Note: General rules for conditions of use of Food additives in Part 5

- (1) Food Additives presented in Table 1 of Part 6 of this Annex, which are generally permitted for use in food under the general 'quantum satis' principle, included in Annex II Part C(1) Group I, have been included as food additives in nutrients under the general 'quantum satis' principle, unless stated otherwise.
- (2) For phosphates and silicates, when used as additives, maximum limits have been set only in the nutrient preparation and not in the final food.
- (3) For all other food additives with a numerical ADI value maximum limits have been set for the nutrient preparation and the final food.
- (4) No food additives are authorised for their function as colour, sweetener or flavour enhancer.
