(pateikta Komisijos)

AIŠKINAMASIS MEMORANDUMAS

2002 m. Kopenhagos Europos Vadovų Taryba, baigdama derybas dėl narystės su dešimčia naujų valstybių, pripažino, kad plėtra – tai galimybė plėtoti bendromis vertybėmis paremtus santykius su kaimyninėmis šalimis ir pareiškė, kad Sąjunga ir toliau sieks išvengti Europą dalijančių sienų atsiradimo ir skatins stabilumą ir klestėjimą Sąjungoje ir už jos ribų.

2003 m. kovo mėn. Komisijos komunikate „Platesnė Europa - kaimynystė: naujas santykių su mūsų Rytų ir Pietų kaimynais pagrindas“¹ šalims partnerėms siūloma priimti veiksmų planus. 2003 m. birželio 16 d. Taryba pritarė šiam komunikatui ir pakvietė Komisiją, atitinkamais atvejais ir Vyriausiąjį įgaliotinį, teikti veiksmų planų pasiūlymus visoms susijusioms šalims, pirmiausia Ukrainai, Moldovai ir Viduržemio jūros pietinės pakrantės partnerėms, su kuriomis asociacijos susitarimai jau yra sudaryti.

2004 m. birželio 14 d. Taryba pritarė Komisijos komunikatui „Europos kaimynystės politika – strateginis dokumentas“². Taryba taip pat pritarė Komisijos pasiūlymui tęsti Europos kaimynystės politiką, vykdant veiksmų planus, dėl kurių turi būti susitarta kartu su susijusiomis kaimyninėmis šalimis, ir skatino Komisiją siūlyti tokius veiksmų planus. Veiksmų planai turėtų būti vykdomi bent trejus metus ir pratęsimi esant abipusiam pritarimui. Jie remtųsi bendraisiais principais, bet būtų atitinkamai diferencijuojami, atsižvelgiant į kiekvienos kaimyninės šalies ypatumus, nacionalinių reformų eigą ir jos santykius su ES. Veiksmų planai turėtų būti aiškiai išdėstyti ir tuo pačiu juose turi būti nurodyti pagrindiniai prioritetai bei siūlomos paskatos reformai. Veiksmų planais taip pat, jei įmanoma, siekiama prisidėti prie regioninio bendradarbiavimo. Taryba taip pat nurodė kaip gerinti ir stebėti veiksmų planų įgyvendinimą.

Komisija, glaudžiai bendradarbiaudama su pirmininkaujančia valstybe ir Vyriausiuoju įgaliotiniu politinio bendradarbiavimo klausimais ir BUSP, surengė tiriamąsias derybas su Jordanija, kurių pasekmė – susitarimas dėl veiksmų plano projekto. Šio plano trukmė yra treji metai. Jo įgyvendinimas padės vykdyti Asociacijos susitarimo nuostatas ir plėtos vis glaudesnius santykius su Jordanija, skatinant gilesnę ekonominę integraciją ir stiprinant politinį bendradarbiavimą. Veiksmų plano įgyvendinimas padės suderinti Jordanijos ir Europos Sąjungos teisės aktus, normas ir standartus.

Veiksmų planas – tai ekonominio ir politinio bendradarbiavimo įrankis, papildantis ir plėtojantis įsipareigojimus ir tikslus, pateiktus Europos ir Viduržemio jūros regiono valstybių susitarime.

Remdamasi 2004 m. birželio 14 d. Tarybos išvadomis, kuriose nustatyta, kad veiksmų planus tvirtina Taryba, o vėliau atitinkamos Asociacijos ar Bendradarbiavimo tarybos, Komisija priede pateikia pasiūlymo tekstą, skirtą Tarybos sprendimui dėl pozicijos, kurios turi laikytis Europos bendrija ir jos valstybės narės ES ir Jordanijos asociacijos taryboje, priimant rekomendaciją dėl veiksmų plano įgyvendinimo.

Todėl Komisija prašo, kad Taryba patvirtintų pasiūlymą, skirtą Tarybos sprendimui.

ANNEX

EU/JORDAN ACTION PLAN

1. Introduction

The enlargement of the European Union on 1 May 2004 has brought a historical shift for the Union in political, geographic and economic terms. The EU and Jordan are now closer together than ever before and, as near neighbours, will reinforce their political and economic interdependence. Enlargement offers the opportunity for the EU and Jordan to develop an increasingly close relationship, going beyond co-operation, to involve a significant measure of economic integration and deepening of political co-operation. The European Union and Jordan are determined to make use of this occasion to enhance their relations and to promote stability, security and well-being. The approach is founded on partnership, joint ownership and differentiation. It will contribute to the further development of our strategic partnership.

The European Neighbourhood Policy of the European Union sets ambitious objectives based on commitments to shared values and effective implementation of political, economic, social and institutional reforms.

Jordan is invited to enter into intensified political, security, economic and cultural relations, and shared responsibility in conflict prevention and conflict resolution.

The level of ambition of the EU-Jordan relationship will depend on the degree of commitment to common values as well as the capacity to implement jointly agreed priorities. The pace of progress of the relationship will acknowledge fully the efforts and concrete achievements in meeting those commitments.

The European Neighbourhood Policy is part of the European Union's response to the Government of Jordan's political reform agenda as set out in the "National Plan for Political Development". This National Plan has been developed to progress with political reform designed to consolidate democracy, accountability, transparency and justice in Jordan, and to build a model for a modern, knowledge-based Islamic and Arab country. The European Neighbourhood Policy also responds to the Government of Jordan's National Social and Economic Action Plan (2004-2006), which aims to develop a sustainable socio-economic reform process.

This Action Plan is a first step in this process. It covers a timeframe of three to five years. Its implementation will help fulfil the provisions in the Association Agreement (AA) and will encourage and support Jordan's national reform objectives and further integration into European economic and social structures. Implementation of the Action Plan will significantly advance the approximation of Jordanian legislation, norms and standards to those of the European Union. It will also build solid foundations for further economic integration based on the adoption and implementation of economic and trade-related rules and regulations with the potential to enhance trade, investment and growth. It will furthermore help to devise and implement policies and measures to promote economic growth, employment and social cohesion, to reduce poverty and to protect the environment, thereby contributing to the long-term objective of sustainable development.

Jordan and the EU will cooperate closely in implementing this Action Plan.

For the near future the AA remains a valid basis for EU-Jordan co-operation.

New Partnership Perspectives

The European Neighbourhood Policy opens New Partnership Perspectives:

- The perspective of moving beyond cooperation to a significant degree of economic integration, including through a stake in the EU's Internal Market, and the possibility for Jordan to participate progressively in key aspects of EU policies and programmes.
- An upgrade in the scope and intensity of political cooperation.
- The opportunity for convergence of economic legislation, the opening of economies to each other, and the continued reduction of trade barriers which will stimulate investment and growth;
- Increased financial support: EU financial assistance for Jordan will be better targeted to support the actions identified in the present document, mainly to support the political reform and economic modernisation agenda of the Jordanian Government. The Commission is furthermore proposing a new European Neighbourhood and Partnership Instrument (ENPI) for this purpose, also covering the very important aspect of transnational cooperation. There will also be infrastructure investment support through the European Investment Bank;
- Possibilities of gradual opening of or reinforced co-operation in relevant Community programmes, promoting i.a. cultural, educational, environmental, technical and scientific links;
- Support including technical assistance and twinning to meet EU norms and standards and targeted support and advice for legislative approximation through mechanisms such as TAIEX;
- Deepening trade and economic relations, extending them progressively to cover agriculture and the service sector, and to provide the conditions for increasing investment and exports;
- Enhanced direct cooperation between administrations based on the bodies set up by the Association Agreement in particular institutionalised thematic sub-committees.

In light of the fulfilment of the objectives of this Action Plan and of the overall evolution of EU-Jordan relations, consideration will be given to the possibility of a new contractual relationship. The Commission has suggested that this could take the form of a European Neighbourhood Agreement. The advisability of any new contractual arrangements will be considered in due time.

Priorities for Action

This Action Plan sets out a comprehensive set of priorities in areas within the scope of the Association Agreement. Among these priorities, all of which are important, particular attention should be given to:

- Take forward a national dialogue on democracy and political life within the framework of the national political development plan.
- Continue to develop an independent and impartial judiciary. Further reinforcing of the administrative and judiciary capacity.
- Take steps to develop further the freedom of the media and freedom of expression
- Further promote equal treatment of women, by preparing a plan to increase women's participation in political and economic life.
- Strengthen political dialogue and co-operation on issues of international and regional interest including the Middle East Peace Process and the fight against terrorism.
- Take measures to improve business conditions to enhance growth and increase investment in Jordan.
- Enhance Jordan's export potential by: further liberalisation of trade, in goods and agriculture, simplifying and upgrading customs legislation and procedures, improving industrial standards and modernisation of the sanitary and phytosanitary systems.
- Take steps to prepare for a progressive liberalisation of trade in services.
- Effective management of migratory flows and facilitation of movement of persons in conformity with the acquis, in particular examine the scope for visa facilitation for short stay for some categories of persons to be defined jointly.
- Implement the Jordanian Sustainable Development Strategy, and implement the government's strategy to reduce poverty
- Develop the transport, energy and information society sectors and networks through sector liberalisation, investment in infrastructures and interconnection with EU networks.
- Strengthen co-operation on science and technology

Progress in meeting these priorities will be jointly monitored in sub-committees established by the Association Agreement. On this basis, the EU, together with Jordan, will review the content of the Action Plan and decide on its adaptation and renewal. After three years, decisions by Jordan and the EU may be taken on the next step in the development of bilateral relations, including the possibility of new contractual links. This could take the form of a European Neighbourhood Agreement whose scope will be defined in the light of progress in meeting the priorities set out in the Action Plan.
