DECISIONS

COMMISSION

COMMISSION DECISION

of 22 December 2006

amending Appendix B of Annex VII to the 2005 Act of Accession as regards certain establishments in the meat, milk and fish sectors in Romania

(notified under document number C(2006) 6801)

(Text with EEA relevance)

(2007/23/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to the Treaty of Accession of Bulgaria and Romania, and in particular Article 4(3) thereof,

Having regard to the Act of Accession of Bulgaria and Romania, and in particular Annex VII, Chapter 5, Section B, Subsection I, (e) thereto,

Whereas:

(1) Regulation (EC) No 852/2004 of the European Parliament and of the Council of 29 April 2004 on the hygiene of foodstuffs⁽¹⁾ and Regulation (EC) No 853/2004 of the European Parliament and of the Council of the 29 April 2004 laying down specific hygiene rules for food of animal origin⁽²⁾ provide for certain structural requirements for establishments falling within the scope of those regulations.

(2) As Romania is due to accede to the Community on 1 January 2007, Annex VII, Chapter 5, Section B, Subsection I, (a) to the Act of Accession of Bulgaria and Romania provides that certain structural

requirements laid down in those regulations are not to apply to the establishments in Romania listed in Appendix B of Annex VII to the Act of Accession ('the list of establishments') until 31 December 2009, subject to certain conditions.

(3) In Romania, certain establishments in the meat and milk sectors have completed their upgrading process and are now in full compliance with Community legislation. In addition, certain establishments have ceased their activities. Accordingly, the list of establishments should be amended to take account of such changes.

(4) Furthermore, in Romania certain meat, milk and fish establishments have difficulties in complying with the relevant structural requirements laid down in Regulations (EC) Nos 852/2004 and 853/2004 due to technical constraints. Those establishments need more time to finalise their upgrading process in order to be in full compliance with the relevant structural requirements laid down in those regulations. Those establishments have to be added to the lists of establishments in transition.

(5) Many of those establishments in Romania have been funded by the Special Accession Programme for Agriculture and Rural Development. They have all now provided guarantees that they have the necessary funds to remedy their outstanding shortcomings within the transitional period. The detailed information regarding the shortcomings for each establishment is available. Therefore it is also justified to grant a transitional period to these establishments.

- (6) In the interests of clarity of Community legislation, it is appropriate to replace the list of establishment set out in Appendix B of Annex VII to the Act of Accession of Bulgaria and Romania by the list set out in the Annex to this Decision.

Article 2

This Decision shall apply subject to and as from the date of the entry into force of the Treaty of Accession of Bulgaria and Romania.

- (7) The measures provided for in this Decision are in accordance with the opinion with the Standing Committee on the Food Chain and Animal Health,

COMMISSION DECISION**of 22 December 2006****as regards certain protection measures in relation to highly pathogenic avian influenza and movements of pet birds accompanying their owners into the Community***(notified under document number C(2006) 6958)***(Text with EEA relevance)****(2007/25/EC)**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Regulation (EC) No 998/2003 of 26 May 2003 of the European Parliament and of the Council on the animal health requirements applicable to the non-commercial movement of pet animals and amending Council Directive 92/65/EEC ⁽¹⁾, and in particular Article 18 thereof,

Whereas:

(1) Following the outbreak of avian influenza in south-eastern Asia in 2004, caused by a highly pathogenic strain of the virus, the Commission adopted several protection measures in relation to that disease. Those measures include in particular Commission Decision 2005/759/EC of 27 October 2005 concerning certain protection measures in relation to highly pathogenic avian influenza in certain third countries and the movement from third countries of birds accompanying their owners ⁽²⁾. Decision 2005/759/EC currently applies until 31 December 2006.

(2) Avian influenza outbreaks caused by the highly pathogenic avian influenza strain H5N1 are still detected on a regular basis in certain member countries of the World Organisation for Animal Health (OIE), including countries not affected before. The disease is therefore not yet contained. Furthermore, human cases and even deaths resulting from close contact with infected birds continue to occur in countries around the globe.

(3) Following a request by the Commission, the EFSA Panel on animal health and welfare (AHAW) adopted during its meeting on 26 and 27 October 2006 a Scientific Opinion on the Animal health and welfare risks associated with the import of wild birds other than poultry

into the Community. This opinion points to the risks of the spreading of viral diseases such as avian influenza and Newcastle Disease via the import of birds other than poultry and identifies possible tools and options which can reduce any identified animal health risk related to the import of these birds. Furthermore the opinion points out that it is seldom possible to distinguish with certainty between birds 'caught in the wild' and 'captive bred' birds, since methods of marking can be applied to the different types of birds without it being possible to distinguish between them.

(4) These conclusions can also be applied to the movement of pet birds from third countries. In order to guarantee a clear distinction between captive birds caught in the wild for commercial importation and pet birds, movement of live pet birds should continue to be subjected to strict conditions, without distinction in country of origin, in order to ensure the status of the pet birds and to prevent the spreading of those viral diseases. It is therefore appropriate to extend the application of the measure established by Decision 2005/759/EC until 31 December 2007.

(5) Since its coming into force Decision 2005/759/EC has been amended several times. For the sake of clarity of Community legislation, Decision 2005/759/EC should be repealed and replaced by this Decision.

(6) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

*Article 1***Movement from third countries**

COMMISSION DECISION

of 22 December 2006

amending the Appendix to Annex VI to the Act of Accession of Bulgaria and Romania as regards certain milk processing establishments in Bulgaria*(notified under document number C(2006) 6960)***(Text with EEA relevance)**

(2007/26/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to the Treaty of Accession of Bulgaria and Romania, and in particular Article 4(3) thereof,

Having regard to the Act of Accession of Bulgaria and Romania, and in particular the first subparagraph of paragraph (f) of Chapter 4 of Section B of Annex VI thereto,

Whereas:

- (1) Bulgaria has been granted transitional periods by the Act of Accession of Bulgaria and Romania for compliance by certain milk processing establishments with the requirements of Regulation (EC) No 853/2004 of the European Parliament and of the Council of 29 April 2004 laying down specific hygiene rules for food of animal origin⁽¹⁾. Certain establishments which are authorised to process non-compliant milk are listed in Chapter I, and certain establishments which are authorised to process both compliant and non-compliant milk, provided that such processing is carried out on separate production lines are listed in Chapter II, of the Appendix to Annex VI to that Act.
- (2) A number of the establishments currently listed in Chapter I of that Appendix have ceased the activities covered by the transitional periods. Those establishments should therefore be deleted from that list.
- (3) In view of the evolution of the quality of the raw milk and the present proportion of production of raw milk in Bulgaria that does not comply with the requirements of Regulation (EC) No 853/2004, certain establishments should be included in the list set out in Chapter I of that Appendix to Annex VI of the Act of Accession.

(4) Furthermore, certain milk processing establishments in Bulgaria have the capacity and equipment to process compliant and non-compliant milk on separate production lines. Those establishments should be included on the list set out in Chapter II of that Appendix.

(5) Therefore, the Appendix to Annex VI to the Act of Accession should be amended. For the sake of clarity, that Appendix should be replaced by the text in the Annex to this Decision.

(6) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

The Appendix to Annex VI to the Act of Accession of Bulgaria and Romania is replaced by text in the Annex to this Decision.

Article 2

COMMISSION DECISION

of 22 December 2006

adopting certain transitional measures concerning deliveries of raw milk to processing establishments and the processing of this raw milk in Romania with regard to the requirements of Regulation (EC) Nos 852/2004 and 853/2004 of the European Parliament and of Council

*(notified under document number C(2006) 6963)***(Text with EEA relevance)**

(2007/27/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

structural requirements laid down in Regulation (EC) No 852/2004. Since 2004 the number of establishments in compliance with Community structural requirements has increased from 12 to 123.

Having regard to the Treaty establishing the European Community,

Having regard to the Treaty of Accession of Bulgaria and Romania, and in particular Article 4(3) thereof,

Having regard to the Act of Accession of Bulgaria and Romania, and in particular Article 42 thereof,

Whereas:

(1) Regulation (EC) No 852/2004 of the European Parliament and of the Council of 29 April 2004 on the hygiene of foodstuffs⁽¹⁾ lays down general rules for food business operators on the hygiene of foodstuffs, based on hazard analysis and critical control points principles. It provides that food business operators are to comply with the structural requirements based on those principles. Regulation (EC) No 853/2004 of the European Parliament and of the Council of 29 April 2004 laying down specific hygiene rules for food of animal origin⁽²⁾ supplements the rules laid down in Regulation (EC) No 852/2004. The rules laid down in Regulation (EC) No 853/2004 include specific requirements for milk processing establishments, as well as hygiene requirements concerning raw milk and dairy products.

(2) Romania is due to accede to the Community on 1 January 2007. In preparation for that accession, milk processing establishments are undergoing the necessary structural improvements in order to comply with the

(3) However, the proportion of raw milk that complies with the hygiene requirements, laid down in Regulation (EC) No 853/2004, delivered to milk processing establishments that comply with the structural requirements of Regulation (EC) No 852/2004 has only increased slightly. In 2005 out of the total production of 5,6 Mio t raw cow milk per year, 0,38 Mio t compliant raw milk was delivered to milk processing establishments.

(4) Taking into account the current situation, it is appropriate to provide for transitional measures as regards the organisation of the milk sector in Romania.

(5) In this respect, Annex VII, Chapter 5, Subsection I, point (c) of the Act of Accession of Bulgaria and Romania, authorises temporarily certain milk processing establishments that do not comply with the structural requirements laid down in Regulations (EC) No 852/2004 to receive deliveries of raw milk that does not comply with the relevant hygiene requirements laid down in Regulation (EC) No 853/2004 ('non-compliant milk').

(6) Milk production holdings that do not comply with the hygiene requirements set out in Regulation (EC) No 853/2004 and milk processing establishments that do comply with the structural requirements set out in Regulation (EC) No 852/2004 are spread over the whole territory of Romania. Accordingly, certain of the compliant establishments receive raw milk that complies with the relevant hygiene requirements set out in Regulation (EC) No 853/2004 ('compliant milk') as well as non-compliant milk. Therefore, the marketing of final products from the compliant establishments should be restricted to Romania. In addition, a list of those compliant establishments should be set out in this Decision.

⁽¹⁾ OJ L 139, 30.4.2004, p. 1; corrected by OJ L 226, 25.6.2004, p. 3.

⁽²⁾ OJ L 139, 30.4.2004, p. 55; corrected by OJ L 226, 25.6.2004, p. 22. Regulation as last amended by Commission Regulation (EC) No 1662/2006 (OJ L 320, 18.11.2006, p. 1).

(7) Furthermore, certain compliant establishments intend to process separately compliant and non-compliant milk. It is therefore necessary to establish the conditions as regards the collection and treatment of such milk and the marketing of the final products thereof. A list of those compliant establishments processing those two types of milk should also be set out in this Decision.

(8) The transitional period granted should be limited to 18 months. The situation of the milk sector in Romania is to be reviewed before the end of that period. Accordingly, it is appropriate that Romania submit annual reports to the Commission regarding progress in the upgrading of milk production holdings supplying raw milk to compliant establishments.

(9) The measures provided for in this Decision are in accordance with the opinion with the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

(iii) to expose all raw milk to heat treatment at a temperature of minimum 71,7 °C for 15 seconds;

(iv) to take all appropriate measures to ensure that identification marks referred to Annex II, Section I of Regulation (EC) No 853/2004 are not used fraudulently.

 - (c) conduct tests in approved laboratories on all raw milk and finished products from compliant establishments listed in Chapter II of the Annex to this Decision to verify their compliance with the requirements of Chapter II of Section IX of Annex III to Regulation (EC) No 853/2004, including the microbiological criteria for dairy products.
2. The milk and dairy products originating in the compliant establishments listed in Chapter II of the Annex processed from non-compliant raw milk may only be placed on the domestic market or used for further processing in other such establishments or establishments listed in Chapter I and bear a different identification mark from those provided for in Article 5(1) of Regulation (EC) No 853/2004.
3. Only dairy products, produced in compliant milk establishments listed in Chapter II of the Annex to this Decision and complying with paragraphs 1 of this Article and the requirements of Annex III, Section IX of Regulation (EC) No 853/2004, may be marketed as compliant products complying with the provisions of that Regulation.

*Article 5***Compliance and reports**

1. Romania shall ensure the gradual compliance by the milk production holdings, referred to in Article 2(1) of this Decision, with the requirements Annex III, Section IX, Chapter I, parts II and III of Regulation (EC) No 853/2004.
2. Romania shall submit annual reports to the Commission on progress made in upgrading milk production holdings and the milk collection system.

COMMISSION DECISION
of 22 December 2006
amending Decision 2005/393/EC as regards restricted zones in relation to bluetongue

(notified under document number C(2006) 6970)

(Text with EEA relevance)

(2007/28/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 2000/75/EC of 20 November 2000 laying down specific provisions for the control and eradication of bluetongue ⁽¹⁾, and in particular Article 8(3) thereof,

Whereas:

- (1) Directive 2000/75/EC lays down control rules and measures to combat bluetongue in the Community, including the establishment of protection and surveillance zones and a ban on animals leaving those zones.
- (2) Commission Decision 2005/393/EC of 23 May 2005 on protection and surveillance zones in relation to bluetongue and conditions applying to movements from or through these zones ⁽²⁾ provides for the demarcation of the global geographic areas where protection and surveillance zones ('the restricted zones') are to be established by the Member States in relation to bluetongue.
- (3) On 20 November 2006 Spain informed the Commission that serotype 4 virus has been detected as circulating in a peripheral area of restricted zone E. Consequently that zone should be extended, taking into account of the data available on the ecology of the vector and the current meteorological situation.
- (4) On 21 November 2006 Germany informed the Commission of new outbreaks of bluetongue in Lower Saxony. In view of those findings, it is appropriate to amend the demarcation of the restricted zone in Germany.
- (5) Following the notification of outbreaks of bluetongue in early November 2006 by Italy, due to a new serotype, by

Decision 2006/858/EC, a new restricted zone G has been added to Annex I to Decision 2005/393/EC to include the three concerned provinces of southern Sardinia. However, the reference to this zone in the respective provisions of Decision 2005/393/EC has not been added. Therefore, for the sake of clarity, the list of zones referred to in Article 2 of Decision 2005/393/EC should be completed.

- (6) Decision 2005/393/EC should be amended accordingly.
- (7) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

Decision 2005/393/EC is amended as follows:

1. The first paragraph of Article 2 is replaced by the following:

'Restricted zones shall be demarcated within the global geographical areas listed in the zones set out in Annex I.'
2. Annex I is amended in accordance with the Annex to this Decision.

Article 2

This Decision is addressed to the Member States.

COMMISSION DECISION**of 22 December 2006****laying down transitional measures for certain products of animal origin covered by Regulation (EC) No 853/2004 of the European Parliament and of the Council introduced into Bulgaria and Romania from third countries before 1 January 2007***(notified under document number C(2006) 7019)***(Text with EEA relevance)***(2007/29/EC)*

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to the Treaty of Accession of Bulgaria and Romania, and in particular Article 4(3) thereof,

Having regard to the Act of Accession of Bulgaria and Romania, and in particular Article 42 thereof,

Whereas:

- (1) Bulgaria and Romania are to accede to the Community on 1 January 2007. Certain products of animal origin coming from third countries introduced into Bulgaria and Romania from third countries before that date do not comply with the relevant Community rules set out in Regulation (EC) No 853/2004 of the European Parliament and of the Council of 29 April 2004 laying down specific hygiene rules for food of animal origin⁽¹⁾.
- (2) Some of those products have been released for free circulation in Bulgaria and Romania while others have not yet been placed under the customs procedure and are still under customs supervision in those two countries.
- (3) In order to facilitate the transition from the existing regime in Bulgaria and Romania to that resulting from the application of Community legislation, it is appropriate to lay down transitional measures for the marketing of those products.
- (4) It is also appropriate to provide that products that do not comply with Community legislation are not introduced into other Member States. They should only be placed on the domestic markets of Bulgaria and Romania or exported to a third country under appropriate conditions. Furthermore, taking into account, that the current traceability system is not sufficient, those non-compliant products should not be processed by establishments authorised to dispatch their products to the Community.

- (5) After one year from the date of Accession, products that have not yet been released for free circulation in those two countries or exported and remain in storage under customs supervision should be destroyed.

- (6) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

*Article 1***Scope**

This Decision shall apply to products of animal origin which:

- (a) fall within the scope of Regulation (EC) No 853/2004 but do not comply with the requirement of that Regulation; and
- (b) were introduced into Bulgaria and Romania from third countries before 1 January 2007.

*Article 2***Products of animal origin released for free circulation before 1 January 2007**

1. The products referred to in Article 1 ('products of animal origin') that have been released for free circulation in Bulgaria and Romania ('the new Member States') before 1 January 2007 may only be placed on their national markets until 31 December 2007.

The products of animal origin:

- (a) must not be processed by establishments authorised to dispatch their products to other Member States; and
- (b) must bear the national mark provided for by the national rules of that new Member State at the date of release for free circulation.

⁽¹⁾ OJ L 139, 30.4.2004, p. 55; corrected by OJ L 226, 25.6.2004, p. 22. Regulation as last amended by Commission Regulation (EC) No 2076/2005 (OJ L 338, 22.12.2005, p. 83).

2. Member States shall ensure, in accordance with Council Directive 89/662/EEC ⁽¹⁾, and in particular Article 3 thereof, that the products of animal origin are not traded between Member States.

3. By way of derogation from paragraph 1, the new Member States may, until 31 December 2007, authorise the export of the products of animal origin to a third country under the following conditions:

- (a) the export must be carried out in accordance with Article 12 of Regulation (EC) No 178/2002 of the European Parliament and of the Council ⁽²⁾;
- (b) each consignment must be transported directly to the third country under the supervision of the competent authority without crossing the territory of other Member States;
- (c) each consignment must be exported in a means of transport sealed by the competent authority and the seals must be checked at the point of exit of the new Member State.

Article 3

Products of animal origin introduced into the new Member States but not released for free circulation before 1 January 2007

1. Products of animal origin introduced into the new Member States, but not released for free circulation in the new Member States before 1 January 2007, shall be subject to the rules laid down in paragraphs 2 and 3.

2. The products of animal origin may be released for free circulation in the new Member States or dispatched to a third country in accordance with the conditions set out in Article 2.

3. From 1 January 2008, any consignments of products of animal origin under customs supervision shall be destroyed under the control of the competent authority.

All costs of such destruction shall be chargeable to the owner of the consignment.

COMMISSION DECISION

of 22 December 2006

laying down transitional measures as regards the dispatch of certain products of the meat and milk sectors covered by Regulation (EC) No 853/2004 of the European Parliament and of the Council from Bulgaria to other Member States*(notified under document number C(2006) 7029)***(Text with EEA relevance)**

(2007/31/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to the Treaty of Accession of Bulgaria and Romania, and in particular Article 4(3) thereof,

Having regard to the Act of Accession of Bulgaria and Romania, and in particular Article 42 thereof,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market ⁽¹⁾, and in particular Article 9(4) thereof,

Whereas:

(1) Regulation (EC) No 852/2004 of the European Parliament and of the Council of 29 April 2004 on the hygiene of foodstuffs ⁽²⁾ lays down general rules for food business operators on the hygiene of foodstuffs, based on hazard analysis and critical control points principles. It provides that food business operators are to comply with the structural requirements based on those principles. Regulation (EC) No 853/2004 of the European Parliament and of the Council of 29 April 2004 laying down specific hygiene rules for food of animal origin ⁽³⁾ supplements the rules laid down in Regulation (EC) No 852/2004. The rules laid down in Regulation (EC) No 853/2004 include specific requirements for meat and milk processing establishments.

(2) According to the results of a Food and Veterinary Office (FVO) mission to Bulgaria carried out from 27 November 2006 to 1 December 2006 certain processing establishments

in the meat and milk sectors do not comply with the provisions of Regulations (EC) No 852/2004 and (EC) No 853/2004.

(3) Furthermore, the current traceability system in Bulgaria is not sufficient to cover the needs of the situation in Bulgaria under conditions where meat coming from third countries and meat obtained in Bulgaria before 1 January 2007, and raw milk in Bulgaria, which do not comply with the requirements of those Regulations, are on the territory of Bulgaria.

(4) Taking into account the current situation in Bulgaria, it is appropriate to provide for transitional measures as regards certain products of the meat and milk sectors.

(5) During the transitional period the situation of all processing establishments in the meat and milk sectors has to be assessed in view to ensure the completion of the upgrading process of certain establishments to be in compliance with Community requirements. Furthermore the traceability system has to be improved to meet Community standards.

(6) During the transitional period, it is necessary to provide for a prohibition on the dispatch of certain products of the meat and milk sectors from Bulgaria to other Member States. However, it is appropriate to provide for a derogation for certain processing establishments authorised under Community legislation to export those products to the Community before 1 January 2007, in the light of guarantees available for those establishments.

(7) The transitional period provided for in this Decision should be limited to one year. The situation of the meat and milk sectors in Bulgaria is to be reviewed before the end of that period, in particular in view of the results of new FVO inspections to be carried out in January 2007.

(8) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,
