of 1.4.2022

amending Delegated Regulation (EU) No 664/2014 supplementing Regulation (EU) No 1151/2012 of the European Parliament and of the Council with regard to the establishment of the Union symbols for protected designations of origin, protected geographical indications and traditional specialities guaranteed and with regard to certain rules on sourcing, certain procedural rules and certain additional transitional rules

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1151/2012 of the European Parliament and of the Council of 21 November 2012 on quality schemes for agricultural products and foodstuffs¹, and in particular Article 53(3), first subparagraph, thereof,

Whereas:

- (1) Regulation (EU) 2021/2117 of the European Parliament and of the Council² amended Article 53(2) of Regulation (EU) No 1151/2012 as regards the system of amendments to a product specification. As from 8 June 2022 ‘non-minor’ and ‘minor’ amendments are replaced by ‘Union’ and ‘standard’ amendments, respectively, with different scope and procedures.
- (2) Commission Delegated Regulation (EU) No 664/2014³ contains provisions that supplement the rules on non-minor and minor amendments. In order to ensure the functioning of the new system of amendments, the existing rules on non-minor and minor amendments in that Regulation should be replaced by new rules.
- (3) For the efficiency of the procedure, rule on the admissibility of applications for approval of Union amendment should be established. For the same reasons, when an application for approval of a Union amendment also contains standard amendments, standard amendments should be deemed as not existing and should not be considered as approved in the context of the Union amendment.
- (4) The procedure for the approval of a standard amendment and a temporary amendment should be established to allow Member States to carry out an appropriate assessment of the applications and to guarantee a consistent approach across Member States. The

accuracy and exhaustiveness of the assessment by the Member States should be equivalent to the accuracy and exhaustiveness required for the assessment process within the procedure governing applications for registration of a geographical indication.

- (5) It is necessary to lay down rules to establish coordination between the procedures for amendments to a product specification in cases where applications concerning a Union amendment and a standard amendment are pending at the same time before the Commission and the Member State's competent authority, respectively. Since both applications amend the same product specification, while following two different parallel procedures having a different timing, rules should be laid down that avoid inconsistencies.
- (6) Transitional rules should be adopted to ensure smooth transition from the current rules of Delegated Regulation (EU) No 664/2014 to the rules set out in this regulation.
- (7) Since amendments to a product specification introduced by Regulation (EU) 2021/2117 apply from 8 June 2022, this Regulation should apply from the same date,

The application for approval of a standard amendment shall provide a description of the standard amendments and demonstrate that the proposed amendments qualify as standard in accordance with Article 53(2) of Regulation (EU) No 1151/2012. A summary of the reasons for which the amendments are required shall also be provided.

2. Where the Member State considers that the requirements of Regulation (EU) No 1151/2012 and of the provisions adopted pursuant to that Regulation are met, it may approve the standard amendment. 6. Standard amendments shall be applicable in the territory of the Union from the date on which they were published pursuant to paragraph 5, first subparagraph, or made public pursuant to paragraph 5, second subparagraph.

7. Where the geographical area covers more than one Member State, each Member State concerned shall apply the procedure for standard amendments separately. The standard amendment shall be applicable in the territory of the Member States concerned only after the last national approval decision becomes applicable. The Member State being the last to approve the standard amendment shall send the Commission the relevant communication not later than 1 month following the date on which its approval decision was made public.

If one or more of the Member States concerned do not adopt the national approval decision referred to in the first subparagraph, any of the Member States concerned may submit that application under the Union amendment procedure.
