 2004, 10 to 14 May 2004 and 14 to 18 June 2004 respectively for tranches 1, 2 and 3, as shown in Annex IV, and must contain the following:

- (a) name of the applicant;
- (b) place of storage of the rice offered;

- (g) minimum quantity of the offer (*), below which the offer is deemed by the applicant not to stand;
- (h) the intervention centre for which the offer is made;
- (i) proof that the applicant has lodged a security of EUR 50 per tonne of paddy rice, or EUR 20 per tonne of paddy rice for producers or producer groups who have met the requirements of Commission Regulation (EC) No 1709/2003 on crop and stock declarations for rice (**),
- (j) the declaration that the product is of Community origin, indicating the production region;
- (k) the pesticide treatments carried out, specifying the doses used.

Once submitted, a tender may not be altered or withdrawn.

2. Where an offer is ineligible, the intervention agency shall inform the relevant trader of that fact within 10 working days of the offer's submission.

3. By 29 April 2004 and 3 June 2004 respectively for tranches 1 and 2 shown in Annex IV, the competent authority in the Member State shall examine, for each tranche, whether or not the total quantity offered exceeds the quantity available. Where there is an overrun, it shall calculate an award coefficient for the quantities to six decimal places. This award coefficient shall be equivalent to the largest value that ensures that the total quantity awarded, taking into account the minimum quantity for each offer, is below or equal to the quantity available. Where there is no overrun, the award coefficient shall be 1.

Where appropriate, the unused quantity, or the difference between the available quantity and the total quantity awarded, shall be added to the quantity fixed for the following tranche.

The competent authority in the Member State shall inform the Commission of the value of the award coefficient, the total quantity awarded and the quantity unused and carried over to the following tranche, at the latest the day following the date indicated in the first subparagraph. The Commission shall make this information available to the public on its website as quickly as possible.

On the second day following the date given in the first subparagraph at the latest, the competent authority in the Member State shall notify the applicant that the offer has been accepted for a quantity awarded equal to the quantity offered multiplied by the award coefficient. However, if this quantity is below the minimum quantity indicated in the offer, it shall be reduced to 0.

4. For tranche 3 in Annex IV, the Member States shall inform the Commission, no later than 8 July, of the quantities offered with, where appropriate, the specified

minimum quantities. This notification shall include the information shown in Annex V and shall be sent by e-mail using the form provided to this end by the Commission to the Member States. The notification must be made even if no quantity is offered.

The Commission shall collect all the offers presented in the Member States and shall examine whether or not the total quantity offered exceeds the quantity available. Where there is an overrun, it shall calculate an award coefficient for the quantities to six decimal places. This award coefficient shall be equivalent to the largest value that ensures that the total quantity awarded, taking into account the minimum quantity for each offer, is below or equal to the quantity available. Where there is no overrun, the award coefficient shall be 1.

On the third working day after publication of this coefficient in the *Official Journal of the European Union* at the latest, the competent authority in the Member State shall notify the applicant that the offer has been accepted for a quantity awarded equal to the quantity offered multiplied by the award coefficient. However, if this quantity is below the minimum quantity indicated in the offer, it shall be reduced to 0.

5. The security referred to in paragraph 1(i) shall be released proportionately to the quantity offered but not awarded. For the quantity awarded, it shall be released in its entirety once 95 % of the quantity has been delivered in accordance with the provisions of Article 6.

(*) If this minimum quantity cannot be awarded, taking into account the award coefficient referred to in paragraphs 3 and 4, the quantity awarded is reduced to 0.

(**) OJ L 243, 27.9.2003, p. 92.;

- (d) the first subparagraph of Article 5(1) is replaced by the following:

'All offers shall be made to the intervention agency of the producer Member State in respect of the intervention centre in that Member State which is nearest to where the paddy rice is held when the offer is made.;

COMMISSION REGULATION (EC) No 580/2004**of 26 March 2004****establishing a tender procedure concerning export refunds for certain milk products**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1255/1999 of 17 May 1999 on the common organisation of the market in milk and milk products ⁽¹⁾, and in particular Article 26(3) and Article 31(3)(b) and (14) thereof,

Whereas:

- (1) According to Article 31(1) of Regulation (EC) No 1255/1999 the difference between the prices in world trade and in the Community may be covered for certain milk products by export refunds to the extent necessary to enable those products to be exported within the limits resulting from agreements concluded in accordance with Article 300 of the Treaty.
- (2) This Regulation should cover export refunds for skimmed milk powder and butter covered by certain product codes listed in section 9 of Annex I to Commission Regulation (EEC) No 3846/87 of 17 December 1987 establishing an agricultural product nomenclature for export refunds ⁽²⁾. For the purpose of this Regulation the products in question should be in a bulk pack. In addition, it is necessary to limit the scope of footnote 13 to section 9 in relation to skimmed milk powder by setting a maximum limit for non-lactic additions to ensure that offers are made for a standard product.
- (3) In order to achieve an efficient administration of Community funds, to take better account of changing export possibilities for the products concerned and to increase transparency and the opportunity for operators to participate in the export scheme, refunds for those products should be fixed by a tender procedure, as was already provided for in Article 17(2) of Council Regulation (EEC) No 804/68 ⁽³⁾.
- (4) The destinations for which refunds may be fixed are indicated in Commission Regulation (EC) No 1523/2003 of 28 August 2003 fixing the export refund on milk and milk products ⁽⁴⁾.
- (5) To ensure equal treatment for all interested parties, all Commission decisions relating to the tender should be published in the *Official Journal of the European Union*.
- (6) In order to reduce the administrative burden on operators and national administrations the tendering procedure should be incorporated in the export licence application procedure and the tender security should also constitute the licence security. Tenders should contain the data needed to assess them, and communications between Member States and the Commission should be provided for. In view of the sensitivity of the data concerned, tenders should not be examined in public.
- (7) A tendering security should ensure that the accepted quantities are exported pursuant to the licence issued under the invitation to tender. The security should accordingly be forfeited where quantities are not exported. Therefore provisions should be adopted for the lodging, the release and the forfeiting of the tendering security in addition to Commission Regulation (EEC) No 2220/85 of 22 July 1985 laying down common detailed rules for the application of the system of securities for agricultural products ⁽⁵⁾.
- (8) A maximum export refund should be fixed. However, situations may arise on the market in which economic or other aspects urge that none of the tenders received be accepted.
- (9) Detailed rules should be laid down to ensure that tenderers are notified of the outcome of the invitation to tender and that the necessary licences are issued for the export of the quantities allocated.
- (10) By way of derogation from Commission Regulation (EC) No 1291/2000 of 9 June 2000 laying down common detailed rules for the application of the system of import and export licences and advance fixing certificates for agricultural products ⁽⁶⁾, the rights deriving from licences should be confined to the successful tenderers to avoid speculation.

⁽¹⁾ OJ L 160, 26.6.1999, p. 48. Regulation as last amended by Commission Regulation (EC) No 186/2004 (OJ L 29, 3.2.2004, p. 6).

⁽⁶⁾ OJ L 152, 24.6.2000, p. 1. Regulation as last amended by Regulation (EC) No 322/2004 (OJ L 58, 26.2.2004, p. 3).

(11) Commission Regulation (EC) No 174/1999 of 26 January 1999 laying down special detailed rules for the application of Council Regulation (EEC) No 804/68 as regards export licences and export refunds in the case of milk and milk products⁽¹⁾, applies to all export licences and export refunds in the dairy sector. To the extent necessary derogations from this Regulation should be provided. They should concern the refund amount applicable, the provision relating to applications lodged on Thursdays and the product code of the nomenclature for refunds indicated in licences. In addition, as licences issued in the context of the tender are for specific products, the provisions in relation to the use of a licence for another product should not be applicable. To ensure all licences have the same validity period the closing date for the submission of tenders should be taken as the commencement date.

(12) The Management Committee for Milk and Milk Products has not delivered an opinion within the time limit set by its chairman,

HAS ADOPTED THIS REGULATION:

Article 1

Scope

This Regulation provides for a tender procedure for fixing export refunds on the following milk products, listed in section 9 of Annex I to Regulation (EEC) No 3846/87, of Community origin:
