Acts whose titles are printed in light type are those relating to day-to-day management of agricultural matters, and are generally valid for a limited period.

The titles of all other acts are printed in bold type and preceded by an asterisk.

DIRECTIVES

- ★ Commission Directive 2008/17/EC of 19 February 2008 amending certain Annexes to Council Directives 86/362/EEC, 86/363/EEC and 90/642/EEC as regards maximum residue levels for acephate, acetamiprid, acibenzolar-S-methyl, aldrin, benalaxyl, benomyl, carbendazim, chlor-mequat, chlorothalonil, chlorpyrifos, clofentezine, cyfluthrin, cypermethrin, cyromazine, dieldrin, dimethoate, dithiocarbamates, esfenvalerate, famoxadone, fenhexamid, fenitrothion, fenvalerate, glyphosate, indoxacarb, lambda-cyhalothrin, mepanipyrim, metalaxyl-M, methidathion, methoxyfenozide, pymetrozine, pyraclostrobin pyrimethanil, spiroxamine, thiacycloprid, thiophanate-methyl and trifloxystrobin⁽¹⁾ 17
-

II Acts adopted under the EC Treaty/Euratom Treaty whose publication is not obligatory

DECISIONS

Commission

- 2008/155/EC:
★ Commission Decision of 14 February 2008 establishing a list of embryo collection and production teams in third countries approved for imports of bovine embryos into the Community (notified under document number C(2008) 517)⁽¹⁾ 51
- 2008/156/EC:
★ Commission Decision of 18 February 2008 amending Decision 2006/766/EC as regards the list of third countries and territories from which imports of fishery products in any form for human consumption are permitted (notified under document number C(2008) 555)⁽¹⁾ 65

(*Acts adopted under the EC Treaty/Euratom Treaty whose publication is obligatory*)

REGULATIONS

**COMMISSION REGULATION (EC) No 162/2008
of 22 February 2008**

establishing the standard import values for determining the entry price of certain fruit and vegetables

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Commission Regulation (EC) No 1580/2007 of 21 December 2007 laying down implementing rules of Council Regulations (EC) No 2200/96, (EC) No 2201/96 and (EC) No 1182/2007 in the fruit and vegetable sector (⁽¹⁾), and in particular Article 138(1) thereof,

Whereas:

- (1) Regulation (EC) No 1580/2007 lays down, pursuant to the outcome of the Uruguay Round multilateral trade negotiations, the criteria whereby the Commission fixes

the standard values for imports from third countries, in respect of the products and periods stipulated in the Annex thereto.

- (2) In compliance with the above criteria, the standard import values must be fixed at the levels set out in the Annex to this Regulation,

HAS ADOPTED THIS REGULATION:

Article 1

The standard import values referred to in Article 138 of Regulation (EC) No 1580/2007 shall be fixed as indicated in the Annex hereto.

Article 2

This Regulation shall enter into force on 23 February 2008.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 22 February 2008.

COMMISSION REGULATION (EC) No 163/2008
of 22 February 2008

concerning an authorisation of the preparation Lanthanum carbonate octahydrate (Lantharenol) as a feed additive

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition (⁽¹⁾), and in particular Article 9(2) thereof,

for human health relative to incidental exposure to the additive (⁽²⁾). It further concluded that that preparation does not present any other risk which would, in accordance with Article 5(2) of Regulation (EC) No 1831/2003, exclude authorisation. Lantharenol has shown to decrease the phosphorus excretion via urine. The opinion of the Authority does not recommend appropriate measures for user safety. It considers that there is a need for specific requirements of post-market monitoring to recognise any long-term adverse effects in cats. This opinion also verifies the report on the method of analysis of the feed additive in feed submitted by the Community Reference Laboratory set up by Regulation (EC) No 1831/2003.

Whereas:

(1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such authorisation.

(5) The assessment of that preparation shows that the conditions for authorisation, provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the use of that preparation should be authorised, as specified in the Annex to this Regulation.

(2) In accordance with Article 7 of Regulation (EC) No 1831/2003, an application was submitted for the authorisation of the preparation set out in the Annex to this Regulation. That application was accompanied by the particulars and documents required under Article 7(3) of Regulation (EC) No 1831/2003.

(6) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

(3) The application concerns a request for authorisation of the preparation Lanthanum carbonate octahydrate (Lantharenol), as a feed additive for cats, to be classified in the additive category 'zootechnical additives'.

HAS ADOPTED THIS REGULATION:

Article 1

The preparation specified in the Annex, belonging to the additive category 'zootechnical additives' and to the functional group 'other zootechnical additives', is authorised as an additive in animal nutrition subject to the conditions laid down in that Annex.

Article 2

This Regulation shall enter into force on the 20th day following its publication in the *Official Journal of the European Union*.

(¹) OJ L 268, 18.10.2003, p. 29. Regulation as amended by Commission Regulation (EC) No 378/2005 (OJ L 59, 5.3.2005, p. 8).

(²) Opinion of the Scientific Panel on Additives and Products or Substances used in Animal Feed (FEEDAP) on safety and efficacy of Lantharenol (Lanthanum carbonate octahydrate) as a feed additive for cats according to Regulation (EC) No 1831/2003, summary. Adopted on 18 September 2007. The EFSA Journal (2007) 542, 1-15.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 22 February 2008.

COMMISSION REGULATION (EC) No 164/2008
of 22 February 2008

**amending Regulation (EC) No 1444/2006 as regards the minimum content of the feed additive
Bacillus subtilis C-3102 (Calsporin)**

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition (⁽¹⁾), and in particular Article 13(3) thereof,

Whereas:

- (1) The additive *Bacillus subtilis* C-3102 (Calsporin) was authorised under certain conditions in accordance with Regulation (EC) No 1831/2003. Commission Regulation (EC) No 1444/2006 (⁽²⁾) authorised that additive for ten years for use for chickens for fattening, linking the authorisation to the holder of authorisation for putting that additive into circulation.
- (2) Regulation (EC) No 1831/2003 provides for the possibility of modifying the authorisation of an additive further to a request from the holder of the authorisation and an opinion of the European Food Safety Authority ('the Authority').
- (3) The holder of the authorisation of the feed additive *Bacillus subtilis* C-3102 (Calsporin) has submitted an

application which proposes changing the terms of the authorisation by reducing the minimum content of that additive.

- (4) In its opinion adopted on 18 September 2007, the Authority has proposed to reduce the minimum content of active substance from 1×10^9 CFU to 5×10^8 CFU because there is evidence of efficacy at the lowest dose proposed (⁽³⁾).
- (5) Regulation (EC) No 1444/2006 should therefore be amended accordingly.
- (6) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

Article 1

The Annex to Regulation (EC) No 1444/2006 is replaced by the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the 20th day following its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 22 February 2008.

COMMISSION REGULATION (EC) No 165/2008
of 22 February 2008

concerning the authorisation of a new use of 3-phytase (Natuphos) as a feed additive
(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition (⁽¹⁾), and in particular Article 9(2) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such authorisation.
- (2) In accordance with Article 7 of Regulation (EC) No 1831/2003, an application was submitted for the authorisation of the preparation set out in the Annex to this Regulation. That application was accompanied by the particulars and documents required under Article 7(3) of Regulation (EC) No 1831/2003.
- (3) The application concerns authorisation of a new use of the enzyme preparation 3-phytase (Natuphos 5000, Natuphos 5000 G, Natuphos 5000 L, Natuphos 10000 G and Natuphos 10000 L) produced by *Aspergillus niger* (CBS 101.672) as a feed additive for ducks, to be classified in the additive category 'zootechnical additives'.
- (4) The use of that preparation was authorised for weaned piglets, pigs for fattening and chickens for fattening by Commission Regulation (EC) No 243/2007 (⁽²⁾) and for laying hens and turkeys for fattening by Commission Regulation (EC) No 1142/2007 (⁽³⁾).

(5) New data were submitted in support of the application for authorisation for ducks. The European Food Safety Authority (the Authority) concluded in its opinions of 18 September 2007 that the enzyme preparation 3-phytase (Natuphos 5000, Natuphos 5000 G, Natuphos 5000 L, Natuphos 10000 G and Natuphos 10000 L) produced by *Aspergillus niger* (CBS 101.672) does not have an adverse effect on consumers, users or the environment (⁽⁴⁾). According to that opinion, the use of that preparation does not have an adverse effect on this additional animal category and it is efficacious in improving digestibility of feedingstuffs. The Authority does not consider that there is a need for specific requirements of post market monitoring. It also verified the report on the method of analysis of the feed additive in feed submitted by the Community Reference Laboratory set up by Regulation (EC) No 1831/2003.

(6) The assessment of that preparation shows that the conditions for authorisation, provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the use of that preparation should be authorised, as specified in the Annex to this Regulation.

(7) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

Article 1

The preparation specified in the Annex, belonging to the additive category 'zootechnical additives' and to the functional group 'digestibility enhancers', is authorised as an additive in animal nutrition subject to the conditions laid down in that Annex.

Article 2

This Regulation shall enter into force on the 20th day following its publication in the *Official Journal of the European Union*.

⁽¹⁾ OJ L 268, 18.10.2003, p. 29. Regulation as amended by Commission Regulation (EC) No 378/2005 (OJ L 59, 5.3.2005, p. 8).

⁽²⁾ OJ L 73, 13.3.2007, p. 4.

⁽³⁾ OJ L 256, 2.10.2007, p. 20.

⁽⁴⁾ Scientific Opinion of the Panel on Additives and Products or Substances used in Animal Feed (FEEDAP) on the safety and efficacy of the enzyme preparation of Natuphos (3-phytase) as a feed additive for ducks. *The EFSA Journal* (2007) 544, 1-10.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 22 February 2008.

ANNEX

Identification number of the additive	Name of the holder of authorisation	Additive (Trade name)	Composition, chemical formula, description, analytical method	Species or category of animal	Maximum age	Minimum content	Maximum content	Other provisions	End of period of authorisation
Category of zootechnical additives. Functional group: digestibility enhancers									
4a1600	BASF Aktiengesellschaft	3-phytase EC 3.1.3.8	Additive composition: 3-phytase produced by <i>Aspergillus niger</i> (CBS 101.672) having a minimum activity of: Solid form: 5 000 FTU (¹)/g Liquid form: 5 000 FTU/ml	Ducks	—	300 FTU	—	1. In the directions for use of the additive and premixture, indicate the storage temperature, storage life, and stability to pelleting. 2. Recommended dose per kilogram of complete feedingstuff: 300-750 FTU. 3. For use in feed containing more than 0,23 % phytin bound phosphorus.	14 March 2018

(¹) 1 FTU is the amount of enzyme which liberates 1 micromole of inorganic phosphate per minute from sodium phytate at pH 5,5 and 37 °C.

(²) Details of the analytical methods are available at the following address of the Community Reference Laboratory: www.irmm.jrc.be/crl-feed-additives

COMMISSION REGULATION (EC) No 166/2008
of 22 February 2008

concerning the authorisation of a new use of the preparation of *Bacillus cereus* var. *toyoii* (Toyocerin) as a feed additive

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition (⁽¹⁾), and in particular Article 9(2) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such authorisation.
- (2) In accordance with Article 7 of Regulation (EC) No 1831/2003, an application was submitted for the authorisation of the preparation set out in the Annex to this Regulation. That application was accompanied by the particulars and documents required under Article 7(3) of Regulation (EC) No 1831/2003.
- (3) The application concerns authorisation of a new use of the microorganism preparation *Bacillus cereus* var. *toyoii* NCIMB 40112/CNCM I-1012 (Toyocerin) for turkeys for fattening, to be classified in the additive category 'zootechnical additives'.
- (4) The use of that microorganism preparation was permanently authorised for piglets under 2 months and sows by Commission Regulation (EC) No 256/2002 (⁽²⁾), piglets and pigs for fattening by Commission Regulation (EC) No 1453/2004 (⁽³⁾), cattle for fattening by Commission Regulation (EC) No 255/2005 (⁽⁴⁾) and rabbits for fattening and chickens for fattening by Commission Regulation (EC) No 1200/2005 (⁽⁵⁾).

(5) New data were submitted in support of the application for authorisation for turkeys for fattening. The European Food Safety Authority (the Authority) concluded in its opinion of 19 September 2007 that the microorganism preparation *Bacillus cereus* var. *toyoii* NCIMB 40112/CNCM I-1012 (Toyocerin) does not have an adverse effect on consumers, users or the environment (⁽⁶⁾). According to that opinion, the use of that preparation does not have an adverse effect on this additional animal category and it is efficacious in improving weight gain, feed intake and feed utilisation. The Authority does not consider that there is a need for specific requirements of post-market monitoring. It also verified the report on the method of analysis of the feed additive in feed submitted by the Community Reference Laboratory set up by Regulation (EC) No 1831/2003.

(6) The assessment of that preparation shows that the conditions for authorisation, provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the use of that preparation should be authorised, as specified in the Annex to this Regulation.

(7) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

Article 1

The preparation specified in the Annex, belonging to the additive category 'zootechnical additives' and to the functional group 'gut flora stabilisers', is authorised as an additive in animal nutrition subject to the conditions laid down in that Annex.

Article 2

This Regulation shall enter into force on the 20th day following that of its publication in the Official Journal of the European Union.

⁽¹⁾ OJ L 268, 18.10.2003, p. 29. Regulation as amended by Commission Regulation (EC) No 378/2005 (OJ L 59, 5.3.2005, p. 8).

⁽²⁾ OJ L 41, 13.2.2002, p. 6. Regulation as amended by Regulation (EC) No 1143/2007 (OJ L 256, 2.10.2007, p. 23).

COMMISSION REGULATION (EC) No 167/2008
of 22 February 2008

concerning a new authorisation for ten years of a coccidiostat as an additive in feedingstuffs

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

lation (EC) No 1831/2003. That application is therefore to continue to be treated in accordance with Article 4 of Directive 70/524/EEC.

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 70/524/EEC of 23 November 1970 concerning additives in feedingstuffs (⁽¹⁾), and in particular Article 3, and 9 thereof,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition (⁽²⁾), and in particular Article 25 thereof,

(5) The person responsible for putting into circulation Kokcisan 120G submitted an application for authorisation for ten years, as a coccidiostat for chickens for fattening, according to Article 4 of that Directive. The European Food Safety Authority (EFSA) has delivered an opinion on the safety of the use of this preparation for human, animals and environment, under the conditions set out in the Annex to this Regulation. The assessment shows that the conditions laid down in Article 3a of Directive 70/524/EEC for such authorisation are satisfied. Accordingly, the use of this preparation, as specified in Annex, should be authorised for ten years.

Whereas:

(6) The assessment of this application shows that certain procedures should be required to protect workers from exposure to the additive set out in the Annex. Such protection should be assured by the application of Council Directive 89/391/EEC of 12 June 1989 on the introduction of measures to encourage improvements in the safety and health of workers at work (⁽³⁾).

(2) Article 25 of Regulation (EC) No 1831/2003 lays down transitional measures for applications for the authorisation of feed additives submitted in accordance with Directive 70/524/EEC before the date of application of Regulation (EC) No 1831/2003.

(7) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

(3) The application for authorisation of the additive set out in the Annex to this Regulation was submitted before the date of application of Regulation (EC) No 1831/2003.

HAS ADOPTED THIS REGULATION:

(4) Initial comments on that application, as provided for in Article 4(4) of Directive 70/524/EEC, were forwarded to the Commission before the date of application of Regu-

(¹) OJ L 270, 14.12.1970, p. 1. Directive as last amended by Commission Regulation (EC) No 1800/2004 (OJ L 317, 16.10.2004, p. 37).

(²) OJ L 268, 18.10.2003, p. 29. Regulation as amended by Commission Regulation (EC) No 378/2005 (OJ L 59, 5.3.2005, p. 8).

Article 1

The preparation belonging to the group ‘Coccidiostats and other medicinal substances’, as specified in the Annex, is authorised for use for ten years as additive in animal nutrition under the conditions laid down in that Annex.

(³) OJ L 183, 29.6.1989, p. 1. Directive as last amended by Directive 2007/30/EC of the European Parliament and of the Council (OJ L 165, 27.6.2007, p. 21).

Article 2

This Regulation shall enter into force on the third day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States

Done at Brussels, 22 February 2008.

DIRECTIVES

COMMISSION DIRECTIVE 2008/17/EC

of 19 February 2008

amending certain Annexes to Council Directives 86/362/EEC, 86/363/EEC and 90/642/EEC as regards maximum residue levels for acephate, acetamiprid, acibenzolar-S-methyl, aldrin, benalaxyl, benomyl, carbendazim, chlormequat, chlorothalonil, chlorpyrifos, clofentezine, cyfluthrin, cypermethrin, cyromazine, dieldrin, dimethoate, dithiocarbamates, esfenvalerate, famoxadone, fenhexamid, fenitrothion, fenvaleate, glyphosate, indoxacarb, lambda-cyhalothrin, mepanipyrim, metalaxyl-M, methidathion, methoxyfenozide, pymetrozine, pyraclostrobin pyrimethanil, spiroxamine, thiocloprid, thiophanate-methyl and trifloxystrobin

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Whereas:

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 86/362/EEC of 24 July 1986 on the fixing of maximum levels for pesticide residues in and on cereals (⁽¹⁾), and in particular Article 10 thereof,

Having regard to Council Directive 86/363/EEC of 24 July 1986 on the fixing of maximum levels for pesticide residues in and on foodstuffs of animal origin (⁽²⁾), and in particular Article 10 thereof,

Having regard to Council Directive 90/642/EEC of 27 November 1990 on the fixing of maximum levels for pesticide residues in and on certain products of plant origin, including fruit and vegetables (⁽³⁾), and in particular Article 7 thereof,

Having regard to Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant protection products on the market (⁽⁴⁾), and in particular Article 4(1)(f) thereof,

(1) In accordance with Directive 91/414/EEC, authorisations of plant protection products for use on specific crops are the responsibility of the Member States. Such authorisations have to be based on the evaluation of effects on human and animal health and influence on the environment. Elements to be taken into account in such evaluations include operator and bystander exposure and impact on the terrestrial, aquatic and aerial environments, as well as impact on humans and animals through consumption of residues on treated crops.

(2) Maximum residue levels (MRLs) reflect the use of minimum quantities of pesticides to achieve effective protection of plants, applied in such a manner that the amount of residue is the smallest practicable and is toxicologically acceptable, in particular in terms of estimated dietary intake.

(3) MRLs for pesticides covered by Directive 90/642/EEC, 86/363/EEC and 86/362/EEC are to be kept under review and may be modified to take account of new or changed uses. Information about new or changed uses has been communicated to the Commission which should lead to changes in the residue levels of acephate, acetamiprid, acibenzolar-S-methyl, aldrin, benalaxyl, benomyl, carbendazim, chlormequat, chlorothalonil, chlorpyrifos, clofentezine, cyfluthrin, cypermethrin, cyromazine, dieldrin, dimethoate, dithiocarbamates, esfenvalerate, famoxadone, fenhexamid, fenitrothion, fenvaleate, glyphosate, indoxacarb, lambda-cyhalothrin, mepanipyrim, metalaxyl-M, methidathion, methoxyfenozide, pymetrozine, pyraclostrobin, pyrimethanil, spiroxamine, thiocloprid, thiophanate-methyl and trifloxystrobin.

⁽¹⁾ OJ L 221, 7.8.1986, p. 37. Directive as last amended by Commission Directive 2007/73/EC (OJ L 329, 14.12.2007, p. 40).

⁽²⁾ OJ L 221, 7.8.1986, p. 43. Directive as last amended by Commission Directive 2007/57/EC (OJ L 243, 18.9.2007, p. 61).

⁽³⁾ OJ L 350, 14.12.1990, p. 71. Directive as last amended by Directive 2007/73/EC.

⁽⁴⁾ OJ L 230, 19.8.1991, p. 1. Directive as last amended by Commission Directive 2007/76/EC (OJ L 337, 21.12.2007, p. 100).

(4) The lifetime exposure of consumers to the pesticides referred to in this Directive via food products that may contain residues of those pesticides has been assessed and evaluated in accordance with the procedures and practices used within the Community, taking account of guidelines published by the World Health Organisation (⁽¹⁾). Based on those assessments and evaluations, the MRLs for those pesticides should be set so as to ensure that the acceptable daily intake is not exceeded.

establishing provisional MRLs for acetamiprid, acibenzolar-S-methyl, famoxadone, fenamiphos, glyphosate, indoxacarb, mepanipyrim, methoxyfenozide, pymetrozine, pyraclostrobin, thiacyclopid and trifloxy-strobin in accordance with Article 4(1)(f) of Directive 91/414/EEC and Annex VI to that Directive. It is considered that a period of four years is sufficient to permit further uses of these substances. The provisional Community MRLs should then become definitive.

(5) An acute reference dose (ARfD) has been set for acephate, acetamiprid, carbendazim, chlormequat, chlorothalonil, chlorpyrifos, cyfluthrin, cypermethrin, cyromazine, dieldrin, dimethoate, esfenvalerate, famoxadone, fenitrothion, indoxacarb, lambda-cyhalothrin, mepanipyrim, metalaxyl-M, methidation, methoxyfenozide, pymetrozine, pyraclostrobin, thiacyclopid, and thio-phosphate-methyl. The acute exposure of consumers via each of the food products that may contain residues of these pesticides has been assessed and evaluated in accordance with the procedures and practices currently used within the Community, taking account of guidelines published by the World Health Organisation. The opinions of the Scientific Committee on Plants (SCP), in particular advice and recommendations concerning the protection of consumers of food products treated with pesticides (⁽²⁾), have been taken into account. Based on the dietary intake assessment, the MRLs for those pesticides should be fixed so as to ensure that the ARfD will not be exceeded. In the case of the other substances, an assessment of the available information has shown that no ARfD is required and that therefore a short term assessment is not needed.

(8) It is therefore necessary to modify the MRLs set in Directives 86/362/EEC, 86/363/EEC and 90/642/EEC, to allow proper surveillance and control of the uses of the plant protection products concerned and to protect the consumer. Where MRLs have already been defined in the Annexes to those Directives, it is appropriate to amend them. Where MRLs have not yet been defined, it is appropriate to set them for the first time.

(9) Through the World Trade Organisation, the Community's trading partners have been consulted where necessary and their comments on these levels have been taken into account.

(10) Directives 86/362/EEC, 86/363/EEC and 90/642/EEC should therefore be amended accordingly.

(11) The measures provided for in this Directive are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DIRECTIVE:

Article 1

Directive 86/362/EEC is amended in accordance with Annex I to this Directive.

Article 2

Directive 86/363/EEC is amended in accordance with Annex II to this Directive.

Article 3

Directive 90/642/EEC is amended in accordance with Annex III to this Directive.

(6) Where authorised uses of plant protection products do not result in detectable levels of pesticide residues in or on the food product, or where there are no authorised uses, or where uses which have been authorised by Member States have not been supported by the necessary data, or where uses in third countries resulting in residues in or on food products which may enter into circulation in the Community market have not been supported with such necessary data, MRLs should be fixed at the lower limit of analytical determination.

(7) The setting or modification at Community level of provisional MRLs does not prevent the Member States from

(¹) Guidelines for predicting dietary intake of pesticide residues (revised), prepared by the GEMS/Food Programme in collaboration with the Codex Committee on Pesticide Residues, published by the World Health Organisation 1997 (WHO/FSF/FOS/97.7).

(²) Opinion regarding questions relating to amending the Annexes to Council Directives 86/362/EEC, 86/363/EEC and 90/642/EEC (Opinion expressed by the SCP on 14 July 1998); Opinion regarding variable pesticide residues in fruit and vegetables (Opinion expressed by the SCP on 14 July 1998) http://europa.eu.int/comm/food/fs/sc/scp/outcome_ppp_en.html

Article 4

Member States shall adopt and publish, by 14 September 2008 at the latest, the laws, regulations and administrative provisions necessary to comply with this Directive. They shall forthwith communicate to the Commission the text of those provisions and a correlation table between those provisions and this Directive.

They shall apply those provisions from 15 September 2008.

When Member States adopt those provisions they shall contain a reference to this Directive or be accompanied by such a reference on the occasion of their official publication. Member States shall determine how such reference is to be made.

Article 5

This Directive shall enter into force on the 20th day following that of its publication in the *Official Journal of the European Union*.

Article 6

This Directive is addressed to the Member States.

Done at Brussels, 19 February 2008.

For the Commission

Markos KYPRIANOU

Member of the Commission

ANNEX I

In Part A of Annex II to Directive 86/362/EEC, the lines for fenitrothion are added and the lines for cypermethrin, famoxadone, mepanipyrim, methidathion and thiacloprid are replaced by the following:

Pesticide residues	Maximum levels in mg/kg
'Cypermethrin: including other mixtures of constituents, sum of isomers	2 wheat, barley, oats, rye, triticale 0,01 (*) others
Famoxadone	0,2 oats 0,02 (*) others
Fenitrothion	0,5 (t) wheat, barley, rye, triticale 0,05 (*) others
Mepanipyrim and its metabolite (2-anilino-4-(2-hydroxy-propyl)-6-methylpyrimidine) expressed as mepanipyrim	0,01 (*) (p) cereals
Methidathion	0,1 maize, 0,2 sorghum, 0,02 (*) others
Thiacloprid	0,1 wheat, 1 barley, oats, 0,05 (p) others

(t) Temporary MRL until 1 June 2009. Should this MRL not be replaced by a Directive or a Regulation before that date the appropriate LOD will apply.'

ANNEX II

In Part B of Annex II to Directive 86/363/EEC, the line for glyphosate is replaced by the following:

	Maximum levels in mg/kg (ppm)		
Pesticide residues	of meat, including fat, preparations of meat, offal and animal fats listed in Annex I under headings Nos ex 0201, 0202, 0203, 0204, 0205 00 00, 0206, 0207, ex 0208, 0209 00, 0210, 1601 00 and 1602	for milk and milk products listed in Annex I under headings Nos 0401, 0402, 0405 00 and 0406	of shelled fresh eggs, for bird's eggs and egg yolks listed in Annex I under headings Nos 0407 00 and 0408
'Glyphosate	2 (p) kidney of cattle 0,2 (p) liver of cattle 0,5 (p) kidney of pigs 0,1 (p) kidney of poultry 0,05 (*) (p) others	0,05 (*) (p)	0,05 (*) (p)

(*) Indicates lower limit of analytical determination.

(p) Indicates that the maximum residue level has been established provisionally in accordance with Article 4(1)(f) of Directive 91/414/EEC.

ANNEX III

Groups and examples of individual products to which the MRLs apply	Acephate	Acetamiprid	Acibenzolar-s-methyl	Aldrin and Dieldrin (Aldrin and dieldrin combined expressed as dieldrin) (F)	Benalaxyl including other mixtures of constituent isomers including benalaxylyl M (sum of isomers)	Carbendazim and benomyl (sum of benomyl and carbendazim expressed as carbendazim)	Chlormequat	Chlorpyrifos	Chlorothalonil	Clofentezine

(*) Indicates lower limit of analytical determination.

(i) The MRLs expressed as CS₂ can arise from different dithiocarbamates and therefore they do not reflect a single Good Agricultural Practice (GAP). It is therefore not appropriate to use these MRLs to check compliance with a GAP.

(j) In brackets the origin of the residue (m: mande; m/z: mancozeb; mc: metiram; pr: propineb; t: thiram; z: ziram).

(k) Fat soluble.

(l) Based on background levels due to use of aldrin and dieldrin in the past.

(m) Monitoring data show that levels up to 0,02 mg/kg of dieldrin can be found on pumpkin seed used for oil extraction.

(n) Indicates that the maximum residue level has been established provisionally in accordance with Article 4(1)(f) of Directive 91/414/EEC.

(o) A temporary MRL of 0,2 mg/kg shall apply until 31 July 2009.

DECISIONS

COMMISSION

COMMISSION DECISION

of 14 February 2008

establishing a list of embryo collection and production teams in third countries approved for imports of bovine embryos into the Community

(notified under document number C(2008) 517)

(Text with EEA relevance)

(2008/155/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 89/556/EEC of 25 September 1989 on animal health conditions governing intra-Community trade in and importation from third countries of embryos of domestic animals of the bovine species⁽¹⁾, and in particular Article 8(1) thereof,

Whereas:

- (1) Directive 89/556/EEC sets out the animal health conditions governing intra-Community trade in and importation from third countries of fresh and frozen embryos of domestic animals of the bovine species.
- (2) Commission Decision 92/452/EEC of 30 July 1992 establishing lists of embryo collection teams and embryo production teams approved in third countries for export of bovine embryos to the Community⁽²⁾ provides that Member States are to import embryos from third countries only if they have been collected, processed and stored by embryo collection teams included in the lists in the Annex to that Decision.

(3) Commission Decision 2006/168/EC of 4 January 2006 establishing the animal health and veterinary certification requirements for imports into the Community of bovine embryos and repealing Decision 2005/217/EC⁽³⁾ provides that Member States are to authorise imports of embryos of domestic animals of the bovine species collected or produced in a third country listed in Annex I to that Decision by approved embryo collection or production teams listed in the Annex to Decision 92/452/EEC.

(4) New Zealand has requested that one embryo collection team be deleted from the list in the Annex to Decision 92/452/EEC, as regards the entries for that third country.

(5) Argentina, Australia, Canada, Switzerland and the United States have also requested that numerous amendments be made to the entries for those third countries in the list in the Annex to Decision 92/452/EEC, as regards certain embryo collection and production teams. They have also provided guarantees with regard to compliance with the appropriate rules set out in Directive 89/556/EEC for the teams to be added to that list. The embryo collection and production teams listed in the Annex to this Decision fulfil the conditions relating to the collection, processing, storage and transport of embryos set out in Directive 89/556/EEC. They have been approved by the competent authorities of those third countries as referred to in that Directive.

⁽¹⁾ OJ L 302, 19.10.1989, p. 1. Directive as last amended by Commission Decision 2006/60/EC (OJ L 31, 3.2.2006, p. 24).

⁽²⁾ OJ L 250, 29.8.1992, p. 40. Decision as last amended by Decision 2007/752/EC (OJ L 304, 22.11.2007, p. 36).

⁽³⁾ OJ L 57, 28.2.2006, p. 19. Decision as amended by Regulation (EC) No 1792/2006 (OJ L 362, 20.12.2006, p. 1).

(6) In the interest of clarity of Community legislation, Decision 92/452/EEC should be repealed and replaced by this Decision.

Article 2

Decision 92/452/EEC is repealed.

(7) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

Article 3

This Decision is addressed to the Member States.

HAS ADOPTED THIS DECISION:

Article 1

Member States shall authorise imports of embryos of domestic animals of the bovine species from third countries only if they have been collected, processed and stored by an embryo collection team or an embryo production team included in the list in the Annex to this Decision.

Done at Brussels, 14 February 2008.

For the Commission

Markos KYPRIANOU

Member of the Commission

COMMISSION DECISION**of 18 February 2008****amending Decision 2006/766/EC as regards the list of third countries and territories from which imports of fishery products in any form for human consumption are permitted**

(notified under document number C(2008) 555)

(Text with EEA relevance)

(2008/156/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Regulation (EC) No 854/2004 of the European Parliament and of the Council of 29 April 2004 laying down specific rules for the organisation of official controls on products of animal origin intended for human consumption (⁽¹⁾), and in particular Article 11(1) thereof,

Whereas:

- (1) Regulation (EC) No 854/2004 lays down specific rules for the organisation of official controls on products of animal origin. Article 11 of that Regulation provides for the establishment of lists of third countries and parts of third countries from which imports of specific products of animal origin are permitted, and sets out criteria to be taken into account in the establishment of such lists.
- (2) Commission Decision 2006/766/EC of 6 November 2006 establishing the lists of third countries and territories from which imports of bivalve molluscs, echinoderms, tunicates, marine gastropods and fishery products are permitted (⁽²⁾) lists those third countries which satisfy the criteria referred to in Article 11(4) of Regulation (EC) No 854/2004 and are therefore able to guarantee that those products exported to the Community meet the sanitary conditions laid down to protect the health of consumers.
- (3) Annex II of that Decision lists the third countries and territories from which imports of fishery products in any form for human consumption are permitted.
- (4) Armenia is currently listed in that Annex but only for imports of 'live non-farmed crayfish'. A Commission inspection carried out in that country in March 2007 showed that the relevant sanitary requirements for

heat-processed and frozen non-farmed crayfish are met. Therefore, the listing for Armenia should be extended to also include heat processed non-farmed crayfish and frozen non-farmed crayfish.

- (5) Montenegro, which is currently listed in Annex II to Decision 2006/766/EC but only for imports of 'whole fresh fish from wild seawater catches', has provided scientific information and submitted an additional application for the approval of imports of freshwater crayfish from that third country. The current limitation should therefore be deleted. Imports of fishery products should be authorised.
- (6) Bosnia and Herzegovina is currently not listed in Annex II to Decision 2006/766/EC. A Commission inspection to that country was carried out from 29 August to 2 September 2005. It has been proven that the competent authorities have provided all necessary guarantees to satisfy the relevant sanitary conditions. Bosnia and Herzegovina should therefore be included in the list of third countries from which Member States may authorise imports of fishery products.
- (7) Bulgaria and Romania are currently listed in Annex II to Decision 2006/766/EC. However, as the list refers only to third countries, the application of those entries ceased upon their accession to the European Union. The listings for those two Member States should therefore be deleted.
- (8) Annex I of that Decision lists the third countries from which imports of bivalve molluscs, echinoderms, tunicates and marine gastropods in any form for human consumption are permitted. Footnote 6 of Annex II referring to Morocco concerns additional requirements for certain processed bivalve molluscs. For reasons of consistency, it is therefore appropriate to move those requirements to Annex I.
- (9) Decision 2006/766/EC should therefore be amended accordingly.
- (10) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

⁽¹⁾ OJ L 139, 30.4.2004, p. 206, as corrected by OJ L 226, 25.6.2004, p. 83. Regulation as last amended by Council Regulation (EC) No 1791/2006 (OJ L 363, 20.12.2006, p. 1).

⁽²⁾ OJ L 320, 18.11.2006, p. 53.

HAS ADOPTED THIS DECISION:

Article 3

This Decision is addressed to the Member States.

Article 1

Annexes I and II to Decision 2006/766/EC are replaced by the text in the Annex to this Decision.

Done at Brussels, 18 February 2008.

Article 2

This Decision shall apply from 1 March 2008.

For the Commission

Markos KYPRIANOU

Member of the Commission

ANNEX

'ANNEX I

List of third countries from which imports of bivale molluscs, echinoderms, tunicates and marine gastropods in any form for human consumption are permitted

(Countries and territories referred to in Article 11 of Regulation (EC) No 854/2004)

ISO code	Countries	Remarks
AU	AUSTRALIA	
CL	CHILE	Only frozen or processed bivalve molluscs, echinoderms, tunicates and marine gastropods
JM	JAMAICA	Only marine gastropods
JP	JAPAN	Only frozen or processed bivalve molluscs, echinoderms, tunicates and marine gastropods
KR	SOUTH KOREA	Only frozen or processed bivalve molluscs, echinoderms, tunicates and marine gastropods
MA	MOROCCO	Processed bivalve molluscs belonging to the species Acanthocardia tuberculatum must be accompanied by: (a) an additional health attestation in accordance with the model set out in Part B of Appendix V of Annex VI to Commission Regulation (EC) No 2074/2005 (OJ L 338, 22.12.2005, p. 27); and (b) the analytical results of the test demonstrating that the molluscs do not contain a paralytic shellfish poison (PSP) level detectable by the bioassay method.
NZ	NEW ZEALAND	
PE	PERU	Only frozen or processed bivalve molluscs, echinoderms, tunicates and marine gastropods
TH	THAILAND	Only frozen or processed bivalve molluscs, echinoderms, tunicates and marine gastropods
TN	TUNESIA	
TR	TURKEY	
UY	URUGUAY	
VN	VIETNAM	Only frozen or processed bivalve molluscs, echinoderms, tunicates and marine gastropods

ANNEX II

List of third countries and territories from which imports of fishery products in any form for human consumption are permitted

(Countries and territories referred to in Article 11 of Regulation (EC) No 854/2004)
