Proposal for a

COUNCIL REGULATION

**authorising the Commission to allow Finland to grant aid
for certain quantities of herbaceous seeds**

(presented by the Commission)

EXPLANATORY MEMORANDUM

Under Article 8 of Regulation (EEC) No 2358/71 Finland may, subject to authorisation by the Commission, grant aid for certain quantities of seeds.

On the basis of information sent to the Commission by Finland, the Commission forwarded to the Council the report required under Article 8 of Regulation (EEC) No 2358/71.

The information in the report shows that the national aid granted by Finland in the herbaceous seed sector since accession has not affected trade between the Member States. Consequently, the Commission should be authorised to permit Finland to grant aid for the production of herbaceous seeds until 31 December 2005 if the specific climatic conditions in that country so justify and with a view to allowing the Finnish sector to adjust to the rules of the common organisation of the market in seeds.

Varieties of herbaceous seeds needed for cultivation in Finland, adapted to the climatic conditions in that country and not propagated in the other Member States, are eligible for aid. For that reason, the Commission's authorisation should cover exclusively those varieties of herbaceous seeds which are grown only in Finland and listed in Finland's national catalogue of varieties.

This proposal does not entail any financial consequences for the Community.
