

COMMISSION OF THE EUROPEAN COMMUNITIES

COM(93) 474 final

Brussels, 6 December 1993

Proposal for a

COUNCIL REGULATION (EC)

opening and providing for the administration of a Community
preferential ceiling for certain petroleum products
refined in Turkey and establishing Community surveillance
for imports thereof (1994)

(presented by the Commission)

EXPLANATORY MEMORANDUM

1. Following negotiations held with Turkey with a view to amending the EEC-Turkey Association Agreement and the Additional Protocol thereto consequent on the accession of new Member States, the Community signed on 30 June 1973 in Ankara a Supplementary Protocol, which entered into force on 1 March 1986.

This Supplementary Protocol provides inter alia for the opening of an annual Community duty-free tariff quota of 340 000 tonnes for certain petroleum products falling within Chapter 27 of the combined nomenclature.

- 2 In addition, the decision taken by the Council of Association in June 1973 that Turkey should not receive less favourable treatment than that granted to the countries qualifying for generalised tariff preferences led the Commission and the Turkish authorities to study the problem of giving Turkey and the developing countries equivalent tariff treatment.

After studying the problem, the Commission finally recognized that, in view of the provisions of paragraph 4 of the Sole Article of Annex I to the Additional Protocol, the tariff quota of 340 000 tonnes laid down for Turkey should be converted, as from 1976, into a Community ceiling, the volume of which should be increased in the same proportions as had been applied under the Generalized System of Preferences.

Currently, the amount of this ceiling after successive increases is 740 250 tonnes.

The only purpose of the attached proposal for a Regulation is to open, for the products in question, a Community ceiling for 1994 of the abovementioned ceiling, and to establish Community surveillance of imports of these products.

3. The attached proposal lays down that authority to apply the rules on ceilings and re-establishment of customs duties should be transferred from the Council to the Commission.

This is the purpose of the attached proposal.

Annex: Proposal for a Council Regulation.

4

Proposal for a

COUNCIL REGULATION (EC) No .193

of

opening and providing for the administration of a Community preferential ceiling for certain petroleum products refined in Turkey and establishing Community surveillance for imports thereof (1994)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas Article 7 of the Supplementary Protocol to the Association Agreement between the European Community and Turkey consequent on the accession of new Member States to the Community⁽¹⁾, which was signed in Ankara on 30 June 1973 and entered into force on 1 March 1986⁽²⁾, provides for the total suspension of customs duties applicable in certain petroleum products refined in Turkey falling within Chapter 27 of the Common Customs Tariff within the limits of an annual Community tariff quota of 340 000 tonnes; whereas, for the products concerned, a provisional adjustment should be made to those tariff preferences, consisting essentially of substituting for the Community tariff quota a Community ceiling amounting, after successive increases, to 740 250 tonnes, above which the customs duties applicable to third countries may be re-established;

Whereas the application of ceilings requires the Community to be regularly informed of the trend of imports of the relevant products originating in Turkey; whereas

⁽¹⁾ OJ No L 361, 31. 12. 1977, p. 2.

⁽²⁾ OJ No L 48, 26. 2. 1986, p. 36.

imports should, therefore, be made subject to a system of surveillance;

Whereas the decision for the opening of Community tariff ceilings in the execution of its international obligations should be taken by the Community; whereas to ensure the efficiency of a common administration of these ceilings, the Member States might well have recourse to the means of an administrative procedure based on offsetting imports of the products in question against the ceiling at Community level as and when these products are entered with the customs authorities for free circulation; whereas this administrative procedure must make provision for the possible re-establishment of customs tariff duties as soon as the ceiling is reached at Community level;

Whereas this administrative procedure requires close and particularly swift cooperation between the Member States and the Commission; whereas the latter must, in particular, be able to follow the progress of quantities charged against the ceiling and keep the Member States informed; whereas this cooperation has to be particularly close since the Commission must be able to take the appropriate measures to re-establish customs tariff duties if the ceiling is reached,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1994 the duties applicable to imports into the Community of the petroleum products refined in Turkey and indicated in paragraph 2 shall be suspended in full within the limits of a Community ceiling of 740 250 tonnes.

2. The petroleum products to which paragraph 1 applies shall be the following:

(¹) Entry under this code is subject to conditions laid down in the relevant Community provisions.

3. Imports of the petroleum products referred to in paragraph 1 shall be subject to Community surveillance.

4. Quantities shall be charged against the ceiling as and when products are entered with the customs authorities for free circulation.

5. The extent to which that ceiling is used up shall be determined at Community level on the basis of the imports charged against it, in the manner specified in paragraph 4.

6. Member States shall inform the Commission, at the intervals and within the time limits specified in Article 3, of imports effected in accordance with the rules referred to in this Article.

Article 2

As soon as the ceiling referred to in Article 1 (1) has been reached at Community level, the Commission may adopt

a regulation re-establishing, until the end of the calendar year, the collection of the duties normally applicable.

Article 3

Member States shall send the Commission statements of the quantities charged for the preceding month no later than the 15th day of each month. At the Commission's request, they shall send statements of the quantities charged for periods of 10 days, to be forwarded within five clear days of the end of each 10-day period.

Article 4

The Commission shall take all appropriate measures, in close cooperation with the Member States, to ensure the implementation of this Regulation.

Article 5

This Regulation shall enter into force on 1 January 1994

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Council
The President

1. Budget line concerned : Chap. 12 art. 120
2. Legal base : art 113 of the Treaty
3. Heading of the tariff measure : Proposal for a Council Regulation (EC) opening and providing for the administration of a Community preferential ceiling for certain petroleum products refined in Turkey and establishing Community surveillance for imports thereof (1994)
4. Objective : Respect of contractual engagements as regards Turkey.
5. Method of calculation :

CN code: 2710 to 2714

Volume of the ceiling : 740 250 t

Duty to apply: 0 %

Normal duties : Various duties (average duty : 5 %)

6. Loss of receipts :

Value 1 tonne: 72 ECU (average value)

Total value: 53 298 000 ECU

LOSS:

- in case of total utilisation:

53 298 000 ECU X 5/100 = 2 664 900 ECU
