## REGULATIONS

## COMMISSION IMPLEMENTING REGULATION (EU) 2022/1473

of 31 August 2022

**approving non-minor amendments to the specification for a name entered in the register of protected designations of origin and protected geographical indications [‘Agneau de lait des Pyrénées’ (PGI)]**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1151/2012 of the European Parliament and of the Council of 21 November 2012 on quality schemes for agricultural products and foodstuffs <sup>(1)</sup>, and in particular Article 52(2) thereof,

Whereas:

- (1) Pursuant to the first subparagraph of Article 53(1) of Regulation (EU) No 1151/2012, the Commission has examined France's application for the approval of amendments to the specification for the protected geographical indication ‘Agneau de lait des Pyrénées’, registered under Commission Regulation (EU) No 900/2012 <sup>(2)</sup>. These amendments include changing the name ‘Agneau de lait des Pyrénées’ to ‘Agneau des Pyrénées’.
- (2) Since the amendments in question are not minor within the meaning of Article 53(2) of Regulation (EU) No 1151/2012, the Commission published the amendment application in the *Official Journal of the European Union* <sup>(3)</sup> as required by Article 50(2)(a) of that Regulation.
- (3) As no statement of opposition under Article 51 of Regulation (EU) No 1151/2012 has been received by the Commission, the amendments to the specification should be approved,

HAS ADOPTED THIS REGULATION:

*Article 1*

The amendments to the specification published in the *Official Journal of the European Union* regarding the name ‘Agneau de lait des Pyrénées’ (PGI) are hereby approved.

*Article 2*

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

<sup>(1)</sup> OJ L 343, 14.12.2012, p. 1.

<sup>(2)</sup> Commission Implementing Regulation (EU) No 900/2012 of 2 October 2012 entering a name in the register of protected designations of origin and protected geographical indications [Agneau de lait des Pyrénées (PGI)] (OJ L 268, 3.10.2012, p. 1).

<sup>(3)</sup> OJ C 193, 12.5.2022, p. 23.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 31 August 2022.

*For the Commission,  
On behalf of the President,  
Janusz WOJCIECHOWSKI  
Member of the Commission*

**COMMISSION IMPLEMENTING REGULATION (EU) 2022/1474****of 6 September 2022****renewing the approval of the low-risk active substance sheep fat in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market, and amending the Annex to Commission Implementing Regulation (EU) No 540/2011****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1107/2009, of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC <sup>(1)</sup>, and in particular Article 20(1) in conjunction with Article 22(1) thereof,

Whereas:

- (1) Commission Directive 2008/127/EC <sup>(2)</sup> included sheep fat as an active substance in Annex I to Council Directive 91/414/EEC <sup>(3)</sup>.
- (2) Active substances included in Annex I to Directive 91/414/EEC are deemed to have been approved under Regulation (EC) No 1107/2009 and are listed in Part A of the Annex to Commission Implementing Regulation (EU) No 540/2011 <sup>(4)</sup>.
- (3) The approval of the active substance sheep fat, as set out in Part A of the Annex to Implementing Regulation (EU) No 540/2011, expires on 31 August 2023.
- (4) An application for the renewal of the approval of the active substance sheep fat was submitted to the Czech Republic, the rapporteur Member State, in accordance with Article 1 of Commission Implementing Regulation (EU) No 844/2012 <sup>(5)</sup> and within the time period provided for in that Article.
- (5) The applicant submitted the supplementary dossiers required in accordance with Article 6 of Implementing Regulation (EU) No 844/2012. The application was found to be admissible by the rapporteur Member State.
- (6) The Czech Republic prepared a draft renewal assessment report in consultation with France, the co-rapporteur Member State, and submitted it to the European Food Safety Authority ('the Authority') and the Commission on 10 September 2020. In its draft renewal assessment report the Czech Republic proposed to renew the approval of sheep fat as a low-risk substance.

<sup>(1)</sup> OJ L 309, 24.11.2009, p. 1.

<sup>(2)</sup> Commission Directive 2008/127/EC of 18 December 2008 amending Council Directive 91/414/EEC to include several active substances (OJ L 344, 20.12.2008, p. 89).

<sup>(3)</sup> Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant protection products on the market (OJ L 230, 19.8.1991, p. 1).

<sup>(4)</sup> Commission Implementing Regulation (EU) No 540/2011 of 25 May 2011 implementing Regulation (EC) No 1107/2009 of the European Parliament and of the Council as regards the list of approved active substances (OJ L 153, 11.6.2011, p. 1).

<sup>(5)</sup> Commission Implementing Regulation (EU) No 844/2012 of 18 September 2012 setting out the provisions necessary for the implementation of the renewal procedure for active substances, as provided for in Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market (OJ L 252, 19.9.2012, p. 26). This Regulation was replaced by Regulation (EU) 2020/1740, however, it shall continue to apply to the procedure for the renewal of the approval of active substances: (1) whose approval period ends before 27 March 2024; (2) for which a Regulation, adopted in accordance with Article 17 of Regulation (EC) No 1107/2009 on or after 27 March 2021, extends the approval period to 27 March 2024 or a later date.

- (7) The Authority made the supplementary summary dossier available to the public. The Authority also circulated the draft renewal assessment report to the applicant and to the Member States for comments and launched a public consultation on it. The Authority forwarded the comments received to the Commission.
- (8) On 16 December 2021, the Authority communicated to the Commission its conclusion <sup>(6)</sup> which indicated that sheep fat can be expected to meet the approval criteria provided for in Article 4 of Regulation (EC) No 1107/2009. The Commission presented a renewal report on 30 March 2022 and a draft of this Regulation regarding sheep fat to the Standing Committee on Plants, Animals, Food and Feed on 17 May 2022.
- (9) The Commission invited the applicant to submit its comments on the conclusion of the Authority and, in accordance with the third paragraph of Article 14(1) of Implementing Regulation (EU) No 844/2012, on the renewal report. The applicant submitted its comments, which have been carefully examined and taken into consideration where appropriate.
- (10) It has been established with respect to one or more representative uses of at least one plant protection product containing the active substance sheep fat that the approval criteria provided for in Article 4 of Regulation (EC) No 1107/2009 are satisfied.
- (11) The Commission further considers that sheep fat is a low-risk active substance pursuant to Article 22 of Regulation (EC) No 1107/2009. Sheep fat is not a substance of concern and fulfils the conditions set in point 5 of Annex II to Regulation (EC) No 1107/2009.
- (12) It is therefore appropriate to renew the approval of sheep fat as a low-risk substance.
- (13) In accordance with Article 14(1) of Regulation (EC) No 1107/2009 in conjunction with Article 6 thereof and in the light of current scientific and technical knowledge, it is, however, necessary to set a minimum purity of the active substance as manufactured in order to underpin the safety of the active substance to be used in plant protection products.
- (14) Implementing Regulation (EU) No 540/2011 should therefore be amended accordingly.
- (15) Commission Implementing Regulation (EU) 2022/708 <sup>(7)</sup> extended the approval period of sheep fat to 31 August 2023 in order to allow the renewal process to be completed before the expiry of the approval period of that active substance. However, given that a decision on renewal has been taken ahead of that extended expiry date, this Regulation shall apply as soon as possible.
- (16) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

<sup>(6)</sup> EFSA (European Food Safety Authority), 2022. Conclusion on the peer review of the pesticide risk assessment of the active substance sheep fat. EFSA Journal 2022;20(1):7073, 43 pp. doi:10.2903/j.efsa.2022.7073. Available online: [www.efsa.europa.eu](http://www.efsa.europa.eu)

<sup>(7)</sup> Commission Implementing Regulation (EU) 2022/708 of 5 May 2022 amending Implementing Regulation (EU) No 540/2011 as regards the extension of the approval periods of the active substances 2,5-dichlorobenzoic acid methylester, acetic acid, aclonifen, aluminium ammonium sulphate, aluminium phosphide, aluminium silicate, beflubutamid, benthiavalicarb, boscalid, calcium carbide, captan, cymoxanil, dimethomorph, dodemorph, ethephon, ethylene, extract from tea tree, fat distillation residues, fatty acids C7 to C20, fluoxastrobin, flurochloridone, folpet, formetanate, gibberellic acid, gibberellins, hydrolysed proteins, iron sulphate, magnesium phosphide, metam, metamitron, metazachlor, metribuzin, milbemectin, phenmedipham, pirimiphos-methyl, plant oils/clove oil, plant oils/rape seed oil, plant oils/spear mint oil, propamocarb, proquinazid, prothioconazole, pyrethrins, quartz sand, fish oil, repellents by smell of animal or plant origin/sheep fat, S-metolachlor, Straight Chain Lepidopteran Pheromones, sulcotrione, tebuconazole and urea (OJ L 133, 10.5.2022, p. 1).

HAS ADOPTED THIS REGULATION:

*Article 1*

**Renewal of the approval of the active substance**

The approval of the active substance sheep fat, as specified in Annex I to this Regulation, is renewed subject to the conditions laid down in that Annex.

*Article 2*

**Amendments to Implementing Regulation (EU) No 540/2011**

The Annex to Implementing Regulation (EU) No 540/2011 is amended in accordance with Annex II to this Regulation.

*Article 3*

**Entry into force and date of application**

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 November 2022.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 6 September 2022.

## ANNEX I

Common Name, Identification Numbers	IUPAC Name	Purity <sup>(1)</sup>	Date of approval	Expiration of approval	Specific provisions
Sheep fat CAS No: 98999-15-6 CIPAC No: 919	Sheep fat	Minimum purity of sheep fat: 100 %  No relevant impurity	1 November 2022	30 October 2037	For the implementation of the uniform principles, as referred to in Article 29(6) of Regulation (EC) No 1107/2009, the conclusions of the renewal report on sheep fat, and in particular Appendices I and II thereof, shall be taken into account.  Conditions of use shall include risk mitigation measures, where appropriate.

<sup>(1)</sup> Further details on the identity and the specification of the active substance are provided in the renewal report.

## ANNEX II

The Annex to Commission Implementing Regulation (EU) No 540/2011 is amended as follows:

- (1) in Part A, entry 249 on sheep fat is deleted;  
 (2) in Part D, the following entry is added:

Number	Common Name, Identification Numbers	IUPAC Name	Purity <sup>(1)</sup>	Date of approval	Expiration of approval	Specific provisions
'39	Sheep fat CAS No: 98999-15-6 CIPAC No: 919	Sheep fat	Minimum purity of sheep fat: 100 %  No relevant impurity	1 November 2022	30 October 2037	For the implementation of the uniform principles, as referred to in Article 29(6) of Regulation (EC) No 1107/2009, the conclusions of the renewal report on sheep fat, and in particular Appendices I and II thereof, shall be taken into account.  Conditions of use shall include risk mitigation measures, where appropriate.'

<sup>(1)</sup> Further details on the identity and the specification of the active substance are provided in the renewal report.

**COMMISSION IMPLEMENTING REGULATION (EU) 2022/1475**  
**of 6 September 2022**

**laying down detailed rules for implementation of Regulation (EU) 2021/2115 of the European Parliament and of the Council as regards the evaluation of the CAP Strategic Plans and the provision of information for monitoring and evaluation**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2021/2115 of the European Parliament and of the Council of 2 December 2021 establishing rules on support for strategic plans to be drawn up by Member States under the common agricultural policy (CAP Strategic Plans) and financed by the European Agricultural Guarantee Fund (EAGF) and by the European Agricultural Fund for Rural Development (EAFRD) and repealing Regulations (EU) No 1305/2013 and (EU) No 1307/2013 <sup>(1)</sup>, and in particular Article 133 and Article 143(4) thereof,

Whereas:

- (1) Regulation (EU) 2021/2115 lays down a new legal framework for the common agricultural policy (CAP) to improve its delivery on the Union objectives set out in the Treaty. That Regulation further specifies these Union objectives to be achieved by the CAP and defines the types of intervention as well as the common Union requirements applicable to Member States, while leaving flexibility for Member States in the design of the interventions to be provided in their CAP Strategic Plans.
- (2) Article 128 of Regulation (EU) 2021/2115 provides that a performance framework is to be established to allow reporting, monitoring and evaluation of the CAP Strategic Plans.
- (3) As part of the performance framework, pursuant to Article 140 of Regulation (EU) 2021/2115 Member States are to assess during implementation and *ex post* their CAP Strategic Plans and to draw up an evaluation plan. For that purpose, clear and common rules on assessing the CAP Strategic Plans and on the content of the evaluation plans need to be laid down. In addition, technical support for Member States and the relevant stakeholders should be provided.
- (4) Pursuant to Articles 124(3), point (d), and 124(4), point (c), of Regulation (EU) 2021/2115, the monitoring committee is to examine the progress made in carrying out the evaluations, syntheses of evaluations and any follow-up given to findings as well as it is to give its opinion to the evaluation plan and the amendments thereof. It is appropriate to establish that the Member States share the information on evaluation activities and findings, including the results of the examination of the monitoring committee, with the Commission, as the communication of this information is necessary in order to enable the Commission to perform the monitoring and evaluation of the CAP referred to in Article 141 of that Regulation.
- (5) Pursuant to Article 131 and Article 140(3) of Regulation (EU) 2021/2115, Member States are to ensure data availability for monitoring and evaluation. To that end some common rules need to be laid down.
- (6) Pursuant to Article 143 of Regulation (EU) 2021/2115, Member States are to provide the Commission with the available information necessary to enable it to perform the monitoring and evaluation of the CAP. In particular, this information will enable the Commission to monitor the implementation of standards of good agricultural and environmental conditions of land (GAEC standards) as laid down in Annex III to that Regulation, of interventions in certain sectors referred to in Title III, Chapter III, of that Regulation, and Local Action Groups (LAGs) and their

---

<sup>(1)</sup> OJ L 435, 6.12.2021, p. 1.

activities for LEADER as defined in Article 3, point (15), of that Regulation. It will further enable the Commission to carry out evaluations of the CAP Strategic Plans. For data on European Innovation Partnership for agricultural productivity and sustainability (EIP) operational groups referred to in Article 127(3) of that Regulation, the collected information will enhance networking between project promoters and the dissemination of findings. For that purpose, clear and common rules on the information to be sent by Member States need to be laid down.

- (7) Commission Implementing Regulation (EU) 2021/2290 <sup>(2)</sup> lays down rules on the methods for the calculation of the common output and result indicators set out in Annex I to Regulation (EU) 2021/2115. These rules should be taken into account for the reporting of the disaggregated data by intervention referred to in this Regulation.
- (8) Since Member States need to have rules on the information to be sent to the Commission in order to develop the appropriate IT tools and set up the data collection systems before the implementation of the CAP Strategic Plans starts on 1 January 2023, this Regulation should enter into force on the day following that of its publication in the *Official Journal of the European Union*.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Common Agricultural Policy Committee,

HAS ADOPTED THIS REGULATION:

#### TITLE I

### EVALUATION OF CAP STRATEGIC PLANS

#### Article 1

#### **Assessment of evaluation criteria**

1. When evaluating their CAP Strategic Plans, Member States shall define evaluation questions and factors of success to assess the evaluation criteria of effectiveness, efficiency, relevance, coherence and Union added value referred to in Article 140(1) of Regulation (EU) 2021/2115.
2. When assessing the effectiveness of their CAP Strategic Plans, Member States shall use the key evaluation elements set out in Annex I to this Regulation in accordance with the CAP Strategic Plans' intervention logic and, where relevant for their CAP Strategic Plans, the recommended factors of success set out in that Annex.
3. When assessing the efficiency of their CAP Strategic Plans, Member States shall analyse whether the effects or benefits of the CAP Strategic Plans were achieved at a reasonable cost and shall assess simplification both for beneficiaries and for the administration, with special focus on administrative costs and on the use of digital tools and satellites.

#### Article 2

#### **Evaluations of CAP Strategic Plans during the implementation period**

Member States shall carry out the evaluations of their CAP Strategic Plans during the implementing period referred to in Article 140(1) of Regulation (EU) 2021/2115 as follows:

<sup>(2)</sup> Commission Implementing Regulation (EU) 2021/2290 of 21 December 2021 laying down rules on the methods for the calculation of the common output and result indicators set out in Annex I to Regulation (EU) 2021/2115 (OJ L 458, 22.12.2021, p. 486).

- (a) Member States shall plan the evaluations of the specific objectives referred to in Article 6(1) and (2) of Regulation (EU) 2021/2115 which are addressed in their CAP Strategic Plans, in accordance with the CAP Strategic Plan's intervention logic, by objective or by comprehensive evaluations covering several objectives, or provide a justification of why a specific objective has not been evaluated during the implementing period;
- (b) Member States shall assess their CAP Strategic Plans using the relevant evaluation criteria and assess the impacts of their CAP Strategic Plans taking into account the scope, the type and the uptake of the CAP Strategic Plan's interventions;
- (c) where relevant, Member States shall take into account the territorial scope of interventions, particularly for those interventions not implemented at national level, but at regional or local level;
- (d) where relevant, based on Member States' evaluation needs and taking into account the CAP Strategic Plan's intervention logic and implementation, Member States shall assess also specific interventions or topics of the CAP Strategic Plans, such as the environmental and climate architecture referred to in Article 109(2), point (a), of Regulation (EU) 2021/2115, added value of LEADER as defined in Article 3, point (15), of that Regulation, CAP networks referred to in Article 126 of that Regulation or the Agricultural Knowledge and Innovation System (AKIS) defined in Article 3, point (9), of that Regulation;
- (e) Member States shall carry out evaluations in time to be able to prepare the subsequent CAP Strategic Plan's period. Where relevant, Member States shall use also data of the previous programming period.

#### Article 3

### Ex post evaluations of CAP Strategic Plans

1. *Ex post* evaluations referred to in Article 140(6) of Regulation (EU) 2021/2115 shall contain a comprehensive assessment of the CAP Strategic Plans and their implementation.
2. *Ex post* evaluations shall include the assessment of the CAP Strategic Plans and their implementation based on each of the evaluation criteria of effectiveness, efficiency, relevance, coherence and Union added value and impact referred to in Article 140(1) of Regulation (EU) 2021/2115 in relation to the CAP Strategic Plan's contribution to achieving the general objectives set out in Article 5 of that Regulation and those specific objectives set out in Article 6(1) and (2) of that Regulation which are addressed by the CAP Strategic Plan.
3. After completing the *ex post* evaluation, Member States shall report the evaluation findings to the Commission.

#### Article 4

### Evaluation plan

1. Member States shall draft an evaluation plan referred to in Article 140(4) of Regulation (EU) 2021/2115 in accordance with the CAP Strategic Plan's intervention logic. The evaluation plan shall comply with the minimum requirements set out in Annex II to this Regulation.
2. Member States shall identify in the evaluation plan relevant stakeholders to be taken into account when planning evaluation and capacity building activities. Where relevant, Member States shall identify stakeholders other than the monitoring committee's members.

*Article 5***Reporting evaluation activities and findings**

Member States shall share the information on evaluation activities and findings referred to in Articles 124(3), point (d), and 124(4), point (c), of Regulation (EU) 2021/2115 with the Commission after the examination by the monitoring committee, including the result of that examination, no later than one month before the annual review meeting referred to in Article 136 of that Regulation.

*Article 6***Assessment of the contribution of CAP Strategic Plans**

1. Evaluations of CAP Strategic Plans shall be based on the relevant common output, result, impact and context indicators set out in Annex I to Regulation (EU) 2021/2115. Member States shall analyse the effects of the CAP Strategic Plans on specific objectives referred to in Article 6(1) and (2) of that Regulation.
2. In addition, Member States may use in their evaluations specific indicators other than those set out in Annex I to Regulation (EU) 2021/2115 or any other relevant quantitative and qualitative information to drawing relevant conclusions on the impact of the CAP Strategic Plans.
3. Where common result indicators are expressed in terms of a share or a number of relevant units subject to certain interventions, Member States shall estimate the outcomes of the CAP Strategic Plans using the potential effects of these interventions.
4. When assessing an intervention not linked to any result indicator in accordance with Article 111, second paragraph, of Regulation (EU) 2021/2115, Member States shall provide a sound assessment of this intervention based on relevant information on the intervention outcomes and its effects with regard to the specific objectives referred to in Article 6(1) and (2) of that Regulation.
5. Member States shall base their assessment of the contribution of the CAP Strategic Plans on the development of the impact indicators set out in Annex I to Regulation (EU) 2021/2115. Member States shall quantify the contribution of the CAP Strategic Plans to the development of at least the common impact indicators set out in Annex III to this Regulation.

*Article 7***Data and technical support for evaluations**

1. Member States shall ensure the availability of data for evaluators to fulfil their monitoring and evaluation related obligations.
2. Member States shall make the necessary arrangements with national and, where relevant, regional statistical units, research centres, undertakings and data providers to ensure data availability. Such arrangements shall take into account the territorial scope relevant for the evaluations and include the statistical use of data from administrative registers referred to in Article 143(3) of Regulation (EU) 2021/2115.
3. Member States shall identify the needs for support of the stakeholders and administrations involved in the implementation and evaluation of the CAP Strategic Plans at national, regional and local level, including the LAGs referred to in Article 33 of Regulation (EU) 2021/1060 of the European Parliament and of the Council <sup>(<sup>3</sup>)</sup>, taking into account the diverse capacity of institutions and stakeholders in terms of monitoring and evaluation.

---

<sup>(3)</sup> Regulation (EU) 2021/1060 of the European Parliament and of the Council of 24 June 2021 laying down common provisions on the European Regional Development Fund, the European Social Fund Plus, the Cohesion Fund, the Just Transition Fund and the European Maritime, Fisheries and Aquaculture Fund and financial rules for those and for the Asylum, Migration and Integration Fund, the Internal Security Fund and the Instrument for Financial Support for Border Management and Visa Policy (OJ L 231, 30.6.2021, p. 159).

4. Based on the needs identified, Member States shall set up support activities, including training, guidelines and any other relevant capacity building activities, to be implemented by or in collaboration with the national CAP network(s) referred to in Article 126(1) of Regulation (EU) 2021/2115.

5. The Commission shall establish an annual work programme with competent Member States' authorities, evaluators and other stakeholders, based on their needs for support, to be implemented by or in collaboration with the European CAP network referred to in Article 126(2) of Regulation (EU) 2021/2115.

## TITLE II

### DATA FOR PERFORMING THE MONITORING AND EVALUATION OF CAP STRATEGIC PLANS

#### Article 8

##### Scope of the data to be provided by Member States

In accordance with Articles 9 to 18, Member States shall report to the Commission the following information, necessary to enable it to perform the monitoring and evaluation of the CAP:

- (a) disaggregated data on interventions and beneficiaries;
- (b) the ratio of permanent grassland established each year pursuant to Article 48(2) of Commission Delegated Regulation (EU) 2022/126 <sup>(4)</sup>;
- (c) data on interventions in certain sectors, referred to in Title III, Chapter III, of Regulation (EU) 2021/2115;
- (d) data on EIP operational groups referred to in Article 127(3) of Regulation (EU) 2021/2115;
- (e) data on LAGs and their activities for LEADER as defined in Article 3, point (15), of Regulation (EU) 2021/2115.

#### Article 9

##### Disaggregated data on interventions

1. The disaggregated data on interventions referred to in Article 8, point (a), of this Regulation shall cover all interventions in the form of direct payments referred to in Title III, Chapter II, of Regulation (EU) 2021/2115, including the crop-specific payment for cotton referred to in that Chapter, Section 3, Subsection 2, and all interventions for rural development referred to in Title III, Chapter IV, of that Regulation, excluding interventions for LEADER referred to in Article 8, point (e), of this Regulation.

2. Member States shall report the disaggregated data referred to in paragraph 1 per agricultural financial year by unit amount, for each aid application or payment claim of each beneficiary. All the transactions carried out throughout the agricultural financial year shall be summed up.

3. Detailed rules on the content of disaggregated data on interventions are laid down in Annex IV, points 1, 2 and 3.

<sup>(4)</sup> Commission Delegated Regulation (EU) 2022/126 of 7 December 2021 supplementing Regulation (EU) 2021/2115 of the European Parliament and of the Council with additional requirements for certain types of intervention specified by Member States in their CAP Strategic Plans for the period 2023 to 2027 under that Regulation as well as rules on the ratio for the good agricultural and environmental condition (GAEC) standard 1 (OJ L 20, 31.1.2022, p. 52).

*Article 10***Disaggregated data on beneficiaries**

1. The disaggregated data on beneficiaries referred to in Article 8, point (a), of this Regulation shall include information on farmers within the meaning of Article 3, point (1), of Regulation (EU) 2021/2115 and beneficiaries within the meaning of Article 3, point (13) of that Regulation receiving support under interventions covered by the integrated administration and control system referred to in Article 65(1) of Regulation (EU) 2021/2116 of the European Parliament and of the Council <sup>(<sup>9</sup>)</sup> (the 'integrated system').
2. Member States shall report the disaggregated data on beneficiaries per agricultural financial year.
3. Detailed rules on the content of disaggregated data on beneficiaries are laid down in Annex IV, point 4.

*Article 11***Ratio of permanent grassland**

The ratio of permanent grassland referred to in Article 8, point (b), of this Regulation shall be notified at the level established by the Member States in accordance with Article 48(2), second subparagraph, of Delegated Regulation (EU) 2022/126.

*Article 12***Data on interventions in certain sectors**

1. The data on interventions in certain sectors referred to in Article 8, point (c), of this Regulation shall include data on interventions in the sectors listed in Article 42 of Regulation (EU) 2021/2115.
2. Detailed rules on the content of the data on interventions in those sectors are laid down in Annex V.

*Article 13***Data on EIP operational groups**

1. The data on EIP operational groups referred to in Article 8, point (d), of this Regulation shall include information on projects of EIP operational groups referred to in Article 127(3) of Regulation (EU) 2021/2115.
2. Detailed rules on the content of data on EIP operational groups are laid down in Annex VI.

*Article 14***Data on LAGs and their activities for LEADER**

1. The data on LAGs and their activities for LEADER referred to in Article 8, point (e), of this Regulation shall include information on interventions implemented based on Article 77(1), point (b), of Regulation (EU) 2021/2115.
2. Detailed rules on the content of data on LAGs and their activities for LEADER are laid down in Annex VII.

---

<sup>(9)</sup> Regulation (EU) 2021/2116 of the European Parliament and of the Council of 2 December 2021 on the financing, management and monitoring of the common agricultural policy and repealing Regulation (EU) No 1306/2013 (OJ L 435, 6.12.2021, p. 187).

*Article 15***Date and frequency of data transmission**

1. From the reporting year 2025 on, Member States shall report the disaggregated data on interventions and beneficiaries referred to in Article 8, point (a), annually by 30 April of the year N in relation to interventions for which payments have been made in the agricultural financial year N-1.

In 2024, Member States may report the disaggregated data on interventions by 30 November 2024 in relation to interventions paid in the agricultural financial year 2023. If Member States do not report the disaggregated data on interventions in 2024, they shall report them in 2025 in accordance with the first subparagraph of this paragraph.

By way of derogation from the first subparagraph of this paragraph, the data on beneficiaries related to area declared and to the land in good agricultural and environmental conditions shall be reported, in the year N, in relation to interventions for which payments have been claimed in the calendar year N-2.

2. Member States shall report annually the ratio of permanent grassland referred to in Article 8, point (b), by 15 March of the year N in relation to area declared in the calendar year N-1. The first year of reporting shall be 2024.

3. Member States shall report annually the data on interventions in certain sectors referred to in Article 8, point (c), by:

- (a) 15 June of the year N in relation to data of the calendar year N-1 referred to in points 1, 2(a) and (c), and 3 to 7 of Annex V;
- (b) 31 January of the year N in relation to data of the calendar year N referred to in point 2(b) of Annex V;
- (c) 15 June of the year N in relation to data of the financial year N-1 referred to in points 8 to 10 of Annex V.

The first year of reporting shall be 2023 for data referred to in point 1 and 2(b) of Annex V, 2024 for data referred to in points 2(a) and (c), and 3 to 7 of that Annex and 2025 for data referred to in points 8 to 10 of that Annex.

By way of derogation from the first and second subparagraphs of this paragraph, for the apiculture sector, the following shall apply:

- (a) Member States shall report every 2 years the data referred to in points 5 and 6 of Annex V;
- (b) data referred to in point 5 of Annex V shall cover the calendar year preceding the year of reporting;
- (c) data referred to in point 6 of Annex V shall cover the two calendar years preceding the year of reporting;
- (d) the first year of reporting shall be 2023 for data referred to in points 4, 5 and 6 of Annex V and 2024 for point 9 of that Annex. In 2023, the data referred to in points 5 and 6 of Annex V may be reported by 15 September.

4. Member States shall report data on EIP operational groups referred to in Article 8, point (d), as soon as the operational group project is approved, starting from 2023.

5. Member States shall report data on LAGs and their activities for LEADER referred to in Article 8, point (e), as follows:

- (a) by 30 April 2026 in relation to operations paid in the financial years from 2023 to 2025, cumulatively; and
- (b) by 30 April 2030 in relation to operations paid in the financial years from 2023 to 2029, cumulatively.

By way of derogation from the first subparagraph of this paragraph, data related to LAG variables set out in Annex VII, point 1, shall be reported by 30 April of year N for the LAGs selected by 31 December of year N-1.

*Article 16***Data transfer**

1. The data referred to in Article 8, points (a), (b), (d) and (e), shall be transferred to the Commission by means of the electronic system for the secure exchange of information called 'SFC2021', for which the responsibilities of the Commission and the Member States are set out in Annex II to Commission Implementing Regulation (EU) 2021/2289 <sup>(6)</sup>.

The data referred to in Article 8, point (c), shall be transferred to the Commission by means of the information-technology-based system made available by the Commission pursuant to Commission Implementing Regulation (EU) 2017/1185 <sup>(7)</sup>.

2. For disaggregated data on interventions and beneficiaries to be communicated pursuant to Article 8, point (a), of this Regulation, the paying agency referred to in Article 9 of Regulation (EU) 2021/2116 or, where more than one paying agency is accredited in a Member State, the coordinating body referred to in Article 10 of that Regulation, shall transfer the data to the Commission.

3. For the ratio on permanent grassland the data to be communicated pursuant to Article 8, point (b), shall be transferred by the paying agency or coordinating body.

4. For data on interventions in certain sectors to be communicated pursuant to Article 8, point (c), data on EIP operational groups to be communicated pursuant to Article 8, point (d), and data on LAGs and their activities for LEADER to be communicated pursuant to Article 8, point (e), the data may be transferred by Member States or any entity(ies) authorised by the Member States.

*Article 17***Duly completed data**

Member States shall ensure that the data for monitoring and evaluation referred to in Article 8 are complete and self-consistent, as well as that their content is recorded and presented in accordance with the requirements set out in Annexes IV to VII. To that end Member States shall perform computer based checks.

*Article 18***Data checks and data correction**

1. Member States shall be responsible for corrections of clerical or obvious errors or of errors of purely editorial nature of the data referred to in Article 8.

2. Member States shall in case of submission of erroneous data or in case a problem occurred with the data transfer, immediately inform the Commission and correct the data.

3. Without prejudice to the checks carried out by Member States, the Commission may carry out checks with a view to verify whether Member States provided duly completed and self-consistent data. In case of submission of erroneous data, the Commission may request Member States to correct the data provided.

---

<sup>(6)</sup> Commission Implementing Regulation (EU) 2021/2289 of 21 December 2021 laying down rules for the application of Regulation (EU) 2021/2115 of the European Parliament and of the Council on the presentation of the content of the CAP Strategic Plans and on the electronic system for the secure exchange of information (OJ L 458, 22.12.2021, p. 463).

<sup>(7)</sup> Commission Implementing Regulation (EU) 2017/1185 of 20 April 2017 laying down rules for the application of Regulations (EU) No 1307/2013 and (EU) No 1308/2013 of the European Parliament and of the Council as regards notifications to the Commission of information and documents and amending and repealing several Commission Regulations (OJ L 171, 4.7.2017, p. 113).

*Article 19***Data use**

The Commission shall not divulge or use the personal data obtained pursuant to this Regulation for purposes other than fulfilling its responsibilities in the context of the performance framework pursuant to Title VII, Chapter I, of Regulation (EU) 2021/2115, and monitoring and evaluating the CAP pursuant to Article 143 of that Regulation.

## TITLE III

**FINAL PROVISIONS***Article 20***Entry into force**

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 6 September 2022.

*For the Commission*  
*The President*  
Ursula VON DER LEYEN

## ANNEX I

**KEY EVALUATION ELEMENTS AND RECOMMENDED FACTORS OF SUCCESS REFERRED TO IN  
ARTICLE 1(2)**

Objective	Key elements to assess	Recommended factors of success
<i>To support viable farm income and resilience of the agricultural sector across the Union in order to enhance long-term food security and agricultural diversity as well as to ensure the economic sustainability of agricultural production in the Union</i>	<u>Viable farm income</u> Viable farm income means not only stable income but also fairly distributed income.	Agricultural income level in farms supported is increasing or, at least, is stable and disparities between farms and to other economic sectors are decreasing, taking into account general economy trends.
	<u>Resilience</u> Resilience encompasses supporting farmers facing potential risks and specific limitations which can force them to stop agricultural activity.	Income support is distributed to farmers most in need.
<i>To enhance market orientation and increase farm competitiveness both in the short and long term, including greater focus on research, technology and digitalisation</i>	<u>Enhanced market orientation</u> Based on agri-food trade balance (import-export).	Agri-food trade is increasing.
	<u>Farm competitiveness</u> Based on increased capital, labour and land productivity through innovation.	Productivity in farms supported is increasing.
<i>To improve the farmers' position in the value chain</i>	<u>Farmer's position in the food chain</u> Integration of farmers within the food chain and participating in quality schemes and organic production to increase added value.	Share of marketed production by quality schemes and organic production is increasing. Share of marketed production by producer organisations (POs) and other forms of farmers organisations supported is increasing. Gross added value for farmers in POs and other forms of farmer organisations or participating in quality schemes and organic production is increasing.
<i>To contribute to climate change mitigation and adaptation, including by reducing greenhouse gas emissions and enhancing carbon sequestration, as well as promote sustainable energy</i>	<u>Climate change mitigation</u> Based on greenhouse gas emissions (GHG) and carbon sequestration.	GHG emissions in agriculture are decreasing. Soil organic carbon sequestration is increasing or maintained. Renewal energy production capacity is increasing.
	<u>Climate change adaptation</u> Based on the resilience of agriculture to climate change.	Resilience of agriculture to climate change is increasing.
<i>To foster sustainable development and efficient management of natural resources such as water, soil and air, including by reducing chemical dependency</i>	<u>Efficient management of natural resources</u> Based on preserving or enhancing natural resources quality and quantity by reducing pollutants and exploitation.	Ammonia emissions in agriculture, nutrient leakage and soil erosion are decreasing. Nutrient balance on agricultural land is improving, thus reducing nutrient losses.

Objective	Key elements to assess	Recommended factors of success
		Pressure on natural water reservoirs is decreasing. The use and risk of chemical pesticides and the use of more hazardous pesticides is decreasing.
<i>To contribute to halting and reversing biodiversity loss, enhance ecosystem services and preserve habitats and landscapes</i>	<u>Reversing biodiversity loss</u> Based on biodiversity and habitats in agricultural land or other areas affected by agricultural or forestry practices.	Biodiversity related to agricultural land is improving or, at least, biodiversity loss is halted. Biodiversity in Natura 2000 areas affected by agriculture or forestry is improving or, at least, biodiversity loss is halted. Agro-biodiversity is increasing.
	<u>Ecosystem services</u> Based on landscape features that contribute to ecosystem services by hosting relevant species (e.g. through pollination, pest control), by biophysical processes (e.g. through erosion control, water quality maintenance), or by cultural values (e.g. aesthetic value).	Trends of pollinators are improving, or, at least, stable. The area covered by landscape features in agricultural land is increasing or maintained.
<i>To attract and sustain young farmers and other new farmers and facilitate sustainable business development in rural areas</i>	<u>Farmers renewal</u> Based on supporting young farmers and new farmers setting up and continuity.	Number of young and new farmers are increasing.
	<u>Business development</u> Based on supporting rural business start-ups and farm diversification.	Number of rural business are increasing.
<i>To promote employment, growth, gender equality, including the participation of women in farming, social inclusion and local development in rural areas, including circular bio-economy and sustainable forestry</i>	<u>Rural sustainable economy</u> Based on economic growth and promoting employment.	Rural areas' economy is growing or, at least, is stable and urban-rural gap is decreasing. Employment rate in rural areas is improving. Bio-economy related business are increasing. Sustainable forestry is increasing.
	<u>Local development</u> Provision of local services and infrastructure.	Local services and infrastructures are improving.
	<u>Gender equality and social inclusion</u> Promotion of participation of women in farming and the economy, income equity and poverty reduction.	Women employment and participation in farming is improving. CAP Strategic Plan support is more fairly distributed. Rural poverty is decreasing.

Objective	Key elements to assess	Recommended factors of success
<p><i>To improve the response of Union agriculture to societal demands on food and health, including high quality, safe, and nutritious food produced in a sustainable way, the reduction of food waste, as well as improving animal welfare and combatting antimicrobial resistances</i></p>	<p><u>Quality and safety food</u> Based on fostering quality schemes, promoting animal welfare and combatting antimicrobial resistance.</p>	<p>Value of production marketed under quality schemes is increasing. Animal welfare is improving and antimicrobial use is decreasing.</p>
<p><i>Modernising the sector by fostering and sharing knowledge, innovation and digitalisation in agriculture and rural areas and by encouraging their uptake by farmers, through improved access to research, innovation, knowledge exchange and training</i></p>	<p><u>Agricultural Knowledge and Innovation system (AKIS) and digital strategy</u> Based on the support to AKIS strategic actions, the AKIS related interventions, and the digital strategy and their impact on innovation uptake by farmers.</p>	<p>An increasing number of farmers participate in training programmes and/or make use of farm advice. Farmers change farming practices after participating in training programmes and/or making use of farm advice. An increasing number of farmers are supported for digital farming technology through CAP Strategic Plan. CAP Strategic Plan's expenditure supporting creation of innovation and knowledge sharing is increasing.</p>

## ANNEX II

**MINIMUM REQUIREMENTS FOR THE STRUCTURE AND CONTENT OF THE EVALUATION PLAN REFERRED TO IN ARTICLE 4(1)**

## 1. Objectives and needs

A statement of the objectives of the evaluation plan and evaluation related needs, aimed to ensure that sufficient and appropriate evaluation activities are undertaken, in particular to provide information needed for programme steering, to inform next policy programme period, and to ensure that data needed for CAP Strategic Plan evaluation are available.

## 2. Governance and coordination

Brief description of the monitoring and evaluation arrangements for the CAP Strategic Plan, identifying the main bodies involved and their responsibilities.

## 3. Stakeholder mapping

Brief description of the relevant stakeholders referred to in Article 4(2) and their needs related to evaluation activities and, where relevant, capacity building.

## 4. Timeline

Indicative planning of evaluations and evaluation support studies to be carried out during the programming cycle, as well as the reasoning for the choices made, including:

- (a) evaluations to assess the contribution of the CAP Strategic Plans to the CAP objectives, to be carried out during the implementation of the CAP Strategic Plan;
- (b) where relevant, the evaluations to assess specific topics referred to in Article 2, point (e);
- (c) support studies and other research and analytical activities for evaluations.

## 5. Data and information

Brief description of the arrangements referred to in Article 7(2) to ensure data availability for monitoring and evaluation, including the identification of main data sources to be used, institutional arrangements for data provision and data quality control arrangements. This section should also include identification of data gaps and actions to address them, including having data systems operational in time.

## 6. Communication and follow-up

Description of how evaluation findings will be disseminated to target recipients, including a description of the mechanisms established for the follow-up and the use of evaluation results.

## 7. Resources, technical support and capacity building

Description of the resources needed and foreseen to implement the evaluation plan, including an indication of the administrative capacity, data, financial resources and IT needs.

Description of the implementation of the programme support referred to in Article 7(3) and (4), including technical support and capacity building activities carried out to ensure that the evaluation plan can be fully implemented and planned support to LAGs for evaluating the Local Development Strategies.

---

## ANNEX III

## IMPACT INDICATORS REFERRED TO IN ARTICLE 6(5)

Indicator code <sup>(1)</sup>	Indicator name
I.2	Reducing income disparities: Evolution of agricultural income compared to the general economy
I.3	Reducing farm income variability: Evolution of agricultural income
I.4	Supporting viable farm income: Evolution of agricultural income level by type of farming (compared to the average in agriculture)
I.5	Contributing to territorial balance: Evolution of agricultural income in areas with natural constraints (compared to the average)
I.10	Contributing to climate change mitigation: Greenhouse gas emissions from agriculture
I.12	Increasing sustainable energy in agriculture: Sustainable production of renewable energy from agriculture and forestry
I.14	Improving air quality: Ammonia emissions from agriculture
I.15	Improving water quality: Gross nutrient balance on agricultural land
I.26	A fairer CAP: Distribution of CAP support

<sup>(1)</sup> Annex I to Regulation (EU) 2021/2115.

## ANNEX IV

**RULES ON DISAGGREGATED DATA ON INTERVENTIONS AND BENEFICIARIES REFERRED TO IN ARTICLES 9(3) AND 10(3)****Reporting of disaggregated data on interventions**

1. When reporting data for monitoring and evaluation on interventions referred to in Article 8, point (a), of this Regulation, Member States shall respect the calculation methods for output and result indicators laid down in Implementing Regulation (EU) 2021/2290 and the following:
  - (a) the value of the output generated by an intervention shall be reported under the relevant monitoring variables set out in point 2 of this Annex;
  - (b) the value of the output generated by an intervention shall also be reported under the result variables, set out in point 3 of this Annex, for the result indicators set out in Annex I to Regulation (EU) 2021/2115 selected by Member States in their CAP Strategic Plan ('relevant result indicators');
  - (c) the value of the output contributing to the calculation of the numerator of the result indicators shall be reported in full from the first payment (excluding advances referred to in Article 32(4), point (a), Article 32(5) and Article 44(3) of Regulation (EU) 2021/2116).
2. Member States shall provide the following list of monitoring variables, per intervention for each beneficiary, in accordance with the specific design of interventions and their intervention logic:
  - (a) monitoring variables to report administrative information (M010 to M040):
    - (i) M010: paying agency code

This field provides the unique code of the paying agency. It corresponds to the dedicated department or body of a Member State responsible for the management and control of expenditure from the European Agricultural Guarantee Fund (EAGF) and the European Agricultural Fund for Rural Development (EAFRD);
    - (ii) M020: unique code for aid application or payment claim for an intervention

This field provides a unique code per aid application for the interventions covered by the integrated system and payment claim for the other interventions;
    - (iii) M030: unique beneficiary identifier

This field provides a unique beneficiary identifier for all CAP beneficiaries, which is allocated to each applicant at Member State level. The unique beneficiary identifier shall not contain any personal information. The identifier remains unchanged over years;
    - (iv) M040: budget code

This field provides the 25 first digits of the budget code, which includes budget nomenclature, type of intervention, sector and subsector, output indicator, intervention, unit amount, reduction of payment or contribution rate, and calendar year;
  - (b) monitoring variables to report amounts spent (M050 to M070):
    - (i) M050: total amount paid (EU funds)

This field provides the total amount of EAGF or EAFRD support paid in euros for the claim, by unit amount;
    - (ii) M060: total public expenditure

This field provides the total amount of public support paid in euros for the claim, by unit amount including the national contribution and excluding the additional national financing referred to in Article 115(5) of Regulation (EU) 2021/2115 ('additional national financing');

(iii) M070: total additional national financing

This field provides the total amount of additional national financing paid in euros for the claim;

The amounts spent referred to in points (i), (ii) and (iii) shall be reported in euros before application of sanctions and penalties;

(c) monitoring variables to report the area eligible and determined (M080 to M095):

(i) M080: number of hectares of eligible area determined before application of limits, excluding forestry

This field provides the eligible area (excluding forestry) in full determined after controls and before application of payment entitlements or maximum thresholds;

(ii) M085: number of hectares of eligible forestry area determined before application of limits

This field provides the eligible forestry area in full determined after controls and before application of payment entitlements or maximum thresholds;

(iii) M090: number of hectares of eligible area excluding forestry

For interventions paid in hectares, this field provides the eligible area (excluding forestry) in full determined after controls and after application of payment entitlements or maximum thresholds.

For interventions on land paid in other units than hectares, where relevant, it provides the number of hectares (excluding forestry) supported by the interventions;

(iv) M095: number of hectares of eligible forestry area determined after application of limits

This field provides the eligible forestry area in full determined after controls and after application of payment entitlements or maximum thresholds.

For forestry interventions paid in other units than hectares, where relevant, it provides the number of hectares supported by the interventions;

The output values referred to in points (i) to (iv) shall always be reported in full. For the interventions covered by the integrated system, outputs shall be reported in full in year N in relation to interventions claimed in year N-2;

(d) monitoring variables to report units paid (M100 to M160):

(i) M100: number of hectares of eligible area paid

This field provides the area paid, independently from the nature of the area (i.e. forestry or not);

(ii) M110: number of animal heads paid

(iii) M120: number of livestock units paid

(iv) M130: number of operations paid

This field provides the number of operations as defined in Article 3, point (4), of Regulation (EU) 2021/2115 supported by the CAP. It covers the interventions paid per operation;

(v) M140: number of farms supported

This field provides the number of farms benefitting from relevant CAP support, when paid as a lump sum;

(vi) M150: number of mutual funds paid

This field provides information of the number of mutual funds as defined in Article 3, point (11), of Regulation (EU) 2021/2115 covered by risk management support referred to in Article 76 of that Regulation;

(vii) M160: number of other units paid – unit of measurement

(viii) M161: number of other units paid – output generated

Fields under points (vii) and (viii) provide information on the outputs generated by interventions which are based on other units of measurement, than those listed in points (i) to (vi). For each other unit paid, Member States shall report in two separated fields the unit of measurement (M160) and the output generated (M161);

The output values for the units paid after controls and after application of maximum thresholds referred to in points (i) to (viii) shall be reported as a proportion of the expenditure effectively paid in relation to the total expenditure committed for that output in the agricultural financial year concerned. In the agricultural financial year when the final payment is made, the output value corresponds to the balance;

(e) monitoring variables reporting whether a condition is fulfilled (M170 to M210):

(i) M170: investment resulting in a net increase of irrigated area

This field provides information on whether the intervention concerns an investment resulting in a net increase of the irrigated area (including investments in new irrigation installations or infrastructure, and the creation or expansion of a reservoir pursuant to Article 74(6) and (7) of Regulation (EU) 2021/2115;

(ii) M180: investment resulting in an improvement of existing irrigation installations

This field provides information on whether the intervention concerns the improvement of an existing irrigation installations or element of irrigation infrastructure pursuant to Article 74(4) of Regulation (EU) 2021/2115;

(iii) M190: investment in the use of reclaimed water

This field provides information on whether the intervention concerns an investment in the use of reclaimed water as an alternative water supply pursuant to Article 74(5) of Regulation (EU) 2021/2115;

(iv) M200: investment in broadband

This field provides information on whether the intervention aimed at improving access to broadband;

(v) M210: investment in bio-methane

This field provides information on whether the intervention concerns installed production capacity for bio-methane.

3. Member States shall provide the contribution of the output values to the numerator of the relevant result indicators set out in Annex I to Regulation (EU) 2021/2115, using the following result variables:

(a) result variables R001, R002, R003, R004, R005, R009, R010, R012, R013, R014, R015, R016, R017, R018, R019, R020, R021, R022, R023, R024, R025, R026, R027, R028, R029, R030, R031, R032, R033, R034, R035, R036, R037, R038, R039, R040, R041, R042, R043 and R044 corresponding respectively to result indicators R.1, R.2, R.3, R.4, R.5, R.9, R.10, R.12, R.13, R.14, R.15, R.16, R.17, R.18, R.19, R.20, R.21, R.22, R.23, R.24, R.25, R.26, R.27, R.28, R.29, R.30, R.31, R.32, R.33, R.34, R.35, R.36, R.37, R.38, R.39, R.40, R.41, R.42, R.43 and R.44.

These fields provide the value of the outputs generated in full by an operation for the calculation of the specific result indicators;

(b) for the result variable R017, contributing to result indicator R.17 (Afforested land), Member States shall report the breakdown for the calculation of the result indicator, as follows:

(i) R117: afforested area;

(ii) R217: restored area;

(iii) R317: agro-forestry area;

(iv) R417: planted wooded landscape features

Fields under points (i), (ii) and (iii), provide the area supported while this field provides the estimated area actually planted with wooded landscape features;

(c) for the result variable R043 contributing to result indicator R.43 (Limiting antimicrobial use), Member States shall report the breakdown for the calculation of the result indicator by species, as follows:

(i) R143: number of pigs livestock units;

(ii) R243: number of bovine livestock units;

(iii) R343: number of poultry livestock units;

- (iv) R443: number of sheep and goats livestock units;
- (v) R543: number of other livestock units;
- (d) for the result variable R044 contributing to result indicator R.44 (Improving animal welfare), Member States shall report the breakdown for the calculation of the result indicator by species, as follows:
  - (i) R144: number of pigs livestock units;
  - (ii) R244: number of bovine livestock units;
  - (iii) R344: number of poultry livestock units;
  - (iv) R444: number of sheep and goats livestock units;
  - (v) R544: number of other livestock units.

### Reporting of data relating to beneficiaries

4. Member States shall provide the following beneficiary variables, in accordance with the specific design of interventions and their intervention logic:

(a) B010: unique beneficiary ID

This field provides the same unique beneficiary identifier used for the data on interventions in monitoring variable M030, referred to in point 2(a)(iii), of this Annex;

(b) B020: gender

This field provides information on the gender of the beneficiary.

In case the beneficiary is a group of natural persons, a legal person or a group of legal persons, the gender of the main manager(s) of the farm shall be reported. The main manager means the person who has the decision-making power in relation to the agricultural activities exercised on the farm and who bears benefits and financial risks related to those activities.

Member States may provide additional explanatory data on the share of management responsibilities exercised by gender category;

(c) B030: young farmer

This field provides information on whether the beneficiary is a young farmer, i.e. below the age limit set by Member States in their CAP Strategic Plans pursuant to Article 4(6) of Regulation (EU) 2021/2115.

Member States shall provide this information for all beneficiaries who are natural persons. For groups of natural persons or legal entities, the information shall be provided only for the beneficiaries granted support for generational renewal under Article 30, Article 75(2), point (a), and Article 77 of Regulation (EU) 2021/2115;

(d) B040: geographical location – municipality

This field provides the Local Administrative Unit code of the municipality where all or the majority of the area of the beneficiary is located or where the main building of the holding is located;

(e) B050: area with natural or other specific constraints

This field indicates whether the holding is located in an area with natural or other specific constraints as referred to in Article 71 of Regulation (EU) 2021/2115.

The holding shall be classified as located in an area with natural or other specific constraints when all or the majority of the area of the beneficiary or the main building of the holding are located in an area with natural or other specific constraints. Where a beneficiary is granted support under Article 71 of that Regulation, their holding shall be classified as located in an area with natural or other specific constraints;

(f) B060: nitrate vulnerable zone

This field indicates whether the holding is located in a nitrate vulnerable zone designated under Council Directive 91/676/EEC <sup>(1)</sup>. Holdings shall be classified as located in a nitrate vulnerable zone when all or the majority of the area of the beneficiary or the main building of the holding are located in a nitrate vulnerable zone;

<sup>(1)</sup> Council Directive 91/676/EEC of 12 December 1991 concerning the protection of waters against pollution caused by nitrates from agricultural sources (OJ L 375, 31.12.1991, p. 1).

- (g) B070: characteristics of farm's location in a river basin management plan

The field indicates whether the holding is located in an area included in a river basin management plan referred to in Article 72(3), point (c), of Regulation (EU) 2021/2115. Holdings are classified located in an area included in a river basin management plan when all or the majority of the area of the beneficiary or the main building of the holding are located in an area included in a river basin management plan;

- (h) B080: NATURA 2000 area

The field indicates whether the holding is located in Natura 2000 area as referred to in Article 72(3), point (a), of Regulation (EU) 2021/2115. Holdings are classified as located in Natura 2000 area when all or the majority of the area of the beneficiary or the main building of the holding are located in Natura 2000 area.

Member States may provide additional explanatory data on the share of the holding's area located in Natura 2000 area;

- (i) B090: organic farm

The field indicates whether the holding is farmed organically as laid down in Regulation (EU) 2018/848 the European Parliament and of the Council <sup>(\*)</sup>, partially farmed organically or not farmed organically.

The holding shall be classified as farmed organically when all or the majority of the area of the beneficiary (> 50 % of the total area) is farmed organically and partially farmed organically when only of a minority of the area of the beneficiary (< 50 % of the total area) is farmed organically;

- (j) B100: number of hectares of arable land declared

This field provides the total number of hectares of arable land as defined by Member States in their CAP Strategic Plans pursuant to Article 4(3), point (a), of Regulation (EU) 2021/2115;

- (k) B110: number of hectares of permanent grassland declared

This field provides the total number of hectares of permanent grassland area as defined by Member States in their CAP Strategic Plans pursuant to Article 4(3), point (c), of Regulation (EU) 2021/2115;

- (l) B120: number of hectares with permanent crops declared

This field provides the total number of hectares with permanent crops as defined by Member States in their CAP Strategic Plans pursuant to Article 4(3), point (b), of Regulation (EU) 2021/2115;

- (m) B130: number of hectares of other areas eligible for direct payments

This field provides the total number of hectares on which no agricultural activity is performed, but which is still eligible for direct payments pursuant to Article 4(4), point (c), of Regulation (EU) 2021/2115;

- (n) B141: GAEC 2 – number of hectares of wetland and peatlands – permanent grassland

This field provides the total number of hectares of permanent grassland in wetland and peatlands subject to GAEC 2 as laid down in Annex III to Regulation (EU) 2021/2115;

- (o) B142: GAEC 2 – number of hectares of wetland and peatlands – arable land

This field provides the total number of hectares of arable land in wetland and peatlands which are subject to GAEC 2;

- (p) B143: GAEC 2 – number of hectares of wetland and peatlands – permanent crops

This field provides the total number of hectares of permanent crops in wetland and peatlands which are subject to GAEC 2;

- (q) B150: GAEC 8 – number of hectares used to fulfil the minimum share of arable land devoted to non-productive areas and features

This field provides the total number of hectares, before possible weighting factors, used to fulfil the minimum share of arable land devoted to non-productive areas and features under GAEC 8 as laid down in Annex III to Regulation (EU) 2021/2115. Member States shall provide a breakdown of this beneficiary variable as follows:

<sup>(\*)</sup> Regulation (EU) 2018/848 of the European Parliament and of the Council of 30 May 2018 on organic production and labelling of organic products and repealing Council Regulation (EC) No 834/2007 (OJ L 150, 14.6.2018, p. 1).

- (i) B151: GAEC 8 – number of hectares of land laying fallow;
  - (ii) B152: GAEC 8 – number of hectares of hedgerows, individual or group of trees, trees rows;
  - (iii) B153: GAEC 8 – number of hectares of field margins, patches or buffer strips;
  - (iv) B154: GAEC 8 – number of hectares of ditches and streams;
  - (v) B155: GAEC 8 – number of hectares of small ponds and small wetlands;
  - (vi) B156: GAEC 8 – number of hectares of stonewalls;
  - (vii) B157: GAEC 8 – number of hectares of cairns;
  - (viii) B158: GAEC 8 – number of hectares of terraces;
  - (ix) B159: GAEC 8 – number of hectares of cultural features;
  - (x) B160: GAEC 8 – number of hectares of other non-productive areas and features;
  - (xi) B161: GAEC 8 – number of hectares of catch crops cultivated without the use of plant protection products;
  - (xii) B162: GAEC 8 – number of hectares of nitrogen fixing crops cultivated without the use of plant protection products;
- (r) B170: GAEC 9 – number of hectares subject to the ban on conversion or ploughing
- This field provides the number of hectares that are subject to the ban on converting or ploughing permanent grassland designated as environmentally sensitive permanent grassland in Natura 2000 sites under GAEC 9 as laid down in Annex III to Regulation (EU) 2021/2115. Member States shall provide the following information:
- (i) B171: GAEC 9 – number of hectares of permanent grassland in Natura 2000 sites;
  - (ii) B172: GAEC 9 – number of hectares of designated environmentally sensitive permanent grassland in Natura 2000 sites protected under GAEC 9 and declared by farmers;
- (s) B180: number of hectares of designated environmentally sensitive permanent grassland outside Natura 2000 sites, protected under the scope of the GAECs and declared by farmers, where applicable.
-

## ANNEX V

## RULES ON DATA ON INTERVENTIONS IN CERTAIN SECTORS REFERRED TO IN ARTICLE 12(2)

**Administrative information and information per sector**

For interventions in certain sectors referred to in Title III, Chapter III, of Regulation (EU) 2021/2115, Member States shall report administrative information and information per sector by means of the following forms:

## 1. Form A.1.

This form concerns the fruit and vegetables sector, the apiculture sector, the wine sector, the hops sector, the olive oil and table olives sector, and the other sectors referred to in Article 42, points (a) to (f), of Regulation (EU) 2021/2115 respectively, for which Member States shall report annually the references (hyperlinks) to national legislation adopted by Member States in the preceding calendar year to implement sectoral interventions;

## 2. Form A.2.

This form concerns the fruit and vegetables sector, the hops sector, the olive oil and table olives sector, and the other sectors. Member States shall report annually the following market information:

- (a) list of transnational producer organisations (TPOs) and transnational association of producer organisations (TAPOs) having their headquarters in the Member States;
- (b) amount of approved operational funds split by producers organisations (POs), association of producers organisations (APOs), TPOs and TAPOs broken down as follows:
  - (i) total amount;
  - (ii) amount of the financial contribution of the organisation;
  - (iii) amount of Union financial assistance;
- (c) amount of final operational fund split by POs, APOs, TPOs and TAPOs, broken down as follows:
  - (i) total amount;
  - (ii) amount of the financial contribution of the organisation;
  - (iii) amount of Union financial assistance;

The information referred to in point (a) and (c) shall be reported for the preceding calendar year. The information referred to in point (b) shall be reported for the current calendar year;

## 3. Form A.3.

This form concerns the fruit and vegetables sector, for which Member States shall report annually the market information on national financial assistance to POs for the preceding calendar year, as follows:

- (a) amount actually paid (in euros or national currency);
- (b) list of the beneficiary regions;

## 4. Form A.4.

This form concerns the information which Member States shall report annually in the apiculture sector:

total number of beehives ready for wintering in the territory of the Member States between 1 September and 31 December determined according to an established reliable method laid down in the CAP Strategic Plans;

## 5. Form A.5.

This form concerns other market information Member States shall report every 2 years in the apiculture sector, covering the calendar year preceding its notification:

- (a) the number of beekeepers;
- (b) the number of beekeepers managing more than 150 beehives;

- (c) the total number of beehives managed by beekeepers with more than 150 beehives;
- (d) the number of beekeepers organised in beekeepers' associations;
- (e) the range of prices in euros for multi-floral honey at the site of production;
- (f) the range of prices in euros for multi-floral honey in bulk at wholesalers;
- (g) the estimated average production cost in euros (fixed and variable) per kilogram of honey produced;

6. Form A.6.

This form concerns other market information, which Member States shall report every two years in the apiculture sector, for the 2 calendar years preceding its notification:

- (a) the annual national production of honey in kilograms;
- (b) the estimated annual average yield in kilograms of honey per beehive;

7. Form A.7.

This form concerns the other sectors, for which Member States shall report annually the following market information for the preceding calendar year:

- (a) for crop sectors: total area (in hectares) covered and/or volume (in tonnes) produced by POs, APOs, TPOs and TAPOs;
- (b) for livestock sectors: total number of animals and/or volume (in tonnes) produced by POs, APOs, TPOs and TAPOs.

### Information related to expenditure

For on interventions in certain sectors referred to in Title III, Chapter III, of Regulation (EU) 2021/2115, Member States shall report information related to expenditure by means of the following forms:

8. Form B.1.

This form concerns the fruit and vegetables sector, the hops sector, the olive oil and table olives sector, and the other sectors referred to in Article 42, points (a), and (d) to (f), of Regulation (EU) 2021/2115, for which Member State shall report annually the following information related to the preceding agricultural financial year broken down by sector:

- (a) expenditure (in euros or national currency) of POs, APOs, TPOs and TAPOs, per intervention and per objective as referred to in Article 46, points (a) to (k), of that Regulation;
- (b) administrative and personnel costs (in euros or national currency) by POs, APOs, TPOs and TAPOs;
- (c) for market withdrawal for free distribution and other destinations, broken down by product:
  - (i) total annual volume (in tonnes), broken down as follows:
    - (1) free distribution;
    - (2) composting;
    - (3) processing industry;
    - (4) other destination;
  - (ii) total expenditure (in euros or national currency);
  - (iii) amount of Union financial assistance (in euros or in national currency);
- (d) total area (in hectares) per intervention, broken down as follows:
  - (i) investments in irrigation resulting in a net increase of the irrigated area;
  - (ii) replanting of orchards or olive groves;
  - (iii) green-harvesting;
  - (iv) non-harvesting;
  - (v) organic production;

- (vi) integrated production;
- (vii) improved use and sound management of water;
- (viii) improved soil conservation;
- (ix) creation and maintenance of habitats favourable to biodiversity;
- (e) percentages for minimum water savings targets for investments;
- (f) number of energy projects implemented;
- (g) percentage and volume of reclaimed water use;
- (h) number of promotion, communication and marketing interventions per objective as referred to in Article 46, point (h) and (i), of that Regulation;

9. Form B.2.

This form concerns the apiculture sector, for which Member States shall report annually the total public expenditure incurred (in euros or in national currency) during the agricultural financial year, broken down by intervention;

10. Form B.3.

This form concerns the wine sector, for which Member States shall report annually the following information related to the preceding agricultural financial year:

- (a) for restructuring and conversion of vineyards and green harvesting:
  - (i) Union financial assistance;
  - (ii) total expenditure of beneficiaries;
  - (iii) number of beneficiaries;
  - (iv) number of operations;
- (b) for investments in enterprises, investments in enterprises in convergence regions, investments in enterprise in other than convergence regions, investments in enterprise in outermost regions and investment in enterprise in small Aegean Islands regions:
  - (i) Union financial assistance (in euros or national currency);
  - (ii) total expenditure (in euros or national currency) of beneficiaries;
  - (iii) number of beneficiaries;
- (c) for harvest insurance:
  - (i) Union financial assistance (in euros or national currency);
  - (ii) total expenditure (in euros or national currency) of beneficiaries;
  - (iii) number of beneficiaries;
  - (iv) number of financed insurance policies;
- (d) for innovation:
  - (i) Union financial assistance (in euros or national currency);
  - (ii) total expenditure (in euros or national currency) of beneficiaries;
  - (iii) number of beneficiaries;
- (e) for by-products distillation:
  - (i) Union financial assistance (in euros or national currency);
  - (ii) number of beneficiaries (distilleries);
  - (iii) lees (range of max support);
  - (iv) marcs (range of max support);
  - (v) quantity of lees distilled;
  - (vi) quantity of marcs distilled;
  - (vii) million hectolitres of alcohol obtained;

- (f) for actions undertaken by interbranch organisations recognised by Member States in the wine sector in accordance with Regulation (EU) No 1308/2013 of the European Parliament and of the Council <sup>(1)</sup> aiming at enhancing the reputation of Union vineyards by promoting wine tourism in production regions:
  - (i) Union financial assistance (in euros or national currency);
  - (ii) total expenditure (in euros or national currency) of beneficiaries;
  - (iii) number of beneficiaries;
  - (iv) number of operations;
- (g) for actions undertaken by interbranch organisations recognised by Member States in the wine sector in accordance with Regulation (EU) No 1308/2013 aiming at improving market knowledge:
  - (i) Union financial assistance (in euros or national currency);
  - (ii) total expenditure (in euros or national currency) of beneficiaries;
  - (iii) number of beneficiaries;
  - (iv) number of operations;
- (h) for information in Member States and promotion and communications in third countries:
  - (i) number of beneficiaries;
  - (ii) number of operations;
  - (iii) per information or promotion action:
    - (1) beneficiaries;
    - (2) eligible measure;
    - (3) description;
    - (4) targeted market;
    - (5) period;
    - (6) total expenditure (in euros or national currency) of which:
      - Union financial assistance under sectoral interventions,
      - Union financial assistance under other support,
      - State aid,
      - expenditure of beneficiaries.

---

<sup>(1)</sup> Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 (OJ L 347, 20.12.2013, p. 671).

## ANNEX VI

**RULES ON DATA ON EUROPEAN INNOVATION PARTNERSHIP FOR AGRICULTURAL PRODUCTIVITY AND SUSTAINABILITY (EIP) OPERATIONAL GROUPS REFERRED TO IN ARTICLE 13(2)****Compulsory data**

1. Member States shall report the following compulsory data on EIP operational groups:
  - (a) title of the project: short title of the project in native language;
  - (b) title of the project in English: short title of the project in English;
  - (c) editor of the text: name of the person or body responsible for drafting the information encoded in the electronic system for the secure exchange of information, hereinafter referred to as 'SFC2021';
  - (d) project coordinator: name, address, email and telephone of the person responsible for the project management according to the cooperation agreement or project description;
  - (e) project partner(s): name, address, email, telephone and type of partner(s);
  - (f) 'practice abstract' in native language which shall include:
    - (i) the objective of the project describing the problems and/or opportunities the project addresses;
    - (ii) a short summary on the findings (expected or final). This summary should at least contain the following information, in an easy to understand language oriented to practitioners and end-users of project results:
      - (1) main findings of the project (expected or final);
      - (2) the main practical recommendation(s);
  - (g) 'practice abstract' in English: translation of the 'practice abstract' in English;
  - (h) keywords category: keywords applicable to the project selected from a pre-defined list of categories, set out in SFC2021;
  - (i) project status: status of the project: ongoing (after selection) or completed;
  - (j) additional funding source(s): source of additional funding besides EIP CAP support, such as Horizon 2020, established by Regulation (EU) No 1291/2013 of the European Parliament and of the Council <sup>(1)</sup>, if any;
  - (k) project period: project start and end date;
  - (l) geographical location: NUTS 3 region where the main project activities take place;
  - (m) project contribution to CAP specific objectives: the CAP specific objective(s) referred to in Article 6 of Regulation (EU) 2021/2115 to which the project will contribute;
  - (n) cross-border/transnational operational groups:
    - (i) whether the project is cross-border and/or transnational;
    - (ii) which Member State/region coordinates and encodes the project in SFC2021;
    - (iii) which Member State(s)/region(s) form part of the project (using the NUTS 3 code);
    - (iv) budget per Member State(s)/region(s) which form part of the project, in public expenditure, summing all contributions (EAFRD, national co-financing and additional national financing if applicable);
  - (o) final report: comprehensive description of the project outcomes after its completion;
  - (p) total budget: total project contributions (EAFRD, national co-financing and additional national financing if applicable);

<sup>(1)</sup> Regulation (EU) No 1291/2013 of the European Parliament and of the Council of 11 December 2013 establishing Horizon 2020 – the Framework Programme for Research and Innovation (2014-2020) and repealing Decision No 1982/2006/EC (OJ L 347, 20.12.2013, p. 104).

- (q) project contribution to Union strategies: the objective(s) of the European Green Deal, the Farm to Fork Strategy <sup>(2)</sup>, the EU Biodiversity strategy <sup>(3)</sup>, the Forestry strategy <sup>(4)</sup> and the EU strategy on carbon removals <sup>(5)</sup> to which the project is likely to contribute, to be selected from the following list:
- (i) achieving climate neutrality;
  - (ii) reducing the overall use and risk of chemical pesticides;
  - (iii) fostering organic farming and/or organic aquaculture;
  - (iv) reducing the use of antimicrobials for farmed animals and in aquaculture;
  - (v) reducing nutrient losses and the use of fertilisers, while maintaining soil fertility;
  - (vi) improving management of natural resources used in agriculture, such as water, soil and air;
  - (vii) protecting and/or restoring of biodiversity and ecosystem services within agricultural and forest systems;
  - (viii) bringing back agricultural area under high-diversity landscape features;
  - (ix) facilitating access to fast broadband internet in rural areas;
  - (x) improving animal welfare;
  - (xi) fostering biodiversity friendly afforestation and reforestation.

### Recommended data

2. Member States are strongly encouraged to report the following recommended data on EIP operational groups:
- (a) audiovisual material: material from the project developed for practitioner and end-users or project results (including videos, photos, podcasts, etc.);
  - (b) website of the project: URL of the website(s);
  - (c) other website(s): URL of the website(s), which will host the information on the project results also after the project's end;
  - (d) description of project activities in native language: short summary highlighting main the project activities;
  - (e) description of project activities in English: short summary highlighting the main project activities.

### Optional data

3. Member States may report the following optional data on EIP operational groups:
- (a) additional fields for additional practice abstracts in native language;
  - (b) additional fields for additional practice abstracts in English;
  - (c) description of the context of the project: free text to describe the drivers at the origin of the project, such as legislation, markets or other causes;
  - (d) additional information on the project: free text providing details as required by specific guidance at national/regional level, such as for monitoring purposes;
  - (e) additional comments: free text to list enabling elements or obstacles in project implementation, suggestions for future actions/operational groups/research, messages to consumers, etc.

---

<sup>(2)</sup> Commission communication of 20 May 2020 entitled 'A Farm to Fork Strategy for a fair, healthy and environmentally-friendly food system'.

<sup>(3)</sup> Commission communication of 20 May 2020 entitled 'EU Biodiversity Strategy for 2030: Bringing nature back into our lives'.

<sup>(4)</sup> Commission communication of 16 July 2021 entitled 'New EU Forest Strategy for 2030'.

<sup>(5)</sup> Commission communication of 15 December 2021 entitled 'Sustainable Carbon Cycles'.

## ANNEX VII

## RULES ON DATA ON LAGs AND THEIR ACTIVITIES FOR LEADER REFERRED TO IN ARTICLE 14(2)

**Data related to LAGs**

1. Member States shall report by 30 April of year N the variables set out in points (a) to (g), per LAG, for the LAGs selected by 31 December of year N-1. The data relates to the situation of the LAG at the moment of selection and is reported only once.

(a) L100: identification of LAG (ID)

This field provides a unique code of each LAG;

(b) L200: LAG's name

This field provides information on the name of the local action group;

(c) L300: municipality codes

This field provides a list of the Local Administrative Unit code of the municipalities within the LAG area. Multiple codes may be selected;

(d) L400: total population

This field provides information on the population within the LAG area. The calculation of this variable shall follow the calculation method of the Result indicator R.38 'LEADER coverage' set out in point 8(j) of the Annex to Implementing Regulation (EU) 2021/2290;

(e) L500: support of a LAG by more than one Fund pursuant to Article 31(3) of Regulation (EU) 2021/1060

This field indicates whether the LAG is supported by other Funds than the European Agricultural Fund for Rural Development (EAFRD).

If the value L500 is 'yes' the LAG shall provide the following variables:

(i) L501: use of European Regional Development Fund (ERDF) support: whether the LAG is receiving support under the ERDF;

(ii) L502: use of European Social Fund Plus (ESF+) support: whether the LAG is receiving support under the ESF+;

(iii) L503: use of European Maritime, Fisheries and Aquaculture Fund (EMFAF) support: whether the LAG is receiving support under the EMFAF;

(iv) L504: use of other European Structural and Investment Funds (ESIF) (e.g. the Just Transition Fund);

(f) L600: total number of LAG's members

This field provides information on the total number of the LAG's members referred to in Article 31(2), point (b), of Regulation (EU) 2021/1060. Member States shall report the number of LAG's members broken down by type of organisation, as follows:

(i) L601: number of LAG's members that represent public administrations;

(ii) L602: number of LAG's members that are representatives of private local economic interests (e.g. economic organisations, local businesses, etc.);

(iii) L603: number of LAG's members that are representatives of social local interests (e.g. non-governmental organisations, local associations, etc.);

(iv) L604: Number of LAG's members falling under other categories than those listed in points (i), (ii) and (iii);

(g) L610: total number of LAG's members in the LAG's decision-making body

Member States shall report the number of LAG's members in the decision-making body by type of organisation, as follows:

(i) L611: number of members of LAG's decision-making body that represent public administrations;

- (ii) L612: number of members in LAG's decision-making body members that are representatives of private local economic interests (e.g. economic organisations, local businesses, etc.);
- (iii) L613: number of members in LAG's decision-making body that are representatives of social local interests (e.g. non-governmental organisations, local associations, etc.);
- (iv) L614: number of members in LAG's decision-making body falling under others categories than those listed in points (i), (ii) and (iii);

Gender of members in the LAG's decision-making body

Member States shall report the number of members in LAG's decision-making body by gender (L615 to L618);

Age of members in the LAG's decision-making body

Member States shall report the number of members in LAG's decision-making body by age, as follows:

- (v) L619: number of young persons in LAG's decision-making body  
This field applies to persons who are below a certain age limit as defined by Member States;
- (vi) L620: age limit defined by the Member State for the variable referred to in point (v).

### Data related to the LAG's activities

2. Member States shall report by LAG the list of variables on LAG's activities set out in points (a) to (d), in 2026 and 2030, from the moment of the first payment to a given operation. The report in year N relates to all operations paid until 15 October N-1. These variables relate to the number of operations implemented in accordance with Article 34(1), point (b), of Regulation (EU) 2021/1060.

(a) L100: identification of LAG (ID);

(b) L700: total number of operations implemented by the LAG

This field provides the total number of operations implemented by the LAG, without double counting. Member States shall report the number of operations by type of promotor, as follows:

- (i) L701: number of operations implemented by private individuals or businesses;
- (ii) L702: number of operations implemented by public administrations;
- (iii) L703: number of operations implemented by representatives of private economic local interests (e.g. business associations, chamber of commerce, etc.);
- (iv) L704: number of operations implemented by representatives of social local interests (e.g. non-governmental organisations, local associations, etc.);
- (v) L705: number of operations implemented by research organisations;
- (vi) L706: number of operations jointly implemented by several types of promoters;
- (vii) L707: number of operations implemented by promoters that fall under other categories than those listed in points (i) to (vi);

Member States shall report the number of interregional or transnational cooperation operations as follows:

- (viii) L708: number of interregional cooperation projects implemented by the LAG;
- (ix) L709: number of transnational cooperation projects implemented by the LAG;

(c) L710: number of operations which are innovative in the local context

Member States shall report operations, which are innovative in the local context as set out in Article 31(2), point (d), of Regulation (EU) 2021/1060.

Member States, regional authorities or the LAG shall define the term 'innovative in the local context';

(d) Operations by objective/area

This field indicates the one or multiple objectives/areas to which a given operation relates, as follows:

- (i) L801: number of operations related to knowledge transfer, including advice, training and knowledge-exchange on sustainable, economic, social, environmental and climate-friendly performance;
- (ii) L802: number of operations related to producer organisations, local markets, short supply chains and quality schemes, including investment support, marketing activities, etc.;
- (iii) L803: number of operations related to renewable energy production capacities, including bio-based;
- (iv) L804: number of operations contributing to environmental sustainability and the achievement of climate mitigation and adaptation goals in rural areas;
- (v) L805: number of operations which create jobs;
- (vi) L806: number of operations supporting rural businesses, including bio-economy;
- (vii) L807: number of operations related to smart village strategies;
- (viii) L808: number of operations improving access to services and infrastructure, including broadband;
- (ix) L809: number of operations in the area of social inclusion;
- (x) L810: number of operations that fall under other categories than those listed in points (i) to (ix).

#### **Data related to LAG's finance**

3. Member States shall report the variables set out in points (a), (b) and (c) on LAG's finance in 2026 and 2030. The report in year N relates to all operations paid until 15 October N-1.
- (a) L900: total Union budget under EAFRD planned, per community-led local development strategy (LDS);
  - (b) L910: total amount from EAFRD committed to support the implementation of operations, including cooperation activities and preparation, selected under the LDS;
  - (c) L920: total amount of Union contribution paid from the EAFRD per LDS
- Member States shall report the Union contribution paid from the EAFRD broken down by actions provided for in Article 34(1), points (a), (b) and (c), of Regulation (EU) 2021/1060:
- (i) L921: total amount from EAFRD paid for capacity building and preparatory actions supporting the design and future implementation of the LDS;
  - (ii) L922: total amount from EAFRD paid for the implementation of operations, including cooperation activities and their preparation, selected under the LDS;
  - (iii) L923: total amount from EAFRD paid for the management, monitoring and evaluation of the LDS and its animation, including the facilitation of exchanges between stakeholders.

#### **Contribution to result indicators**

4. Member States shall report in 2026 and 2030 information by LAG on the contribution of the LDS to all relevant result indicators referred to in Annex I to Regulation (EU) 2021/2115 selected in their CAP Strategic Plan following the selection of LDS. The report in year N relates to all operations paid until 15 October of year N-1.

# ACTS ADOPTED BY BODIES CREATED BY INTERNATIONAL AGREEMENTS

## DECISION No 1/2022 OF THE EU-JORDAN ASSOCIATION COUNCIL of 15 March 2022

**amending Protocol 3 to the Euro-Mediterranean Agreement establishing an Association between the European Communities and their Member States, of the one part, and the Hashemite Kingdom of Jordan, of the other part, concerning the definition of the concept of 'originating products' and methods of administrative cooperation [2022/1476]**

THE EU-JORDAN ASSOCIATION COUNCIL,

Having regard to the Euro-Mediterranean Agreement establishing an Association between the European Communities and their Member States, of the one part, and the Hashemite Kingdom of Jordan, of the other part, and in particular Article 4 of Protocol 3 thereto concerning the definition of the concept of 'originating products' and methods of administrative cooperation,

Whereas:

- (1) Article 28 of the Euro-Mediterranean Agreement establishing an Association between the European Communities and their Member States, of the one part, and the Hashemite Kingdom of Jordan, of the other part ('the Agreement'), refers to Protocol 3 to the Agreement concerning the definition of the concept of 'originating products' and methods of administrative cooperation ('Protocol 3'), which lays down the rules of origin.
- (2) Article 4 of Protocol 3 provides that the Association Council established by Article 89 of the Agreement may decide to amend the provisions of Protocol 3.
- (3) Following the adoption of Council Decision (EU) 2020/2067 <sup>(1)</sup> on the position to be taken on behalf of the Union within the Association Council as regards the amendment of the Agreement by replacing Protocol 3, the Association Council adopted Decision No 1/2021 <sup>(2)</sup> replacing Protocol 3 with a new text.
- (4) Protocol 3 contains, on the one hand, a dynamic reference to the Regional Convention on pan-Euro-Mediterranean preferential rules of origin <sup>(3)</sup> ('the PEM Convention'), making the PEM Convention applicable between the Union and Jordan, and, on the other hand, the transitional rules that have been applicable as an alternative set of rules of origin to those laid down in the current PEM Convention since 1 September 2021.
- (5) As part of the Union's support for Jordan in the context of the Syrian refugee crisis, in July 2016 the Union and Jordan agreed to temporarily relax rules of origin applying to exports of Jordanian products to the Union under the Agreement.

<sup>(1)</sup> Council Decision (EU) 2020/2067 of 7 December 2020 on the position to be taken on behalf of the European Union within the Association Council established by the Euro-Mediterranean Agreement establishing an association between the European Communities and their Member States, of the one part, and the Hashemite Kingdom of Jordan, of the other part, as regards the amendment of that Agreement by replacing Protocol 3 thereto concerning the definition of the concept of 'originating products' and methods of administrative cooperation (OJ L 424, 15.12.2020, p. 37).

<sup>(2)</sup> Decision No 1/2021 of the EU-Jordan Association Council of 15 April 2021 amending the Euro-Mediterranean Agreement establishing an association between the European Communities and their Member States, of the one part, and the Hashemite Kingdom of Jordan, of the other part, by replacing Protocol 3 thereto concerning the definition of the concept of 'originating products' and methods of administrative cooperation [2021/742] (OJ L 164, 10.5.2021, p. 1).

<sup>(3)</sup> Regional Convention on pan-Euro-Mediterranean preferential rules of origin (OJ L 54, 26.2.2013, p. 4).

- (6) Consequently, the EU-Jordan Association Committee adopted Decision No 1/2016 <sup>(4)</sup> to amend the provisions of Protocol 3 as regards the definition of the concept of 'originating products' and to supplement the list of working or processing required to be carried out on non-originating materials in order for certain categories of products, manufactured in the territory of Jordan and connected with generating employment for Syrian refugees and Jordanians, to obtain originating status.
- (7) In December 2017, Jordan presented the first annual report on the implementation of the rules of origin scheme established by Decision No 1/2016 and made a number of requests for further relaxation of the scheme. In December 2018, having examined Jordan's requests, the Council, on behalf of the Union, considered the requests justified and agreed to further relax certain requirements of the rules of origin scheme, for example by abandoning the zone requirement, setting a requirement that for each production facility 15 % of the total workforce be Syrian, and extending the duration of the scheme until 31 December 2030.
- (8) The EU-Jordan Association Committee adopted Decision No 1/2018 <sup>(5)</sup> to amend the provisions of Protocol 3 by relaxing the rules of origin scheme further and extending the duration of the scheme established by Decision No 1/2016 until 31 December 2030. Decision No 1/2018 entered into force on 4 December 2018.
- (9) Decision No 1/2021 does not maintain the derogating measures introduced by Decisions No 1/2016 and No 1/2018 in relation to the temporary relaxation of rules of origin applying to exports of Jordanian products to the Union under the Agreement.
- (10) To ensure the continued application of Decisions No 1/2016 and No 1/2018, it is necessary to link them to the transitional rules, which have been applicable since 1 September 2021.
- (11) It is necessary to amend Protocol 3 in order to maintain the rules of origin scheme established by Decision No 1/2016 by linking them to the transitional rules laid down in Protocol 3, as last amended by Decision No 1/2021.
- (12) Protocol 3 should therefore be amended by adding an Appendix B containing an additional list of working or processing required to be carried out on non-originating materials in order for the products manufactured in Jordan to obtain originating status.
- (13) The application of Appendix B to Protocol 3 should be accompanied by appropriate monitoring and reporting obligations. In addition, it should be possible to suspend the application of Appendix B to Protocol 3 if the conditions for its application are no longer fulfilled or if the conditions for safeguard measures are met.
- (14) In order to ensure continuity in the application of Decisions No 1/2016 and No 1/2018, including the derogations provided for therein, and thus to enable authorised exporters to avoid incurring economic losses under Decision No 1/2016, it is appropriate to apply this Decision retroactively, from 1 September 2021,

---

<sup>(4)</sup> Decision No 1/2016 of the EU-Jordan Association Committee of 19 July 2016 amending the provisions of Protocol 3 to the Euro-Mediterranean Agreement establishing an Association 'between the European Communities and their Member States, of the one part, and the Hashemite Kingdom of Jordan, of the other part, concerning the definition of the concept of originating products' and the list of working or processing required to be carried out on non-originating materials in order for certain categories of products, manufactured in dedicated development zones and industrial areas, and connected with generating employment for Syrian refugees and Jordanians, to obtain originating status [2016/1436] (OJ L 233, 30.8.2016, p. 6).

<sup>(5)</sup> Decision No 1/2018 of the EU-Jordan Association Committee of 4 December 2018 amending the provisions of Protocol 3 to the Euro-Mediterranean Agreement establishing an Association between the European Communities and their Member States, of the one part, and the Hashemite Kingdom of Jordan, of the other part, concerning the definition of the concept of 'originating products' and the list of working or processing required to be carried out on non-originating materials in order for certain categories of products, manufactured in the territory of the Hashemite Kingdom of Jordan, and connected with generating employment for Syrian refugees and Jordanians, to obtain originating status [2019/42] (OJ L 9, 11.1.2019, p. 147).

HAS ADOPTED THIS DECISION:

*Article 1*

1. Protocol 3 to the Euro-Mediterranean Agreement establishing an Association between the European Communities and their Member States, of the one part, and the Hashemite Kingdom of Jordan, of the other part, concerning the definition of the concept of 'originating products' and methods of administrative cooperation ('Protocol 3') shall be amended by adding an Appendix B thereto, containing the conditions for application of that Appendix B and the list of working or processing required to be carried out on non-originating materials in order for products manufactured in Jordan to obtain originating status, where the manufacture of those products involved the employment of Syrian refugees as set out in the Annex to this Decision.

2. Appendix B to Protocol 3 shall apply until 31 December 2030.

*Article 2*

For the purposes of the application of this Decision, proofs of origin may be issued retrospectively for exports carried out between 1 September 2021 and the date of entry into force of this Decision.

*Article 3*

This Decision shall enter into force on the date of its adoption.

It shall apply from 1 September 2021.

Done at Brussels, 15 March 2022.

*For the Council*  
*The President*  
J. BORRELL FONTELLES

## ANNEX

## Appendix B

## ADDENDUM TO THE LIST OF WORKING OR PROCESSING REQUIRED TO BE CARRIED OUT ON NON-ORIGINATING MATERIALS IN ORDER FOR PRODUCTS MANUFACTURED IN JORDAN TO OBTAIN ORIGINATING STATUS

## Article 1

**Common provisions**

## A. Definition of origin

1. For the products listed in Article 2 of this Appendix, the following rules may also apply instead of the rules set out in Annex II to Appendix I to the Regional Convention on pan-Euro-Mediterranean preferential rules of origin as referred in Article 1(1) of Protocol 3 ('the PEM Convention'), provided that such products respect the following conditions:
  - (a) the required working or processing to be carried out on non-originating materials in order for such products to obtain originating status takes place in production facilities located in the territory of Jordan; and
  - (b) the total workforce of each production facility located in the territory of Jordan where such products are worked or processed contains a proportion of Syrian refugees equivalent to at least 15 % (calculated individually for each production facility).
2. The relevant proportion pursuant to point (b) of paragraph 1 shall be calculated at any point after the entry into force of this Appendix and on an annual basis thereafter, taking into account the number of Syrian refugees who are employed in formal and decent jobs and on a full-time equivalent basis, and who have received a work permit valid for a minimum period of 12 months under the applicable legislation of Jordan.
3. The competent authorities of Jordan shall monitor that the eligible production facilities comply with the conditions set out in paragraph 1, shall grant to production facilities fulfilling such conditions an authorisation number and shall promptly withdraw such authorisation number when the production facilities no longer fulfill such conditions.

## B. Proof of origin

4. A proof of origin made out pursuant to this Appendix shall contain the following statement in English:  
'Derogation – Appendix B to Protocol 3 – [authorisation number granted by the competent authorities of Jordan]'.

## C. Administrative cooperation

5. When, in accordance with Article 32(5) of Appendix I to the PEM Convention, the customs authorities of Jordan inform the European Commission or the requesting customs authorities of the Member States of the European Union (the 'Member States') of the results of the verification, they shall specify that the products listed in Article 2 of this Appendix fulfil the conditions set out in paragraph 1 of this Article.
6. Where the verification procedure or any other available information appears to indicate that the conditions set out in paragraph 1 of this Article are not fulfilled, Jordan shall, on its own initiative or at the request of the European Commission or the customs authorities of the Member States, carry out appropriate inquiries or arrange for such inquiries to be carried out with due urgency to identify and prevent such violations. For that purpose, the European Commission or the customs authorities of the Member States may participate in the inquiries.

D. Report, monitoring and review

7. Each year after the entry into force of this Appendix, Jordan shall submit a report to the European Commission on the operation and effects of this Appendix, including production and export statistics at 8 digit level or the highest level of detail available for the products covered by the scheme. Jordan shall also submit a list identifying the production facilities in Jordan and specifying the percentage of Syrian refugees employed in each individual production facility on a year-by-year basis. Jordan shall also report, on a quarterly basis, on the overall number of active work permits or other measurable means corresponding to legal and active employment determined by the Association Committee. The Parties shall jointly review such reports and any issues relating to the implementation and monitoring of this Appendix within the bodies established by the Association Agreement, and in particular in the Sub-Committee on Industry, Trade and Services. The Parties shall also ensure the involvement of relevant international organisations, such as the International Labour Organization and the World Bank, in the monitoring process.
8. Once Jordan has achieved its target of facilitating a greater participation of Syrian refugees in the formal labour market by issuing at least 60 000 active work permits, or other measurable means corresponding to legal and active employment determined by the Association Committee, to Syrian refugees, the Parties shall apply the provisions of this Appendix to all products covered by this Appendix without the requirement to comply with the specific conditions set out in point (b) of paragraph 1 of this Article.
9. If the European Union considers that there is insufficient evidence of Jordan complying with the conditions set out in paragraph 8, the European Union may refer the matter to the Association Committee. If the Association Committee fails to declare within 90 days of the referral of the matter that the conditions set out in paragraph 8 are met or to amend this Appendix, the European Union may decide that the specific conditions set out in point (b) of paragraph 1 shall apply.

E. Temporary suspension

10.
  - (a) Without prejudice to paragraphs 8 and 9, the European Union may, if it considers that there is insufficient evidence of Jordan or any specific production facility complying with the conditions set out in paragraphs 1, 2 and 3, refer the matter to the Association Committee. That referral shall identify whether the failure to comply with the conditions set out in paragraph 1 is attributable to Jordan or any specific production facility.
  - (b) If the Association Committee fails to declare within 90 days of the referral of the matter that the conditions set out in paragraph 1 are met or to amend this Appendix, the application of this Appendix shall be suspended. The duration of the suspension shall be that identified in the referral of the European Union to the Association Committee.
  - (c) The Association Committee may also decide to extend the 90-day period. In that case, the suspension shall take effect when the Association Council has failed to take any of the actions identified in point (b) within the extended period of time.
  - (d) The application of this Appendix may resume if the Association Committee so decides.
  - (e) In the case of a suspension, this Appendix shall continue to apply for a period of four months in relation to products which are, on the date of temporary suspension of the Appendix, either in transit or in temporary storage in customs warehouses or in free zones in the European Union, and for which a proof of origin was properly made out in accordance with the provisions of this Appendix prior to the date of temporary suspension.

F. Safeguard mechanism

11. Where a product listed in Article 2 benefiting from the application of this Appendix is imported in such increased quantities and under such conditions as to cause, or threaten to cause, serious injury to European Union producers of like or directly competitive products in all or part of the territory of the European Union or serious disturbances in any sector of the economy of the European Union, in accordance with Articles 24 and 26 of the Agreement, the European

Union may refer the matter for examination to the Association Committee. If within 90 days of the matter being referred to it, the Association Committee fails to adopt a decision putting an end to such serious injury or threat thereof or serious disturbances or if no other satisfactory solution has been reached, the application of this Appendix shall be suspended with respect to that product, until the Association Committee adopts a decision declaring that they have ended or until a satisfactory solution has been reached by the Parties and is notified to the Association Committee.

G. Entry into force and application

12. This Appendix shall apply from the date of application of the Association Council decision to which it is annexed and shall apply until 31 December 2030.

*Article 2*

**List of products and of required working and processing**

The list of products to which this Appendix applies and the rules of working and processing that may be applied as an alternative to those listed in Annex II to Appendix I to the PEM Convention are set out below.

Annex II to Appendix I to the PEM Convention containing the introductory notes to the list in Annex II to Appendix I to the PEM Convention applies *mutatis mutandis* to the list below, subject to the following amendments:

In Note 5.2, the following basic materials are added in the second subparagraph:

- ‘— glass fibres;
- metal fibres.’.

In Note 7.3, the text is replaced by the following:

‘For the purposes of headings ex 2707 and 2713, simple operations, such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, or any combination of these operations or like operations, do not confer origin.’.

For the purposes of this Appendix, the following list applies:

'ex Chapter 25	Salt; sulphur; earths and stone; plastering materials, lime and cement; except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex 2519	Crushed natural magnesium carbonate (magnesite), in hermetically-sealed containers, and magnesium oxide, whether or not pure, other than fused magnesia or dead-burned (sintered) magnesia	Manufacture from materials of any heading, except that of the product. However, natural magnesium carbonate (magnesite) may be used
'ex Chapter 27	Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes, except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex 2707	Oils in which the weight of the aromatic constituents exceeds that of the non-aromatic constituents, being oils similar to mineral oils obtained by distillation of high temperature coal tar, of which more than 65 % by volume distils at a temperature of up to 250 °C (including mixtures of petroleum spirit and benzole), for use as power or heating fuels	Operations of refining and/or one or more specific process(es) <sup>(1)</sup> or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product
2710	Petroleum oils and oils obtained from bituminous materials, other than crude; preparations not elsewhere specified or included, containing by weight 70 % or more of petroleum oils or of oils obtained from bituminous materials, these oils being the basic constituents of the preparations; waste oils	Operations of refining and/or one or more specific process(es) <sup>(2)</sup> or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product

2711	Petroleum gases and other gaseous hydrocarbons	Operations of refining and/or one or more specific process(es) <sup>(2)</sup> or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product
2712	Petroleum jelly; paraffin wax, microcrystalline petroleum wax, slack wax, ozokerite, lignite wax, peat wax, other mineral waxes, and similar products obtained by synthesis or by other processes, whether or not coloured	Operations of refining and/or one or more specific process(es) <sup>(2)</sup> or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product
2713	Petroleum coke, petroleum bitumen and other residues of petroleum oils or of oils obtained from bituminous materials	Operations of refining and/or one or more specific process(es) <sup>(1)</sup> or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product
ex Chapter 28	Inorganic chemicals; organic or inorganic compounds of precious metals, of rare-earth metals, of radioactive elements or of isotopes; except for:	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product

ex 2811	Sulphur trioxide; and	Manufacture from sulphur dioxide or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex 2840	Sodium perborate;	Manufacture from disodium tetraborate pentahydrate or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
2843	Colloidal precious metals; inorganic or organic compounds of precious metals, whether or not chemically defined; amalgams of precious metals	Manufacture from materials of any heading, including other materials of heading 2843
ex 2852	— Mercury compounds of internal ethers and their halogenated, sulpho-nated, nitrated or nitrosated derivatives	Manufacture from materials of any heading. However, the value of all the materials of heading 2909 used shall not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
	— Mercury compounds of nucleic acids and their salts, whether or not chemically defined; other heterocyclic compounds	Manufacture from materials of any heading. However, the value of all the materials of headings 2852, 2932, 2933 and 2934 used shall not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product

ex Chapter 29	Organic chemicals; except for:	<p>Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product</p> <p>or</p> <p>Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product</p>
ex 2905	Metal alcoholates of alcohols of this heading and of ethanol; except for:	<p>Manufacture from materials of any heading, including other materials of heading 2905. However, metal alcoholates of this heading may be used, provided that their total value does not exceed 20 % of the ex-works price of the product</p> <p>or</p> <p>Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product</p>
2905.43; 2905.44; 2905.45	Mannitol; D-glucitol (sorbitol); Glycerol	<p>Manufacture from materials of any sub-heading, except that of the product. However, materials of the same sub-heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product</p> <p>or</p> <p>Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product</p>
2915	Saturated acyclic monocarboxylic acids and their anhydrides, halides, peroxides and peroxyacids; their halogenated, sulphonated, nitrated or nitrosated derivatives	<p>Manufacture from materials of any heading. However, the value of all the materials of headings 2915 and 2916 used shall not exceed 20 % of the ex-works price of the product</p> <p>or</p> <p>Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product</p>

ex 2932	— Internal ethers and their halogenated, sulphonated, nitrated or nitrosated derivatives	Manufacture from materials of any heading. However, the value of all the materials of heading 2909 used shall not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
	— Cyclic acetals and internal hemiacetals and their halogenated, sulphonated, nitrated or nitrosated derivatives	Manufacture from materials of any heading or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
2933	Heterocyclic compounds with nitrogen hetero-atom(s) only	Manufacture from materials of any heading. However, the value of all the materials of headings 2932 and 2933 used shall not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
2934	Nucleic acids and their salts, whether or not chemically defined; other heterocyclic compounds	Manufacture from materials of any heading. However, the value of all the materials of headings 2932, 2933 and 2934 used shall not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
Chapter 31	Fertilisers	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product

Chapter 32	Tanning or dyeing extracts; tannins and their derivatives; dyes, pigments and other colouring matter; paints and varnishes; putty and other mastics; inks	<p>Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product</p> <p>or</p> <p>Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product</p>
ex Chapter 33	Essential oils and resinoids; perfumery, cosmetic or toilet preparations; except for:	<p>Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product</p> <p>or</p> <p>Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product</p>
ex 3301	Essential oils (terpeneless or not), including concretes and absolutes; resinoids; extracted oleoresins; concentrates of essential oils in fats, in fixed oils, in waxes or the like, obtained by enfleurage or maceration; terpenic by-products of the deterpenation of essential oils; aqueous distillates and aqueous solutions of essential oils	<p>Manufacture from materials of any heading, including materials of a different "group" (?) in this heading. However, materials of the same group as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product</p> <p>or</p> <p>Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product</p>
ex Chapter 34	Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing or scouring preparations, candles and similar articles, modelling pastes, "dental waxes" and dental preparations with a basis of plaster, except for:	<p>Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product</p> <p>or</p> <p>Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product</p>

ex 3404	Artificial waxes and prepared waxes: — With a basis of paraffin, petroleum waxes, waxes obtained from bituminous minerals, slack wax or scale wax	Manufacture from materials of any heading
Chapter 35	Albuminoidal substances; modified starches; glues; enzymes	Manufacture from materials of any heading, except that of the product, in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
Chapter 37	Photographic or cinematographic goods	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product  or  Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex Chapter 38	Miscellaneous chemical products; except for:	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product  or  Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex 3803	Refined tall oil	Refining of crude tall oil  or  Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex 3805	Spirits of sulphate turpentine, purified	Purification by distillation or refining of raw spirits of sulphate turpentine  or  Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product

3806 30	Ester gums	Manufacture from resin acids or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex 3807	Wood pitch (wood tar pitch)	Distillation of wood tar or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
3809 10	Finishing agents, dye carriers to accelerate the dyeing or fixing of dyestuffs and other products and preparations (for example, dressings and mordants), of a kind used in the textile, paper, leather or like industries, not elsewhere specified or included: With a basis of amylaceous substances	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
3823	Industrial monocarboxylic fatty acids; acid oils from refining; industrial fatty alcohols	Manufacture from materials of any heading, including other materials of heading 3823 or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
3824 60	Sorbitol other than that of sub-heading 2905.44	Manufacture from materials of any sub-heading, except that of the product and except materials of sub-heading 2905.44. However, materials of the same sub-heading as the product may be used, provided that their total value does not exceed 20 % of the exworks price of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product

ex Chapter 39	Plastics and articles thereof, except for:	<p>Manufacture from materials of any heading, except that of the product</p> <p>or</p> <p>Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product</p>
ex 3907	— Copolymer, made from polycarbonate and acrylonitrile-butadiene-styrene copolymer (ABS)	<p>Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product <sup>(4)</sup></p> <p>or</p> <p>Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product</p>
	— Polyester	<p>Manufacture from materials of any heading, except that of the product</p> <p>or</p> <p>Manufacture from polycarbonate of tetrabromo-(bisphenol A)</p> <p>or</p> <p>Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product</p>
ex 3920	Ionomer sheet or film	<p>Manufacture from a thermoplastic partial salt which is a copolymer of ethylene and metacrylic acid partly neutralised with metal ions, mainly zinc and sodium</p> <p>or</p> <p>Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product</p>
ex 3921	Foils of plastic, metallised	<p>Manufacture from highly-transparent polyester-foils with a thickness of less than 23 microns <sup>(5)</sup></p> <p>or</p> <p>Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product</p>

ex Chapter 40	Rubber and articles thereof; except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
4012	Retreaded or used pneumatic tyres of rubber; solid or cushion tyres, tyre treads and tyre flaps, of rubber:	
	— Retreaded pneumatic, solid or cushion tyres, of rubber	Retreading of used tyres
	— Other	Manufacture from materials of any heading, except those of headings 4011 and 4012 or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex Chapter 41	Raw hides and skins (other than furskins) and leather; except for:	Manufacture from materials of any heading, except that of the product
4101 to 4103	Raw hides and skins of bovine (including buffalo) or equine animals (fresh, or salted, dried, limed, pickled or otherwise preserved, but not tanned, parchment dressed or further prepared), whether or not dehaired or split; raw skins of sheep or lambs (fresh, or salted, dried, limed, pickled or otherwise preserved, but not tanned, parchment dressed or further prepared), whether or not with wool on or split, other than those excluded by note 1(c) to Chapter 41; other raw hides and skins (fresh, or salted, dried, limed, pickled or otherwise preserved, but not tanned, parchment dressed or further prepared), whether or not dehaired or split, other than those excluded by note 1(b) or 1(c) to Chapter 41	Manufacture from materials of any heading
4104 to 4106	Tanned or crust hides and skins, without wool or hair on, whether or not split, but not further prepared	Re-tanning of tanned or pre-tanned hides and skins of sub-headings 4104.11, 4104.19, 4105.10, 4106.21, 4106.31 or 4106.91 or Manufacture from materials of any heading, except that of the product

4107, 4112, 4113	Leather further prepared after tanning or crusting	Manufacture from materials of any heading, except that of the product. However, materials of sub-headings 4104.41, 4104.49, 4105.30, 4106.22, 4106.32 and 4106.92 may be used only if a re-tanning operation of the tanned or crust hides and skins in the dry state takes place
Chapter 42	Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk worm gut)	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex Chapter 43	Furskins and artificial fur; manufactures thereof; except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
4301	Raw furskins (including heads, tails, paws and other pieces or cuttings, suitable for furrier's use), other than raw hides and skins of heading 4101, 4102 or 4103	Manufacture from materials of any heading
ex 4302	Tanned or dressed furskins, assembled:	
	— Plates, crosses and similar forms	Bleaching or dyeing, in addition to cutting and assembly of non-assembled tanned or dressed furskins
	— Other	Manufacture from non-assembled, tanned or dressed furskins
4303	Articles of apparel, clothing accessories and other articles of furskin	Manufacture from non-assembled tanned or dressed furskins of heading 4302
ex Chapter 44	Wood and articles of wood; wood charcoal; except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product

ex 4407	Wood sawn or chipped lengthwise, sliced or peeled, of a thickness exceeding 6 mm, planed, sanded or end-jointed	Planing, sanding or end-jointing
ex 4408	Sheets for veneering (including those obtained by slicing laminated wood) and for plywood, of a thickness not exceeding 6 mm, spliced, and other wood sawn lengthwise, sliced or peeled of a thickness not exceeding 6 mm, planed, sanded or end-jointed	Splicing, planing, sanding or endjointing
ex 4410 to ex 4413	Beadings and mouldings, including moulded skirting and other moulded boards	Beading or moulding
ex 4415	Packing cases, boxes, crates, drums and similar packings, of wood	Manufacture from boards not cut to size
ex 4418	— Builders' joinery and carpentry of wood	Manufacture from materials of any heading, except that of the product. However, cellular wood panels, shingles and shakes may be used
	— Beadings and mouldings	Beading or moulding
ex 4421	Match splints; wooden pegs or pins for footwear	Manufacture from wood of any heading, except drawn wood of heading 4409
ex Chapter 51	Wool, fine or coarse animal hair; horsehair yarn and woven fabric; except for:	Manufacture from materials of any heading, except that of the product
5106 to 5110	Yarn of wool, of fine or coarse animal hair or of horsehair	Spinning of natural fibres or extrusion of man-made fibres accompanied by spinning <sup>(6)</sup>
5111 to 5113	Woven fabrics of wool, of fine or coarse animal hair or of horsehair:	Weaving <sup>(6)</sup> or Printing accompanied by at least two preparatory or finishing operations (such as scouring, bleaching, mercerising, heat setting, raising, calendaring, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling) where the value of the unprinted fabric used does not exceed 47,5 % of the ex-works price of the product

ex Chapter 52	Cotton; except for:	Manufacture from materials of any heading, except that of the product
5204 to 5207	Yarn and thread of cotton	Spinning of natural fibres or extrusion of man-made fibres accompanied by spinning <sup>(6)</sup>
5208 to 5212	Woven fabrics of cotton:	Weaving <sup>(6)</sup> or Printing accompanied by at least two preparatory or finishing operations (such as scouring, bleaching, mercerising, heat setting, raising, calendaring, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling) where the value of the unprinted fabric used does not exceed 47,5 % of the ex-works price of the product
ex Chapter 53	Other vegetable textile fibres; paper yarn and woven fabrics of paper yarn; except for:	Manufacture from materials of any heading, except that of the product
5306 to 5308	Yarn of other vegetable textile fibres; paper yarn	Spinning of natural fibres or extrusion of man-made fibres accompanied by spinning <sup>(6)</sup>
5309 to 5311	Woven fabrics of other vegetable textile fibres; woven fabrics of paper yarn:	Weaving <sup>(6)</sup> Printing accompanied by at least two preparatory or finishing operations (such as scouring, bleaching, mercerising, heat setting, raising, calendaring, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling) where the value of the unprinted fabric used does not exceed 47,5 % of the ex-works price of the product
5401 to 5406	Yarn, monofilament and thread of man-made filaments	Extrusion of man-made fibres accompanied by spinning or spinning of natural fibres <sup>(6)</sup>
5407 and 5408	Woven fabrics of man-made filament yarn:	Weaving <sup>(6)</sup> or Printing accompanied by at least two preparatory or finishing operations (such as scouring, bleaching, mercerising, heat setting, raising, calendaring, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling) where the value of the unprinted fabric used does not exceed 47,5 % of the ex-works price of the product

5501 to 5507	Man-made staple fibres	Extrusion of man-made fibres
5508 to 5511	Yarn and sewing thread of man-made staple fibres	Spinning of natural fibres or extrusion of man-made fibres accompanied by spinning <sup>(6)</sup>
5512 to 5516	Woven fabrics of man-made staple fibres:	Weaving <sup>(6)</sup> or Printing accompanied by at least two preparatory or finishing operations (such as scouring, bleaching, mercerising, heat setting, raising, calendaring, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling) where the value of the unprinted fabric used does not exceed 47,5 % of the ex-works price of the product
ex Chapter 56	Wadding, felt and non-wovens; special yarns; twine, cordage, ropes and cables and articles thereof; except for:	Extrusion of man-made fibres accompanied by spinning or spinning of natural fibres or Flocking accompanied by dyeing or printing <sup>(6)</sup>
5602	Felt, whether or not impregnated, coated, covered or laminated:	
	— Needleloom felt	Extrusion of man-made fibres accompanied by fabric formation However: — polypropylene filament of heading 5402, — polypropylene fibres of heading 5503 or 5506, or — polypropylene filament tow of heading 5501, of which the denomination in all cases of a single filament or fibre is less than 9 decitex, may be used, provided that their total value does not exceed 40 % of the ex-works price of the product or Fabric formation alone in the case of felt made from natural fibres <sup>(6)</sup>

	— Other	Extrusion of man-made fibres accompanied by fabric formation or Fabric formation alone in the case of other felt made from natural fibres <sup>(6)</sup>
5603	Nonwovens, whether or not impregnated, coated, covered or laminated	Any non-woven process including needle punching
5604	Rubber thread and cord, textile covered; textile yarn, and strip and the like of heading 5404 or 5405, impregnated, coated, covered or sheathed with rubber or plastics:	
	— Rubber thread and cord, textile covered	Manufacture from rubber thread or cord, not textile covered
	— Other	Extrusion of man-made fibres accompanied by spinning or spinning of natural fibres <sup>(6)</sup>
5605	Metallised yarn, whether or not gimped, being textile yarn, or strip or the like of heading 5404 or 5405, combined with metal in the form of thread, strip or powder or covered with metal	Extrusion of man-made fibres accompanied by spinning or spinning of natural and/or man-made staple fibres <sup>(6)</sup>
5606	Gimped yarn, and strip and the like of heading 5404 or 5405, gimped (other than those of heading 5605 and gimped horsehair yarn); chenille yarn (including flock chenille yarn); loop wale-yarn	Extrusion of man-made fibres accompanied by spinning or spinning of natural and/or man-made staple fibres or Spinning accompanied with flocking or Flocking accompanied by dyeing <sup>(6)</sup>

Chapter 57	Carpets and other textile floor coverings:	<p>Spinning of natural and/or man-made staple fibres or extrusion of man-made filament yarn, in each case accompanied by weaving</p> <p>or</p> <p>Manufacture from coir yarn or sisal yarn or jute yarn</p> <p>or</p> <p>Flocking accompanied by dyeing or by printing</p> <p>or</p> <p>Tufting accompanied by dyeing or by printing</p> <p>Extrusion of man-made fibres accompanied by non-woven techniques including needle punching <sup>(6)</sup></p> <p>However:</p> <ul style="list-style-type: none"> <li>— polypropylene filament of heading 5402,</li> <li>— polypropylene fibres of heading 5503 or 5506, or</li> <li>— polypropylene filament tow of heading 5501,</li> </ul> <p>of which the denomination in all cases of a single filament or fibre is less than 9 decitex, may be used, provided that their total value does not exceed 40 % of the ex-works price of the product</p> <p>Jute fabric may be used as a backing</p>
ex Chapter 58	Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery; except for:	<p>Weaving <sup>(6)</sup></p> <p>or</p> <p>Printing accompanied by at least two preparatory or finishing operations (such as scouring, bleaching, mercerising, heat setting, raising, calendaring, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling) where the value of the unprinted fabric used does not exceed 47,5 % of the ex-works price of the product</p>
5805	Hand-woven tapestries of the types Gobelins, Flanders, Aubusson, Beauvais and the like, and needle-worked tapestries (for example, petit point, cross stitch), whether or not made up	Manufacture from materials of any heading, except that of the product
5810	Embroidery in the piece, in strips or in motifs	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product

5901	Textile fabrics coated with gum or amylaceous substances, of a kind used for the outer covers of books or the like; tracing cloth; prepared painting canvas; buckram and similar stiffened textile fabrics of a kind used for hat foundations	Weaving accompanied by dyeing or by flocking or by coating or Flocking accompanied by dyeing or printing
5902	Tyre cord fabric of high tenacity yarn of nylon or other polyamides, polyesters or viscose rayon:	
	— Containing not more than 90 % by weight of textile materials	Weaving
	— Other	Extrusion of man-made fibres accompanied by weaving
5903	Textile fabrics impregnated, coated, covered or laminated with plastics, other than those of heading 5902	Weaving accompanied by dyeing or by coating or Printing accompanied by at least two preparatory or finishing operations (such as scouring, bleaching, mercerising, heat setting, raising, calendering, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling), provided that the value of the unprinted fabric used does not exceed 47,5 % of the ex-works price of the product
5904	Linoleum, whether or not cut to shape; floor coverings consisting of a coating or covering applied on a textile backing, whether or not cut to shape	Weaving accompanied by dyeing or by coating <sup>(6)</sup>
5905	Textile wall coverings:	

	— Impregnated, coated, covered or laminated with rubber, plastics or other materials	Weaving accompanied by dyeing or by coating
	— Other	Spinning of natural and/or man-made staple fibres or extrusion of man-made filament yarn, in each case accompanied by weaving or Weaving accompanied by dyeing or by coating or Printing accompanied by at least two preparatory or finishing operations (such as scouring, bleaching, mercerising, heat setting, raising, calendering, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling), provided that the value of the unprinted fabric used does not exceed 47,5 % of the ex-works price of the product <sup>(6)</sup>
5906	Rubberised textile fabrics, other than those of heading 5902:	
	— Knitted or crocheted fabrics	Spinning of natural and/or man-made staple fibres or extrusion of man-made filament yarn, in each case accompanied by knitting or Knitting accompanied by dyeing or by coating or Dyeing of yarn of natural fibres accompanied by knitting <sup>(6)</sup>
	— Other fabrics made of synthetic filament yarn, containing more than 90 % by weight of textile materials	Extrusion of man-made fibres accompanied by weaving
	— Other	Weaving accompanied by dyeing or by coating or Dyeing of yarn of natural fibres accompanied by weaving

5907	Textile fabrics otherwise impregnated, coated or covered; painted canvas being theatrical scenery, studio back-cloths or the like	Weaving accompanied by dyeing or by flocking or by coating or Flocking accompanied by dyeing or by printing or Printing accompanied by at least two preparatory or finishing operations (such as scouring, bleaching, mercerising, heat setting, raising, calendering, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling), provided that the value of the unprinted fabric used does not exceed 47,5 % of the ex-works price of the product
5908	Textile wicks, woven, plaited or knitted, for lamps, stoves, lighters, candles or the like; incandescent gas mantles and tubular knitted gas mantle fabric therefor, whether or not impregnated:	
	— Incandescent gas mantles, impregnated	Manufacture from tubular knitted gas-mantle fabric
	— Other	Manufacture from materials of any heading, except that of the product
5909 to 5911	Textile articles of a kind suitable for industrial use:	
	— Polishing discs or rings other than of felt of heading 5911	Weaving
	— Woven fabrics, of a kind commonly used in papermaking or other technical uses, felted or not, whether or not impregnated or coated, tubular or endless with single or multiple warp and/or weft, or flat woven with multiple warp and/or weft of heading 5911	Weaving (°)
	— Other	Extrusion of man-made filament yarn or spinning of natural or man-made staple fibres, accompanied by weaving (°) or Weaving accompanied by dyeing or coating

Chapter 60	Knitted or crocheted fabrics	Spinning of natural and/or man-made staple fibres or extrusion of man-made filament yarn, in each case accompanied by knitting or Knitting accompanied by dyeing or by flocking or by coating or Flocking accompanied by dyeing or by printing or Dyeing of yarn of natural fibres accompanied by knitting or Twisting or texturing accompanied by knitting provided that the value of the non-twisted/ non-textured yarns used does not exceed 47,5 % of the ex-works price of the product
Chapter 61	Articles of apparel and clothing accessories, knitted or crocheted:	
	— Obtained by sewing together or otherwise assembling, two or more pieces of knitted or crocheted fabric which have been either cut to form or obtained directly to form	Manufacture from fabric
	— Other	Spinning of natural and/or man-made staple fibres or extrusion of man-made filament yarn, in each case accompanied by knitting (knitted to shape products) or Dyeing of yarn of natural fibres accompanied by knitting (knitted to shape products) (°)
ex Chapter 62	Articles of apparel and clothing accessories, not knitted or crocheted; except for:	Manufacture from fabric
6213 and 6214	Handkerchiefs, shawls, scarves, mufflers, mantillas, veils and the like:	

	— Embroidered	<p>Weaving accompanied by making-up (including cutting)</p> <p>or</p> <p>Manufacture from unembroidered fabric, provided that the value of the unembroidered fabric used does not exceed 40 % of the ex-works price of the product <sup>(7)</sup></p> <p>or</p> <p>Making-up preceded by printing accompanied by at least two preparatory or finishing operations (such as scouring, bleaching, mercerising, heat setting, raising, calendering, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling), provided that the value of the unprinted fabric used does not exceed 47,5 % of the ex-works price of the product <sup>(6)</sup> <sup>(7)</sup></p>
	— Other	<p>Weaving accompanied by making-up (including cutting)</p> <p>or</p> <p>Making-up followed by printing accompanied by at least two preparatory finishing operations (such as scouring, bleaching, mercerising, heat setting, raising, calendering, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling), provided that the value of the unprinted fabric used does not exceed 47,5 % of the ex-works price of the product <sup>(6)</sup> <sup>(7)</sup></p>
6217	Other made up clothing accessories; parts of garments or of clothing accessories, other than those of heading 6212:	
	— Embroidered	<p>Weaving accompanied by making-up (including cutting)</p> <p>or</p> <p>Manufacture from unembroidered fabric, provided that the value of the unembroidered fabric used does not exceed 40 % of the ex-works price of the product <sup>(7)</sup></p>

	— Fire-resistant equipment of fabric covered with foil of aluminised polyester	Weaving accompanied by making-up (including cutting) or Coating provided that the value of the uncoated fabric used does not exceed 40 % of the ex-works price of the product accompanied by making-up (including cutting) <sup>(7)</sup>
	— Interlinings for collars and cuffs, cut out	Manufacture from materials of any heading, except that of the product, and in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex Chapter 63	Other made-up textile articles; sets; worn clothing and worn textile articles; rags; except for:	Manufacture from materials of any heading, except that of the product
6301 to 6304	Blankets, travelling rugs, bed linen etc.; curtains etc.; other furnishing articles:	
	— Of felt, of nonwovens	Any non-woven process including needle punching accompanied by making up (including cutting)
	— Other:	
	-- Embroidered	Weaving or knitting accompanied by making-up (including cutting) or Manufacture from unembroidered fabric, provided that the value of the unembroidered fabric used does not exceed 40 % of the ex-works price of the product <sup>(7)</sup> <sup>(8)</sup>
	-- Other	Weaving or knitting accompanied by making-up (including cutting)
6305	Sacks and bags, of a kind used for the packing of goods	Weaving or knitting and making-up (including cutting) <sup>(6)</sup>
6306	Tarpaulins, awnings and sun blinds; tents; sails for boats, sailboards or landcraft; camping goods:	

	— Of nonwovens	Any non-woven process including needle punching accompanied by making up (including cutting)
	— Other	Weaving accompanied by making-up (including cutting) <sup>(6)</sup> <sup>(7)</sup> or Coating provided that the value of the uncoated fabric used does not exceed 40 % of the ex-works price of the product accompanied by making-up (including cutting)
6307	Other made-up articles, including dress patterns	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
6308	Sets consisting of woven fabric and yarn, whether or not with accessories, for making up into rugs, tapestries, embroidered table cloths or serviettes, or similar textile articles, put up in packings for retail sale	Each item in the set must satisfy the rule which would apply to it if it were not included in the set. However, non-originating articles may be incorporated, provided that their total value does not exceed 25 % of the ex-works price of the set
ex Chapter 64	Footwear, gaiters and the like; parts of such articles; except for:	Manufacture from materials of any heading, except from assemblies of uppers affixed to inner soles or to other sole components of heading 6406
6406	Parts of footwear (including uppers whether or not attached to soles other than outer soles); removable in-soles, heel cushions and similar articles; gaiters, leggings and similar articles, and parts thereof	Manufacture from materials of any heading, except that of the product
Chapter 65	Headgear and parts thereof	Manufacture from materials of any heading, except that of the product
ex Chapter 68	Articles of stone, plaster, cement, asbestos, mica or similar materials, except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex 6803	Articles of slate or of agglomerated slate	Manufacture from worked slate

ex 6812	Articles of asbestos; articles of mixtures with a basis of asbestos or of mixtures with a basis of asbestos and magnesium carbonate	Manufacture from materials of any heading
ex 6814	Articles of mica, including agglomerated or reconstituted mica, on a support of paper, paperboard or other materials	Manufacture from worked mica (including agglomerated or reconstituted mica)
Chapter 69	Ceramic products	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex Chapter 70	Glass and glassware, except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
7006	Glass of heading 7003, 7004 or 7005, bent, edge-worked, engraved, drilled	
	— Glass-plate substrates, coated with a dielectric thin film, and of a semiconductor grade in accordance with SEMII-standards (°)	Manufacture from non-coated glass-plate substrate of heading 7006
	— Other	Manufacture from materials of heading 7001
7010	Carboys, bottles, flasks, jars, pots, phials, ampoules and other containers, of glass, of a kind used for the conveyance or packing of goods; preserving jars of glass; stoppers, lids and other closures, of glass	Manufacture from materials of any heading, except that of the product or Cutting of glassware, provided that the total value of the uncut glassware used does not exceed 50 % of the ex-works price of the product

7013	Glassware of a kind used for table, kitchen, toilet, office, indoor decoration or similar purposes (other than that of heading 7010 or 7018)	Manufacture from materials of any heading, except that of the product or Cutting of glassware, provided that the total value of the uncut glassware used does not exceed 50 % of the ex-works price of the product or Hand-decoration (except silk-screen printing) of hand-blown glassware, provided that the total value of the hand-blown glassware used does not exceed 50 % of the ex-works price of the product
ex 7019	Articles (other than yarn) of glass fibres	Manufacture from: — uncoloured slivers, rovings, yarn or chopped strands, or — glass wool
ex Chapter 71	Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metal, and articles thereof; imitation jewellery; coin, except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
7106, 7108 and 7110	Precious metals:	
	— Unwrought	Manufacture from materials of any heading, except those of headings 7106, 7108 and 7110 or Electrolytic, thermal or chemical separation of precious metals of heading 7106, 7108 or 7110 or Fusion and/or alloying of precious metals of heading 7106, 7108 or 7110 with each other or with base metals
	— Semi-manufactured or in powder form	Manufacture from unwrought precious metals

ex 7107, ex 7109 and ex 7111	Metals clad with precious metals, semi-manufactured	Manufacture from metals clad with precious metals, unwrought
7115	Other articles of precious metal or of metal clad with precious metal	Manufacture from materials of any heading, except that of the product
7117	Imitation jewellery	Manufacture from materials of any heading, except that of the product or Manufacture from base metal parts, not plated or covered with precious metals, provided that the value of all the materials used does not exceed 50 % of the ex-works price of the product
ex Chapter 73	Articles of iron or steel; except for:	Manufacture from materials of any heading, except that of the product
ex 7301	Sheet piling	Manufacture from materials of heading 7207
7302	Railway or tramway track construction material of iron or steel, the following: rails, check-rails and rack rails, switch blades, crossing frogs, point rods and other crossing pieces, sleepers (cross-ties), fish-plates, chairs, chair wedges, sole pates (base plates), rail clips, bedplates, ties and other material specialised for jointing or fixing rails	Manufacture from materials of heading 7206
7304, 7305 and 7306	Tubes, pipes and hollow profiles, of iron (other than cast iron) or steel	Manufacture from materials of heading 7206, 7207, 7208, 7209, 7210, 7211, 7212, 7218, 7219, 7220 or 7224
ex 7307	Tube or pipe fittings of stainless steel	Turning, drilling, reaming, threading, deburring and sandblasting of forged blanks, provided that the total value of the forged blanks used does not exceed 35 % of the ex-works price of the product
7308	Structures (excluding prefabricated buildings of heading 9406) and parts of structures (for example, bridges and bridge-sections, lock-gates, towers, lattice masts, roofs, roofing frameworks, doors and windows and their frames and thresholds for doors, shutters, balustrades, pillars and columns), of iron or steel; plates, rods, angles, shapes, sections, tubes and the like, prepared for use in structures, of iron or steel	Manufacture from materials of any heading, except that of the product. However, welded angles, shapes and sections of heading 7301 may not be used

ex 7315	Skid chain	Manufacture in which the value of all the materials of heading 7315 used does not exceed 50 % of the ex-works price of the product
ex Chapter 74	Copper and articles thereof; except for:	Manufacture from materials of any heading, except that of the product
7403	Refined copper and copper alloys, unwrought	Manufacture from materials of any heading
ex Chapter 76	Aluminium and articles thereof; except for:	Manufacture from materials of any heading, except that of the product
7601	Unwrought aluminium	Manufacture from materials of any heading
7607	Aluminium foil (whether or not printed or backed with paper, paperboard, plastics or similar backing materials) of a thickness (excluding any backing) not exceeding 0,2 mm	Manufacture from materials of any heading, except that of the product and heading 7606
ex Chapter 78	Lead and articles thereof, except for:	Manufacture from materials of any heading, except that of the product
7801	Unwrought lead:	
	— Refined lead	Manufacture from materials of any heading
	— Other	Manufacture from materials of any heading, except that of the product. However, waste and scrap of heading 7802 may not be used
Chapter 80	Tin and articles thereof	Manufacture from materials of any heading, except that of the product
ex Chapter 82	Tools, implements, cutlery, spoons and forks, of base metal; parts thereof of base metal; except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8206	Tools of two or more of the headings 8202 to 8205, put up in sets for retail sale	Manufacture from materials of any heading, except those of headings 8202 to 8205. However, tools of headings 8202 to 8205 may be incorporated into the set, provided that their total value does not exceed 15 % of the ex-works price of the set
8211	Knives with cutting blades, serrated or not (including pruning knives), other than knives of heading 8208, and blades therefor	Manufacture from materials of any heading, except that of the product. However, knife blades and handles of base metal may be used

8214	Other articles of cutlery (for example; hair clippers, butchers' or kitchen cleavers, choppers and mincing knives, paper knives); manicure or pedicure sets and instruments (including nail files)	Manufacture from materials of any heading, except that of the product. However, handles of base metal may be used
8215	Spoons, forks, ladles, skimmers, cake-servers, fish-knives, butter-knives, sugar tongs and similar kitchen or tableware	Manufacture from materials of any heading, except that of the product. However, handles of base metal may be used
ex Chapter 83	Miscellaneous articles of base metal; except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex 8302	Other mountings, fittings and similar articles suitable for buildings, and automatic door closers	Manufacture from materials of any heading, except that of the product. However, other materials of heading 8302 may be used, provided that their total value does not exceed 20 % of the ex-works price of the product
ex 8306	Statuettes and other ornaments, of base metal	Manufacture from materials of any heading, except that of the product. However, other materials of heading 8306 may be used, provided that their total value does not exceed 30 % of the ex-works price of the product
ex Chapter 84	Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof; except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8401	Nuclear reactors; fuel elements (cartridges), non-irradiated, for nuclear reactors; machinery and apparatus for isotopic separation	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8407	Spark-ignition reciprocating or rotary internal combustion piston engines	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8408	Compression-ignition internal combustion piston engines (diesel or semi-diesel engines)	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product

8427	Fork-lift trucks; other works trucks fitted with lifting or handling equipment	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8482	Ball or roller bearings	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex Chapter 85	Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles; except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8501, 8502	Electric motors and generators; Electric generating sets and rotary converters	Manufacture from materials of any heading, except that of the product and of heading 8503 or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8513	Portable electric lamps designed to function by their own source of energy (for example, dry batteries, accumulators, magnetos), other than lighting equipment of heading 8512	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8519	Sound recording and sound reproducing apparatus	Manufacture from materials of any heading, except that of the product and of heading 8522 or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8521	Video recording or reproducing apparatus, whether or not incorporating a video tuner	Manufacture from materials of any heading, except that of the product and of heading 8522 or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product

8523	Prepared unrecorded media for sound recording or similar recording of other phenomena, other than products of Chapter 37	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8525	Transmission apparatus for radio-broadcasting or television, whether or not incorporating reception apparatus or sound recording or reproducing apparatus; television cameras, digital cameras and other video camera recorders	Manufacture from materials of any heading, except that of the product and of heading 8529 or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8526	Radar apparatus, radio navigational aid apparatus and radio remote control apparatus	Manufacture from materials of any heading, except that of the product and of heading 8529 or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8527	Reception apparatus for radio-broadcasting, whether or not combined, in the same housing, with sound recording or reproducing apparatus or a clock	Manufacture from materials of any heading, except that of the product and of heading 8529 or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8528	Monitors and projectors, not incorporating television reception apparatus; reception apparatus for television, whether or not incorporating radio-broadcast receivers or sound or video recording or reproducing apparatus	Manufacture from materials of any heading, except that of the product and of heading 8529 or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8535 to 8537	Electrical apparatus for switching or protecting electrical circuits, or for making connections to or in electrical circuits; connectors for optical fibres, optical fibre bundles or cables; boards, panels, consoles, desks, cabinets and other bases, for electric control or the distribution of electricity	Manufacture from materials of any heading, except that of the product and of heading 8538 or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product

8540 11 and 8540 12	Cathode ray television picture tubes, including video monitor cathode ray tubes	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex 8542 31 to ex 8542 33 and ex 8542 39	Monolithic integrated circuits	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product or The operation of diffusion, in which integrated circuits are formed on a semi-conductor substrate by the selective introduction of an appropriate dopant, whether or not assembled and/or tested in a non-party
8544	Insulated (including enamelled or anodised) wire, cable (including coaxial cable) and other insulated electric conductors, whether or not fitted with connectors; optical fibre cables, made up of individually sheathed fibres, whether or not assembled with electric conductors or fitted with connectors	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8545	Carbon electrodes, carbon brushes, lamp carbons, battery carbons and other articles of graphite or other carbon, with or without metal, of a kind used for electrical purposes	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8546	Electrical insulators of any material	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8547	Insulating fittings for electrical machines, appliances or equipment, being fittings wholly of insulating materials apart from any minor components of metal (for example, threaded sockets) incorporated during moulding solely for purposes of assembly, other than insulators of heading 8546; electrical conduit tubing and joints therefor, of base metal lined with insulating material	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8548	Waste and scrap of primary cells, primary batteries and electric accumulators; spent primary cells, spent primary batteries and spent electric accumulators; electrical parts of machinery or apparatus, not specified or included elsewhere in this Chapter	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product

Chapter 86	Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex Chapter 87	Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof; except for:	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
8711	Motorcycles (including mopeds) and cycles fitted with an auxiliary motor, with or without side-cars; side-cars	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex Chapter 90	Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; parts and accessories thereof, except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
9002	Lenses, prisms, mirrors and other optical elements, of any material, mounted, being parts of or fittings for instruments or apparatus, other than such elements of glass not optically worked	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
9033	Parts and accessories (not specified or included elsewhere in this Chapter) for machines, appliances, instruments or apparatus of Chapter 90	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
Chapter 91	Clocks and watches and parts thereof	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
Chapter 94	Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product

ex Chapter 95	Toys, games and sports requisites; parts and accessories thereof, except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
ex 9506	Golf clubs and parts thereof	Manufacture from materials of any heading, except that of the product. However, roughly-shaped blocks for making golf-club heads may be used
ex Chapter 96	Miscellaneous manufactured articles, except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
9601 and 9602	Worked ivory, bone, tortoiseshell, horn, antlers, coral, mother-of-pearl and other animal carving material, and articles of these materials (including articles obtained by moulding). Worked vegetable or mineral carving material and articles of these materials; moulded or carved articles of wax, of stearin, of natural gums or natural resins or of modelling pastes, and other moulded or carved articles, not elsewhere specified or included; worked, unhardened gelatine (except gelatine of heading 3503) and articles of unhardened gelatin	Manufacture from materials of any heading
9603	Brooms, brushes (including brushes constituting parts of machines, appliances or vehicles), hand-operated mechanical floor sweepers, not motorized, mops and feather dusters; prepared knots and tufts for broom or brush making; paint pads and rollers, squeegees (other than roller squeegees)	Manufacture in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
9605	Travel sets for personal toilet, sewing or shoe or clothes cleaning	Each item in the set must satisfy the rule which would apply to it if it were not included in the set. However, non-originating articles may be incorporated, provided that their total value does not exceed 15 % of the ex-works price of the set

9606	Buttons, press-fasteners, snap-fasteners and press-studs, button moulds and other parts of these articles; button blanks	Manufacture: — from materials of any heading, except that of the product, and — in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
9608	Ball-point pens; felt-tipped and other porous-tipped pens and markers; fountain pens, stylograph pens and other pens; duplicating stylos; propelling or sliding pencils; pen-holders, pencilholders and similar holders; parts (including caps and clips) of the foregoing articles, other than those of heading 9609	Manufacture from materials of any heading, except that of the product. However, nibs or nib-points of the same heading as the product may be used
9612	Typewriter or similar ribbons, inked or otherwise prepared for giving impressions, whether or not on spools or in cartridges; ink-pads, whether or not inked, with or without boxes	Manufacture: — from materials of any heading, except that of the product, and — in which the value of all the materials used does not exceed 70 % of the ex-works price of the product
9613 20	Pocket lighters, gas fuelled, refillable	Manufacture in which the total value of the materials of heading 9613 used does not exceed 30 % of the ex-works price of the product
9614	Smoking pipes (including pipe bowls) and cigar or cigarette holders, and parts thereof	Manufacture from materials of any heading

(<sup>1</sup>) For the special conditions relating to “specific process(es)”, see Introductory Notes 7.1 and 7.3.

(<sup>2</sup>) For the special conditions relating to “specific process(es)”, see Introductory Note 7.2.

(<sup>3</sup>) A “group” is regarded as any part of the heading separated from the rest by a semi-colon.

(<sup>4</sup>) In the case of the products composed of materials classified within both headings 3901 to 3906, on the one hand, and within headings 3907 to 3911, on the other hand, this restriction only applies to that group of materials which predominates by weight in the product.

(<sup>5</sup>) The following foils shall be considered as highly transparent: foils, the optical dimming of which, measured according to ASTM-D 1003-16 by Gardner Hazemeter (i.e. Hazefactor), is less than 2 %.

(<sup>6</sup>) For special conditions relating to products made of a mixture of textile materials, see Introductory Note 5.

(<sup>7</sup>) See Introductory Note 6.

(<sup>8</sup>) For knitted or crocheted articles, not elastic or rubberised, obtained by sewing or assembling pieces of knitted or crocheted fabrics (cut out or knitted directly to shape), see Introductory Note 6.
