The oil and gas sector constitutes a significant source of funding for the Government of Iran and several projects financed by Bank Tejarat are carried out by subsidiaries of entities owned and controlled by the Government of Iran. In addition, Bank Tejarat remains partly owned by and closely linked to the Government of Iran which is therefore in a position to influence Bank Tejarat's decisions, including its involvement in the financing of projects regarded by the Iranian Government as a high priority.  Furthermore, as Bank Tejarat provides financing to various crude oil productions and refining projects which necessarily require the acquisition of key equipment and technology for those sectors whose supply for use in Iran is prohibited, Bank Tejarat can be identified as being involved in the procurement of prohibited goods and technology.	8.4.2015

## COMMISSION REGULATION (EU) 2015/552

of 7 April 2015

**amending Annexes II, III and V to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for 1,3-dichloropropene, bifenox, dimethenamid-P, prohexadione, tolylfluanid and trifluralin in or on certain products**

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC <sup>(1)</sup>, and in particular Article 14(1)(a), Article 18(1)(b) and Article 49(2) thereof,

Whereas:

- (1) For dimethenamid-P and prohexadione, maximum residue levels (MRLs) were set in Annex II and Part B of Annex III to Regulation (EC) No 396/2005. For 1,3-dichloropropene and bifenox, MRLs were set in Part A of Annex III to that Regulation. For tolylfluanid and trifluralin, MRLs were set in Annex V to that Regulation.
- (2) The non-inclusion of 1,3-dichloropropene in Annex I to Council Directive 91/414/EEC <sup>(2)</sup> is provided for in Commission Decision 2011/36/EU <sup>(3)</sup>. All existing authorisations for plant protection products containing the active substance 1,3-dichloropropene have been revoked. In accordance with Article 17 of Regulation (EC) No 396/2005 in conjunction with Article 14(1) thereof the MRLs set out for that active substance in Annex III should therefore be deleted. This should not apply to those MRLs corresponding to CXLs based on uses in third countries provided that they are acceptable with regard to consumer safety. Nor should it apply in cases where MRLs have been specifically set as import tolerances.
- (3) For bifenox, the European Food Safety Authority, hereinafter 'the Authority' submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 <sup>(4)</sup>. It recommended lowering the MRLs for barley grain, oats grain, rye grain and wheat grain. It concluded that concerning the MRLs for sunflower seed and rape seed some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for these products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. Those MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation. The Authority concluded that concerning the MRLs for swine (meat, fat, liver, kidney), bovine (meat, fat, liver, kidney), sheep (meat, fat, liver, kidney), goat (meat, fat, liver, kidney), and milk (cattle, sheep, goat) no information was available and that further consideration by risk managers was required. The MRLs for these commodities should be set at the specific limit of determination or at the default MRL as set out in Article 18(1)(b) of Regulation (EC) No 396/2005.
- (4) For dimethenamid-P, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(2) of Regulation (EC) No 396/2005 in conjunction with Article 12(1) thereof <sup>(5)</sup>. It proposed to change the residue definition. It recommended lowering the MRLs for peanuts, sunflower seed, rape seed, soya bean, pumpkin seeds and sugar beet (root). For other products it recommended keeping the existing MRLs. It concluded that concerning the MRLs for spring onions, lettuce and herbs some information was not available

<sup>(2)</sup> Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant protection products on the market (OJ L 230, 19.8.1991, p. 1).

<sup>(3)</sup> Commission Decision 2011/36/EU of 20 January 2011 concerning the non-inclusion of 1,3-dichloropropene in Annex I to Council Directive 91/414/EEC (OJ L 18, 21.1.2011, p. 42).

<sup>(5)</sup> European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels (MRLs) for dimethenamid-P according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2013;11(4):3216. (53 pp.).

and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. Those MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.

- (5) For prohexadione, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(2) of Regulation (EC) No 396/2005 in conjunction with Article 12(1) thereof <sup>(1)</sup>. It recommended lowering the MRLs for table and wine grapes, strawberries, cane fruit, other small fruit and berries, barley, wheat, hops, swine (meat, fat, liver, kidney), bovine (meat, fat, liver, kidney), sheep (meat, fat, liver, kidney) and goat (meat, fat, liver, kidney). For other products it recommended raising or keeping the existing MRLs.
- (6) The removal of tolylfluanid from Annex I to Directive 91/414/EEC is provided for in Commission Directive 2010/20/EU <sup>(2)</sup>. All existing authorisations for plant protection products containing the active substance tolylfluanid have been revoked.
- (7) For tolylfluanid, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 <sup>(3)</sup>. It proposed to change the residue definition. It concluded that further consideration by risk managers was required. Taking into account the current scientific and technical knowledge, MRLs should be set at the specific limit of determination or at the default MRL in accordance with Article 18(1)(b) of Regulation (EC) No 396/2005.
- (8) The non-inclusion of trifluralin in Annex I to Directive 91/414/EEC is provided for in Commission Decision 2010/355/EU <sup>(4)</sup>. All existing authorisations for plant protection products containing the active substance trifluralin have been revoked.
- (9) For trifluralin, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 <sup>(5)</sup>. Taking into account the current scientific and technical knowledge, MRLs for those products should be set at the specific limit of determination or at the default MRL in accordance with Article 18(1)(b) of Regulation (EC) No 396/2005.
- (10) As regards products of plant and animal origin for which neither relevant authorisations or import tolerances were reported at Union level nor CXLs were available, the Authority concluded that further consideration by risk managers was required. Taking into account the current scientific and technical knowledge, MRLs for those products should be set at the specific limit of determination or at the default MRL in accordance with Article 18(1)(b) of Regulation (EC) No 396/2005.
- (11) The Commission consulted the European Union reference laboratories for residues of pesticides as regards the need to adapt certain limits of determination. As regards several substances, those laboratories concluded that for certain commodities technical development requires the setting of specific limits of determination.
- (12) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (13) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (14) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been lawfully produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained.

**COMMISSION IMPLEMENTING REGULATION (EU) 2015/553****of 7 April 2015****approving the active substance cerevisane, in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market, and amending the Annex to Commission Implementing Regulation (EU) No 540/2011****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1107/2009 of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC <sup>(1)</sup>, and in particular Article 22(1) in conjunction with Article 13(2) thereof,

Whereas:

- (1) In accordance with Article 7(1) of Regulation (EC) No 1107/2009, France received on 5 March 2012 an application from Agro-Levures et Dérivés SAS for the approval of the active substance cerevisane. In accordance with Article 9(3) of that Regulation, France, as rapporteur Member State, notified the Commission on 14 May 2012 of the admissibility of the application.
- (2) On 22 February 2013, the rapporteur Member State submitted a draft assessment report to the Commission, with a copy to the European Food Safety Authority (hereinafter 'the Authority'), assessing whether that active substance can be expected to meet the approval criteria provided for in Article 4 of Regulation (EC) No 1107/2009.
- (3) The Authority complied with Article 12(1) of Regulation (EC) No 1107/2009. In accordance with Article 12(3) of Regulation (EC) No 1107/2009, it requested that the applicant supply additional information to the Member States, the Commission and the Authority. The assessment of the additional information by the rapporteur Member State was submitted to the Authority in the format of an updated draft assessment report in January 2014.
- (4) On 5 May 2014, the Authority communicated to the applicant, the Member States and the Commission its conclusion on whether the active substance cerevisane can be expected to meet the approval criteria provided for in Article 4 of Regulation (EC) No 1107/2009 <sup>(2)</sup>. The Authority made its conclusion available to the public.
- (5) The applicant was given the possibility to submit comments on the review report.
- (6) On 11 December 2014 the Commission presented to the Standing Committee on Plants, Animals, Food and Feed the review report for cerevisane and a draft Regulation providing that cerevisane is approved.
- (7) It has been established with respect to one or more representative uses of at least one plant protection product containing the active substance, and in particular the uses which were examined and detailed in the review report, that the approval criteria provided for in Article 4 of Regulation (EC) No 1107/2009 are satisfied. Those approval criteria are therefore deemed to be satisfied. It is therefore appropriate to approve cerevisane.
- (8) The Commission further considers that cerevisane is a low-risk active substance pursuant to Article 22 of Regulation (EC) No 1107/2009. Cerevisane is not a substance of concern and fulfils the conditions set in point 5 of Annex II to Regulation (EC) No 1107/2009. The main constituent for cerevisane are cell walls of *Saccharomyces cerevisiae*, a yeast which is widespread in nature and commonly used in food production (baking, alcoholic beverages, nutritional supplement) and which is regularly consumed without any evidence of harmful potential. The additional exposure of humans, animals and the environment by the uses approved under Regulation (EC) No 1107/2009 is expected to be negligible compared to exposure expected through realistic natural situations.

<sup>(1)</sup> OJ L 309, 24.11.2009, p. 1.

<sup>(2)</sup> EFSA Journal 2014;12(6):3583.

- (9) It is therefore appropriate to approve cerevisane as a low risk substance. In accordance with Article 13(4) of Regulation (EC) No 1107/2009, the Annex to Commission Implementing Regulation (EU) No 540/2011 <sup>(1)</sup> should be amended accordingly.
- (10) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

*Article 1*

**Approval of active substance**

The active substance cerevisane, as specified in Annex I, is approved subject to the conditions laid down in that Annex.

Box: 11365 -5416, Tehran; Tel. 88826690; Tlx.: 226641 TJTA IR; Fax 88893641; Website: <a href="http://www.tejaratbank.ir">http://www.tejaratbank.ir</a>	Bank Tejarat provides significant support to the Government of Iran by offering financial resources and financing services for oil and gas development projects. The oil and gas sector constitutes a significant source of funding for the Government of Iran and several projects financed by Bank Tejarat are carried out by subsidiaries of entities owned and controlled by the Government of Iran. In addition, Bank Tejarat remains partly owned by and closely linked to the Government of Iran which is therefore in a position to influence Bank Tejarat's decisions, including its involvement in the financing of projects regarded by the Iranian Government as a high priority.  Furthermore, as Bank Tejarat provides financing to various crude oil productions and refining projects which necessarily require the acquisition of key equipment and technology for those sectors whose supply for use in Iran is prohibited, Bank Tejarat can be identified as being involved in the procurement of prohibited goods and technology.	8.4.2015

**COMMISSION IMPLEMENTING DECISION (EU) 2015/557****of 31 March 2015****amending Annex I to Decision 2004/211/EC as regards the entry for China in the list of third countries and parts thereof from which imports into the Union of live equidae and semen, ova and embryos of the equine species are authorised***(notified under document C(2015) 2070)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 92/65/EEC of 13 July 1992 laying down animal health requirements governing trade in and imports into the Community of animals, semen, ova and embryos not subject to animal health requirements laid down in specific Community rules referred to in Annex A(I) to Directive 90/425/EEC <sup>(1)</sup>, and in particular Article 17(3)(a) thereof,

Having regard to Council Directive 2009/156/EC of 30 November 2009 on animal health conditions governing the movement and importation from third countries of equidae <sup>(2)</sup>, and in particular Article 12(1) and (4), and the introductory phrase and points (a) and (b) of Article 19 thereof,

Whereas:

- (1) Directive 92/65/EEC lays down conditions applicable to imports into the Union, inter alia, of semen, ova and embryos of the equine species. Those conditions are to be at least equivalent to those applicable to trade between Member States.
- (2) Directive 2009/156/EC lays down animal health conditions for the importation into the Union of live equidae. It provides that imports of equidae into the Union are only authorised from those third countries that meet certain animal health requirements.
- (3) Commission Decision 2004/211/EC <sup>(3)</sup> establishes a list of third countries, or parts thereof where regionalisation applies, from which Member States are to authorise the importation of equidae and semen, ova and embryos thereof, and indicates other conditions applicable to such imports. That list is set out in Annex I to Decision 2004/211/EC.
- (4) In order to host an equestrian event of the Global Champions Tour on 8-10 May 2015, carried out under the auspices of the Fédération Equestre Internationale (FEI), the competent Chinese authorities requested the recognition of an equine disease-free zone in the Metropolitan area of Shanghai, directly accessible from the nearby international airport. In view of the temporary nature of the purpose-built facilities at the EXPO 2010 parking it is appropriate to foresee only a temporary approval of that zone.
- (5) In the light of the guarantees and information provided by the Chinese authorities and in order to allow for a limited period of time from a part of the territory of China the re-entry of registered horses after temporary export in accordance with the requirements of Commission Decision 93/195/EEC <sup>(4)</sup>, the Commission adopted Commission Implementing Decision 2014/127/EU <sup>(5)</sup> by which the region CN-2 of China was temporarily approved.

<sup>(1)</sup> OJ L 268, 14.9.1992, p. 54.

<sup>(2)</sup> OJ L 192, 23.7.2010, p. 1.

<sup>(3)</sup> Commission Decision 2004/211/EC of 6 January 2004 establishing the list of third countries and parts of territory thereof from which Member States authorise imports of live equidae and semen, ova and embryos of the equine species, and amending Decisions 93/195/EEC and 94/63/EC (OJ L 73, 11.3.2004, p. 1).

<sup>(4)</sup> Commission Decision 93/195/EEC of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (OJ L 86, 6.4.1993, p. 1).

<sup>(5)</sup> Commission Implementing Decision 2014/127/EU of 7 March 2014 amending Annex I to Decision 2004/211/EC as regards the entry for China in the list of third countries and parts thereof from which imports into the Union of live equidae and semen, ova and embryos of the equine species are authorised (OJ L 70, 11.3.2014, p. 28).

- (6) Because the equestrian event will be repeated in 2015 under the same animal health and quarantine conditions as those that were applicable in 2014, it is appropriate to adapt for the region CN-2 the date in column 15 of the table in Annex I to Decision 2004/211/EC accordingly.
- (7) Decision 2004/211/EC should therefore be amended accordingly.
- (8) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

*Article 1*

In column 15 of the line corresponding to the region CN-2 of China in the table in Annex I to Decision 2004/211/EC, the words 'Valid from 30 May to 30 June 2014' are replaced by the words: 'Valid from 25 April to 25 May 2015'.

**COMMISSION IMPLEMENTING DECISION (EU) 2015/558****of 1 April 2015****amending Implementing Decision 2014/709/EU concerning animal health control measures relating to African swine fever in certain Member States***(notified under document C(2015) 2160)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market <sup>(1)</sup>, and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market <sup>(2)</sup>, and in particular Article 10(4) thereof,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption <sup>(3)</sup>, and in particular Article 4(3) thereof,

Whereas:

- (1) Commission Implementing Decision 2014/709/EU <sup>(4)</sup> lays down animal health control measures in relation to African swine fever in certain Member States. The Annex to that Decision demarcates and lists certain areas of those Member States differentiated by the level of risk based on the epidemiological situation. That list includes certain areas of Estonia, Italy, Latvia, Lithuania and Poland.
- (2) Article 7 of Implementing Decision 2014/709/EU, providing for a derogation from the prohibition on the dispatch of consignments of animal by-products from porcine animals from the areas listed in Parts III and IV of the Annex to that Implementing Decision, should be reviewed in order to allow for a safe disposal of animal by-products of porcine origin other than feral pigs, including unprocessed bodies of dead animals, from holdings located in the areas listed in Part III of the Annex in a manner that is in line with the risk represented by these animal by-products.
- (3) In the period from January to February 2015, an outbreak of African swine fever in domestic pigs was reported in Poland and several cases in wild boar were reported in Lithuania and Poland in the restricted area listed in Part II of the Annex to Implementing Decision 2014/709/EU. In February and March 2015 few cases were reported in Latvia in the restricted areas listed in Part I and Part III of the Annex to Implementing Decision 2014/709/EU.
- (4) The evolution of the current epidemiological situation should be considered in the assessment of the risk represented by the animal health situation in Latvia, Lithuania and Poland. In order to focus animal health control measures and to prevent the spread of African swine fever, as well as to prevent any unnecessary disturbance to trade within the Union and to avoid unjustified barriers to trade by third countries, the Union list of areas subject to the animal health control measures provided for in the Annex to Implementing Decision 2014/709/EU should be amended to take into account the current animal health situation as regards that disease in Latvia, Lithuania and Poland.

<sup>(4)</sup> Commission Implementing Decision 2014/709/EU of 9 October 2014 concerning animal health control measures relating to African swine fever in certain Member States and repealing Implementing Decision 2014/178/EU (OJ L 295, 11.10.2014, p. 63).

- (5) Implementing Decision 2014/709/EU should therefore be amended accordingly.
