A deduction has been made for estimated fleet exploitation costs.

## **8. FRAUD PREVENTION MEASURES**

The financial contribution granted by the Commission is utilised by Lithuania to develop their fisheries sector, in accordance with Article 4 of the Fisheries Agreement. The amount is administered by the Ministry of Agriculture of the Republic of Lithuania.

## **9. ELEMENTS OF COST-EFFECTIVENESS ANALYSIS**

### **9.1 Specific and quantified objectives; target population**

The Community fleet in the Baltic Sea has been severely hit by reductions in catch possibilities. Any increase in fishing possibilities above current critical catch levels will contribute towards preventing the Community fleet, and connected industries and services ashore, from collapsing and disappearing. This will also avoid, to a certain extent, payments under lay-up schemes or social programmes.

The financial compensation, similar to that paid in previous years, is mainly used by Lithuania for the continued improvement of scientific research on fisheries, the training of fisheries managers, and control activities. This has entailed improved scientific assessment and enforcement in the fishery zone of Lithuania, and has thus contributed to a more rational exploitation of the stocks, to the benefit of all concerned in the Baltic Sea.

## **9.2 Grounds for the operation**

The fisheries policy is exclusive Community competence. The financial compensation for fishing possibilities granted by third countries, negotiated in accordance with the provisions laid down in bilateral fisheries agreements, has consequently to be paid out of the Community budget.

The expenses proposed are foreseen in the budgetary planning for the period concerned.

## **9.3 Monitoring and evaluation of the operation**

The Commission receives monthly statistics on catches and landings. The utilisation of the contracted fishing possibilities is therefore assessed on a regular basis.

## **10. ADMINISTRATIVE EXPENDITURE (SECTION III, PART A OF THE BUDGET)**

The proposal does not require new Commission staff or entail additional administrative costs.
