BEVEZETÉS

Ez a jelentés a hagyományos fegyvereknek az uniós tagállamokból a 2019-es naptári év alatt történt kivitelére, illetve az ilyen kivitel tekintetében megadott illetve elutasított engedélyekre vonatkozó statisztikákat foglalja magában. A jelentés emellett kiterjed az EU és tagállamai által a 2008/944/KKBP tanácsi közös álláspont [1] [2] végrehajtása keretében 2019 folyamán végzett tevékenységekre is.

A jelentést az Európai Külügyi Szolgálat állítja össze a tagállamok – ideértve az Egyesült Királyságot is – által a 2019. évi fegyverkivitelükre vonatkozóan szolgáltatott adatok alapján. A hagyományos fegyverek kivitelével foglalkozó tanácsi munkacsoport (COARM) támogatja a tagállamok közötti állandó párbeszédet a fegyverkivitel ellenőrzésére vonatkozó közös szabályok koherens alkalmazásáról. A jelentés emellett nem teljes körű tájékoztatást nyújt a védelmi vonatkozású termékek azon EU-n belüli transzfereiről, amelyek a 2009/43/EK európai parlamenti és tanácsi irányelv [3] hatálya alá tartoznak.

A következő harmadik országok hivatalosan is igazodtak a 2019-ben módosított 2008/944/KKBP közös álláspont kritériumaihoz és alapelveihez: Albánia, Bosznia-Hercegovina, Észak-Macedónia, Grúzia, Izland, Kanada, Montenegró és Norvégia. Az EU és Norvégia között 2012 óta információcsere-rendszer működik.

A jelentés által felölelt időszakban is folytatódott a hatékony nemzeti fegyverkivitel-ellenőrzési rendszerek ösztönzése, valamint a 2008/944/KKBP közös álláspontban foglalt alapelvek és kritériumok alkalmazásának elősegítése a kiválasztott harmadik országokban, mégpedig azáltal, hogy a Tanács folytatta a (KKBP) 2018/101 tanácsi határozat [4] végrehajtását, amellyel biztosította a (KKBP) 2015/2309 tanácsi határozatban [5] foglaltak nyomon követését. Folytatódtak a Fegyverkereskedelmi Szerződés egyetemessé tételére és végrehajtására irányuló uniós tájékoztatási tevékenységek is: a jelentés által felölelt időszakban nagyszámú tevékenységre került sor a (KKBP) 2017/915 tanácsi határozat [6] keretében.

I. A 2008/944/KKBP KÖZÖS ÁLLÁSPONT VÉGREHAJTÁSA

1. A 2008/944/KKBP közös álláspont felülvizsgálata

A COARM – a 10900/15 sz. dokumentumban foglalt, 2015. júliusi tanácsi következtetésekben adott megbízásnak megfelelően – 2018-ban és 2019 első felében, a közös álláspont elfogadása után tíz évvel alaposan felülvizsgálta annak végrehajtását és célkitűzéseinek megvalósítását. A Tanács 2019. szeptember 16-án elfogadta a fegyverkivitel ellenőrzéséről

---

(1) Jogilag kötelező erejű az uniós tagállamok számára.

(2) A Tanácsnak a 2019. szeptember 16-i (KKBP) 2019/1560 tanácsi határozattal (HL L 239., 2019.9.17., 16. o.) módosított 2008/944/KKBP közös álláspontja (2008. december 8.) a katonai technológia és felszerelések kivitelének ellenőrzésére vonatkozó közös szabályok meghatározásáról (HL L 335., 2008.12.13., 99. o.).

(3) Az Európai Parlament és a Tanács 2009/43/EK irányelve (2009. május 6.) a védelmi vonatkozású termékek Közösségen belüli transzferére vonatkozó feltételek egyszerűsítéséről (HL L 146., 2009.6.10., 1. o.).

(4) A Tanács (KKBP) 2018/101 határozata (2018. január 22.) a fegyverkivitel hatékony ellenőrzésének előmozdításáról (HL L 17., 2018.1.23., 40. o.).

(5) A Tanács (KKBP) 2015/2309 határozata (2015. december 10.) a fegyverkivitel hatékony ellenőrzésének előmozdításáról (HL L 326., 2015.12.11., 56. o.).

(6) A Tanács (KKBP) 2017/915 határozata (2017. május 29.) a Fegyverkereskedelmi Szerződés végrehajtásának támogatása érdekében végzett uniós tájékoztatási tevékenységekről (HL L 139., 2017.5.30., 38. o.).

szóló, 2008. december 8-i tanácsi közös álláspontot módosító határozatot, a felülvizsgált felhasználói útmutatót, valamint a közös álláspont felülvizsgálatáról szóló következtetéseket.

A Tanács a határozatába több olyan, **uniós és nemzetközi szinten bekövetkezett fejleményt** épített be, amelyek nyomán a tagállamokra a 2008-as közös álláspont elfogadása óta új kötelezettségek hárultak, illetve amelyek miatt a tagállamoknak új vállalásokat kellett tenniük. Az egyik legfontosabb ilyen fejlemény, hogy 2014. december 24-én **hatályba lépett a Fegyverkereskedelmi Szerződés**, amely szabályozza a hagyományos fegyverek nemzetközi kereskedelmét. A Fegyverkereskedelmi Szerződésnek valamennyi uniós tagállam részes állama.

Következtetéseiben a Tanács emlékeztet az iránti elkötelezettségére, hogy **fokozza a katonai technológia és felszerelések kivitelének ellenőrzését**, továbbá hogy a közös kül- és biztonságpolitika (KKBP) keretén belül **megerősítse az együttműködést és előmozdítsa a** katonai technológia és felszerelések kivitelének területére irányuló **politikák közelítését**. Erre olyan, **magas szintű közös előírások** kidolgozása, fenntartása és végrehajtása révén kerül sor, amelyek a katonai technológia és felszerelések átadásának tagállamok általi kezelésére vonatkoznak.

A Tanács megerősítette, hogy **a katonai technológia és felszerelések kereskedelme során felelős és elszámoltatható módon kell eljárni**, továbbá megerősítette azon vállalását, hogy előmozdítja az együttműködést és a tagállami politikák közelítését, hogy ezzel megakadályozza az olyan katonai technológia és felszerelések kivitelét, amelyek belső elnyomásra vagy nemzetközi agresszió céljaira felhasználhatók lehetnek, vagy hozzájárulhatnak a regionális instabilitáshoz.

A közös álláspont egyebek mellett a következőket tartalmazza: az exportengedély-kérelmek elbírálási kritériumai; az ellenőrzésnek a fegyverkereskedelemre, a fegyverek továbbítására és a technológia immateriális átadására történő kiterjesztése; az elutasított kivitelekkel kapcsolatos információcsere révén hatékonyabb eljárások bevezetése a tagállami fegyverkiviteli politikák közelítésének előmozdításához, valamint a végfelhasználói dokumentumokra, az átláthatóságra és a beszámolásra vonatkozó iránymutatás.

A közös álláspont célja továbbra is annak biztosítása, hogy a tagállamok felelős módon folytassanak fegyverkivitelt, nevezetesen, hogy a tagállamok ne járuljanak hozzá belső elnyomáshoz, regionális instabilitáshoz vagy nemzetközi agresszióhoz, valamint az emberi jogok vagy a nemzetközi humanitárius jog súlyos megsértéséhez. A felelős fegyverkereskedelmi politika hozzájárul a nemzetközi béke és biztonság fenntartásához. A közös álláspont szigorú alkalmazásának célja továbbá az is, hogy megakadályozható legyen a fegyverek illetéktelen végfelhasználók kezébe jutása.

Az elutasításról kiadott értesítések és a konzultációk

A közös álláspont előirányozza az engedélyek elutasításáról történő értesítést. Ha valamelyik tagállam egy olyan ügyletre vonatkozó engedélykérelmet vizsgál, amely lényegében megegyezik egy olyannal, amelyet korábban egy másik tagállam már elutasított, a közös álláspont konzultációs eljárást irányoz elő. Az eljárás a COARM online rendszerén keresztül folyik le. Már bizonyított, hogy a rendszer képes tovább növelni az átláthatóságot a tagállamok között egyes végső célországokkal és végfelhasználókkal kapcsolatban. 2019-ben az online rendszer ismét értékesnek bizonyult, mégpedig azáltal, hogy tovább egyszerűsítette a tagállamok közötti információáramlást.

A 2019-ben bejelentett elutasítások számát az (e jelentés mellékletében szereplő) A.I. táblázat táblázatainak d) sora tartalmazza célországonkénti és a katonai lista kategóriái szerinti bontásban; a tagállamok által kezdeményezett és a hozzájuk beérkezett konzultációs kérelmek számát a B.I. táblázat, a konzultációk célországonként lebontott számát pedig a B.II. táblázat mutatja.

2. **Felhasználói útmutató**

A felhasználói útmutató a 2008/944/KKBP közös álláspont operatív rendelkezéseinek végrehajtása és kritériumainak értelmezése érdekében elfogadott útmutatásokat összefoglaló kulcsfontosságú eszköz. Az útmutatót a közös álláspont 13. cikke említi. Az útmutatót a COARM munkacsoport dolgozta ki, és rendszeresen frissíti: a legutóbbi frissítésre a közös álláspont felülvizsgálatának részeként került sor, amelyre 2018-ban és 2019 első felében került sor. A Tanács a 2019. szeptember 16-i következtetéseiben üdvözölte a módosított felhasználói útmutatót ([7]).

Az útmutató elsősorban az exportengedélyekkel foglalkozó tisztviselők általi használatra készült, így jelentős mértékben és pragmatikus módon hozzájárul a tagállamok fegyverkivitel-ellenőrzési politikáinak és eljárásainak közelítéséhez. Az útmutató a 2008/944/KKBP közös álláspontban szereplő kritériumok alkalmazásának támogatása céljából bevált gyakorlatokat tartalmaz, amelyeket a COARM dolgozott ki a tagállamok bevált gyakorlataira építve és az egyéb érdekelt felek – többek között a civil társadalom – által nyújtott hozzájárulások figyelembevételével. A legjobb gyakorlatok célja, hogy nagyobb összhang alakuljon ki a tagállamok között a közös álláspontban foglalt kritériumok alkalmazása

([7]) https://data.consilium.europa.eu/doc/document/ST-12189-2019-INIT/hu/pdf

tekintetében. Ez többek között az exportengedély-kérelmek elbírálásakor figyelembe veendő tényezők meghatározása révén valósul meg. A legjobb gyakorlatokat az engedélyekkel foglalkozó tisztviselők, valamint az illetékes kormányhivatalokban és kormányzati szerveknél dolgozó egyéb tisztviselők általi felhasználásra szánták, akik a regionális, jogi, igazságügyi, technikai, fejlesztési, valamint biztonsági és katonai kérdésekkel kapcsolatos szakértelmükkel segítik a döntéshozatali folyamatot.

Az útmutató a nyilvánosság számára is hozzáférhető az Európai Külügyi Szolgálat honlapján ([8]).

3. **Tájékoztatási tevékenységek**

A közös álláspont 11. cikke felszólítja a tagállamokat, hogy „*minden igyekezetükkel töreked[je]nek arra, hogy katonai technológiát vagy felszereléseket exportáló egyéb országokat is ösztönözzenek ezen közös álláspont kritériumainak alkalmazására*". Az EU által, illetve egyénileg a tagállamok által végzett intenzív tájékoztatási tevékenységek 2019-ben is folytatódtak. Ezeket a jelentés mellékletében foglalt D. táblázat ismerteti.

A (KKBP) 2018/101 határozat alapján – amelynek végrehajtását a német Gazdasági és Exportellenőrzési Szövetségi Hivatal (a BAFA) végzi – több regionális szemináriumra és tanulmányi látogatásra, valamint eseti segítségnyújtásokra került sor. Emellett a (KKBP) 2017/915 határozat értelmében további regionális tájékoztatási tevékenységeket, testre szabott nemzeti segítségnyújtási programokat és *ad hoc* jellegű egyéni segítségnyújtási munkaértekezleteket bonyolítottak le a Fegyverkereskedelmi Szerződés tényleges végrehajtásának és egyetemessé tételének támogatása céljából (utóbbi tevékenységekkel kapcsolatban a II.2. szakasz tartalmaz további információkat).

4. **Politikai párbeszéd keretében tartott találkozók**

Az EU 2019-ben a Norvégiával, Kanadával és az Egyesült Államokkal folytatott politikai párbeszéd keretében tartott találkozókat ezen országokkal a fegyverkivitel ellenőrzésével kapcsolatos kérdések megvitatása érdekében. E politikai párbeszédeknek köszönhetően eredményes megbeszélésekre kerülhetett sor olyan, közös érdekű kérdésekről, mint például az egyes célországokkal kapcsolatos fegyverkiviteli politika, a megfelelést és az ellenőrzést érintő kérdések, valamint a Fegyverkereskedelmi Szerződéssel kapcsolatos folyamat.

5. **Az Európai Unió közös katonai listájának naprakésszé tétele**

Az EU közös katonai listája tartalmazza azokat a katonai termékeket, amelyek kivitelének ellenőrzését a tagállamok a közös álláspont 12. cikkével összhangban lehetővé teszik. Ez a lista azonos a védelmi vonatkozású termékeknek a 2009/43/EK irányelv mellékletében található jegyzékével.

Mivel ez a jelentés a hagyományos fegyvereknek az uniós tagállamokból a 2019-es naptári év alatt történt kivitelére vonatkozó statisztikákra terjed ki, a jelentésben hivatkozott közös katonai lista a 2019. évre vonatkozik, amely figyelembe veszi a Wassenaari Megállapodás lőszerlistájának a Wassenaari Megállapodás 2018. évi plenáris ülésén jóváhagyott változásait. A közös katonai lista e naprakésszé tett változatát 2019. március 12-én közzétették az *Európai Unió Hivatalos Lapjában* ([9]).

6. **Fegyverkereskedelem**

A 2003/468/KKBP tanácsi közös álláspont ([10]) 5. cikkével összhangban a tagállamok külön szabályokban állapodtak meg a kereskedelmi tevékenységre vonatkozóan megadott, valamint elutasított engedélyekkel kapcsolatos információk cseréje tekintetében. Ezen túlmenően azon tagállamok, amelyek előírásai értelmében a kereskedőknek írásos engedéllyel kell rendelkezniük a kereskedelmi tevékenység folytatásához, és/vagy amelyek nyilvántartást vezetnek a fegyverkereskedőkről, külön szabályokat hoztak létre a nyilvántartásban szereplő kereskedőkre vonatkozó releváns információk cseréjére vonatkozóan. Az uniós tagállamok által a kereskedelmi tevékenységre vonatkozóan megadott, valamint elutasított engedélyekkel kapcsolatos információkat a csatolt A.III. táblázat tartalmazza.

A 2003/468/KKBP közös álláspont tagállami végrehajtásáról a csatolt C. táblázat szolgál részletes információval.

7. **Párbeszéd az érdekelt felekkel: Európai Parlament, civil társadalom és az ágazat**

A fegyverkivitel ellenőrzésével kapcsolatos kérdésekről az Európai Parlamenttel folytatott párbeszédre általában évente kerül sor az Európai Külügyi Szolgálat egy magasrangú tisztviselőjének meghallgatásával. 2019 során az EKSZ emellett egyeztetett az Európai Parlament fegyverkiviteli ellenőrzéssel foglalkozó előadójával, és jelentős számú parlamenti kérdést válaszolt meg a fegyverkivitel témájában.

A korábbi gyakorlatnak megfelelően a COARM rendszeresen találkozókat szervezett nem kormányzati szervezetekkel. A COARM az üléseire meghívta a védelmi ipar képviselőit, valamint más érdekelt feleket is.

II. FEGYVERKERESKEDELMI SZERZŐDÉS (ATT)

1. Részvétel az ATT-ben: a részes államok konferenciája

Amint az a részes államok korábbi konferenciái esetében is történt, az EU és az uniós tagállamok aktív szerepet töltöttek be a részes államok 2019. augusztus 26–30-án Genfben megrendezett ötödik konferenciáján. Hivatali ideje során az ötödik konferencia elnöke részt vett a COARM egy ülésén.

A részes államok ötödik konferenciája – amelynek elnöki tisztét Jānis Kārkliņš lett nagykövet töltötte be – megkísérelte fokozatosan áthelyezni a hangsúlyt az intézményfejlesztésről a Szerződés végrehajtásával kapcsolatos érdemi kérdések megvitatására, többek között a három munkacsoport (a Szerződés hatékony végrehajtása, egyetemessé tétele, átláthatóság és jelentéstétel) munkájának, valamint az önkéntes alap és a szponzorálási program tevékenységeinek a támogatása révén. A konferencia résztvevői célkitűzéseket határoztak meg a következő évre, amelyek esetében a hangsúly olyan kérdésekre esik, mint a nemekkel, illetve a nemi alapú erőszakkal kapcsolatos kérdésekre irányuló intézkedésorientált határozatok végrehajtása; az illetéktelen kezekbe jutás kockázata; a tranzittal és az átrakodással foglalkozó új munkaág; a nemzeti jelentések számának növelése és megfelelő időben történő elkészítése; valamint – tekintettel a megállapított, de be nem fizetett hozzájárulások nagy összegére – a súlyos anyagi helyzet megoldására irányuló intézkedések. Az ATT önkéntes alapját illetően a résztvevők nagyrabecsülésüket fejezték azon államok iránt, amelyek önkéntes pénzügyi hozzájárulást nyújtottak az alap részére, továbbá ösztönözték az arra képes államokat, hogy ők is járuljanak hozzá az alaphoz. A résztvevők határoztak a 2019–2020. évi költségvetésről, valamint – az egyes államok be nem fizetett hozzájárulásaira tekintettel – pénzügyi kötelezettségeik azonnali és időben történő teljesítésére szólították fel azon államokat, amelyek azt eddig nem tették meg. A konferencián Carlos Foradori argentin nagykövet személyében megválasztották a részes államok 2020-ban megrendezésre kerülő hatodik konferenciájának elnökét. A konferenciát a részes államoknak és a megfigyelőknek, valamint a civil társadalom, a tudományos élet és az iparág képviselőinek a tevékeny részvétele jellemezte. A részes államok egyetértettek abban, hogy a hangsúlynak továbbra is a Szerződés tényleges végrehajtására és egyetemessé tételére kell helyeződnie.

2. A (KKBP) 2017/915 határozat szerinti, az ATT végrehajtását támogató uniós program

A Fegyverkereskedelmi Szerződés 2014 decemberében hatályba lépett és ahhoz (2019. december 31-ig) 105 részes állam csatlakozott. A kihívást továbbra is a Fegyverkereskedelmi Szerződés egyetemessé tétele és a részes államok általi tényleges végrehajtása jelenti.

Az e kihívások kezeléséhez való hozzájárulás érdekében az EU ambiciózus végrehajtási támogatási programot fogadott el harmadik országok számára ((KKBP) 2017/915 határozat). Ezt a programot a német Gazdasági és Exportellenőrzési Szövetségi Hivatal (BAFA) és az Expertise France hajtja végre. A program égisze alatt az EU – a harmadik országok saját kérése alapján – jelenleg hosszú távra szóló partnerség (ún. ütemtervi partnerség), illetve *ad-hoc* partnerség keretében nyújt segítséget ezen országok fegyverkereskedelmi rendszereinek a Szerződés előírásainak megfelelő megerősítésében. Az uniós program keretében 2019-ben végzett tevékenységekre vonatkozóan a D. táblázat tartalmaz információkat.

III. A KÖZELJÖVŐRE VONATKOZÓ KIEMELT IRÁNYMUTATÁSOK A COARM SZÁMÁRA

A Tanács 2019. szeptember 16-án a 2008/944/KKBP közös álláspont módosításáról határozott, és elfogadta az alábbi tanácsi következtetéseket, amelyek a következő időszakban meghatározzák majd a COARM munkájának irányát; a módosítás célja többek között az, hogy kereshető online adatbázis létrehozásával hozzáférhetőbbé tegye az e jelentésben szereplő adatokat:

1. A Tanács emlékeztet az iránti elkötelezettségére, hogy a 2008/944/KKBP közös álláspontot módosító, 2019. szeptember 16-i (KKBP) 2019/1560 tanácsi határozat elfogadásával megerősíti a katonai technológia és felszerelések kivitelének ellenőrzését, továbbá hogy a katonai technológia és felszerelések átadásának felügyeletére vonatkozó magas szintű közös követelmények valamennyi tagállam általi kidolgozása, betartatása és végrehajtása révén – a közös kül- és biztonságpolitika (KKBP) keretén belül – megerősíti az együttműködést és előmozdítja a katonai technológia és felszerelések kivitelének területére irányuló politikák közelítését. Minderre a továbbiakban is többek között a releváns információk – köztük az elutasításról adott értesítésekre és a fegyverkiviteli politikákra vonatkozó információk – tagállamok közötti cseréjével, illetve a konvergencia további erősítésére irányuló lehetséges intézkedések meghatározásával fog sor kerülni. A katonai technológia és felszerelések kereskedelme során felelős és elszámoltatható módon kell eljárni, megakadályozva ezzel, hogy e technológia és felszerelések terroristák, bűnözők és egyéb illetéktelen személyek kezébe jussanak.

2. A Tanács hangsúlyozza, hogy a felelős fegyverkereskedelmi politika kulcsfontosságú tényező a nemzetközi béke és biztonság fenntartása, valamint az emberi jogok és a nemzetközi humanitárius jog tiszteletben tartása szempontjából. A Tanács megerősíti azon vállalását, hogy előmozdítja az együttműködést és a tagállami politikák közelítését, hogy ezzel megakadályozza az olyan katonai technológia és felszerelések kivitelét, amelyek belső elnyomásra vagy nemzetközi agresszió céljaira felhasználhatók lehetnek, vagy hozzájárulhatnak a regionális instabilitáshoz.

3. A Tanács kötelezettséget vállal arra, hogy ezután is törekedni fog a 2014. december 24-én hatályba lépett Fegyverkereskedelmi Szerződés egyetemessé tételének és tényleges végrehajtásának előmozdítására. A Tanács üdvözli, hogy a Fegyverkereskedelmi Szerződéshez már eddig is számos állam csatlakozott, és a nemzetközi csatlakozási hullám akár egyetemes részvételt is eredményezhet. A Tanács felszólítja azokat az államokat, amelyek ezt még nem tették meg, hogy csatlakozzanak a szerződéshez vagy erősítsék meg azt, és csatlakozásuknak, illetve a szerződés megerősítésének időpontjáig is tartsák be annak előírásait. Az aláíró államoknak kezdeti kötelezettségvállalásuk teljesítése érdekében le kell zárniuk a megerősítési eljárást. A Tanács meg van győződve arról, hogy a Fegyverkereskedelmi Szerződés egyetemessé tételének és végrehajtásának felgyorsítása előmozdítja a szerződés céljaként megjelölt együttműködést, átláthatóságot és a nemzetközi fegyverkereskedelem szabályozása révén történő felelős fellépést, ezáltal pedig hozzájárul a nemzetközi béke és biztonság megteremtéséhez és az emberi szenvedés csökkentéséhez.

4. A Tanács üdvözli a tagállamoknak a (KKBP) 2019/1560 tanácsi határozattal módosított, jogilag kötelező erejű közös álláspont iránti megújított elkötelezettségét, és hangsúlyozza annak fontosságát, hogy a katonai technológia és felszerelések kivitelére vonatkozó engedélykérelmeket az álláspontban foglalt kritériumok alapján körültekintően bírálják el.

5. A Tanács újólag megerősíti azt a közös célt, amely a 2008/944/KKBP közös álláspont 2008. évi elfogadását is vezérelte. A Tanács emlékeztet korábbi, a 2012. novemberi és 2015. júliusi következtetésekben megfogalmazott elemzésére, miszerint a közös álláspont végrehajtásában több eredményt is el lehetne érni a hagyományos fegyverek kivitelével kapcsolatos tagállami politikák maximális összehangolása érdekében. A Tanács e tekintetben üdvözli, hogy a 2008/944/KKBP közös állásponthoz készült felhasználói útmutató úgy módosult, hogy még inkább megvalósuljon a közös álláspontban rögzített kockázatértékelési kritériumok gyakorlati alkalmazása. A Tanács hangsúlyozza azt is, hogy az említett kritériumok következetes értelmezése és gyakorlati alkalmazása hozzájárul a fegyverkivitelre vonatkozó nemzeti politikák összehangolásához.

6. A Tanács újólag megerősíti, hogy elkötelezett a nemzetközi fegyverkereskedelem átláthatósága mellett, ezért több olyan konkrét intézkedést vezet be, amellyel elő kívánja mozdítani a tagállamok fegyverkivitelére vonatkozó pontos, koherens és időben történő jelentéstételt. Ilyen intézkedés többek között az uniós éves jelentésre vonatkozó egyértelmű határidők előírása, valamint további iránymutatások bevezetése a jelentések tartalmát és a jelentéstételi folyamatot illetően a módosított közös álláspontban és felhasználói útmutatóban.

7. A Tanács örömmel veszi, hogy az Európai Külügyi Szolgálat honlapján kereshető online adatbázist fognak létrehozni, amelynek segítségével valamennyi érdekelt fél felhasználóbarát módon megtekintheti és elemezheti a tagállamok fegyverkivitelével kapcsolatos adatokat.

8. A nemzeti fegyverkiviteli politikákra vonatkozó információk tagállamok közötti cseréje tekintetében a Tanács nyugtázza a felülvizsgált felhasználói útmutatóban a témát illetően szereplő egyértelmű iránymutatásokat, és üdvözli a COARM online rendszerének bővítését, amely szélesebb körű információmegosztást és -cserét tesz lehetővé a tagállamok között.

9. Elismerve azon jelenlegi törekvések fontosságát, amelyek célja, hogy fokozzák a katonai technológia és felszerelések kivitelének ellenőrzése terén végzett munkát, a Tanács megbízza a hagyományos fegyverek kivitelével foglalkozó munkacsoportot, hogy:

   a) folytassa az olyan intézkedésekre irányuló egyeztetéseket, amelyekkel segítheti a tagállamokat a tényleges fegyverkivitelükre vonatkozó releváns információk összegyűjtésében és a kapcsolódó jelentéstétel során, ezzel is előmozdítva az átfogó jelentéstételt és a fokozott átláthatóságot;

   b) vizsgálja meg, miként lehetne tovább javítani a hagyományos fegyverek kivitelével foglalkozó munkacsoport munkamódszereit;

   c) részletesebben mérje fel egy, az engedélyekkel foglalkozó tisztviselőknek szóló olyan adatbázis lehetséges előnyeit, amely megkönnyítené a releváns információk keresését, különösen a felhasználói útmutatóban említett forrásokban.

10. A Tanács figyelembe fogja venni a katonai technológia és felszerelések területén bekövetkező technológiai fejlődést, hiszen tisztában van vele, milyen fontos, hogy a katonai eszközök kivitelének ellenőrzésére vonatkozó közös szabályok valamennyi érintett eszközre kiterjedjenek.

11. A Tanács megjegyzi, hogy az európai védelem technológiai és ipari alapjainak megerősítését, amely hozzájárul a közös kül- és biztonságpolitika, különösen a közös európai biztonság- és védelempolitika végrehajtásához, a katonai technológia és felszerelések kivitele ellenőrzésének területén folytatott szorosabb együttműködésnek és egymáshoz való közeledésnek kell kísérnie.

12. Az Unió – az Európai Unióról szóló szerződés 21. cikke (3) bekezdése második albekezdésének megfelelően – a külkapcsolatai keretében biztosítja külső tevékenységei egészének összhangját; e tekintetben a Tanács rámutat a következetes exportellenőrzési politika fontosságára a védelmi vonatkozású anyagok és a kettős felhasználású termékek esetében.

13. A Tanács emlékeztet arra, hogy 2018. november 19-én elfogadta „A fegyverállomány biztonságossá tétele, a polgárok védelme" című, a tiltott kézi- és könnyűfegyverek, valamint az azokhoz szükséges lőszerek elleni felülvizsgált uniós stratégiát. Ennek fényében a Tanács megbízza a hagyományos fegyverek kivitelével foglalkozó munkacsoportot, hogy mérlegelje egy, a kézi- és könnyűfegyverek és az azokhoz szükséges lőszerek kivitelével kapcsolatos végfelhasználói tanúsítványokról szóló határozat lehetőségét.

14. A Tanács megbízza továbbá a hagyományos fegyverek kivitelével foglalkozó munkacsoportot, hogy öt éven belül értékelje újra a (KKBP) 2019/1560 tanácsi határozattal módosított 2008/944/KKBP közös álláspont végrehajtását.

B.I TOTAL NUMBER OF CONSULTATIONS INITIATED AND RECEIVED BY EACH MEMBER STATE

D. INFORMATION ON EU OUTREACH ACTIVITIES

E. INTERNET ADDRESSES FOR NATIONAL REPORTS ON ARMS EXPORTS

TABLE A.I

Figures of Table A.I are broken down per Member State, and per EU Common Military List category where (a) = number of licences issued; (b) = value of licences issued in euros; (c) = value of arms exports in euros (if available) ([1]); (d) = number of denials (discrepancies may appear between breakdowns and totals due to denials concerning more than one ML category or denials for items other than those appearing in the ML ([2])); and (e) = the number of the criterion of Common Position 2008/944 invoked to support the refusal (the approximate number of times each criterion is invoked is indicated between brackets).

Statistics are compiled differently by each Member State: no uniform standard is used. Consequently, owing to current procedures regarding arms export reporting or data protection legislation, not all countries have been able to submit the same information ([3]).

([1]) To make the table more readable, nil values and/or the mention 'not available' are omitted, and empty rows and columns are deleted.

([2]) In some instances, in accordance with the Common Position, denials issued for items which do not appear on the Common Military List (for example for license applications for transactions of dual-use items where intended military end-use has been identified) are included in the total.

([3]) (i) Concerning **Austria**: with regard to items covered by the EU Common Military List, the Austrian law distinguishes between 'war material' (as stipulated in the Austrian War Material Act and Regulation) and 'equipment on the Common Military List not listed as war material' covered by the Austrian Foreign Trade Act. As to the value of actual exports by Military List Category (row c), figures may be inaccurate in particular as such data regarding equipment of the Common Military List not listed as war material is available to the competent authorities only after expiration or full utilisation of the individual export licence. Since some licences granted cover goods of more than one ML category per destination, these licences are counted multiple times, one for every ML category (row a). The total number of licenses quoted in this report therefore exceeds the actual number of licenses granted.

(ii) Concerning **Belgium**: the data that Belgium provides for this report are the aggregation of the data of its three regions (the Flemish, Walloon and Brussels-Capital Region) and of its federal government (which is competent for exports by the Belgian armed forces and the Belgian police). Because of differences in data collection and data processing between the competent authorities, Belgium is currently not able to provide data on actual exports (row c).

(iii) Concerning **Croatia**: data provided includes figures of global and individual export licences. In 2019 there was no export by general licences. As the value of global licences is not visible ('unlimited value') figures will occur only in row c) and not b).

(iv) Concerning the **Czech Republic**: rows a) and b) do not include General transfer licences and Global transfer licences pursuant to the Defence Transfer Directive (2009/43/EC), which could cover goods of more than only one ML Category and allow exports to more than only one Member State. In addition to that, some other licences issued cover goods of more than only one ML Category and their value is the total value of all covered goods. Due to this fact, these types of licences are not included in row b). The sums in rows c) are based on information provided by exporters and also contain actual exports made in 2019 based on licences issued in previous years.

(v) Concerning **Denmark**: with regards to the value listed in rows b) and c) it should be noted, that values listed in row b) 'Value of export licences granted' relates to licences issued according to national legislation, i.e. to third countries. Values listed in row c) 'Value of actual exports' relates to the value of licences issued as global licences (article 6 of the ICT directive) as well as transfers undertaken in accordance with the general licences (article 5 of the ICT directive) and licences issued as individual licences (article 7 of the ICT directive) as well, i.e. actual value of exports within EU and EEA. The Danish currency (DKK) or other currencies are where relevant converted to (EUR) using the common exchange rate.

(vi) Concerning **Estonia**: Licences covering more than one ML category and/or destination are counted multiple times, one for every ML category per country of destination (row total c). The total number of licences quoted in this report therefore differs from the actual number of licences issued.

(vii) Concerning **Finland**: licences covering more than one ML category and/or destination are counted one for every ML category per destination country. Therefore, the total number of licences presented in this report exceeds the actual number of licences issued. Data on licences issued also includes export licences to UN-Mandated or Other International Missions.

(viii) Concerning **France**: France requires its defence companies to obtain a licence from the early stages of market prospection. The licence should indicate the potential of the transaction. Any operation, starting from the negotiation stage, requires obtaining a licence: transmission of documentation, demonstrations, participation in calls for tenders, etc. This requirement for transparency and control results in a licenced value (row (b)) that can greatly differ from the value of the final contracts signed and goods actually exported (row (c)).

(ix) Concerning **Germany**: some licences issued cover goods of more than one ML Category (e.g. one licence for the export of rifles and their ammunition). In reporting in table A.I., each time a licence concerns a ML category, it is counted as one single licence, so the sums in rows a) and column 'Total per destination' do not always reflect the actual numbers of licences granted, but a slightly higher figure (i.e. the number of times a ML category has been affected by a licence for that destination). Germany is not in a position to report the value of actual exports of military goods other than war weapons as no reliable data on this matter is available. In particular, it is not possible to rely on data regarding write-offs from licences that customs authorities gather, because the national or EU lists of military goods and the nomenclature of the Harmonized System used by custom authorities are not congruent. Further, in accordance with rules of the Union Customs Code, there is no reporting requirement for transfers of goods to other EU Member States. This data would therefore lead to an incomplete and unreliable reporting on actual exports of military goods.

(x) Concerning **Ireland**: values in row (b) relate to individual export licences issued. Values in row (c) relate to actual exports reported by exporters with global licences issued under the ICT directive. As the value of global licences is not always visible ('unlimited value') figures will occur only in row (c) and not (b). Global licences contain multiple destinations and multiple ML categories, with exports to each destination and category counted as a single licence. Values listed in row (a) therefore do not reflect the actual number of licences issued but a slightly higher figure.

(xi) Concerning **the Netherlands**: as values of global licenses cannot always be attributed to individual countries, the value of those global licenses has been added to the total value of 'worldwide' for the Netherlands. The figures on actual exports reported by the Netherlands are based on information provided by the exporters in 2019, and may reflect exports based on a license issued in a previous year. Although much care has been given to the collection of the data on actual exports, the actual exports figures for 2019 may be higher than the values quoted in this report.

The EU User's Guide stipulates that the value of actual exports only needs to be provided where it is available. With regard to actual exports authorised by EU Member States (row c), it is important to note that Belgium, Cyprus, Germany, Greece, Latvia, Malta and the United Kingdom do not provide these data. No aggregation is therefore reported at the EU level.

With regard to the use of global and general licences notably applied to intra-EU transfers pursuant to Directive 2009/43/EC, it is important to note that the actual value of arms transfers and exports under global and general licences is generally reported by EU Member States. This is however dependant on the Member States' ability to report on actual values (row c) as described above and to possible additional national specificities as explained in footnote 14.

Data are reported in Euros and accordingly converted from national currencies for Member States not having the Euro as national currency. Please bear in mind the possible exchange rate fluctuations between the data collection at national level, the date of reporting to the EU level and the date of consultation of the data.

It is important to bear in mind that exports to destinations subject to EU arms embargoes comply with the terms, conditions and possible exceptions set out in the decisions imposing such embargoes. The full list and details of embargoes are available at https://www.sanctionsmap.eu.

Exports to UN mandated or other international missions are further reported on in Table A.II.

(xii) Concerning **Hungary**: data provided includes figures of general, global and individual export licences. Transfers of military equipment to Hungarian forces deployed in various missions (table AII) are not considered regular foreign trade transactions.

(xiii) Concerning **Poland**: the actual values of transfers, provided in the row (c), are related to the individual, global and national general licences. Data from rows (a), (b) and (c) do not include temporary transfers.

(ivx) Concerning **Portugal**: data provided includes figures of export transactions (definitive and temporary) covered by general, global and individual export licences. Some licences cover goods of more than one ML category and destination, so each time a licence concerns an ML category or destination, it is counted as one single licence, so the sum in row 'Number of Export Licenses' does not always reflect the actual number of licences granted, but a slightly higher figure. As the value of General and Global licences is not always visible ('unlimited value') figures will occur only in row c) and not b). Data provided does not include figures of export transactions of civilian firearms (for personal protection, hunting, sporting).

(vx) Concerning **Romania**: data provided includes figures of general, global and individual export licences. Global and general licences cannot always be attributed to an individual military list category ML or an individual country. Therefore, the figures on number of licences issued (row a) could be slightly higher.

(xvi) Concerning **Slovakia**: data provided includes some licences which cover more than one ML category. Therefore values in row (a) are thoroughly recorded, but values in row (b) and row (c) can have slightly different values. Exhibitions and presentations: Egypt, India, Iraq, Israel, Saudi Arabia, Serbia, Switzerland, Turkey and United Arab Emirates.

(xvii) Concerning **Slovenia**: data provided includes figures of general, global (for ML 3) and individual export licences. The value of some licences was 0. Weapons and military equipment/defence-related products were sent to Malesia, Poland, Oman, Egypt, Pakistan, USA, Belgium and Indonesia for the purpose of testing and evaluation. A Global transfer licence was granted to one Slovenian company in year 2018 for a period of three years, to trade with ML3 goods to all EU countries.

(xviii) Concerning **Sweden**: the Swedish krona is converted to Euro using the average exchange rate for 2019 (10,5892). Licences covering more than one ML category and/or destination are counted multiple times, one for every ML category per country of destination. The total number of licences quoted in this report therefore exceeds the actual number of licences issued.

(xivx) Concerning **the United Kingdom**: the British pound sterling is converted to Euro using the average exchange rate for 2019 (1 1378) and covers the number of permanent ML licences issued. Licences covering more than one ML category and/or destination are counted multiple times, one for every ML category per country of destination. The total number of licences quoted in this report therefore exceeds the actual number of licences issued.

1. **Council Decision (CFSP) 2017/915 on Union outreach activities in support of the implementation of the Arms Trade Treaty**

Benin — Legislative and Regulatory Assistance Workshop

Cotonou, 16-17 January 2019

Supported by Expertise France throughout the second phase of the European Union's programme in favour of the implementation of the ATT, Benin hosted the first workshop of its assistance roadmap.

For this event organised in Cotonou, Expertise France selected a team of three experts (from France and Burkina Faso), supplemented by two national speakers invited by the local partner, the Ministry of Foreign Affairs and Cooperation.

Gathering 15 representatives of the main actors involved in the implementation of the ATT (the Government, the National Assembly, the judiciary and civil society), the workshop gave an opportunity to discuss the ongoing initiatives, notably a draft law covering the ECOWAS Convention on small arms and light weapons (but also incorporating some elements of the ATT such as the categories listed under article 2).

The experts devoted much attention to sharing best practices and technical advice before the Beninese partners start working on a new preliminary draft law, and its decrees, integrating further ATT obligations in the legislation, including:

— The creation of a national control system regulating all the transfers of conventional arms referred to under article 2;

— The designation of competent national authorities;

— The establishment of a national control list.

Following this first workshop, the cooperation with Benin continued in the Autumn 2019 (as part of the second phase of the European Union's outreach activities in favour of the implementation of the ATT, Expertise France organised in Cotonou, on 24 and 25 September, an awareness session for more than 20 representatives of the main entities involved in the execution of the ATT in the country).

Georgia — Third Roadmap Activity

Tbilisi, 23-24 January 2019

The topics of the workshop organized by BAFA mirrored the outcomes from the previous workshops and included as well the priorities and challenges of the partner country.

The focus of the event was on the topics of risk assessment and risk management, commodity identification as well as transit and transhipment, which is a crucial issue for Georgia due to its geographic position. Moreover, the aim of this event was to prepare the second Subregional workshop that was conducted in May 2019.

Approximately 20 participants from Georgia attended the activity. BAFA was supported by ATT experts from Estonia, Greece, Latvia and Lithuania.

Togo — Cooperation Activity on the Legal Transposition of the ATT

Lomé, 4-7 February 2019

Roadmap activities 1 and 2 were organised by Expertise France; the two events were covered by local media.

Commitment was informally expressed for finalizing and adopting ATT-implementing Law in 2019. Togo also expressed its intention to summit its first ATT annual report in May 2019 (Togo communicated to Expertise France its ATT initial report during the event. Eventually, Togo did not summit its first annual report by May 2019.) The country will consider working on the basis of the EU Military List for its own control list. The partner considered changing its roadmap activity 3 (training border personnel) for a legal activity (Law and list-focused).

Remote assistance was suggested, as foreseen in the roadmap, and extended to draft Law. A calendar is expected after the Presidential elections (Spring 2020) from the local partner (CNLPAL) for identifying timelines of progress toward adoption of the legal framework.

Côte d'Ivoire — Second Roadmap Activity

Abidjan, 6-7 February 2019

Gathering 15 representatives from the National Commission on Small Arms and Light Weapons (ComNat-ALPC), the National Assembly and the civil society, this workshop built upon the remote assistance provided, in the autumn of 2018, regarding the preliminary draft model law on the general regime applicable to weapons, ammunition and other related materials in Côte d'Ivoire.

Like for the remote assistance, Expertise France cooperated with experts from the United Nations Office on Drugs and Crime (UNODC), and the French administration (General Secretary for Defence and National Security), with the addition of an independent consultant from Peru.

Throughout the workshop, drawing on the comments and proposals from the remote assistance, the experts made, after discussion and consensus among the participants, amendments to six of the nine chapters contained in the preliminary draft model law (removing, redrafting and adding articles).

The ComNat-ALPC also presented an overview of the drafting process as well as the current structure of the text to a delegation of the Security and Defence Committee (whose support will be needed when the final text is submitted to the National Assembly for consideration and adoption).

Following this workshop, Expertise France plans to:

— Set up a new remote assistance in order to complete the revision of the preliminary draft model law in April. The remote assistance on the preliminary draft law was accomplished in May 2019 (by experts from SGDSN, DGRIS and UNODC);

— Dedicate the next workshop to a final reading of the text and its presentation before all the members of the Security and Defence Committee. The agenda of the workshop was eventually modified to address the preparation of the annual report after the local partners failed to transmit, to the Minister of Interior, a preliminary draft law integrating most of the amendments and comments made by the experts.

Panama — Ad hoc Assistance Workshop — 'Strengthening the arms control system in Panama'

Panama City, 6-7 February 2019

This conference was attended by delegates of the Panamanian Ministries of: Foreign Affairs and Public Security (the National Police, the National Migration Service, the National Border Service (SENAFRONT)), the National Customs Authority and the Panama Canal Authority. The event was attended by a total of 23 representatives of several ministries and agencies of Panama.

Though it was the first time an activity in Panama within the EU ATT Outreach Project was conducted, the workshop attracted widespread media attention. Furthermore, the seminar gathered the Ambassadors of the EU, Germany, France and Spain and representatives from the Embassies of United Kingdom and Belgium.

The Ad hoc Assistance Workshop served to discuss central areas of cooperation that the Panamanian authorities had identified as priorities in the official request they sent to the European Union in order to get assistance within the EU ATT Outreach Project.

This two-day workshop was supported by four experienced export control experts from Spain, Peru, The Netherlands and Costa Rica.

Chile — Second Ad hoc Assistance Workshop

Santiago de Chile and Valparaíso, 20-21 March 2019

This was the second ad hoc activity in Chile within the framework of ATT OP II since a first workshop had been conducted in April 2018 in Santiago with the main objective to raise awareness about the ATT, its requirements and its upcoming implementation among representatives from the authorities involved in arms transfer control in Chile. The Republic of Chile had signed the ATT in June 2013, and ratified it on 18 May 2018, which means that the country is currently confronted with the challenge to implement ATT requirements efficiently.

This second Ad Hoc activity, organized by BAFA, was based on a new request from the Chilean Ministry of Foreign Affairs and aimed to deepen the existing cooperation by offering a tailored capacitation opportunity targeted at perspective of the different authorities. In fact, the activity was organized in the form of two separate workshop days, which addressed each a different target audience. Both days were held directly in the premises of the local authorities. This particular format ensured that targeted support could be provided to the key personnel of the main Chilean agencies involved in the implementation of the ATT.

The activity was supported by a team of five arms transfer control practitioners from Spain, Mexico and Uruguay.

Burkina Faso — First Sub-Regional seminar

Ouagadougou, 20-21 March 2019

This workshop, organised by Expertise France, was attended by 40 participants, representing the authorities of Benin, Burkina Faso, Côte d'Ivoire, Mali, Niger and Togo, as well as the G5 Sahel and the ECOWAS Commission.

With relevant experts from the Ministry for the Armed Forces (France), the Directorate-General of Customs and Indirect Taxes (France), and the Center for Humanitarian Demining Training (Benin), the regional workshop notably focused on:

— Restating the stakes, goals, main provisions and other key elements of the ATT;

— Providing advice and best practices on:

  — The control of transit and transhipment operations;

  — The prevention and fight against the diversion of conventional weapons (during their acquisition process and following their delivery);

— Presenting an overview of the implementation of the ATT in each of the six countries invited (reflecting their current efforts to introduce the Treaty obligations in their respective national legislation).

Within two days, the regional workshop achieved its objectives of raising awareness, while fostering the exchange of experience and networking between the participants.

The representatives of the six countries expressed their will to effectively implement the ATT, through national initiatives and coordinated regional approaches (with the support of the ECOWAS Commission, in order to better share information and feedback).

Finally, the workshop provided Expertise France with an opportunity to discuss potential avenues to strengthen, within the EU ATT OP II framework, cooperation and coordination with the ECOWAS Commission as well as the G5 Sahel.

Mali — Ad-Hoc Assistance Workshop

Mali, 9-10 April 2019

Organised by Expertise France, this first Ad-Hoc Assistance workshop in Mali was an opportunity to share information related to ATT with members of the Parliament. Besides, commitment was formally expressed for finalizing and adopting ATT-implementing Law even if no timeline was given for the adoption. The Law drafting committee is supposed to share the first draft with the National Commission on the Proliferation of SALW (including most ministries and civil society's representation). Although the ad hoc Law drafting committee had committed to consult the National Commission on the Proliferation of SALW, within which civil society is represented, about the draft Law and Decree, the partners did not confirm this was processed as agreed. (In May 2020, the draft Law was again reviewed by the EU ATT OP implementers prior to its submission for Parliamentary reading). It is worth mentioning that Mali is interested in longer-term cooperation with international donors.

The Train-the-Trainer Academy on the third day was mainly attended by partner country experts as it was dedicated to strengthening their role as multipliers of project messages in their home countries.

A further strongly voiced point both by EU, but also by partner country experts was the wish to include a collection of materials such as case studies and references to other service providers' documents (e.g. the CSP Working Groups) and generally have more information distributed by the implementers or made available through the project before each activity. This wish for more in-depth content support of experts/multipliers through the project was reiterated by the COARM Chair who asked both implementers to follow-up and develop appropriate procedures for each activity.

Best practices shared should help the Beninese partners reflect on future work on a preliminary draft law dedicated to the ATT, pending the ratification, by the President of the Republic, of the law on small arms and light weapons adopted by the National Assembly on 24 January (in order to implement the corresponding ECOWAS Convention while adding a few references to the ATT).

The study visit aimed to provide the Peruvian partners the opportunity to exchange experiences with international experts and to learn first-hand about customs and law enforcement procedures in an EU Member state. Given that Peru faces control duties both at sea and by air, it had been considered that Valencia would be the ideal destination to carry out this activity. Expertise France organised its third workshop in Côte d'Ivoire (Abidjan), on 22 and 23 October 2019. Bringing together twenty-one participants (from the administration and civil society). This workshop was dedicated to the report on exports and imports of conventional arms submitted each year, by State parties, to the ATT Secretariat. As Côte d'Ivoire has not yet submitted an annual report to the ATT Secretariat, the activity has mainly focused on the following objectives:

— A reminder of the Treaty's transparency obligations;

— The presentation of an example of the process of preparation of the annual report (from data collection to dissemination of the document);

— The preparation, as part of a collective exercise, of a draft report (based on the template available to the States Parties to the ATT).

Selected by Expertise France, the speakers particularly stressed the importance of respecting ATT obligations regarding transparency and reporting, and establishing an effective process to prepare the annual report (to collect the relevant data, fill out the document and send it to the ATT Secretariat). After two days of cooperative work, the workshop achieved the following results:

— A proposition of a new inter-ministerial coordination framework for the preparation of the annual report (to be submitted to the authorities for approval);

— A first draft of the report to be transmitted by 31 May 2020 (based on the template available on the official ATT website).

The participants therefore had the opportunity to define, with the support of the experts, a new inter-ministerial coordination process for the preparation of the annual report on conventional arms exports and imports from Côte d'Ivoire. This process provided in particular for the initial submission of the report to the authorities, reinforces the central role of the Secretariat of the National Security Council (responsible for collecting and summarizing the data), and identified the specific involvement of each entity involved in the preparation of the report.

Dakar, 30-31 October 2019

Dedicated to interagency coordination and information-sharing in the control of conventional arms transfers, this workshop organised by Expertise France brought together eleven representatives of the main Senegalese authorities involved in conventional arms transfer controls, as well as a team of three experts.

— Put into practice communication and information sharing mechanisms in controlling arms transfers and combating illicit activities;

— Discuss the current state and expected developments of the Senegalese system to control conventional arms transfers (pending the adoption of a law implementing the ATT);

— Make recommendations aimed at strengthening the capacities of officers in charge of administrative and field investigations.

Based on comments and observations resulting from the exercise, the experts proposed several recommendations aimed at strengthening the capacity of the officials in charge of administrative and field investigations.

This workshop brought together twenty officials from the Burkinabe Ministry of Justice (prosecutors, deputy prosecutors, judges and court clerks).

— The objectives and main provisions of the ATT, as well as its complementarities with other regional/international instruments;

— Implementation of the Treaty in Burkina Faso (including *via* its dedicated national law ratified by the President on 31 May 2019);

— The prevention and fight against diversion of conventional weapons in West Africa;

— Cooperation between officials from the administration and the justice system to enforce sanctions.

Through the exchanges between participants and experts on the control of arms transfers, the following difficulties were highlighted: the distinction between weapons of war and civilian weapons based on the user (defence and security forces or individuals), but not based on technical criteria, could lead to uncertainties in classification (particularly for SALW). To manage national stockpiles of weapons by defence and security forces was also raised as an issue.

Finally, the participants also mentioned the difficulty of controlling the circulation of certain dual-use goods such as explosives used in mining operations (which could be used for the manufacture of improvised explosive devices following their loss, theft or diversion to terrorist groups).

This workshop helped increase awareness about the ATT among officials working in the Justice system. It offered an opportunity to address the current steps taken to strengthen the arms transfer control system in Burkina Faso as well as some difficulties encountered.
