List of agricultural species	6

I. BEET

1. <i>Beta vulgaris</i> L. – Sugar beet	6
2. <i>Beta vulgaris</i> L. – Fodder beet	14

II. FODDER PLANTS

3. <i>Agrostis canina</i> L. ssp. <i>canina</i> Hwd. – Velvet bent grass	19
4. <i>Agrostis gigantea</i> Roth – Redtop	19
5. <i>Agrostis stolonifera</i> L. – Creeping bent grass	20
6. <i>Agrostis tenuis</i> Sibth. – Brown top	21
7. <i>Alopecurus pratensis</i> L. – Meadow foxtail	21
8. <i>Arrhenatherum elatius</i> (L.) J. and C. Presl. – Tall oatgrass	22
9. <i>Dactylis glomerata</i> L. – Cocksfoot	22
10. <i>Festuca arundinacea</i> Schreb. – Tall fescue	24
11. <i>Festuca ovina</i> L. – Sheep's fescue	25
12. <i>Festuca pratensis</i> Huds. – Meadow fescue	27
13. <i>Festuca rubra</i> L. – Red fescue	29
14. <i>Lolium multiflorum</i> Lam. – Italian ryegrass (including Westerwold ryegrass)	32
15. <i>Lolium perenne</i> L. – Perennial ryegrass	36
16. <i>Lolium x hybridum</i> Hausskn. – Hybrid ryegrass	41

	Page
17. <i>Phleum bertolonii</i> DC – Timothy	42
18. <i>Phleum pratense</i> L. – Timothy	43
19. <i>Poa annua</i> L. – Annual meadowgrass	45
20. <i>Poa nemoralis</i> L. – Wood meadowgrass	46
21. <i>Poa palustris</i> L. – Swamp meadowgrass	46
22. <i>Poa pratensis</i> L. – Smooth-stalk meadowgrass	47
23. <i>Poa trivialis</i> L. – Rough-stalk meadowgrass	49
24. <i>Trisetum flavescens</i> (L.) Pal. Beauv. – Golden oatgrass	50
25. <i>Hedysarum coronarium</i> L. – Sulla	50
26. <i>Lotus corniculatus</i> L. – Birdsfoot trefoil	50
27. <i>Lupinus albus</i> L. – White lupin	51
28. <i>Lupinus angustifolius</i> L. – Blue lupin	51
29. <i>Lupinus luteus</i> L. – Yellow lupin	51
30. <i>Medicago lupulina</i> L. – Black medick	52
31. <i>Medicago sativa</i> L. – Lucerne	52
32. <i>Medicago varia</i> Martyn – Lucerne	55
33. <i>Onobrychis sativa</i> Lam. – Sainfoin	55
34. <i>Pisum arvense</i> L. – Field pea	56
35. <i>Trifolium alexandrinum</i> L. – Berseem, Egyptian clover	57
36. <i>Trifolium hybridum</i> L. – Aliske clover	57
37. <i>Trifolium incarnatum</i> L. – Crimson clover	57
38. <i>Trifolium pratense</i> L. – Red clover	58
39. <i>Trifolium repens</i> L. – White clover	61
40. <i>Trifolium resupinatum</i> L. – Persian clover	63
41. <i>Trigonella foenumgraecum</i> L. – Fenugreek	63
42. <i>Vicia faba</i> L. ssp. <i>faba</i> var. <i>equina</i> Pers. – Field beans	63
43. <i>Vicia faba</i> L. var. <i>minor</i> (Peterm.) bull – Field beans	64
44. <i>Vicia pannonica</i> Crantz – Hungarian vetch	64
45. <i>Vicia sativa</i> L. – Common vetch	65
46. <i>Vicia villosa</i> Roth – Hairy vetch	66
47. <i>Brassica napus</i> L. var. <i>napobrassica</i> (L.) Peterm. – Swede	67
48. <i>Brassica oleracea</i> L. convar. <i>acephala</i> (DC) – Fodder kale	69
49. <i>Raphanus sativus</i> L. ssp. <i>oleifera</i> (DC) Metzg. – Fodder radish	70

III. OIL AND FIBRE PLANTS

50. <i>Arachis hypogaea</i> L. – Groundnut (peanut)	71
51. <i>Brassica campestris</i> L. ssp. <i>oleifera</i> (Metzg.) Sinsk. – Turnip rape	71
52. <i>Brassica juncea</i> L. – Brown mustard	71

	Page
53. <i>Brassica napus</i> L. ssp. <i>oleifera</i> (Metzg.) Sinsk. – Swede rape	72
54. <i>Brassica nigra</i> (L.) W. Koch – Black mustard	75
55. <i>Cannabis sativa</i> L. – Hemp	75
56. <i>Carum carvi</i> L. – Caraway	75
57. <i>Gossypium</i> sp. – Cotton	76
58. <i>Helianthus annuus</i> L. – Sunflower	76
59. <i>Linum usitatissimum</i> L. – Flax, linseed	77
60. <i>Papaver somniferum</i> L. – Opium poppy	78
61. <i>Sinapis alba</i> L. – White mustard	78
62. <i>Glycine max</i> (L.) Merrill – Soya bean	78

IV. CEREALS

63. <i>Avena sativa</i> L. – Oats	79
64. <i>Hordeum distichum</i> L. – Two-row barley	83
65. <i>Hordeum polystichum</i> L. – Six-row barley	89
66. <i>Oryza sativa</i> L. – Rice	91
67. <i>Phalaris canariensis</i> L. – Canary grass	92
68. <i>Secale cereal</i> L. – Rye	93
69. <i>Triticum aestivum</i> L. – Common wheat	95
70. <i>Triticum durum</i> L. – Durum wheat	104
71. <i>Triticum spelta</i> L. – Spelt wheat	105
72. <i>Zea mais</i> L. – Maize	106

V. POTATOES

73. <i>Solanum tuberosum</i> L. – Potatoes	124

VIII. United Kingdom	186

LEGEND

1. The common catalogue of varieties of agricultural plant species is published in accordance with the provisions of Article 18 of Council Directive 70/457/EEC of 29 September 1970 on the common catalogue of varieties of agricultural plant species ⁽¹⁾.

This catalogue lists all the varieties the seeds of which, pursuant to Articles 15 and 16 of the abovementioned Directive, are not subject – in the European Economic Community – to marketing restrictions relating to variety, except in the cases provided for in Articles 15 (2) and 19 of the abovementioned Directive.

2. The common catalogue of varieties of agricultural plant species was published for the first time on 21 July 1975 ⁽²⁾. This fifth edition replaces the fourth edition ⁽³⁾. It lists the varieties which, from 31 December 1978 at the latest, are no longer subject, on the territory of the whole Community, to marketing restrictions relating to variety, i.e. those which were officially admitted before 1 January 1977 in at least one of the Member States and also fulfil the requirements of the abovementioned Directive. Supplements will be produced as information is supplied by Member States and new editions containing all these supplements will be published at regular intervals.

3. The catalogue is subdivided according to the species covered by the Directive. Within each species, it lists the varieties in alphabetical order of their accepted varietal names. These are:

- (a) the names under which a variety is officially admitted in the Member States; pursuant to Article 9, paragraph 2 of Directive 70/457/EEC, new varieties may be admitted in a Member State only under one name. The same variety may be admitted in another Member State under a different name only if justified.

- (b) the other names under which seed of the variety is still being marketed (old varieties).

For simplicity, when seeds of one variety are marketed under several names one conventional name has been chosen. As a general rule this name is the official name given to the variety in the first known country of admission. All details on the variety are classed under this name.

For the other varietal names reference is simply made to the relevant conventional name.

4. The catalogue comprises three columns:

Column 1:

Variety.

Column 2:

Country of admission.

This column is subdivided into nine headings, listing the Member States in the order of the abbreviations of the international code used for motor vehicles ⁽⁴⁾.

Column 3:

Remarks.

Column 1 lists all the varietal names in alphabetical order. For conventional names the information relating to the varieties is given over the three columns in the manner explained in paragraph 5.

For the other names reference is made in column 3 to the conventional name as shown in the following example:

BETA VULGARIS L.

1	2	3
Kawemegapoly		= Megapoly

⁽¹⁾ OJ No L 225, 12. 10. 1970, as last amended by Directive 78/55/EEC in OJ No L 16, 20. 1. 1978.

⁽²⁾ OJ No C 164, 21. 7. 1975, p. 1.

⁽³⁾ OJ No C 48, 27. 2. 1978, p. 1.

⁽⁴⁾ B = Belgium,
D = Germany,
DK = Denmark,
F = France,
GB = United Kingdom of
Great Britain and
Northern Ireland,

I = Italy,
IRL = Ireland,
L = Luxembourg,
NL = Netherlands.

5. In the case of conventional names the three columns contain the following information referring to the variety:

5.1. *Column 1*

Immediately below the conventional name the order names of the variety by which it has been officially admitted in Member States are repeated in alphabetical order preceded by a dash, only one per country of admission being given.

For names of varieties not covered see 5.3.

5.2. *Column 2*

- An asterisk appears under the heading for each Member State having officially admitted a variety.
- Where admission is restricted in such a way that seeds are to be marketed in other States, the asterisk appears in brackets.
- In most cases the asterisk is followed by a number. This number indicates the person responsible for maintenance of the variety in the country of admission. The names corresponding to these numbers are contained in the Annex entitled 'List of names of the persons responsible for the maintenance of varieties and of the authorities holding the list of those names'.
- Where an 'x' replaces this number it means that there are several persons considered as responsible for maintenance by the country of admission. Their names may be obtained from the authority indicated in the Annex for the Member State concerned.
- Where the number or 'x' is underlined it means that the persons concerned are also responsible for the variety for other countries of admission under whose headings an asterisk appears without a number or an 'x'.

- The abovementioned notes are given on the line corresponding to the name under which the variety has been officially admitted in the Member State concerned (see 5.1).

5.3. *Column 3*

Information of the following kinds is given in this column:

- ploidy is indicated by the letters 'D' (diploid), 'P' (polyploid) or 'T' (tetraploid);
- the monogerm and multigerm are indicated respectively by the letters 'm' and 'M';
- hybrid varieties are indicated by the letter 'H';
- names not covered by point 5.1 are given in alphabetical order followed by the abbreviation for the Member State in which the name is used;
- where several varieties of the same species carry the same name they are indicated by roman numerals in parentheses;
- a name no longer permitted under the provisions of point 3 above or which has been corrected, but listed in previous editions of this catalogue, is indicated for information only, preceded by the abbreviation 'ant';
- authorizations to prohibit the marketing of seed of a given variety (see Article 15 (2) or Article 19 of the Directive) are indicated by an 'ex' followed by the abbreviations for the Member State and date of the authorization; if this authorization is limitative, the letters 'lim' appear;
- where, for a Member State, the period during which seeds and plants are still subject to marketing restrictions relating to certain varieties has been extended (Article 15 (7) of the Directive), the date on which the extension ceases is given, followed by the abbreviation for the Member State concerned.

(¹) Som meddelt af det første land, i hvilket en sort er tilladt. Principielt er de anførte værdier beregnet i henhold til FAO-klassificeringssystemer, men hvor en stjerne (*) er anført er værdien efter et nationalt klassificeringssystem.

Grundsätzlich vom ersten Zulassungsland mitgeteilt. Die Werte sind grundsätzlich nach dem FAO-Klassifizierungssystem errechnet worden. Soweit sie mit einem Sternchen (*) gekennzeichnet sind, wurden sie nach einem nationalen Klassifizierungssystem errechnet.

In principle communicated by the first country of admission. The values have, in principle, been calculated according to the FAO classification system. Where indicated by an asterisk (*), they have been calculated according to a national classification system.

En principe communiqué par le premier pays d'admission. Les valeurs ont été en principe calculées selon le système FAO de classification. Toutefois celles marquées d'un astérisque (*) ont été calculées selon un système national de classification.

Di regola comunicato dal primo paese d'ammissione. I valori sono stati teoricamente calcolati secondo il sistema FAO. Tuttavia quelli segnati con un asterisco (*) sono stati calcolati secondo un sistema nazionale di classificazione.

In principe medegedeeld door het eerste land van toelating. De getallen zijn, in principe, berekend volgens het FAO-systeem van indeling. Indien gemerkt met een sterretje (*) berekend volgens een nationaal systeem van indeling.

- (²) S = Enkelthybrid Simple hybrid Ibrido semplice
 Einfachhybride Hybride simple Enkelé hybride
 D = Dobbélthybrid Double hybrid Ibrido doppio
 Doppelhybride Hybride double Dubbele hybride
 T = Trihybrid Triple-cross hybrid Ibrido a tre vie
 Dreiweghybride Hybride à trois voies Dreiweg-hybride

- (³) Bestemt til foderbrug (i alle medlemsstater)
 Für Futterzwecke (in allen Mitgliedstaaten)
 For fodder purposes (in all Member States)
 À des fins fourragères (dans tous les États membres)
 Ai fini foraggeri (in tutti gli Stati membri)
 Voor voederdoeleinden (in alle Lid-Statē)
