COMMISSION OF THE EUROPEAN COMMUNITIES

Brussels, 20.5.2009
COM(2009) 232 final

Proposal for a

COUNCIL REGULATION

amending Regulation (EC) No 2505/96 opening and providing for the administration of autonomous Community tariff quotas for certain agricultural and industrial products

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

1.1. Grounds for and objectives of the proposal

The quota amount for certain autonomous Community tariff quotas is insufficient to meet the needs of the Community industry for the current quota period. In response to requests from several Member States, the Commission, together with the government experts concerned, considered whether to open or increase autonomous tariff quotas for certain industrial products.

1.2. General context

On 20 December 1996 the Council adopted Regulation (EC) No 2505/96 opening and providing for the administration of autonomous Community tariff quotas for certain agricultural and industrial products so that Community demand for the products in question could be met under the most favourable conditions. New Community tariff quotas should be opened at zero rates of duty for appropriate amounts, without disturbing the markets for such products. Discussions at meetings of the Economic Tariff Questions Group showed that the Member States were ready to open quotas or increase quotas amounts for the products covered by the proposal for a Regulation, without disturbing the markets for such products

For certain products for which an autonomous tariff quota is opened by Regulation (EC) No 2505/96, the quota amount set out in that Regulation is expressed in a measurement unit other than the weight in tonnes or kilogram and than the value. Where for those products no supplementary measurement unit is set out in the Combined Nomenclature laid down in Annex I to Council Regulation (EEC) No 2658/87 of 23 July 1987 on the tariff and statistical nomenclature and on the Common Customs Tariff, there can be uncertainty in respect of the measurement unit used. For the sake of clarity and in the interest of a better quotas management it is necessary to provide that, in order to benefit from the said autonomous tariff quotas, the exact quantity of the products imported must be entered in "Box 41: Supplementary units" of the declaration for release for free circulation using the measurement unit of the quota amount set out for those products in Annex I to Regulation (EC) No 2505/96.

1.3. Provisions in force in the field covered by the proposal

Regulation (EC) No 2505/96 (OJ L 345, 31.12.1996, p.1), as last amended by Regulation (EC) No 1362/2008 (OJ L 352, 31.12.2008, p.18).

1.4. Consistency with the other policies and objectives of the Union

The proposal is in line with agricultural, trade, enterprise, development and external relations policies. Especially this proposal is not at the expense of countries enjoying a preferential trading agreement with the EU (e.g. GSP, ACP regime, candidate and potential candidate countries of the Western Balkans).

2. CONSULTATION OF INTERESTED PARTIES AND IMPACT ASSESSMENT

2.1. Consultation of stakeholders

Consultation methods, main sectors targeted and general profile of respondents

The Economic Tariff Questions Group representing the industries of each Member State was consulted.

Summary of responses and how they have been taken into account

All listed quotas reflect the agreement reached by the Group.

2.3. Impact assessment

Not applicable.

3. LEGAL ELEMENTS OF THE PROPOSAL

3.1. Summary of the proposed action

Council Regulation amending Regulation (EC) No 2505/96 opening and providing for the administration of autonomous Community tariff quotas for certain agricultural and industrial products.

3.2. Legal basis

Article 26 of the EC Treaty.

3.3. Subsidiarity principle

The subsidiarity principle does not apply, as the proposal falls under the exclusive competence of the Community.

3.4. Proportionality principle

The proposal complies with the principle of proportionality for the following reasons.

This set of measures is in line with the principles for simplifying the procedures for the operators engaged in foreign trade and with the Commission communication of 1998 concerning autonomous tariff suspensions and quotas (C 128, 25.4.1998, p.2).

3.5. Choice of instruments

Proposed instruments: Regulation

Other instruments would not be appropriate for the following reasons:

By virtue of Article 26 of the EC Treaty autonomous tariff quotas are approved by the Council acting on a qualified majority on the basis of a Commission proposal.

4. BUDGETARY IMPLICATION

Uncollected customs duties with a total amount of € 1 576 646.

5. ADDITIONAL INFORMATION

5.1. Amendment of existing legislation

Adopting this proposal will mean that some legislation is amended.

Proposal for a

COUNCIL REGULATION

amending Regulation (EC) No 2505/96 opening and providing for the administration of autonomous Community tariff quotas for certain agricultural and industrial products

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 26 thereof,

Having regard to the proposal from the Commission¹,

Whereas:

- (1) For certain products for which an autonomous tariff quota is opened by Regulation (EC) No 2505/96² the quota amount set out in that Regulation is expressed in a measurement unit other than the weight in tonnes or kilogram and than the value. Where for those products no supplementary measurement unit is set out in the Combined Nomenclature laid down in Annex I to Council Regulation (EEC) No 2658/87 of 23 July 1987 on the tariff and statistical nomenclature and on the Common Customs Tariff³ there can be uncertainty in respect of the measurement unit used. For the sake of clarity and in the interest of a better quotas management it is therefore necessary to provide that, in order to benefit from the said autonomous tariff quotas, the exact quantity of the products imported must be entered in "Box 41: Supplementary units" of the declaration for release for free circulation using the measurement unit of the quota amount set out for those products in Annex I to Regulation (EC) No 2505/96.
- (2) Community demand for the products to which Regulation (EC) No 2505/96 applies should be met under the most favourable conditions. For that purpose with effect from 1 July 2009, three new Community tariff quotas should be opened at zero rates of duty for appropriate amounts while avoiding any disturbance to the markets for those products.
- (3) The quota amount for autonomous Community tariff quota with order no 09.2767 is insufficient to meet the needs of the Community industry. Consequently, this quota amount should be increased.
- (4) For the autonomous Community tariff quota with order no 09.2806 the product description should be revised.
- (5) Regulation (EC) No 2505/96 should therefore be amended accordingly.
- (6) Since the tariff quotas have to take effect from 1 July 2009, this Regulation should apply from the same date and enter into force immediately,
