Proposal for a

COUNCIL REGULATION (EC)

**amending, for the fourth time, Regulation (EC) No. 390/97
fixing, for certain fish stocks and groups of fish stocks, the total allowable catches for
1997 and certain conditions under which they may be fished**

(presented by the Commission)

EXPLANATORY MEMORANDUM

The objective of the present proposal is to fix fishing possibilities for certain stocks of fish and to allocate these equitably to Member States. The fixing and the sharing of possibilities for fishing falls exclusively within the competence of the Community and arises from obligations set out in Article 8(4) of Regulation (EEC) n° 3760/92 of the Council of 20 December 1992¹, establishing a Community regime for fishing and aquaculture.

The allocation of catch restrictions in ICES area VIIe applied to the quotas of plaice in ICES divisions VIIId,e is causing unnecessary distortions of the geographic pattern of activities of certain fleets. A reallocation of these restrictions is required in order to better reflect the recent patterns.

This proposal intends to address these matters by modifying Council Regulation (EC) N° 390/97².

amending, for the fourth time, Regulation (EC) No. 390/97
fixing, for certain fish stocks and groups of fish stocks, the total allowable catches for
1997 and certain conditions under which they may be fished

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No. 3760/92 of 20 December 1992 establishing a Community system for fisheries and aquaculture¹ as amended by the Act of Accession of Austria, Finland and Sweden, and in particular Article 8 (4) thereof,

Having regard to the proposal from the Commission,

Whereas under the terms of Article 8 (4) of Regulation (EEC) No. 3760/92 it is incumbent upon the Council to establish the total allowable catches (TACs) by fishery or group of fisheries;

Whereas Regulation (EC) No. 390/97² fixes, for certain fish stocks and groups of fish stocks, the TACs for 1997 and certain conditions under which they may be fished;

whereas the allocation of catch restrictions in ICES area VIIe applied to the quotas of plaice in ICES divisions VIIId,e is causing unnecessary distortions of the geographic pattern of activities of certain fleets; whereas a reallocation of these restrictions is required in order to better reflect the recent patterns;

Whereas Council Regulation (EC) No. 390/97 should therefore be amended accordingly,
