EXPLANATORY MEMORANDUM

1. During a round of multilateral negotiations conducted under GATT, the Community expressed its willingness to open every year, subject to certain conditions, one of which was the presentation of a certificate of manufacture recognized by the relevant authorities, the following duty-free quotas:

CCT heading No	Description	Amount of quota
ex 50.09	Hand woven fabrics of silk or of waste silk other than noil, woven on handlooms	1 000 000 u.a.
ex 55.09	Cotton fabrics woven on handlooms	1 000 000 u.a.
Other	Handmade products (handicrafts)	5 000 000 u.a. with a max. of 500 000 u.a. per tariff heading or subheading

In order to take various factors into account (declaration of intent concerning trade relations with certain Asian countries, requests from certain beneficiary non-Community countries, accession of new Member States, adoption of the Combined Nomenclature and the ecu), major changes have been made over the years, involving the amounts of the quotas and the products concerned. For 1989, the Community opened tariff quotas of ECU 2 316 000 for silk fabrics, ECU 2 069 000 for cotton fabrics, pile and chenille and ECU 10 540 000, with a maximum of ECU 1 200 000 for each six-figure code in the Combined Nomenclature, for the hand made products covered.

2. The aim of the attached proposals is to open these tariff quotas for the products and amounts covered in 1989, the conditions governing eligibility for these quotas also being unchanged.

3. As regards the fixing of the Community cut-off, the amount of which for each six-figure code in the CN may not exceed ECU 1 200 000, the following should be noted:

At the consultation meetings held on 9 and 15 April 1970, this problem had already been raised, and it had emerged that, in certain cases, difficulties could be caused on Member States' markets if this ceiling were exceeded. It was nevertheless agreed that, in the initial stages:

- (i) special provisions should not be incorporated in the actual Regulation, to rule out any likelihood of this ceiling being exceeded;
- (ii) the relevant authorities in all the Member States would work in close conjunction with the Commission so that appropriate measures could be taken if any real danger of the ceiling being exceeded were to become apparent.

This was the basis on which unanimous agreement was reached on the provisional application of a monitoring system under which, in general, a national ceiling was fixed theoretically for each tariff heading at a level equivalent to 10% of the initial share of each Member State, and under which the Commission was notified of the extent to which Member States' shares had been used up for each of the tariff headings over specified periods. A statement of the position at Community level, produced by the Commission departments, was to be circulated without delay to all Member States.

In practice, after allocation among the Member States has been abolished, the scheme would work as described below.

Whenever the charging of goods in a Member State against a particular tariff heading reaches 10% of its initial share, that Member State, without interrupting its charging, notifies the Commission. The Commission passes on this information to the other Member States and they in turn advise the Commission as soon as possible of the latest situation with regard to the charging of goods against the particular tariff heading concerned. If the ceiling has been reached according to the summary statement compiled by the Commission for the heading, charging against that particular tariff heading is stopped in all Member States; if it is not yet reached but likely to be so in a short while, Member States notify the Commission by telex, once a week or after each charging of a substantial consignment, of the total quantity charged during the past week or since the previous notification.

4. As in previous years, admission under these quotas will be granted only for imports accompanied by a specific certificate, which has hitherto had to be drafted in all the Community languages. In order to simplify and standardize this type of document, all that is required now is a certificate in two languages only. One year will be allowed for using up the stocks of old certificates.

Proposal for a
COUNCIL REGULATION (EEC) No

of

opening and providing for the administration of Community
tariff quotas for certain handwoven fabrics, pile and chenille (1990)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,
and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas, as regards handwoven fabrics of silk, waste silk other than noil and cotton, the Community has declared its readiness to open annual duty-free Community tariff quotas up to a value (customs value) which, for 1989, amounted to ECU 2 316 000 for silk fabrics and to ECU 2 069 000 for cotton fabrics; whereas products may be admitted under the Community tariff quota only on production of a certificate of manufacture recognized by the relevant authorities of the European Economic Community, such products being stamped in a manner approved by those authorities at the beginning and end of each item and carried direct from the country of manufacture to the Community; whereas it is, accordingly, appropriate to open the tariff quotas in question with effect from 1 January 1990, at the levels set for 1989;

Whereas equal and continuous access to the quotas should be ensured for all Community importers and the rate laid down for the quotas should be applied consistently to all imports until the quotas are used up; whereas the necessary measures should be taken to ensure that these tariff quotas are administered efficiently and on a Community basis, so that Member States have the option of drawing the necessary quantities corresponding to actual imports recorded, from the quota volumes; whereas this method of administration calls for close cooperation between the Member States and the Commission;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any operation relating to the administration of the quotas may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1990, the customs duties applicable to imports of the following products shall be suspended at the level indicated and within the limits of Community tariff quotas as shown herewith:

(1) See TARIC codes in Annex III

Within the limits of these tariff quotas, Spain and Portugal shall apply the duties calculated in accordance with the relevant provisions laid down in the 1985 Act of Accession.

2. For the purposes of this Regulation :

- (a) "handwoven fabrics" means fabrics woven on looms moved exclusively by hand or foot
- (b) "customs value" means the value as defined in the relevant Community rules.

3. Admission under these quotas shall, however, be granted only for fabrics, pile and chenille :

(a) accompanied by a certificate of manufacture recognized by the competent authorities of the European Economic Community and conforming to the example in Annex I endorsed by one of the recognized authorities of the country of manufacture appearing in Annex II;

(b) bearing, at the beginning and end of each item, a stamp approved by the said authorities or, in derogation, a seal, approved by the authorities of the country of manufacture, fixed to each piece;

(c) carried direct from the country of manufacture to the European Economic Community.

4. In this respect, the following shall be considered to have been carried direct:

(a) goods which, in carriage, do not cross the territory of a country not a member of the European Communities. Goods temporarily held in ports of non-member countries shall not be excluded from the definition of direct carriage provided that they are not transhipped there;

(b) goods which, in carriage, cross the territory of one or more countries not members of the European Communities or are transhipped in such a country, provided that they cross such territory while covered by a single transport document drawn up in the country of manufacture.

5. Regulations (EEC) No 2779/78¹ and (EEC) No 289/84² shall apply for the purposes of determining the equivalent value in national currencies of amounts expressed in ecus.

Article 2

The tariff quotas referred to in Article 1 shall be administered by the Commission, which may take any appropriate administrative measure in order to ensure efficient administration.

Article 3

If an importer presents in a Member State a declaration of entry into free circulation including a request for preferential benefit for a product covered by this Regulation, and if this declaration is accepted by the customs authorities, the Member State concerned shall draw, from the quota volume by means of notification to the Commission, a quantity corresponding to these needs.

The requests for drawing, with the indication of the date of acceptance of the said declarations, must be communicated to the Commission without delay.

¹ OJ No L 333, 30.11.1978, p. 5.

² OJ No L 33, 14.2.1984, p. 2.

The drawings are granted by the Commission on the basis of the date of acceptance of the declaration of entry into free circulation by the customs authorities of the Member State concerned, to the extent that the available balance so permits.

If a Member State does not use the quantities drawn, it shall return them as soon as possible to the corresponding quota volume.

If the quantities requested are greater than the available balance of the quota volume, allocation shall be made on a pro rata basis with respect to the requests. Member States shall be informed thereof by the Commission.

Article 4

Each Member State shall guarantee importers of the products in question equal and continuous access to the quotas as long as the balance of the corresponding quota volume allows.

Article 5

The Member States and the Commission shall cooperate closely in order to ensure that this Regulation is complied with.

Article 6

This Regulation shall enter into force on 1 January 1990.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Proposal for a
COUNCIL REGULATION (EEC) No ..
of ...

opening and providing for the administration of a Community tariff quota for
certain hand made products (1990)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas, as regards certain hand made products, the Community has declared its readiness to open an annual duty-free Community tariff quota of an overall amount which, for 1989, amounted to ECU 10 540 000 with a maximum value of ECU 1 200 000 for each group of products considered; whereas products may, however, be admitted under the Community tariff quota only on presentation to the Community's customs authorities of a document issued by the recognized authorities of the country of manufacture certifying that the goods concerned are hand made; whereas the tariff quota in question should therefore be opened with effect from 1 January 1990, at the volume set for 1989;

Whereas equal and continuous access to the quotas should be ensured for all Community importers and the rate laid down for the quotas should be applied consistently to all imports until the quotas are used up; whereas the necessary measures should be taken to ensure that these tariff quotas are administered efficiently and on a Community basis, so that Member States have the option of drawing the necessary quantities, corresponding to actual imports recorded, from the quota volumes; whereas this method of administration calls for close cooperation between the Member States and the Commission;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any operation relating to the administration of the quotas may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1990, the customs duties applicable to imports of the products listed in Annex 1 shall be totally suspended within the limits of a Community tariff quota bearing the serial No 09.0105 and being of a volume corresponding to a value of ECU 10 540 000 subject to a maximum of ECU 1 200 000 for each six-figure code of the combined nomenclature.

Within the limits of this tariff quota, Spain and Portugal shall apply duties calculated in accordance with the relevant provisions of the 1985 Act of Accession.

2. Admission under this quota shall, however, be granted only for products accompanied by a certificate recognized by the relevant authorities of the Community conforming to one of the examples in Annex II, issued by one of the recognized authorities of the country of manufacture as given in Annex III and certifying that the goods in question are hand made. The goods must in addition be accepted as hand made by the relevant authorities of the Community.

3. Regulations (EEC) No 2779/78¹ and (EEC) No 289/84² shall apply for the purposes of determining the equivalent value in national currencies of amounts expressed in ecus.

Article 2

The tariff quotas referred to in Article 1 shall be administered by the Commission, which may take any appropriate administrative measure in order to ensure efficient administration.

Article 3

If an importer presents in a Member State a declaration of entry into free circulation including a request for preferential benefit for a product covered by this Regulation, and if this declaration is accepted by the customs authorities, the Member State concerned shall draw, from the quota volume by means of notification to the Commission, a quantity corresponding to these needs.

¹ OJ No L 333, 30.11.1978, p. 5.

² OJ No L 33, 4.2.1984, p. 2.

The requests for drawing, with the indication of the date of acceptance of the said declarations, must be communicated to the Commission without delay.

The drawings are granted by the Commission on the basis of the date of acceptance of the declaration of entry into free circulation by the customs authorities of the Member State concerned, to the extent that the available balance so permits.

If a Member State does not use the quantities drawn, it shall return them as soon as possible to the corresponding quota volume.

If the quantities requested are greater than the available balance of the quota volume, allocation shall be made on a pro rata basis with respect to the requests. Member States shall be informed thereof by the Commission.

Article 4

Each Member State shall guarantee importers of the products in question equal and continuous access to the quotas as long as the balance of the corresponding quota volume allows.

Article 5

The Member States and the Commission shall cooperate closely in order to ensure compliance with this Regulation.

Article 6

This Regulation shall enter into force on 1 January 1990.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
