TITLE I

GENERAL PRINCIPLES

Article 2

Respect for the democratic principles and human rights as proclaimed in the Universal Declaration of Human Rights and as defined in the Convention for the Protection of Human Rights and Fundamental Freedoms, in the Helsinki Final Act and the Charter of Paris for a New Europe, respect for international law principles, including full cooperation with the International Criminal Tribunal for the former Yugoslavia (ICTY), and the rule of law as well as the principles of market economy as reflected in the Document of the CSCE Bonn Conference on Economic Cooperation, shall form the basis of the domestic and external policies of the Parties and constitute essential elements of this Agreement.

Article 3

The fight against the proliferation of weapons of mass destruction and their means of delivery constitutes an essential element of this Agreement.

Article 4

The contracting parties reaffirm the importance they attach to the implementation of international obligations, notably the full cooperation with ICTY.

Article 5

International and regional peace and stability, the development of good neighbourly relations, human rights and the respect and protection of minorities are central to the Stabilisation and Association process referred to in the conclusions of the Council of the European Union on 21 June 1999. The conclusion and the implementation of this Agreement come within the framework of the conclusions of the Council of the European Union of 29 April 1997 and are based on the individual merits of Montenegro.

Article 6

Montenegro commits itself to continue to foster cooperation and good neighbourly relations with the other countries of the region including an appropriate level of mutual concessions concerning the movement of persons, goods, capital and services as well as the development of projects of common interest, notably those related to border management and combating organised crime, corruption, money laundering, illegal migration and trafficking, including in particular in human beings, small arms and light weapons, as well as illicit drugs. This commitment constitutes a key factor in the development of the relations and cooperation between the Parties and thus contributes to regional stability.

Article 7

The Parties reaffirm the importance that they attach to the fight against terrorism and the implementation of international obligations in this area.

Article 8

The association shall be progressively and fully realised over a transitional period of a maximum of five years.

The Stabilisation and Association Council (hereinafter referred to as 'SAC') established under Article 119 shall regularly review, as a rule on an annual basis, the implementation of this Agreement

and the adoption and implementation by Montenegro of legal, administrative, institutional and economic reforms. This review shall be carried out in the light of the preamble and in accordance with the general principles of this Agreement. It shall take duly into account priorities set in the European Partnership relevant to this Agreement and be in coherence with the mechanisms established under the Stabilisation and Association process, notably the progress report on the Stabilisation and Association process.

On the basis of this review, the SAC will issue recommendations and may take decisions. Where the review identifies particular difficulties, they may be referred to the mechanisms of dispute settlement established under this Agreement.

The full association shall be progressively realised. No later than the third year after the entry into force of this Agreement, the SAC shall make a thorough review of the application of this Agreement. On the basis of this review the SAC shall evaluate progress made by Montenegro and may take decisions governing the following stages of association.

The aforementioned review will not apply to the free movement of goods, for which a specific schedule is foreseen in Title IV.

Article 9

This Agreement shall be fully compatible with and implemented in a manner consistent with the relevant WTO provisions, in particular Article XXIV of the General Agreement on Tariffs and Trade 1994 (GATT 1994) and Article V of the General Agreement on Trade in Services (GATS).

TITLE II

POLITICAL DIALOGUE

Article 10

1. Political dialogue between the Parties shall be further developed within the context of this Agreement. It shall accompany and consolidate the rapprochement between the European Union and Montenegro and contribute to the establishment of close links of solidarity and new forms of cooperation between the Parties.

2. The political dialogue is intended to promote in particular:

- (a) full integration of Montenegro into the community of democratic nations and gradual rapprochement with the European Union;
- (b) an increasing convergence of positions of the Parties on international issues, including CFSP issues, also through the exchange of information as appropriate, and, in particular, on those issues likely to have substantial effects on the Parties;

(c) regional cooperation and the development of good neighbourly relations;

(d) common views on security and stability in Europe, including cooperation in the areas covered by the CFSP of the European Union.

3. The Parties consider that the proliferation of weapons of mass destruction (WMD) and their means of delivery, both to state and non-state actors, represents one of the most serious threats to international stability and security. The Parties therefore agree to cooperate and to contribute to countering the proliferation of weapons of mass destruction and their means of delivery through full compliance with and national implementation of their existing obligations under international disarmament and non-proliferation Treaties and Agreements and other relevant international obligations. The Parties agree that this provision constitutes an essential element of this Agreement and will be part of the political dialogue that will accompany and consolidate these elements.

The Parties furthermore agree to cooperate and to contribute to countering the proliferation of weapons of mass destruction and their means of delivery by:

- (a) taking steps to sign, ratify, or accede to, as appropriate, and fully implement all other relevant international instruments;
- (b) establishing an effective system of national export controls, controlling the export as well as the transit of WMD-related goods, including a WMD end-use control on dual use technologies and containing effective sanctions for breaches of export controls;
- (c) Political dialogue on this matter may take place on a regional basis.

Article 11

1. Political dialogue shall take place within the Stabilisation and Association Council, which shall have the general responsibility for any matter which the Parties might wish to put to it.

2. At the request of the Parties, political dialogue may also take place in the following formats:

- (a) meetings, where necessary, of senior officials representing Montenegro, on the one hand, and the Presidency of the

Council of the European Union, the Secretary General/High Representative for the Common Foreign and Security Policy and the Commission of the European Communities (hereinafter referred to as 'European Commission'), on the other;

- (b) taking full advantage of all diplomatic channels between the Parties, including appropriate contacts in third countries and within the United Nations, the OSCE, the Council of Europe and other international fora;
- (c) any other means which would make a useful contribution to consolidating, developing and stepping up this dialogue, including those identified in the Thessaloniki agenda, adopted in the Conclusions of the European Council in Thessaloniki on 19 and 20 June 2003.

Article 12

A political dialogue at parliamentary level shall take place within the framework of the Stabilisation and Association Parliamentary Committee established under Article 125.

Article 13

Political dialogue may take place within a multilateral framework, and as a regional dialogue including other countries of the region, including in the framework of the EU-Western Balkan forum.

TITLE III

REGIONAL COOPERATION

Article 14

In conformity with its commitment to international and regional peace and stability, and to the development of good neighbourly relations, Montenegro shall actively promote regional cooperation. The Community assistance programmes may support projects having a regional or cross-border dimension through its technical assistance programmes.

Whenever Montenegro foresees to reinforce its cooperation with one of the countries mentioned in Articles 15, 16 and 17, it shall inform and consult the Community and its Member States according to the provisions laid down in Title X.

Montenegro shall implement fully the existing bilateral Agreements negotiated pursuant to the Memorandum of Understanding on Trade Facilitation and Liberalisation signed in Brussels on 27 June 2001 by Serbia and Montenegro and the Central European Free Trade Agreement signed in Bucharest on 19 December 2006.

Article 15

Cooperation with other countries having signed a Stabilisation and Association Agreement

After the signature of this Agreement, Montenegro shall start negotiations with the countries which have already signed a Stabilisation and Association Agreement with a view to concluding

bilateral conventions on regional cooperation, the aim of which shall be to enhance the scope of cooperation between the countries concerned.

The main elements of these conventions shall be:

- (a) political dialogue;
- (b) the establishment of free trade areas, consistent with relevant WTO provisions;

- (d) provisions on cooperation in other fields whether or not covered by this Agreement, and notably the field of Justice, Freedom and Security.

These conventions shall contain provisions for the creation of the necessary institutional mechanisms, as appropriate.

These conventions shall be concluded within two years after the entry into force of this Agreement. Readiness by Montenegro to conclude such conventions will be a condition for the further development of the relations between Montenegro and the European Union.

Montenegro shall initiate similar negotiations with the remaining countries of the region once these countries will have signed a Stabilisation and Association Agreement.

Article 16

Cooperation with other countries concerned by the Stabilisation and Association process

Montenegro shall pursue regional cooperation with the other States concerned by the Stabilisation and Association process in some or all the fields of cooperation covered by this Agreement, and notably those of common interest. Such cooperation should always be compatible with the principles and objectives of this Agreement.

Article 17

Cooperation with other countries candidate to EU accession not concerned by the SAP

1. Montenegro should foster its cooperation and conclude a convention on regional cooperation with any country candidate for EU accession in any of the fields of cooperation covered by this Agreement. Such conventions should aim to gradually align bilateral relations between Montenegro and this country to the relevant part of the relations between the Community and its Member States and this country.

2. Montenegro shall start negotiations with Turkey which has established a customs union with the Community, with a view to concluding, on a mutually advantageous basis, an Agreement establishing a free trade area in accordance with Article XXIV of the GATT 1994 as well as liberalising the establishment and supply of services between them at an equivalent level of this Agreement in accordance with Article V of the GATS.

These negotiations should be opened as soon as possible, with a view to concluding the abovementioned Agreement before the end of the transitional period referred to in Article 18(1).

The Community and Montenegro shall gradually establish a bilateral free trade area over a period lasting a maximum of five years starting from the entry into force of this Agreement in accordance with the provisions of this Agreement and in conformity with those of the GATT 1994 and the WTO. The provisions of this Title shall in no way affect the application, on a unilateral basis, of more favourable measures by any of the Parties.

*Article 36***Standstill**

1. From the date of entry into force of this Agreement, no new customs duties on imports or exports or charges having equivalent effect shall be introduced, nor shall those already applied be increased, in trade between the Community and Montenegro.

2. From the date of entry into force of this Agreement, no new quantitative restriction on imports or exports or measure having equivalent effect shall be introduced, nor shall those existing be made more restrictive, in trade between the Community and Montenegro.

3. Without prejudice to the concessions granted under Articles 26, 27, 28, 29 and 30, the provisions of paragraphs 1

and 2 of this Article shall not restrict in any way the pursuit of the respective agricultural and fishery policies of Montenegro and of the Community and the taking of any measures under those policies insofar as the import regime in Annexes II-V and Protocol 1 is not affected.

*Article 37***Prohibition of fiscal discrimination**

1. The Community and Montenegro shall refrain from, and abolish where existing, any measure or practice of an internal fiscal nature establishing, whether directly or indirectly, discrimination between the products of one Party and like products originating in the territory of the other Party.

2. Products exported to the territory of one of the Parties may not benefit from repayment of internal indirect taxation in excess of the amount of indirect taxation imposed on them.

*Article 38***Duties of a fiscal nature**

The provisions concerning the abolition of customs duties on imports shall also apply to customs duties of a fiscal nature.

*Article 39***Customs unions, free trade areas, cross-border arrangements**

1. This Agreement shall not preclude the maintenance or establishment of customs unions, free trade areas or arrangements for frontier trade except insofar as they alter the trade arrangements provided for in this Agreement.

⁽¹⁾ OJ L 93, 31.3.2006, p. 12. Regulation as amended by Commission Regulation (EC) No 952/2007 (OJ L 210, 10.8.2007, p. 26).

2. During the transitional period specified in Article 18, this Agreement shall not affect the implementation of the specific preferential arrangements governing the movement of goods either laid down in frontier Agreements previously concluded between one or more Member States and Serbia and Montenegro or resulting from the bilateral Agreements specified in Title III concluded by Montenegro in order to promote regional trade.

3. Consultations between the Parties shall take place within the Stabilisation and Association Council concerning the Agreements described in paragraphs 1 and 2 of this Article and, where requested, on other major issues related to their respective trade policies towards third countries. In particular in the event of a third country acceding to the Union, such consultations shall take place so as to ensure that account is taken of the mutual interests of the Community and Montenegro stated in this Agreement.

Article 40

Dumping and subsidy

1. None of the provisions in this Agreement shall prevent any of the Parties from taking trade defence action in accordance with paragraph 2 of this Article and Article 41.

2. If one of the Parties finds that dumping and/or countervailable subsidisation is taking place in trade with the other Party, that Party may take appropriate measures against this practice in accordance with the WTO Agreement on Implementation of Article VI of the GATT 1994 or the WTO Agreement on Subsidies and Countervailing Measures and the respective related internal legislation.

Article 41

Safeguards clause

1. The provisions of Article XIX GATT 1994 and the WTO Agreement on Safeguards are applicable between the parties.

2. Notwithstanding paragraph 1 of this Article, where any product of one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:

- (a) serious injury to the domestic industry of like or directly competitive products in the territory of the importing Party or
- (b) serious disturbances in any sector of the economy or difficulties which could bring about serious deterioration in the economic situation of a region of the importing Party,

the importing Party may take appropriate bilateral safeguard measures under the conditions and in accordance with the procedures laid down in this Article.

3. Bilateral safeguard measures directed at imports from the other Party shall not exceed what is necessary to remedy the problems, as defined in paragraph 2, which have arisen as a result of

application of this Agreement. The safeguard measure adopted should consist of a suspension in the increase or in the reduction of the margins of preferences provided for under this Agreement for the product concerned up to a maximum limit corresponding to the basic duty referred to in Article 18 paragraph 4(a) and (b) and paragraph 5 for the same product. Such measures shall contain clear elements progressively leading to their elimination at the end of the set period, at the latest, and shall not be taken for a period exceeding two years.

In very exceptional circumstances, measures may be extended for a further period of maximum two years. No bilateral safeguard measure shall be applied to the import of a product that has previously been subject to such a measure for a period of, at least, four years since the expiry of the measure.

4. In the cases specified in this Article, before taking the measures provided for therein or, in the cases to which paragraph 5(b) of this Article applies, as soon as possible, the Community on the one part or Montenegro on the other part, shall supply the Stabilisation and Association Council with all relevant information required for a thorough examination of the situation, with a view to seeking a solution acceptable to the Parties concerned.

5. For the implementation of the paragraphs 1, 2, 3 and 4 the following provisions shall apply:

- (a) The problems arising from the situation referred to in this Article shall be immediately referred for examination to the Stabilisation and Association Council, which may take any decisions needed to put an end to such problems.

If the Stabilisation and Association Council or the exporting Party has not taken a decision putting an end to the problems, or no other satisfactory solution has been reached within 30 days of the matter being referred to the Stabilisation and Association Council, the importing Party may adopt the appropriate measures to remedy the problem in accordance with this Article. In the selection of safeguard measures, priority must be given to those which least disturb the functioning of the arrangements established in this Agreement. Safeguard measures applied in accordance with Article XIX GATT 1994 and the WTO Agreement on Safeguards shall preserve the level/margin of preference granted under this Agreement.

- (b) Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Party concerned may, in the situations specified in this Article, apply forthwith provisional measures necessary to deal with the situation and shall inform the other Party immediately thereof.

The safeguard measures shall be notified immediately to the Stabilisation and Association Council and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

6. In the event of the Community on the one part or Montenegro on the other part subjecting imports of products liable to give rise to the problems referred to in this Article to an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows, it shall inform the other Party.

*Article 42***Shortage clause**

1. Where compliance with the provisions of this Title leads to:
 - (a) a critical shortage, or threat thereof, of foodstuffs or other products essential to the exporting Party; or
 - (b) re-export to a third country of a product against which the exporting Party maintains quantitative export restrictions, export duties or measures or charges having equivalent effect, and where the situations referred to above give rise, or are likely to give rise to major difficulties for the exporting Party

that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.

2. In the selection of measures, priority must be given to those which least disturb the functioning of the arrangements in this Agreement. Such measures shall not be applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination where the same conditions prevail, or a disguised restriction on trade and shall be eliminated when the conditions no longer justify their maintenance.

3. Before taking the measures provided for in paragraph 1 or, as soon as possible in cases to which paragraph 4 applies, the Community or Montenegro, shall supply the Stabilisation and Association Council with all relevant information, with a view to seeking a solution acceptable to the Parties. The Parties within the Stabilisation and Association Council may agree on any means needed to put an end to the difficulties. If no agreement is reached within 30 days of the matter being referred to the Stabilisation and Association Council, the exporting Party may apply measures under this Article on the exportation of the product concerned.

4. Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Community or Montenegro may apply forthwith the precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.

5. Any measures applied pursuant to this Article shall be immediately notified to the Stabilisation and Association Council and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their elimination as soon as circumstances permit.

*Article 43***State monopolies**

With regard to any state monopolies of a commercial character, Montenegro shall ensure that, by the entry into force of this Agreement, no discrimination regarding the conditions under which goods are procured and marketed exists between nationals of the Member States of the European Union and Montenegro.

*Article 44***Rules of origin**

Except if otherwise stipulated in this Agreement, Protocol 3 lays down the rules of origin for the application of the provisions of this Agreement.

*Article 45***Restrictions authorised**

This Agreement shall not preclude prohibitions or restrictions on imports, exports or goods in transit justified on grounds of public morality, public policy or public security; the protection of health and life of humans, animals or plants; the protection of national treasures of artistic, historic or archaeological value or the protection of intellectual, industrial and commercial property, or rules relating to gold and silver. Such prohibitions or restrictions shall not, however, constitute a means of arbitrary discrimination or a disguised restriction on trade between the Parties.

*Article 46***Failure to provide administrative cooperation**

1. The Parties agree that administrative cooperation is essential for the implementation and the control of the preferential treatment granted under this Title and underline their commitment to combat irregularities and fraud in customs and related matters.

2. Where a Party has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud under this Title, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned in accordance with this Article.

3. For the purpose of this Article a failure to provide administrative cooperation shall mean, inter alia:

- (a) a repeated failure to respect the obligations to verify the originating status of the product(s) concerned;
- (b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin;
- (c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.

For the purpose of this Article a finding of irregularities or fraud may be made, inter alia, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party, which is linked to objective information concerning irregularities or fraud.

4. The application of a temporary suspension shall be subject to the following conditions:

- (a) The Party which has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the Stabilisation and Association Committee of its finding together with the objective information and enter into consultations within the Stabilisation and Association Committee, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties.
- (b) Where the Parties have entered into consultations within the Stabilisation and Association Committee as above and have failed to agree on an acceptable solution within three months following the notification, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned. A temporary suspension shall be notified to the Stabilisation and Association Committee without undue delay.
- (c) Temporary suspensions under this Article shall be limited to that necessary to protect the financial interests of the Party concerned. They shall not exceed a period of six months, which may be renewed. Temporary suspensions shall be notified immediately after their adoption to the Stabilisation and Association Committee. They shall be subject to periodic

consultations within the Stabilisation and Association Committee in particular with a view to their termination as soon as the conditions for their application are no longer given.

5. At the same time as the notification to the Stabilisation and Association Committee under paragraph 4(a) of this Article, the Party concerned should publish a notice to importers in its Official Journal. The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

Article 47

In case of error by the competent authorities in the proper management of the preferential system at export, and in particular in the application of the provisions of Protocol 3 to the present Agreement where this error leads to consequences in terms of import duties, the Contracting Party facing such consequences may request the Stabilisation and Association Council to examine the possibilities of adopting all appropriate measures with a view to resolving the situation.

Article 48

The application of this Agreement shall be without prejudice to the application of the provisions of Community law to the Canary Islands.

Article 51

1. Rules shall be laid down for the coordination of social security systems for workers with nationality of Montenegro, legally employed in the territory of a Member State, and for the members of their families legally resident there. Article 54

1. Subject to the provisions of Article 56, with the exception of financial services described in Annex VI, the Parties may regulate the establishment and operation of companies and nationals on their territory, insofar as these regulations do not discriminate against companies and nationals of the other Parties in comparison with its own companies and nationals.

2. In respect of financial services, notwithstanding any other provisions of this Agreement, a Party shall not be prevented from taking measures for prudential reasons, including for the protection of investors, depositors, policy holders or persons to whom a fiduciary duty is owed by a financial service supplier, or to ensure the integrity and stability of the financial system. Such measures shall not be used as a means of avoiding the Party's obligations under this Agreement.

3. Nothing in this Agreement shall be construed to require a Party to disclose information relating to the affairs and accounts of individual customers or any confidential or proprietary information in the possession of public entities.

Article 55

1. Without prejudice to any provision to the contrary contained in the Multilateral Agreement on the Establishment of a European Common Aviation Area ⁽¹⁾ (hereinafter referred to as 'ECAA'), the provisions of this Chapter shall not apply to air transport services, inland waterways transport services and maritime cabotage services.

2. The Stabilisation and Association Council may make recommendations for improving establishment and operations in the areas covered by paragraph 1.

Article 56

1. The provisions of Articles 53 and 54 do not preclude the application by a Party of particular rules concerning the establishment and operation in its territory of branches of companies of another Party not incorporated in the territory of the first Party, which are justified by legal or technical differences between such branches as compared to branches of companies incorporated in its territory or, as regards financial services, for prudential reasons.

2. The difference in treatment shall not go beyond what is strictly necessary as a result of such legal or technical differences or, as regards financial services, for prudential reasons.

Article 57

In order to make it easier for Community nationals and nationals from Montenegro to take up and pursue regulated professional activities in Montenegro and in the Community respectively, the Stabilisation and Association Council shall examine which steps are necessary for the mutual recognition of qualifications. It may take all necessary measures to that end.

Article 58

1. A Community company established in the territory of Montenegro or a Montenegrin company established in the Community shall be entitled to employ, or have employed by one of its subsidiaries or branches, in accordance with the legislation in force in the host territory of establishment, in the territory of the Republic of Montenegro and the Community respectively, employees who are nationals of the Member States or nationals from Montenegro respectively, provided that such employees are key personnel as defined in paragraph 2 and that they are employed exclusively by companies, subsidiaries or branches. The residence and work permits of such employees shall only cover the period of such employment.

2. Key personnel of the abovementioned companies herein referred to as 'organisations' are 'intra-corporate transferees' as defined in (c) of this paragraph in the following categories, provided that the organisation is a legal person and that the persons concerned have been employed by it or have been partners in it (other than as majority shareholders), for at least the year immediately preceding such movement:

(a) Persons working in a senior position with an organisation, who primarily direct the management of the establishment, receiving general supervision or direction principally from

the board of directors or stockholders of the business or their equivalent including:

(i) directing the establishment of a department or subdivision of the establishment;

(ii) supervising and controlling the work of other supervisory, professional or managerial employees;

(iii) having the authority personally to recruit and dismiss or recommend recruiting, dismissing or other personnel actions;

(b) Persons working within an organisation who possess uncommon knowledge essential to the establishment's service, research equipment, techniques or management. The assessment of such knowledge may reflect, apart from knowledge specific to the establishment, a high level of qualification referring to a type of work or trade requiring specific technical knowledge, including membership of an accredited profession;

(c) An 'intra-corporate transferee' is defined as a natural person working within an organisation in the territory of a Party, and being temporarily transferred in the context of pursuit of economic activities in the territory of the other Party; the organisation concerned must have its principal place of business in the territory of a Party and the transfer be to an establishment (branch, subsidiary) of that organisation, effectively pursuing like economic activities in the territory of the other Party.

3. The entry into and the temporary presence within the territory of the Community or in Montenegro of Montenegrin nationals and Community nationals respectively shall be permitted, when these representatives of companies are persons working in a senior position, as defined in paragraph 2(a) above, within a company, and are responsible for the setting up of a Community subsidiary or branch of a Montenegrin company or of a Montenegrin subsidiary or branch of a Community company in a Member State or in the Republic of Montenegro respectively, when:

(a) those representatives are not engaged in making direct sales or supplying services, and do not receive remuneration from a source located within the host territory of establishment, and;

(b) the company has its principal place of business outside the Community or Montenegro, respectively, and has no other representative, office, branch or subsidiary in that Member State or in Montenegro respectively.

CHAPTER III

Supply of services*Article 59*

1. The Community and Montenegro undertake, in accordance with the following provisions, to take the necessary steps to allow progressively the supply of services by Community companies, Montenegrin companies or by Community nationals or nationals of Montenegro which are established in the territory of a Party other than that of the person for whom the services are intended.

2. In step with the liberalisation process mentioned in paragraph 1, the Parties shall permit the temporary movement of natural persons providing the service or who are employed by the service provider as key personnel as defined in Article 58, including natural persons who are representatives of a Community or Montenegrin company or national and are seeking temporary entry for the purpose of negotiating for the sale of services or entering into agreements to sell services for that service provider, where those representatives will not be engaged in making direct sales to the general public or in supplying services themselves.

3. After four years, the Stabilisation and Association Council shall take the measures necessary to progressively implement the provisions of paragraph 1. Account shall be taken of the progress achieved by the Parties in the approximation of their laws.

Article 60

1. The Parties shall not take any measures or actions which render the conditions for the supply of services by Community and Montenegro nationals or companies which are established in a Party other than that of the person for whom the services are intended significantly more restrictive as compared to the situation existing on the day preceding the day of entry into force of this Agreement.

2. If one Party is of the view that measures introduced by the other Party since the entry into force of this Agreement result in a situation which is significantly more restrictive in respect of supply of services as compared with the situation existing at the date of entry into force of this Agreement, such first Party may request the other Party to enter into consultations.

Article 61

With regard to supply of transport services between the Community and Montenegro, the following provisions shall apply:

- 1) With regard to land transport, Protocol 4 lays down the rules applicable to the relationship between the Parties in order to ensure, particularly, unrestricted road transit traffic across Montenegro and the Community as a whole, the effective application of the principle of non-discrimination and progressive harmonisation of the transport legislation of Montenegro with that of the Community.
- 2) With regard to international maritime transport, the Parties undertake to apply effectively the principle of unrestricted access to the international maritime markets and trades on a commercial basis, and to respect international and European obligations in the field of safety, security and environmental standards.

The Parties affirm their commitment to a freely competitive environment as an essential feature of international maritime transport.

- 3) In applying the principles of paragraph 2, the Parties shall:
 - (a) not introduce cargo-sharing clauses in future bilateral Agreements with third countries;
 - (b) abolish, upon the entry into force of this Agreement, all unilateral measures and administrative, technical and other obstacles that could have restrictive or discriminatory effects on the free supply of services in international maritime transport;
 - (c) Each Party shall grant, *inter alia*, no less favourable treatment for the ships operated by nationals or companies of the other Party than that accorded to a Party's own ships with regard to access to ports open to international trade, the use of infrastructure and auxiliary maritime services of the ports, as well as related fees and charges, customs facilities and the assignment of berths and facilities for loading and unloading.
- 4) With a view to ensuring a coordinated development and progressive liberalisation of transport between the Parties adapted to their reciprocal commercial needs, the conditions of mutual market access in air transport shall be dealt with by the ECAA.
- 5) Prior to the conclusion of the ECAA, the Parties shall not take any measures or actions which are more restrictive or discriminatory as compared with the situation existing prior to the entry into force of this Agreement.
- 6) Montenegro shall adapt its legislation, including administrative, technical and other rules, to that of the Community existing at any time in the field of air, maritime, inland waterway and land transport insofar as it serves liberalisation purposes and mutual access to markets of the Parties and facilitates the movement of passengers and of goods.
- 7) In step with the common progress in the achievement of the objectives of this Chapter, the Stabilisation and Association Council shall examine ways of creating the conditions necessary for improving freedom to provide air, land and inland waterway transport services.

CHAPTER IV

Current payments and movement of capital*Article 62*

The Parties undertake to authorise, in freely convertible currency, in accordance with the provisions of Article VIII of the Articles of the Agreement of the International Monetary Fund, any payments and transfers on the current account of balance of payments between the Community and Montenegro.

Article 63

1. With regard to transactions on the capital and financial account of balance of payments, from the entry into force of this Agreement, the Parties shall ensure the free movement of capital relating to direct investments made in companies formed in accordance with the laws of the host country and investments made in accordance with the provisions of Chapter II of Title V, and the liquidation or repatriation of these investments and of any profit stemming there from.

2. With regard to transactions on the capital and financial account of balance of payments, from the entry into force of this Agreement, the Parties shall ensure the free movement of capital relating to credits related to commercial transactions or to the provision of services in which a resident of one of the Parties is participating, and to financial loans and credits, with maturity longer than a year.

3. Montenegro shall, from the entry into force of this Agreement, grant national treatment to EU nationals acquiring real estate on its territory.

4. The Community and Montenegro shall also ensure, from the entry into force of this Agreement, free movement of capital relating to portfolio investment and financial loans and credits with maturity shorter than a year.

5. Without prejudice to paragraph 1, the Parties shall not introduce any new restrictions on the movement of capital and current payments between residents of the Community and Montenegro and shall not make the existing arrangements more restrictive.

6. Without prejudice to the provisions of Article 62 and of this Article, where, in exceptional circumstances, movements of capital between the Community and Montenegro cause, or threaten to cause, serious difficulties for the operation of exchange rate policy or monetary policy in the Community or Montenegro, the Community and Montenegro, respectively, may take safeguard measures with regard to movements of capital between the Community and Montenegro for a period not exceeding six months if such measures are strictly necessary.

7. Nothing in the above provisions shall be taken to limit the rights of economic operators of the Parties from benefiting from any more favourable treatment that may be provided for in any existing bilateral or multilateral Agreement involving Parties to this Agreement.

8. The Parties shall consult each other with a view to facilitating the movement of capital between the Community and Montenegro in order to promote the objectives of this Agreement.

Article 64

1. During the first year following the date of entry into force of this Agreement, the Community and Montenegro shall take measures permitting the creation of the necessary conditions for the further gradual application of Community rules on the free movement of capital.

2. By the end of the second year following the date of entry into force of this Agreement, the Stabilisation and Association Council shall determine the modalities for full application of Community rules on the movement of capital in Montenegro.

CHAPTER V

General provisions*Article 65*

1. The provisions of this Title shall be applied subject to limitations justified on grounds of public policy, public security or public health.

2. They shall not apply to activities that in the territory of any of the Parties are connected, even occasionally, with the exercise of official authority.

Article 66

For the purpose of this Title, nothing in this Agreement shall prevent the Parties from applying their laws and regulations regarding entry and stay, employment, working conditions,

establishment of natural persons and supply of services, notably insofar as the granting, renewal or refusal of a residence permit is concerned, provided that, in so doing, they do not apply them in such a manner as to nullify or impair the benefits accruing to any Party under the terms of a specific provision of this Agreement. This provision shall be without prejudice to the application of Article 65.

Article 67

Companies which are controlled and exclusively owned jointly by Montenegrin companies or nationals of Montenegro and Community companies or nationals shall also be covered by the provisions of this Title.

Article 68

1. The Most-Favoured-Nation treatment granted in accordance with the provisions of this Title shall not apply to the tax advantages that the Parties are providing or will provide in the future on the basis of Agreements designed to avoid double taxation or other tax arrangements.

2. 1. In Montenegro, references to the Member States of the Community, and other names used to indicate a Member State, for the purpose of identifying origin of the wine, spirit drink and aromatised wine:

3. The Parties shall take all measures necessary, in accordance with this Agreement, for the reciprocal protection of the names referred to in Article 4(a) and (b) second indents, which are used for the description and presentation of wines, spirit drinks and aromatised wines originating in the territory of the Parties. To that end, each Party shall make use of the appropriate legal means referred to in Article 23 of the TRIPS Agreement to ensure an effective protection and prevent geographical indications from being used to identify wines, spirit drinks and aromatised wines not covered by the indications or the descriptions concerned.

7. If a geographical indication listed in Appendix 1 is homonymous with a geographical indication for a third country, Article 23(3) of the TRIPS Agreement applies.

9. Nothing in this Agreement shall oblige a Party to protect a geographical indication of the other Party listed in Appendix 1 which is not or ceases to be protected in its country of origin or which has fallen into disuse in that country.
10. On the entry into force of this Agreement, the Parties shall no longer deem that the protected geographical names listed in Appendix 1 are customary in the common language of the Parties as a common name for wines, spirit drinks and aromatised wines as foreseen in Article 24(6) of the TRIPS Agreement.

General requirements

1. For the purpose of implementing this Agreement, the following products shall be considered as originating in the Community:

- (a) products wholly obtained in the Community within the meaning of Article 5;
- (b) products obtained in the Community incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in the Community within the meaning of Article 6.

- (b) products obtained in Montenegro incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in Montenegro within the meaning of Article 6.

Article 3

Cumulation in the Community

1. Without prejudice to the provisions of Article 2(1), products shall be considered as originating in the Community if such products are obtained there, incorporating materials originating in Montenegro, in the Community or in any country or territory participating in the European Union's Stabilisation and Association process ⁽¹⁾, or incorporating the materials originating in Turkey to which the Decision n° 1/95 of the EC-Turkey Association Council of 22 December 1995 ⁽²⁾ applies, provided that the working or processing carried out in the Community goes beyond the operations referred to in Article 7. It shall not be necessary that such materials have undergone sufficient working or processing.

2. Where the working or processing carried out in the Community does not go beyond the operations referred to in Article 7, the product obtained shall be considered as originating in the Community only where the value added there is greater than the value of the materials used originating in any one of the other countries or territories referred to in paragraph 1. 4. The cumulation provided for in this Article may be applied only provided that:

- (c) notices indicating the fulfilment of the necessary requirements to apply cumulation have been published in the Official Journal of the European Union (C series) and in Montenegro according to its own procedures.

The cumulation provided for in this Article shall apply from the date indicated in the notice published in the Official Journal of the European Union (C series).

It shall not be necessary that such materials have undergone sufficient working or processing.

2. Where the working or processing carried out in Montenegro does not go beyond the operations referred to in Article 7, the product obtained shall be considered as originating in Montenegro only where the value added there is greater than the value of the materials used originating in any one of the other countries or territories referred to in paragraph 1. If this is not so, the product obtained shall be considered as originating in the country which accounts for the highest value of originating materials used in the manufacture in Montenegro.

3. Products, originating in one of the countries or territories referred to in paragraph 1, which do not undergo any working or processing in Montenegro, retain their origin if exported into one of these countries or territories.

4. The cumulation provided for in this Article may be applied only provided that:

1. For the purposes of Article 2, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the list in Annex II are fulfilled.

The conditions referred to above indicate, for all products covered by this Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. It follows that if a product which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list, should not be used in the manufacture of a product may nevertheless be used, provided that:

- (a) their total value does not exceed 10 % of the ex-works price of the product;
- (b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded through the application of this paragraph.

This paragraph shall not apply to products falling within Chapters 50 to 63 of the Harmonized System.

3. Paragraphs 1 and 2 shall apply subject to the provisions of Article 7.

Article 7

Insufficient working or processing

1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 6 are satisfied:

- (b) breaking-up and assembly of packages;
- (c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;

- (o) a combination of two or more operations specified in (a) to (n);
- (p) slaughter of animals.

2. All operations carried out either in the Community or in Montenegro on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

Article 8

Unit of qualification

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonized System.

It follows that:

- (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification;
- (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonized System, each product must be taken individually when applying the provisions of this Protocol.

2. Where, under General Rule 5 of the Harmonized System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 9

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 10

Sets

Sets, as defined in General Rule 3 of the Harmonized System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 % of the ex-works price of the set.

*Article 11***Neutral elements**

In order to determine whether a product originates, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools;
- (d) goods which do not enter and which are not intended to enter into the final composition of the product.

TITLE III

TERRITORIAL REQUIREMENTS*Article 12***Principle of territoriality**

1. Except as provided for in Articles 3 and 4 and paragraph 3 of this Article, the conditions for acquiring originating status set out in Title II must be fulfilled without interruption in the Community or in Montenegro.

- (a) the returning goods are the same as those exported;
- and
- (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

3. The acquisition of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside the Community or Montenegro on materials exported from the Community or from Montenegro and subsequently re-imported there, provided:

- (a) the said materials are wholly obtained in the Community or in Montenegro or have undergone working or processing beyond the operations referred to in Article 7 prior to being exported;

4. For the purposes of paragraph 3, the conditions for acquiring originating status set out in Title II shall not apply to working or processing done outside the Community or Montenegro. But where, in the list in Annex II, a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the end product, the total value of the non-originating materials incorporated in the territory of the party concerned, taken together with the total added value acquired outside the Community or Montenegro by applying the provisions of this Article, shall not exceed the stated percentage.

5. For the purposes of applying the provisions of paragraphs 3 and 4, 'total added value' shall be taken to mean all costs arising outside the Community or Montenegro, including the value of the materials incorporated there.

6. The provisions of paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Annex II or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 6(2) is applied.

8. Any working or processing of the kind covered by the provisions of this Article and done outside the Community or Montenegro shall be done under the outward processing arrangements, or similar arrangements.

1. The preferential treatment provided for under this Agreement applies only to products, satisfying the requirements of this Protocol, which are transported directly between the Community and Montenegro or through the territories of the other countries or territories referred to in Articles 3 and 4. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition.

Originating products may be transported by pipeline across territory other than that of the Community or Montenegro.

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing country by the production of:

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV

Article 15

Prohibition of drawback of, or exemption from, customs duties

1. 2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in the Community or in Montenegro to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.

3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.

4. The provisions of paragraphs 1 to 3 shall also apply in respect of packaging within the meaning of Article 8(2), accessories, spare parts and tools within the meaning of Article 9 and products in a set within the meaning of Article 10 when such items are non-originating.

5. The provisions of paragraphs 1, 2, 3 and 4 shall apply only in respect of materials which are of the kind to which this Agreement applies. Furthermore, they shall not preclude the application of an export refund system for agricultural products, applicable upon export in accordance with the provisions of this Agreement.

TITLE V

PROOF OF ORIGIN

Article 16

General requirements

1. Products originating in the Community shall, on importation into Montenegro and products originating in Montenegro shall, on importation into the Community benefit from this Agreement upon submission of either:

- (a) a movement certificate EUR.1, a specimen of which appears in Annex III; or

(b) in the cases specified in Article 22(1), a declaration, subsequently referred to as the 'invoice declaration', given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified; the text of the invoice declaration appears in Annex IV.

2. Notwithstanding paragraph 1, originating products within the meaning of this Protocol shall, in the cases specified in Article 27, benefit from this Agreement without it being necessary to submit any of the documents referred to above.

Article 17

Procedure for the issue of a movement certificate EUR.1

1. A movement certificate EUR.1 shall be issued by the customs authorities of the exporting country on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorised representative.

2. For this purpose, the exporter or his authorised representative shall fill out both the movement certificate EUR.1 and the application form, specimens of which appear in Annex III. These forms shall be completed in one of the languages in which this Agreement is drawn up and in accordance with the provisions of the domestic law of the exporting country. If they are handwritten, they shall be completed in ink in printed characters. The description of the products must be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.

3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities of the exporting country where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. A movement certificate EUR.1 shall be issued by the customs authorities of a Member State of the Community or of Montenegro if the products concerned can be considered as products originating in the Community, Montenegro or in one of the other countries or territories referred to in Articles 3 and 4 and fulfil the other requirements of this Protocol.

5. The customs authorities issuing movement certificates EUR.1 shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Protocol. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. They shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the certificate.

7. A movement certificate EUR.1 shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 18

Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 17(7), a movement certificate EUR.1 may exceptionally be issued after exportation of the products to which it relates if:

(a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances;

or

(b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.

2. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.

3. The customs authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.

4. Movement certificates EUR.1 issued retrospectively must be endorsed with the following phrase in English:

'ISSUED RETROSPECTIVELY'.

5. The endorsement referred to in paragraph 4 shall be inserted in the 'Remarks' box of the movement certificate EUR.1.

Article 19

Issue of a duplicate movement certificate EUR.1

1. In the event of theft, loss or destruction of a movement certificate EUR.1, the exporter may apply to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession.

2. The duplicate issued in this way must be endorsed with the following word in English:

'DUPLICATE'.

3. The endorsement referred to in paragraph 2 shall be inserted in the 'Remarks' box of the duplicate movement certificate EUR.1.

4. The duplicate, which must bear the date of issue of the original movement certificate EUR.1, shall take effect as from that date.

Article 20

Issue of movement certificates EUR.1 on the basis of a proof of origin issued or made out previously

When originating products are placed under the control of a customs office in the Community or in Montenegro, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 for the purpose of sending all or some of these products elsewhere within the Community or Montenegro. The replacement movement certificate(s) EUR.1 shall be issued by the customs office under whose control the products are placed.

Article 21

Accounting segregation

1. Where considerable cost or material difficulties arise in keeping separate stocks of originating and non-originating materials which are identical and interchangeable, the customs authorities may, at the written request of those concerned, authorise the so-called 'accounting segregation' method to be used for managing such stocks.

2. This method must be able to ensure that, for a specific reference-period, the number of products obtained which could be considered as 'originating' is the same as that which would have been obtained if there had been physical segregation of the stocks.

3. The customs authorities may grant such authorisation, subject to any conditions deemed appropriate.

4. This method is recorded and applied on the basis of the general accounting principles applicable in the country where the product was manufactured.

5. The beneficiary of this facilitation may issue or apply for proofs of origin, as the case may be, for the quantity of products which may be considered as originating. At the request of the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.

6. The customs authorities shall monitor the use made of the authorisation and may withdraw it at any time whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Protocol.

Article 22

Conditions for making out an invoice declaration

1. An invoice declaration as referred to in Article 16(1)(b) may be made out:

(a) by an approved exporter within the meaning of Article 23,

or

(b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6 000.

2. An invoice declaration may be made out if the products concerned can be considered as products originating in the Community, in Montenegro or in one of the other countries or territories referred to in Articles 3 and 4 and fulfil the other requirements of this Protocol.

3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex IV, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the domestic law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.

5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 23 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting country a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.

6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country no longer than two years after the importation of the products to which it relates.

Article 23

Approved exporter

1. The customs authorities of the exporting country may authorise any exporter, hereinafter referred to as 'approved exporter', who makes frequent shipments of products under this Agreement to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Protocol.

2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.

3. The customs authorities shall grant to the approved exporter a customs authorisation number which shall appear on the invoice declaration.

4. The customs authorities shall monitor the use of the authorisation by the approved exporter.

5. The customs authorities may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, no longer fulfils the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

Article 24

Validity of proof of origin

1. A proof of origin shall be valid for four months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.

2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.

3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 25

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of this Agreement.

Article 26

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonized System falling within Sections XVI and XVII or headings 7308 and 9406 of the Harmonized System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

Article 27

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not

imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on the customs declaration CN22/CN23 or on a sheet of paper annexed to that document.

2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

Article 28

Supporting documents

The documents referred to in Articles 17(3) and 22(3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in the Community, in Montenegro or in one of the other countries or territories referred to in Articles 3 and 4 and fulfil the other requirements of this Protocol may consist *inter alia* of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal book-keeping;
- (b) documents proving the originating status of materials used, issued or made out in the Community or in Montenegro where these documents are used in accordance with domestic law;
- (c) documents proving the working or processing of materials in the Community or in Montenegro, issued or made out in the Community or in Montenegro, where these documents are used in accordance with domestic law;
- (d) movement certificates EUR.1 or invoice declarations proving the originating status of materials used, issued or made out in the Community or in Montenegro in accordance with this Protocol, or in one of the other countries or territories referred to in Articles 3 and 4, in accordance with rules of origin which are identical to the rules in this Protocol;
- (e) appropriate evidence concerning working or processing undergone outside the Community or Montenegro by application of Article 12, proving that the requirements of that Article have been satisfied.

Article 29

Preservation of proof of origin and supporting documents

1. The exporter applying for the issue of a movement certificate EUR.1 shall keep for at least three years the documents referred to in Article 17(3).
2. The exporter making out an invoice declaration shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 22(3).
3. The customs authorities of the exporting country issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 17(2).
4. The customs authorities of the importing country shall keep for at least three years the movement certificates EUR.1 and the invoice declarations submitted to them.

Article 30

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

Article 31

Amounts expressed in euro

1. For the application of the provisions of Article 22(1)(b) and Article 27(3) in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the Member States of the Community, of Montenegro and of the other countries or territories referred to in Articles 3 and 4 equivalent to the amounts expressed in euro shall be fixed annually by each of the countries concerned.
2. A consignment shall benefit from the provisions of Article 22(1)(b) or Article 27(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.
3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the European Commission by 15 October and shall apply from 1 January the following year. The European Commission shall notify all countries concerned of the relevant amounts.

4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 %. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 % in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Stabilisation and Association Committee at the request of the Community or of Montenegro. When carrying out this review, the Stabilisation and Association Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

TITLE VI

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

Article 32

Mutual assistance

1. The customs authorities of the Member States of the Community and of Montenegro shall provide each other, through the European Commission, with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and with the addresses of the customs authorities responsible for verifying those certificates and invoice declarations.
2. In order to ensure the proper application of this Protocol, the Community and Montenegro shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1 or the invoice declarations and the correctness of the information given in these documents.

Article 33

Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.
2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in the Community, in Montenegro or in one of the other countries or territories referred to in Articles 3 and 4 and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

Article 34

Dispute settlement

Where disputes arise in relation to the verification procedures of Article 33 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Stabilisation and Association Committee.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall be under the legislation of the said country.

Article 35

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

Article 36

Free zones

1. The Community and Montenegro shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By means of an exemption to the provisions contained in paragraph 1, when products originating in the Community or in

Montenegro are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request, if the treatment or processing undergone is in conformity with the provisions of this Protocol.

TITLE VII

2. FINAL PROVISIONS

Article 39

Amendments to this Protocol

The Stabilisation and Association Council may decide to amend the provisions of this Protocol.

ANNEX I

INTRODUCTORY NOTES TO THE LIST IN ANNEX II

Note 1

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 6.

Note 2

- 2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonised System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an 'ex', this signifies that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 or 4 apply to all products which, under the Harmonised System, are classified in headings of the chapter or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.
- 2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 is to be applied.

Note 3

- 3.1. The provisions of Article 6, concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in a contracting party.

Example:

An engine of heading 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 % of the ex-works price, is made from 'other alloy steel roughly shaped by forging' of heading ex 7224.

If this forging has been forged in the Community from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading ex 7224 in the list. The forging can then count as originating in the value-calculation for the engine, regardless of whether it was produced in the same factory or in another factory in the Community. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2. The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.

- 3.3. Without prejudice to Note 3.2, where a rule uses the expression 'Manufacture from materials of any heading', then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

However, the expression 'Manufacture from materials of any heading, including other materials of heading ...' or 'Manufacture from materials of any heading, including other materials of the same heading as the product' means that materials of any heading(s) may be used, except those of the same description as the product as given in column 2 of the list.

- 3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of headings 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other, or both.

- 3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading 1904, which specifically excludes the use of cereals and their derivatives, does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth – even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn – that is, the fibre stage.

- 3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4

- 4.1. The term 'natural fibres' is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.
- 4.2. The term 'natural fibres' includes horsehair of heading 0503, silk of headings 5002 and 5003, as well as wool-fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable fibres of headings 5301 to 5305.
- 4.3. The terms 'textile pulp', 'chemical materials' and 'paper-making materials' are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.

- 4.4. The term 'man-made staple fibres' is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

Note 5

- 5.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10 % or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below.)
- 5.2. However, the tolerance mentioned in Note 5.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current-conducting filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of poly(phenylene sulphide),
- synthetic man-made staple fibres of poly(vinyl chloride),
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,

- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,
- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading 5605.

Example:

A yarn, of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp) may be used, provided that their total weight does not exceed 10 % of the weight of the yarn.

Example:

A woollen fabric, of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin-rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used, provided that their total weight does not exceed 10 % of the weight of the fabric.

Example:

Tufted textile fabric, of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is a only mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading 5205 and synthetic fabric of heading 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

- 5.3. In the case of products incorporating 'yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped', this tolerance is 20 % in respect of this yarn.
- 5.4. In the case of products incorporating 'strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film', this tolerance is 30 % in respect of this strip.

Note 6

- 6.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.
- 6.2. Without prejudice to Note 6.3, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

- 6.3. Where a percentage-rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7

- 7.1. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the 'specific processes' are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation-process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation.

- 7.2. For the purposes of headings 2710, 2711 and 2712, the 'specific processes' are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation-process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (ij) isomerisation;
- (k) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85 % of the sulphur-content of the products processed (ASTM D 1266-59 T method);
- (l) in respect of products of heading 2710 only, deparaffining by a process other than filtering;
- (m) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 °C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;

- (n) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;
 - (o) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush-discharge;
 - (p) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0,75 % of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.
- 7.3. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, water-separation, filtering, colouring, marking, obtaining a sulphur-content as a result of mixing products with different sulphur-contents, or any combination of these operations or like operations, do not confer origin.

PROTOCOL 4

on land transport

Article 1

Aim

The aim of this Protocol is to promote cooperation between the Parties on land transport, and in particular transit traffic, and to ensure for this purpose that transport between and through the territories of the Parties is developed in a coordinated manner by means of the complete and interdependent application of all the provisions of this Protocol.

Article 2

Scope

1. Cooperation shall cover land transport, and in particular road, rail and combined transport, and shall include the relevant infrastructure.

2. In this connection, the scope of this Protocol shall cover in particular:

- transport infrastructure in the territory of one or other Party to the extent necessary to achieve the objective of this Protocol;
- market access, on a reciprocal basis, in the field of road transport;
- essential legal and administrative supporting measures including commercial, taxation, social and technical measures;
- cooperation in developing a transport system which meets environmental needs;
- a regular exchange of information on the development of the transport policies of the Parties, with particular regard to transport infrastructure.

Article 3

Definitions

For the purposes of this Protocol, the following definitions shall apply:

- (a) Community transit traffic: the carriage, by a carrier established in the Community, of goods in transit through the territory of Montenegro 'en route' to or from a Member State of the Community;
- (b) Montenegrin transit traffic: the carriage, by a carrier established in Montenegro, of goods in transit from Montenegro through Community territory and destined for a third country or of goods from a third country destined for Montenegro;

- between the point where the goods are loaded and the nearest suitable rail loading station for the initial leg, and between the nearest suitable rail unloading station and the point where the goods are unloaded for the final leg, or

- within a radius not exceeding 150 km as the crow flies from the inland waterway port or seaport of loading or unloading.

INFRASTRUCTURE

Article 4

General Provision

The Contracting Parties hereby agree to adopt mutually coordinated measures to develop a multimodal transport infrastructure network as a vital means of solving the problems affecting the carriage of goods through Montenegro in particular on the road routes 1, 2b, 4, and 6 connecting the border with Croatia to Bar, the border with Bosnia and Herzegovina to the border with Albania, the border with Serbia to Misici and Ribaravina to Bac at the border with Serbia respectively; the rail routes 2 and 4 connecting Podgorica to the border with Albania and the border with Serbia to Bar; the port of Bar and the Podgorica airport, which form part of the Core Regional Transport Network as defined in the MoU referred to in Article 5.

Article 5

Planning

The development of a multimodal regional transport network on the territory of Montenegro which serves the needs of Montenegro and the South-Eastern European region covering the main road and rail routes, inland waterways, inland ports, ports, airports and other relevant modes of the network is of particular interest to the Community and Montenegro. This network was defined in the Memorandum of Understanding for developing a Core Transport Infrastructure Network for South East Europe which was signed by ministers from the region, and the European Commission, in June 2004. The development of the network and the selection of priorities is being carried out by a Steering Committee comprised of representatives of each of the signatories.

*Article 6***Financial aspects**

1. The Community may contribute financially, under Article 116 of this Agreement, to the necessary infrastructure work referred to in Article 5. This financial contribution may take the form of credit from the European Investment Bank and any other form of financing which can provide further additional resources.

2. In order to speed up the work the European Commission will endeavour, as far as possible, to encourage the use of additional resources such as investment by certain Member States on a bilateral basis or from public or private funds.

RAIL AND COMBINED TRANSPORT*Article 7***General provision**

The Parties shall adopt the mutually coordinated measures necessary for the development and promotion of rail and combined transport as a mean of ensuring that in the future a major proportion of their bilateral and transit transport through Montenegro is performed under more environmentally-friendly conditions.

*Article 8***Particular aspects relating to infrastructure**

As part of the modernisation of the railways of Montenegro, the necessary steps shall be taken to adapt the system for combined transport, with particular regard to the development or building of terminals, tunnel gauges and capacity, which require substantial investment.

*Article 9***Supporting measures**

The Parties shall take all the steps necessary to encourage the development of combined transport.

The purpose of such measures shall be:

- to encourage the use of combined transport by users and consignors;
- to make combined transport competitive with road transport, in particular through the financial support of the Community, Montenegro in the context of their respective legislation;
- to encourage the use of combined transport over long distances and to promote, in particular the use of swap bodies, containers and unaccompanied transport in general;

- to improve the speed and reliability of combined transport and in particular:
- to increase the frequency of convoys in accordance with the needs of consignors and users;
- to reduce the waiting time at terminals and increase their productivity;
- to remove in an appropriate manner, all obstacles from the approach routes so as to improve access to combined transport;
- to harmonise, where necessary, the weights, dimensions and technical characteristics of specialised equipment, in particular so as to ensure the necessary compatibility of gauges, and to take coordinated action to order and to put into service such equipment as is required by the level of traffic;
- and, in general, to take any other appropriate action.

*Article 10***The role of the railways**

In connection with the respective powers of the States and the railways, the Parties shall, in respect of both passenger and goods transport, recommend that their railways:

- step up cooperation, whether bilateral, multilateral or within international railway organisations, in all fields, with particular regard to the improvement of the quality and the safety of transport services;
- try to establish in common a system of organising the railways so as to encourage consignors to send freight by rail rather than road, in particular for transit purposes, on a basis of fair competition and while leaving the user freedom of choice in this matter;
- prepare the participation of Montenegro in the implementation and future evolution of the Community *acquis* on the development of the railways.

ROAD TRANSPORT*Article 11***General Provisions**

1. With regard to mutual access to transport markets, the Parties agree, initially and without prejudice to paragraph 2, to maintain the regime resulting from bilateral Agreements or other existing international bilateral instruments concluded between each Member State of the Community and Montenegro or, where there are no such Agreements or instruments, arising from the de facto situation in 1991.

However, whilst awaiting the conclusion of Agreements between the Community and Montenegro on access to the road transport market, as provided for in Article 12, and on road taxation, as provided for in Article 13(2), Montenegro shall cooperate with the Member States of the Community to amend these bilateral Agreements to adapt them to this Protocol.

2. The Parties hereby agree to grant unrestricted access to Community transit traffic through Montenegro and to Montenegrin transit traffic through the Community with effect from the date of entry into force of this Agreement.

3. If, as a result of the rights granted under paragraph 2, transit traffic by Community hauliers increases to such a degree as to cause or threaten to cause serious harm to road infrastructure and/or traffic fluidity on the axes mentioned in Article 5, and under the same circumstances problems arise on Community territory close to the borders of Montenegro, the matter shall be submitted to the Stabilisation and Association Council in accordance with Article 121 of this Agreement. The Parties may propose exceptional temporary, non-discriminatory measures as are necessary to limit or mitigate such harm.

4. If the Community establishes rules aiming to reduce pollution caused by heavy goods vehicles registered in the European Union and to improve traffic safety, a similar regime shall apply to heavy goods vehicles registered in Montenegro that wish to circulate through the Community territory. The Stabilisation and Association Council shall decide on the necessary modalities.

5. The Parties shall refrain from taking any unilateral action that might lead to discrimination between Community carriers or vehicles and carriers or vehicles from Montenegro. Each Contracting Party shall take all steps necessary to facilitate road transport to or through the territory of the other Contracting Party.

Article 12

Access to the market

The Parties shall, as a matter of priority, undertake to work together to seek, each of them subject to their internal rules:

- courses of action likely to favour the development of a transport system which meets the needs of the Contracting Parties, and which is compatible, on the one hand, with the completion of the internal Community market and the implementation of the common transport policy and, on the other hand, with economic and transport policies of Montenegro;
- a definitive system for regulating future road transport market access between Contracting Parties on the basis of reciprocity.

Article 13

Taxation, tolls and other charges

1. The Parties accept that the taxation of road vehicles, tolls and other charges on either side must be non-discriminatory.

2. The Parties shall enter into negotiations with a view to reaching an agreement on road taxation, as soon as possible, on the basis of the rules adopted by the Community on this matter. The purpose of this Agreement shall be, in particular, to ensure the free flow of trans-frontier traffic, to progressively eliminate differences between the road taxation systems applied by the Parties and to eliminate distortions of competition arising from such differences.

3. Pending the conclusion of the negotiations mentioned in paragraph 2, the Parties will eliminate discrimination between hauliers of the Community and Montenegro when levying taxes and charges on the circulation and/or possession of heavy goods vehicles as well as taxes or charges levied on transport operations in the territory of the Parties. Montenegro undertakes to notify the European Commission, if so requested, the amount of taxes, tolls and charges which they apply, as well as the methods of calculating them.

4. Until the conclusion of the Agreement mentioned in paragraph 2 and in Article 12 any change proposed after the entry into force of this Agreement to fiscal charges, tolls or other charges, including the systems for their collection which may be applied to Community traffic in transit through Montenegro will be subject to a prior consultation procedure.

Article 14

Weights and dimensions

1. Montenegro accepts that road vehicles complying with Community standards on weights and dimensions may circulate freely and without hindrance in this respect on the routes covered by Article 5. During six months after the entry into force of this Agreement, road vehicles which do not comply with existing standards of Montenegro may be subject to a special non-discriminatory charge which reflects the damage caused by additional axle weight.

2. Montenegro will endeavour to harmonise their existing regulations and standards for road construction with the legislation prevailing in the Community by the end of the fifth year after the entry into force of this Agreement and will make major efforts for improvement of the existing routes covered by Article 5 to those new regulations and standards within the proposed time, in accordance with their financial possibilities.

Article 15

Environment

1. In order to protect the environment, the Parties shall endeavour to introduce standards on gaseous and particulate emissions and noise levels for heavy goods vehicles, which ensure a high level of protection.

2. In order to provide the industry with clear information and to encourage coordinated research, programming and production, exceptional national standards in this field shall be avoided.

Vehicles which comply with standards laid down by international Agreements also relating to environment may operate without further restrictions in the territory of the Parties.

3. For the purpose of introducing new standards, the Parties shall work together to achieve the abovementioned objectives.

Article 16

Social aspects

1. Montenegro shall harmonise their legislations on the training of road haulage personnel, particularly with respect to the carriage of dangerous goods, to the EC standards.

2. Montenegro as a contracting party to the European Agreement concerning the work of crews of vehicles engaged in international road transport (ERTA), and the Community will coordinate to the maximum extent possible their policies concerning driving time, interruptions and rest periods for drivers and crew composition, in respect of the future development of the social legislation in this area.

3. The Parties shall cooperate with regard to implementation and enforcement of the social legislation in the field of road transport.

4. The Parties shall ensure the equivalence of their respective laws on the admission to the occupation of road haulage operator, with a view to their mutual recognition.

Article 17

Provisions relating to traffic

1. The Parties shall pool their experience and endeavour to harmonise their legislation so as to improve the flow of traffic during peak periods (weekends, public holidays, the tourist season).

2. In general, the Parties shall encourage the introduction, development and coordination of a road traffic information system.

3. They shall endeavour to harmonise their legislation on the carriage of perishable goods, live animals and dangerous substances.

4. The Parties shall also endeavour to harmonise the technical assistance to be provided to drivers, the dissemination of essential information on traffic and other matters of concern to tourists, and emergency services including ambulance services.

Article 18

Road Safety

1. Montenegro shall harmonise their legislation on road safety, particularly with regard to the transport of dangerous goods, to that of the Community by the end of the second year after the entry into force of this Agreement.

2. Montenegro as a contracting Party of the European Agreement concerning the International Carriage of Dangerous Goods by Road (ADR) and the Community will coordinate to the maximum extent possible their policies concerning the carriage of dangerous goods.

3. The Parties shall cooperate with regard to implementation and enforcement of road safety legislation, particularly on driving licences and measures to reduce road accidents.

SIMPLIFICATION OF FORMALITIES

Article 19

Simplification of formalities

1. The Parties agree to simplify the flow of goods by rail and road, whether bilateral or in transit.

2. The Parties agree to begin negotiations with a view to concluding an Agreement on the facilitation of controls and formalities relating to the carriage of goods.

3. The Parties agree, to the extent necessary, to take joint action on, and to encourage, the adoption of further simplification measures.

FINAL PROVISIONS

Article 20

Widening of the scope

If one of the Parties concludes, on the basis of experience in the application of this Protocol, that other measures which do not fall within the scope of this Protocol are in the interest of a coordinated European transport policy and, in particular, may help to solve the problem of transit traffic, it shall make suggestions in this respect to the other Party.

*Article 21***Implementation**

1. Cooperation between the Parties shall be carried out within the framework of a special Sub-committee to be created in accordance with Article 123 of this Agreement.

2. This Sub-committee in particular:

(a) shall draw up plans for cooperation on rail and combined transport, transport research and the environment;

(b) shall analyse the application of the decisions contained in the present Protocol and shall recommend to the Stabilisation and Association Committee appropriate solutions for any possible problems which might arise;

(c) shall, two years after the entry into force of this Agreement, undertake an assessment of the situation as regards infrastructure improvement and the implications of free transit;

(d) shall coordinate the monitoring, forecasting and other statistical work relating to international transport and in particular transit traffic.

JOINT DECLARATION

1. The Community and Montenegro take note that the levels of gaseous emissions and noise currently accepted in the Community for the purposes of heavy goods vehicle type approval from 9.11.2006 ⁽¹⁾ are as follows ⁽²⁾:

Limit values measured on the European Steady Cycle (ESC) and the European Load Response (ELR) test:

		Mass of carbon monoxide	Mass of hydrocarbons	Mass of nitrogen oxides	Mass of particulates	Smoke
		(CO) g/kWh	(HC) g/kWh	(NOx) g/kWh	(PT) g/kWh	m ⁻¹
Row B1	Euro IV	1,5	0,46	3,5	0,02	0,5

Limit values measured on the European Transient Cycle (ETC):

		Mass of carbon monoxide	Mass of non-methane hydrocarbons	Mass of methane	Mass of nitrogen oxides	Mass of particulates
		(CO) g/kWh	(NMHC) g/kWh	(CH ₄) ^(a) g/kWh	(NOx) g/kWh	(PT) ^(b) g/kWh
Row B1	Euro IV	4,0	0,55	1,1	3,5	0,03

^(a) For natural gas engines only;

^(b) Not applicable for gas fuelled engines.

2. In the future, the Community and Montenegro shall endeavour to reduce the emissions of motor vehicles through the use of state of the art vehicle emission control technology coupled with improved quality of motor fuel.

⁽¹⁾ Directive 2005/55/EC of 28 September 2005 on the approximation of the laws of the Member States relating to the measures to be taken against the emission of gaseous and particulate pollutants from compression-ignition engines for use in vehicles, and the emission of gaseous pollutants from positive-ignition engines fuelled with natural gas or liquefied petroleum gas for use in vehicles (OJ L 275, 20.10.2005, p. 1).

⁽²⁾ These limit values will be updated as foreseen in the relevant directives and according to their possible future revisions.

PROTOCOL 5
on state aid to the steel industry

1. The Parties recognise the need that Montenegro addresses promptly any structural weaknesses of its steel sector to ensure the global competitiveness of its industry.
2. Further to the disciplines stipulated by paragraph 1(iii) of Article 73 of this Agreement, the assessment of the compatibility of State aid to the steel industry as defined in Annex I of the Guidelines on national regional aid for 2007-2013 shall be made on the basis of the criteria arising from the application of Article 87 of the EC Treaty to the steel sector, including secondary legislation.
3. For the purposes of applying the provisions of paragraph 1(iii) of Article 73 of this Agreement with regard to the steel industry, the Community recognises that, during five years after the entry into force of this Agreement, Montenegro may exceptionally grant State aid for restructuring purposes to steel producing firms in difficulties, provided that
 - (a) it leads to the long-term viability of the benefiting firms under normal market conditions at the end of the restructuring period, and
 - (b) the amount and intensity of such aid are strictly limited to what is absolutely necessary in order to restore such viability, and aid is where appropriate progressively reduced;
 - (c) Montenegro presents restructuring programmes that are linked to a global rationalisation which includes the closing of inefficient capacity. Every steel producing firm benefiting from restructuring aid shall, as far as possible, provide for compensatory measures balancing the distortion of competition caused by the aid.
4. Montenegro shall submit to the European Commission for assessment a National Restructuring Programme and individual business plans for each of the companies benefiting from restructuring aid which demonstrate that the above conditions are fulfilled.

The individual business plans shall have been assessed and agreed by the State aid monitoring authority of Montenegro in view of their compliance with paragraph 3 of this Protocol.

The European Commission shall confirm that the National Restructuring Programme is in compliance with the requirements of paragraph 3.

5. The European Commission shall monitor the implementation of the plans, in close cooperation with the competent national authorities, in particular the State aid monitoring authority of Montenegro.

If the monitoring indicates that aid to the beneficiaries which is not approved in the National Restructuring Programme or any restructuring aid to steel firms not identified in the National Restructuring Programme has been granted from the date of signature of this Agreement onwards, the State aid monitoring authority of Montenegro shall ensure that any such aid is reimbursed.

6. Upon request, the Community shall provide Montenegro with technical support for the preparation of the National Restructuring Programme and the individual business plans.
 7. Each Party shall ensure full transparency with respect to State aid. In particular, as regards State aid granted to steel production in Montenegro and the implementation of the restructuring programme and the business plans, a full and continuous exchange of information shall take place.
 8. The Stabilisation and Association Council shall monitor the implementation of the requirements set out in paragraphs 1 to 4 above. To this effect, the Stabilisation and Association Council may draft implementing rules.
 9. If one of the Parties considers that a particular practice of the other Party is incompatible with the terms of this Protocol, and if that practice causes or threatens to cause prejudice to the interests of the first Party or material injury to its domestic industry, this Party may take appropriate measures after consultation within the Sub-Committee dealing with competition matters or after thirty working days following referral for such consultation.
-

- (a) to deliver any documents or
- (b) to notify any decisions,

emanating from the applicant authority and falling within the scope of this Protocol, to an addressee residing or established in the territory of the requested authority.

Requests for delivery of documents or notification of decisions shall be made in writing in an official language of the requested authority or in a language acceptable to that authority.

Article 6

Form and substance of requests for assistance

1. Requests pursuant to this Protocol shall be made in writing. They shall be accompanied by the documents necessary to enable compliance with the request. When required because of the urgency of the situation, oral requests may be accepted, but must be confirmed in writing immediately.
2. Requests pursuant to paragraph 1 shall include the following information:
 - (a) the applicant authority;
 - (b) the measure requested;
 - (c) the object of and the reason for the request;
 - (d) the legal or regulatory provisions and other legal elements involved;
 - (e) indications as exact and comprehensive as possible on the natural or legal persons who are the target of the investigations;
 - (f) a summary of the relevant facts and of the enquiries already carried out.
3. Requests shall be submitted in an official language of the requested authority or in a language acceptable to that authority. This requirement shall not apply to any documents that accompany the request under paragraph 1.

4. If a request does not meet the formal requirements set out above, its correction or completion may be requested; in the meantime precautionary measures may be ordered.

Article 7

Execution of requests

1. In order to comply with a request for assistance, the requested authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of other authorities of that same Contracting Party, by supplying information already possessed, by carrying out appropriate enquiries or by arranging for them to be carried out. This provision shall also apply to any other authority to which the request has been addressed by the requested authority when the latter cannot act on its own.
2. Requests for assistance shall be executed in accordance with the legal or regulatory provisions of the requested Contracting Party.
3. Duly authorised officials of a Contracting Party may, with the agreement of the other Contracting Party involved and subject to the conditions laid down by the latter, be present to obtain in the offices of the requested authority or any other concerned authority in accordance with paragraph 1, information relating to activities that are or may be operations in breach of customs legislation which the applicant authority needs for the purposes of this Protocol.
4. Duly authorised officials of a Contracting Party involved may, with the agreement of the other Contracting Party involved and subject to the conditions laid down by the latter, be present at enquiries carried out in the latter's territory.

Article 8

Form in which information is to be communicated

1. The requested authority shall communicate results of enquiries to the applicant authority in writing together with relevant documents, certified copies or other items.
2. This information may be in computerised form.
3. Original documents shall be transmitted only upon request in cases where certified copies would be insufficient. These originals shall be returned at the earliest opportunity.

Article 9

Exceptions to the obligation to provide assistance

1. Assistance may be refused or may be subject to the satisfaction of certain conditions or requirements, in cases where a Party is of the opinion that assistance under this Protocol would:
 - (a) be likely to prejudice the sovereignty of Montenegro or that of a Member State which has been requested to provide assistance under this Protocol; or

(b) be likely to prejudice public policy, security or other essential interests, in particular in the cases referred to under Article 10(2); or

(c) violate an industrial, commercial or professional secret.

2. Assistance may be postponed by the requested authority on the ground that it will interfere with an ongoing investigation, prosecution or proceeding. In such a case, the requested authority shall consult with the applicant authority to determine if assistance can be given subject to such terms or conditions as the requested authority may require.

3. Where the applicant authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.

4. For the cases referred to in paragraphs 1 and 2, the decision of the requested authority and the reasons therefor must be communicated to the applicant authority without delay.

Article 10

Information exchange and confidentiality

1. Any information communicated in whatsoever form pursuant to this Protocol shall be of a confidential or restricted nature, depending on the rules applicable in each of the Contracting Parties. It shall be covered by the obligation of official secrecy and shall enjoy the protection extended to similar information under the relevant laws of the Contracting Party that received it and the corresponding provisions applying to the Community authorities.

2. Personal data may be exchanged only where the Contracting Party which may receive them undertakes to protect such data in at least an equivalent way to the one applicable to that particular case in the Contracting Party that may supply them. To that end, contracting parties shall communicate to each other information on their applicable rules, including, where appropriate, legal provisions in force in the Member States of the Community.

3. The use, in judicial or administrative proceedings instituted in respect of operations in breach of customs legislation, of information obtained under this Protocol, is considered to be for the purposes of this Protocol. Therefore, the Contracting Parties may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Protocol. The competent authority which supplied that information or gave access to those documents shall be notified of such use.

4. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Contracting Parties wishes to use such information for other purposes, it shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

Article 11

Experts and witnesses

An official of a requested authority may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness in judicial or administrative proceedings regarding the matters covered by this Protocol, and produce such objects, documents or certified copies thereof, as may be needed for the proceedings. The request for appearance must indicate specifically before which judicial or administrative authority the official will have to appear, on what matters and by virtue of what title or qualification the official will be questioned.

Article 12

Assistance expenses

The Contracting Parties shall waive all claims on each other for the reimbursement of expenses incurred pursuant to this Protocol, except, as appropriate, for expenses to experts and witnesses, and those to interpreters and translators who are not public service employees.

Article 13

Implementation

1. The implementation of this Protocol shall be entrusted on the one hand to the customs authorities of Montenegro and on the other hand to the competent services of the European Commission and the customs authorities of the Member States as appropriate. They shall decide on all practical measures and arrangements necessary for its application, taking into consideration the rules in force in particular in the field of data protection. They may recommend to the competent bodies amendments which they consider should be made to this Protocol.

2. The Contracting Parties shall consult each other and subsequently keep each other informed of the detailed rules of implementation which are adopted in accordance with the provisions of this Protocol.

Article 14

Other Agreements

1. Taking into account the respective competencies of the Community and the Member States, the provisions of this Protocol shall:

(a) not affect the obligations of the Contracting Parties under any other international Agreement or Convention;

- (b) be deemed complementary to Agreements on mutual assistance which have been or may be concluded between individual Member States and Montenegro; and shall
 - (c) not affect the Community provisions governing the communication between the competent services of the European Commission and the customs authorities of the Member States of any information obtained under this Protocol which could be of interest to the Community.
2. Notwithstanding the provisions of paragraph 1, the provisions of this Protocol shall take precedence over the provisions of any bilateral Agreement on mutual assistance which has been or may be concluded between individual Member States and Montenegro insofar as the provisions of the latter are incompatible with those of this Protocol.
3. In respect of questions relating to the applicability of this Protocol, the Contracting Parties shall consult each other to resolve the matter in the framework of the Stabilisation and Association Committee set up under Article 119 of this Agreement.

CHAPTER II

Dispute settlement procedures

Section I

Arbitration procedure

Article 3

Initiation of the arbitration procedure

1. Where the Parties have failed to resolve the dispute, the complaining Party may under the conditions of Article 130 of this Agreement, submit a request in writing for the establishment of an arbitration panel to the Party complained against as well as to the Stabilisation and Association Committee.
2. The complaining Party shall state in its request the subject-matter of the dispute and, as the case may be, the measure adopted by the other Party, or the failure to act, which it considers to be in breach of the provisions referred to in Article 2.

Article 4

Composition of the arbitration panel

1. An arbitration panel shall be composed of three arbitrators.
2. Within 10 days of the date of the submission of the request for the establishment of an arbitration panel to the Stabilisation and Association Committee, the Parties shall consult in order to reach an agreement on the composition of the arbitration panel.
3. In the event that the Parties are unable to agree on its composition within the time frame laid down in paragraph 2, either Party may request the chairperson of the Stabilisation and Association Committee, or her or his delegate, to select all three members by lot from the list established under Article 15, one among the individuals proposed by the complaining Party, one among the individuals proposed by the Party complained against and one among the arbitrators selected by the Parties to act as chairperson.

In case the Parties agree on one or more of the members of the arbitration panel, any remaining members shall be appointed in accordance with the same procedure.

4. The selection of the arbitrators by the chairperson of the Stabilisation and Association Committee, or her or his delegate, shall be done in the presence of a representative of each Party.

5. The date of establishment of the arbitration panel shall be the date on which the chairperson of the panel is informed of the appointment in common agreement between the Parties of the three arbitrators or, as the case may be, the date of their selection in accordance with paragraph 3.

6. Where a Party considers that an arbitrator does not comply with the requirements of the Code of Conduct referred to in Article 18, the Parties shall consult and, if they so agree, replace the arbitrator and select a replacement pursuant to paragraph 7. If the Parties fail to agree on the need to replace an arbitrator, the matter shall be referred to the chairperson of the arbitration panel, whose decision will be final.

Where a Party considers that the chairperson of the arbitration panel does not comply with the Code of Conduct referred to in Article 18, the matter shall be referred to one of the remaining members of the pool of arbitrators selected to act as chairperson, her or his name being drawn by lot by the chairperson of the Stabilisation and Association Committee, or her or his delegate, in the presence of a representative of each Party, unless otherwise agreed between the Parties.

7. If an arbitrator is unable to participate in the proceeding, withdraws or is replaced pursuant to paragraph 6, a replacement shall be selected within five days in accordance with the selection procedures followed to select the original arbitrator. The panel proceedings will be suspended for the period taken to carry out this procedure.

Article 5

Arbitration panel ruling

1. The arbitration panel shall notify its ruling to the Parties and to the Stabilisation and Association Committee within 90 days from the date of the establishment of the arbitration panel. Where it considers that this deadline cannot be met, the chairperson of the panel must notify the Parties and the Stabilisation and Association Committee in writing, stating the reasons for the delay. Under no circumstances should the ruling be issued later than 120 days from the date of the establishment of the panel.

2. In cases of urgency, including those involving perishable goods, the arbitration panel shall make every effort to issue its ruling within 45 days from the date of the establishment of the panel. Under no circumstance should it take longer than 100 days from the date of the establishment of the panel. The arbitration panel may give a preliminary ruling within 10 days of its establishment on whether it deems the case to be urgent.

3. The ruling shall set out the findings of fact, the applicability of the relevant provisions of this Agreement and the basic rationale behind any findings and conclusions that it makes. The ruling may contain recommendations on the measures to be adopted for compliance with it.

4. The complaining Party may withdraw its complaint by written notification to the chairperson of the arbitration panel, the Party complained against and the Stabilisation and Association Committee, at any time before the ruling is notified to the Parties and the Stabilisation and Association Committee. Such withdrawal is without prejudice to the complaining Party's right to introduce a new complaint regarding the same measure at a later point in time.

5. The arbitration panel shall, at the request of both Parties, suspend its work at any time for a period not exceeding 12 months. Once the period of 12 months has been exceeded, the authority for the establishment of the panel will lapse, without prejudice to the right of the complaining Party to request at a later stage the establishment of a panel on the same measure.

Section II

Compliance

Article 6

Compliance with the arbitration panel ruling

Each Party shall take any measure necessary to comply with the arbitration panel ruling, and the Parties will endeavour to agree on the reasonable period of time to comply with the ruling.

Article 7

Reasonable period of time for compliance

1. No later than 30 days after the notification of the arbitration panel ruling to the Parties, the Party complained against shall notify the complaining Party of the time it will require for compliance (hereinafter referred to as 'reasonable period of time'). Both parties shall endeavour to agree on the reasonable period of time.

2. If there is disagreement between the Parties on the reasonable period of time to comply with the arbitration panel ruling, the complaining Party may request the Stabilisation and Association Committee, within 20 days of the notification made under paragraph 1, to reconvene the original arbitration panel to determine the length of the reasonable period of time. The arbitration panel shall notify its ruling within 20 days from the date of the submission of the request.

3. In the event of the original panel, or some of its members, being unable to reconvene, the procedures set out in Article 4 of this Protocol shall apply. The time limit for notifying the ruling remains 20 days from the date of the panel's establishment.

*Article 8***Review of any measure taken to comply with the arbitration panel ruling**

1. The Party complained against shall notify the other Party and the Stabilisation and Association Committee before the end of the reasonable period of time of any measure that it has taken to comply with the arbitration panel ruling.

2. In the event that there is disagreement between the Parties concerning the compatibility of any measure notified under paragraph 1, with the provisions referred to in Article 2, the complaining Party may request the original arbitration panel to rule on the matter. Such request shall explain why the measure is not in conformity with this Agreement. Once re-convened, the arbitration panel will issue its ruling within 45 days of the date of its re-establishment.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures laid down in Article 4 shall apply. The time limit for notifying the ruling remains 45 days from the date of the panel's establishment.

*Article 9***Temporary remedies in case of non-compliance**

1. If the Party complained against fails to notify any measure taken to comply with the arbitration panel ruling before the expiry of the reasonable period of time, or if the arbitration panel rules that the measure notified under Article 8 paragraph 1 is not in conformity with that Party's obligations under this Agreement, the Party complained against shall, if so requested by the complaining Party, present an offer for temporary compensation.

2. If no agreement on compensation is reached within 30 days of the end of the reasonable period of time, or of the arbitration panel ruling under Article 8 that a measure taken to comply is not in conformity with this Agreement, the complaining Party shall be entitled, upon notification to the other Party and to the Stabilisation and Association Committee, to suspend the application of benefits granted under the provisions referred to in Article 2 of this Protocol at a level equivalent to the adverse economic impact caused by the violation. The complaining Party may implement the suspension 10 days after the date of the notification, unless the Party complained against has requested arbitration under paragraph 3.

3. If the Party complained against considers that the level of suspension is not equivalent to the adverse economic impact caused by the violation, it may request in writing to the chairperson of the original arbitration panel before the expiry of the 10 day period referred to in paragraph 2 for the reconvening

of the original arbitration panel. The arbitration panel shall notify its ruling on the level of the suspension of benefits to the Parties and to the Stabilisation and Association Committee within 30 days of the date of the submission of the request. Benefits shall not be suspended until the arbitration panel has issued its ruling, and any suspension shall be consistent with the ruling of the arbitration panel.

4. The suspension of benefits shall be temporary and shall be applied only until any measure found to violate this Agreement has been withdrawn or amended so as to bring it into conformity with this Agreement, or until the Parties have agreed to settle the dispute.

*Article 10***Review of any measure taken to comply after the suspension of benefits**

1. The Party complained against shall notify the other Party and the Stabilisation and Association Committee of any measure it has taken to comply with the ruling of the arbitration panel and of its request for an end to the suspension of benefits applied by the complaining Party.

2. If the Parties do not reach an agreement on the compatibility of the notified measure with this Agreement within 30 days of the date of the submission of the notification, the complaining Party may request in writing to the chairperson of the original arbitration panel to rule on the matter. Such request shall be notified simultaneously to the other Party and to the Stabilisation and Association Committee. The arbitration panel ruling shall be notified within 45 days of the date of the submission of the request. If the arbitration panel rules that any measure taken to comply is not in conformity with this Agreement, the arbitration panel will determine whether the complaining party can continue the suspension of benefits at the original or at a different level. If the arbitration panel rules that any measure taken to comply is in conformity with this Agreement, the suspension of benefits shall be terminated.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures laid down in Article 4 shall apply. The period for notifying the ruling remains 45 days from the date of the panel's establishment.

*Section III***Common provisions***Article 11***Open Hearings**

The meetings of the arbitration panel shall be open to the public under the conditions laid down in the Rules of Procedure referred to in Article 18, unless the arbitration panel decides otherwise on its own motion or at the request of the Parties.

Article 12

Information and technical advice

At the request of a Party, or upon its own initiative, the panel may seek information from any source it deems appropriate for the panel proceeding. The panel will also have the right to seek the opinion of experts as it deems appropriate. Any information obtained in this manner must be disclosed to both Parties and shall be open for comments. Interested parties shall be authorised to submit *amicus curiae* briefs to the arbitration panel under the conditions laid down in the Rules of Procedure referred to in Article 18.

Article 13

Interpretation principles

Arbitration panels shall apply and interpret the provisions of this Agreement in accordance with customary rules of interpretation of public international law, including the Vienna Convention on the Law of Treaties. They shall not give an interpretation of the *acquis communautaire*. The fact that a provision is identical in substance to a provision of the Treaty establishing the European Communities shall not be decisive in the interpretation of that provision.

Article 14

Arbitration panel decisions and rulings

1. All decisions of the arbitration panel, including the adoption of the ruling, shall be taken by majority vote.
2. All rulings of the arbitration panel shall be binding on the Parties. They shall be notified to the Parties and to the Stabilisation and Association Committee, which shall make them publicly available unless it decides by consensus not to do so.

CHAPTER III

General provisions

Article 15

List of arbitrators

1. The Stabilisation and Association Committee shall, no later than six months after the entry into force of this Protocol, establish a list of fifteen individuals who are willing and able to serve as arbitrators. Each of the Parties shall select five individuals to serve as arbitrators. The Parties shall also agree on five individuals which shall act as chairperson to arbitration panels. The Stabilisation and Association Committee will ensure that the list is always maintained at this level.
2. Arbitrators should have specialised knowledge and experience of law, international law, Community law and/or international trade. They shall be independent, serve in their individual capacities and not be affiliated with, or take instructions from any

organisation or government, and shall comply with the Code of Conduct referred to in Article 18.

Article 16

Relation with WTO obligations

Upon the eventual accession of Montenegro to the World Trade Organisation (WTO), the following shall apply:

- (a) Arbitration panels set up under this Protocol shall not adjudicate disputes on each Party's rights and obligations under the Agreement establishing the World Trade Organisation;
- (b) The right of any of the Parties to have recourse to the dispute settlement provisions of this Protocol shall be without prejudice to any action in the WTO framework, including dispute settlement action. However, where a Party has, with regard to a particular measure, instituted a dispute settlement proceeding, either under Article 3(1) of this Protocol or under the WTO Agreement, it may not institute a dispute settlement proceeding regarding the same measure in the other forum until the first proceeding has ended. For purposes of this paragraph, dispute settlement proceedings under the WTO Agreement are deemed to be initiated by a Party's request for the establishment of a panel under Article 6 of the Understanding on Rules and Procedures Governing the Settlement of Disputes of the WTO;
- (c) Nothing in this Protocol shall preclude a Party from implementing the suspension of obligations authorised by a WTO Dispute Settlement Body.

Article 17

Time limits

1. All time limits laid down in this Protocol shall be counted in calendar days from the day following the act or fact to which they refer.
2. Any time limit referred to in this Protocol may be extended by mutual agreement of the Parties.
3. Any deadline referred to in this Protocol may also be extended by the chairperson of the arbitration panel, on a reasoned request of either of the Parties or upon his or her own initiative.

Article 18

Rules of Procedure, Code of Conduct and modification of this Protocol

1. The Stabilisation and Association Council shall, no later than six months after the entry into force of this Protocol, establish Rules of Procedure for the conduct of the arbitration panel proceedings.
2. The Stabilisation and Association Council shall, no later than six months after the entry into force of this Protocol, complement the Rules of Procedure with a Code of Conduct guaranteeing the independence and impartiality of arbitrators.
3. The Stabilisation and Association Council may decide to modify this Protocol.

JOINT DECLARATIONS

JOINT DECLARATION ON ARTICLE 75

The Parties agree that for the purpose of this Agreement, intellectual and industrial property includes in particular copyright, including the copyright in computer programmes, and neighbouring rights, the rights relating to databases, patents including supplementary protection certificates, industrial designs, trademarks and service marks, topographies of integrated circuits, geographical indications, including appellation of origins, and plant variety rights.

The protection of commercial property rights includes in particular the protection against unfair competition as referred to in Article 10a of the Paris Convention for the Protection of Industrial Property and the protection of undisclosed information as referred to in Article 39 of the Agreement on Trade Related Aspects of Intellectual Property Rights (TRIPS Agreement).

The Parties further agree that the level of protection referred to in Article 75, paragraph 3 of this Agreement, shall include the availability of the measures, procedures and remedies provided for in Directive 2004/48/EC of the European Parliament and of the Council of 29 April 2004 on the enforcement of intellectual property rights ⁽¹⁾.

DECLARATION BY THE COMMUNITY AND ITS MEMBER STATES

Considering that exceptional trade measures are granted by the Community to countries participating in or linked to the EU Stabilisation and Association process including Montenegro on the basis of Regulation (EC) No 2007/2000, the Community and its Member States declare:

that, in application of Article 35 of this Agreement, those of the unilateral autonomous trade measures which are more favourable shall apply in addition to the contractual trade concessions offered by the Community in this Agreement as long as Council Regulation (EC) No 2007/2000 of 18 September 2000 introducing exceptional trade measures for countries and territories participating in or linked to the European Union's Stabilisation and Association process ⁽²⁾, applies;

that, in particular, for the products covered by Chapters 7 and 8 of the Combined Nomenclature, for which the Common Customs Tariff provides for the application of *ad valorem* customs duties and a specific customs duty, the reduction shall apply also to the specific customs duty in derogation from the relevant provision of Article 26, paragraph 2.
