iv) Esses direitos aduaneiros serão completamente eliminados em 1 de Janeiro de 2003.

2.2. O direito aduaneiro preferencial aplicável às importações no México de veículos automóveis enumerados no ponto 5 originários da Comunidade e que não sejam importados ao abrigo do contingente pautal não poderá ser superior a 10 % *ad valorem*, entre a data da entrada em vigor da decisão e 31 de Dezembro de 2006.

3. Gestão do contingente pautal

3.1. O contingente pautal será gerido pelo México em conformidade com um dos seguintes métodes ou combinação dos mesmos:

i) Método baseado na ordem cronológica de apresentação dos pedidos (segundo o princípio «primeiro a chegar, primeiro a ser servido»);

ii) Método de repartição proporcional às quantidades solicitadas na apresentação dos pedidos (método «de análise simultânea»);

iii) Método baseado na tomada em consideração dos padrões comerciais tradicionais (método «importadores tradicionais/novos operadores»).

3.2. Até 31 de Dezembro de 2003, o México pode reservar uma parte do contingente pautal para os produtores estabelecidos no México que cumpram o disposto no Decreto para el fomento y modernización de la industria automotriz, de 11 de Dezembro de 1989, com as alterações que lhe foram introduzidas em 31 de Maio de 1995, desde que seja previamente oferecida aos outros operadores uma quota mínima de 4 % das vendas totais no México.

3.3. Sem prejuízo do disposto no ponto 3.1, qualquer parte do contingente pautal reservado aos produtores em conformidade com o disposto no ponto 3.2 será distribuído de uma forma não discriminatória entre todos os fabricantes, consoante a quantidade de veículos a motor enumerados no ponto 5 fabricados por cada um, no México, durante o ano anterior.

3.4. O método ou combinação de métodos seleccionados para a gestão do contingente pautal deverá permitir a utilização plena do mesmo e evitar discriminações entre os operadores interessados.

4. Disposições gerais

4.1. O Comité Misto pode alterar as disposições relativas à gestão do contingente pautal.

4.2. O México comunicará à Comissão Europeia as normas adoptadas para a gestão do contingente pautal e informações exaustivas sobre a sua afectação.

1. Para efeitos do artigo 2.º, os produtos que não tenham sido inteiramente obtidos são considerados objecto de operações de complemento de fabrico ou de transformação suficientes, quando estiverem preenchidas as condições estabelecidas no apêndice II.

Estas condições indicam, para todos os produtos abrangidos pela presente decisão, as operações de complemento de fabrico ou de transformação que devem ser efectuadas nas matérias não originárias utilizadas na fabricação desses produtos e aplicam-se exclusivamente a essas matérias. Daí decorre que, se um produto, que adquiriu a qualidade de produto originário na medida em que preenche as condições estabelecidas na referida lista, for utilizado na fabricação de outro produto, não lhe serão aplicadas as condições aplicáveis ao produto em que está incorporado e não serão tidas em conta as matérias não originárias eventualmente utilizadas na sua fabricação.

2. Não obstante o disposto no n.º 1, os produtos que não tenham sido inteiramente obtidos e enumerados no apêndice II (a) serão considerados como tendo sido objecto de operações de complemento de fabrico ou de transformação suficientes para efeitos do artigo 2.º, quando estiverem preenchidas as condições estabelecidas na lista do referido apêndice.

O disposto no presente número aplicar-se-á aos períodos ou aos produtos referidos na lista do apêndice II (a).

3. Não obstante o disposto no n.º 1, as matérias não originárias que, de acordo com as condições estabelecidas na lista, não devem ser utilizadas na fabricação de um produto, podem, todavia, ser utilizadas, desde que:

a) O seu valor total não exceda 10 % do preço à saída da fábrica do produto;

b) Não seja excedida nenhuma das percentagens indicadas na lista para o valor máximo das matérias não originárias em razão da aplicação do presente número.

O presente número não se aplica aos produtos classificados nos capítulos 50 a 63 do Sistema Harmonizado, que são objecto do apêndice I.

4. Aplica-se o disposto nos n.ºs 1 e 3, excepto nos casos previstos no artigo 6.º

[1] Para efeitos da presente alínea, o termo «nacionais» inclui as empresas.

Artigo 6.º

Operações de complemento de fabrico ou de transformação insuficientes

1. Não obstante o disposto no n.º 2, consideram-se insuficientes para conferir a qualidade de produto originário, independentemente de estarem ou não satisfeitas as condições do artigo 5.º, as seguintes operações de complemento de fabrico ou de transformação:

a) Manipulações destinadas a assegurar a conservação dos produtos no seu estado inalterado durante o transporte e a armazenagem (ventilação, estendedura, secagem, congelação, refrigeração, colocação em água salgada, sulfurada ou adicionada de outras substâncias, extracção de partes deterioradas e operações similares);

b) Diluição em água ou numa outra substância que não altere as características materiais do produto;

c) Simples operações de extracção do pó, crivação, escolha, classificação, selecção (incluindo a composição de sortidos de artigos), lavagem, pintura, descasque, remoção de grãos e corte;

d) i) Mudança de embalagem e fraccionamento e reunião de volumes;

ii) Simples acondicionamento em garrafas, frascos, sacos, estojos, caixas, grades, pranchetas, etc., e quaisquer outras operações simples de acondicionamento;

i) Realização conjunta de duas ou mais das operações referidas nas alíneas a) a h); e

j) Abate de animais.

2. Todas as operações efectuadas na Comunidade ou no México a um dado produto são consideradas em conjunto para determinar se a operação de complemento de fabrico ou de transformação a que o produto foi submetido deve ser considerada como insuficiente na acepção do n.º 1.

Artigo 7.º

Unidade de qualificação

1. A unidade de qualificação para a aplicação das disposições do presente anexo é o produto específico considerado como unidade básica para a determinação da classificação através da nomenclatura do Sistema Harmonizado.

Daí decorre que:

a) Quando um produto composto por um grupo ou por uma reunião de artigos é classificado nos termos do Sistema Harmonizado numa única posição, o conjunto constitui a unidade de qualificação;

b) Quando uma remessa for composta por um certo número de produtos idênticos classificados na mesma posição do Sistema Harmonizado, as disposições do presente anexo aplicar-se-ão a cada um dos produtos considerado individualmente.

2. Quando, em aplicação da regra geral 5 do Sistema Harmonizado, as embalagens forem consideradas na classificação do produto, devem ser igualmente consideradas para efeitos de determinação da origem.

Artigo 8.º

Separação de contas

1. Quando os custos de manutenção de existências separadas para matérias originárias e para matérias não originárias, que são idênticas e interpermutáveis, forem consideráveis, a autoridade governamental competente ou as autoridades aduaneiras podem, mediante pedido escrito dos interessados, autorizar a aplicação do método dito «separação de contas» para a gestão dessas existências.

2. Esse método deve poder assegurar que, para um dado período de referência, o número de produtos obtidos que podem ser considerados «originários» é igual ao número que teria sido obtido, se tivesse havido uma separação física das existências.

3. O referido método será registado e aplicado em conformidade com os princípios gerais de contabilidade aceites, aplicáveis no território da parte onde é fabricado o produto.

4. A autoridade governamental competente ou as autoridades aduaneiras podem subordinar essa autorização a quaisquer condições que considerem adequadas.

5. O beneficiário dessa simplificação pode, consoante o caso, emitir provas de origem ou solicitar a sua emissão para as quantidades de produtos que podem ser considerados originários. A pedido da autoridade governamental competente ou das autoridades aduaneiras, o beneficiário apresentará um comprovativo de como são geridas as quantidades.

6. A autoridade governamental competente ou as autoridades aduaneiras controlarão o uso dado à autorização e podem retirá-la em qualquer momento se o beneficiário dela fizer um uso incorrecto sob qualquer forma, ou não preencher uma das outras condições estabelecidas no presente anexo.

Artigo 9.º

Acessórios, peças sobressalentes e ferramentas

Os acessórios, peças sobressalentes e ferramentas expedidos com uma parte de equipamento, uma máquina, um aparelho ou um veículo, que façam parte do equipamento normal e estejam incluídos no respectivo preço ou não sejam facturados à parte, serão considerados como constituindo um todo com a parte de equipamento, a máquina, o aparelho ou o veículo em causa.

Artigo 10.º

Sortidos

Os sortidos, definidos na regra geral 3 do Sistema Harmonizado, são considerados originários quando todos os produtos que o compõem forem produtos originários. No entanto, um sortido composto por produtos originários e produtos não originários será considerado originário no seu conjunto, desde que o valor dos produtos não originários não exceda 15 % do preço à saída da fábrica do sortido.

Artigo 11.º

Elementos neutros

A fim de determinar se um produto é originário, não é necessário averiguar a origem dos seguintes factores eventualmente utilizados na sua fabricação:

a) Energia eléctrica e combustível;

b) Instalações e equipamento, incluindo mercadorias utilizadas para a respectiva manutenção;

c) Máquinas, ferramentas, matrizes e moldes; e

d) Quaisquer outras mercadorias que não entram nem se destinam a entrar na composição final do produto.

2. Se as mercadorias originárias exportadas do México ou da Comunidade para um país terceiro forem reimportadas, serão consideradas não originárias, salvo se for apresentada às autoridades aduaneiras prova suficiente de que:

a) As mercadorias reimportadas são as mesmas que foram exportadas; e

b) Não foram sujeitas a outras manipulações para além das necessárias para assegurar a sua conservação no seu estado inalterado enquanto permaneceram nesse país ou quando da sua exportação.

Artigo 13.º

Transporte directo

1. O regime preferencial previsto nos termos da presente decisão só se aplica aos produtos que, satisfazendo os requisitos do presente anexo, sejam transportados directamente entre o México e a Comunidade. Todavia, o transporte de produtos que constituem uma só remessa pode efectuar-se através de outros territórios com eventuais transbordos ou armazenagem temporária nesses territórios, desde que permaneçam sob fiscalização das autoridades aduaneiras do país de trânsito ou de armazenagem e não sejam objecto de outras operações para além das de descarga, de recarga ou qualquer outra operação destinada a assegurar a sua conservação no seu estado inalterado.

2. A prova de que as condições enunciadas no n.º 1 se encontram preenchidas é fornecida às autoridades aduaneiras do país de importação mediante a apresentação de:

As matérias não originárias, utilizadas na fabricação de produtos originários da Comunidade ou do México na acepção do presente anexo, para as quais é emitida uma prova de origem em conformidade com as disposições do título V, não serão objecto, na Comunidade nem no México, de draubaque ou de isenção de direitos de importação.

3. A proibição prevista no n.º 1 aplica-se a todas as medidas de reembolso, de dispensa do pagamento ou não pagamento, total ou parcial, de direitos de importação aplicáveis na Comunidade ou no México às matérias utilizadas na fabricação, desde que essa medida conceda, expressamente ou de facto, esse reembolso, dispensa do pagamento ou não pagamento, quando os produtos obtidos a partir dessas matérias são exportados, mas não quando se destinam ao consumo interno ([1]).

4. O exportador dos produtos abrangidos por uma prova de origem deve poder apresentar, em qualquer momento, a pedido das autoridades aduaneiras, todos os documentos úteis comprovativos de que não foi obtido nenhum draubaque para as matérias não originárias utilizadas na fabricação dos produtos em causa e de que foram efectivamente pagos todos os direitos de importação aplicáveis a essas matérias.

([1]) As partes acordam na possibilidade de deferir o pagamento de direitos de importação até que o produto final seja exportado, de modo a que as autoridades tenham conhecimento do destino final do produto.

5. O disposto nos n.os 1 a 3 aplica-se igualmente às embalagens na acepção do n.º 2 do artigo 7.º, aos acessórios, peças sobressalentes e ferramentas na acepção do artigo 9.º e aos sortidos na acepção do artigo 10.º, sempre que sejam não originários.

6. O disposto nos n.os 1 a 4 aplica-se exclusivamente aos produtos exportados que beneficiem de um regime pautal preferencial na outra parte. Além disso, não obsta à aplicação de um regime de restituições à exportação no respeitante aos produtos agrícolas.

7. O presente artigo aplica-se a partir de 1 de Janeiro de 2003.

Os documentos referidos no n.º 3 do artigo 16.º e no n.º 3 do artigo 20.º, utilizados como comprovativos de que os produtos cobertos por um certificado de circulação EUR.1 ou por uma declaração na factura podem ser considerados produtos originários do México ou da Comunidade, e satisfazem os outros requisitos do presente anexo, podem consistir, designadamente, em:

a) Provas documentais directas das operações realizadas pelo exportador ou pelo fornecedor para obtenção das mercadorias em causa, que figurem, por exemplo, na sua escrita ou na sua contabilidade interna;

b) Documentos comprovativos da qualidade de originário das matérias utilizadas, emitidos no México ou na Comunidade, onde são utilizados em conformidade com o direito interno;

c) Documentos comprovativos das operações de complemento de fabrico ou de transformação realizadas às matérias no México ou na Comunidade, emitidos no México ou na Comunidade, onde são utilizados em conformidade com o direito interno, ou

d) Certificados de circulação EUR.1 ou declarações na factura comprovativos da qualidade de originário das matérias utilizadas, emitidos no México ou na Comunidade, em conformidade com o presente anexo.

Artigo 27.º

Conservação da prova de origem e dos documentos comprovativos

1. O exportador que apresenta o pedido de emissão de um certificado de circulação EUR.1 deve conservar, durante, pelo menos, três anos, os documentos referidos no n.º 3 do artigo 16.º

2. O exportador que efectua uma declaração na factura deve conservar, durante, pelo menos, três anos a cópia da referida declaração, bem como os documentos referidos no n.º 3 do artigo 20.º

3. As autoridades aduaneiras ou a autoridade governamental competente do país de exportação que emitem o certificado de circulação EUR.1 devem conservar, durante, pelo menos, três anos o formulário do pedido referido no n.º 2 do artigo 16.º

4. As autoridades aduaneiras do país de importação devem conservar, durante, pelo menos, três anos os certificados de circulação EUR.1 e as declarações na factura que lhes forem apresentados.

Artigo 28.º

Discrepâncias e erros formais

1. A detecção de ligeiras discrepâncias entre as declarações prestadas na prova de origem e as dos documentos apresentados na estância aduaneira para cumprimento das formalidades de importação dos produtos não implica *ipso facto* que se considere a prova de origem nula e sem efeito, desde que seja devidamente comprovado que esse documento corresponde aos produtos apresentados.

2. Os erros formais óbvios, como os erros de dactilografia, detectados numa prova de origem não implicam a rejeição do documento se esses erros não suscitarem dúvidas quanto à exactidão das declarações nele prestadas.

Artigo 29.º

Montantes expressos em euros

1. O contravalor, em moeda nacional do país de exportação, do montante expresso em euros no presente anexo será fixado pelo país de exportação e comunicado aos países de importação por intermédio da Comissão Europeia.

2. Quando o montante for superior ao montante correspondente fixado pelo país de importação, este último aceitá-lo-á, se os produtos estiverem facturados na moeda do país de exportação. Se os produtos estiverem facturados na moeda de outro Estado-Membro da Comunidade ou do México, o país de importação reconhecerá o montante notificado pelo país em causa.

3. Os montantes a utilizar numa determinada moeda nacional serão o contravalor, nessa moeda, dos montantes expressos em euros no primeiro dia útil de Junho de 2000.

4. Os montantes expressos em euros no presente anexo e o seu contravalor nas moedas nacionais dos Estados-Membros da Comunidade e do México serão revistos pelo Comité Misto a pedido do México ou da Comunidade. Ao proceder a essa revisão, o Comité Misto assegurará que os montantes a utilizar em qualquer moeda nacional não diminuam e considerará, além disso, a conveniência de preservar os efeitos dos limites em causa em termos reais. Para o efeito, pode decidir alterar os montantes expressos em euros no presente anexo.

TÍTULO VI

MÉTODOS DE COOPERAÇÃO ADMINISTRATIVA

Artigo 30.º

Assistência mútua

1. As autoridades aduaneiras do México e dos Estados-Membros da Comunidade ou a autoridade governamental competente do México comunicarão à outra parte, através da Comissão Europeia, os espécimes dos cunhos dos carimbos utilizados nas respectivas estâncias aduaneiras para a emissão de certificados de circulação EUR.1 e os endereços das autoridades aduaneiras ou da autoridade governamental competente, responsáveis pelo controlo desses certificados e das declarações na factura.

2. Com vista a assegurar a correcta aplicação do presente anexo, o México e a Comunidade assistir-se-ão, por intermédio das respectivas administrações, no controlo da autenticidade dos certificados de circulação EUR. 1 ou das declarações na factura, e da exactidão das menções inscritas nesses documentos.

Artigo 31.º

Controlo da prova de origem

1. Os controlos *a posteriori* da prova de origem efectuar-se-ão por amostragem ou sempre que as autoridades aduaneiras do país de importação tenham dúvidas fundadas quanto à autenticidade do documento, à qualidade de originário dos produtos em causa ou quanto ao cumprimento dos outros requisitos do presente anexo.

2. Para efeitos de aplicação do n.º 1, as autoridades aduaneiras do país de importação devolverão o certificado de circulação EUR.1 e a factura, se esta tiver sido apresentada, a declaração na factura, ou uma fotocópia destes documentos às autoridades aduaneiras ou à autoridade governamental competente do país de exportação, indicando, se for caso disso, as razões que justificam a realização de um inquérito. Em apoio ao pedido de controlo devem ser enviados todos os documentos e informações obtidos que levem a supor que as menções inscritas na prova de origem são inexactas.

3. O controlo é efectuado pelas autoridades aduaneiras ou pela autoridade governamental competente do país de exportação. Para o efeito, essas autoridades podem exigir a apresentação de qualquer documento comprovativo e fiscalizar a contabilidade do exportador ou proceder a qualquer outro controlo que considerem adequado.

4. Se as autoridades aduaneiras do país de importação decidirem suspender a concessão do regime preferencial aos produtos em causa até serem conhecidos os resultados do controlo, concederão a autorização de saída dos produtos ao importador, sob reserva de aplicação das medidas cautelares consideradas necessárias.

5. As autoridades aduaneiras que requerem o controlo serão informadas dos seus resultados com a maior brevidade possível. Esses resultados devem indicar claramente se os documentos são autênticos, se os produtos em causa podem ser considerados produtos originários do México ou da Comunidade e se satisfazem os outros requisitos do presente anexo.

6. Se, nos casos de dúvida fundada, não for recebida resposta no prazo de 10 meses a contar da data do pedido de controlo, ou se a resposta não contiver informações suficientes para apurar a autenticidade do documento em causa ou a verdadeira origem dos produtos, as autoridades aduaneiras requerentes podem recusar o benefício do regime preferencial, salvo se se tratar de circunstâncias excepcionais.

Artigo 32.º

Resolução de litígios

1. Em caso de litígio relativamente aos procedimentos de controlo previstos no artigo 31.º, que não possa ser resolvido entre as autoridades aduaneiras que requerem o controlo e as autoridades aduaneiras ou a autoridade governamental competente responsáveis pela sua realização, ou em caso de dúvida quanto à interpretação do presente anexo, os mesmos serão submetidos ao Comité Especial de cooperação aduaneira e das regras de origem.

2. A resolução de litígios entre o importador e as autoridades aduaneiras do país de importação fica sujeita à legislação desse país.

Artigo 33.º

Confidencialidade

Todas as informações que, pela sua natureza, sejam confidenciais ou prestadas a título confidencial estão cobertas pela obrigação do segredo profissional, em conformidade com o direito interno das partes. Essas informações não podem ser divulgadas pelas autoridades aduaneiras ou pela autoridade governamental competente sem autorização expressa da pessoa ou da autoridade que as prestou, salvo se as autoridades aduaneiras ou a autoridade governamental competente forem obrigadas ou autorizadas a fazê-lo, nos termos das disposições em vigor, em particular em matéria de protecção de dados ou no âmbito de um processo judicial.

Artigo 34.º

Sanções

Serão aplicadas sanções a quem emita ou mande emitir um documento contendo informações inexactas com o objectivo de obter um tratamento preferencial para os produtos.

Artigo 35.º

Zonas francas

1. O México e a Comunidade tomarão todas as medidas necessárias para assegurar que os produtos comercializados ao abrigo de uma prova de origem, que, no decurso do seu transporte permaneçam numa zona franca situada no seu território, não sejam substituídos por outras mercadorias ou sujeitos a manipulações diferentes das manipulações usuais destinadas à sua conservação no seu estado inalterado.

2. Em derrogação do n.º 1, quando os produtos originários do México ou da Comunidade, importados para uma zona franca ao abrigo de uma prova de origem, forem sujeitos a um tratamento ou a uma transformação, as autoridades em causa devem emitir um novo certificado EUR.1 a pedido do exportador, se esse tratamento ou essa transformação estiverem em conformidade com as disposições do presente anexo.

TÍTULO VII

CEUTA E MELILHA

Artigo 36.º

Aplicação do anexo

1. O termo «Comunidade» referido no artigo 2.º não abrange Ceuta e Melilha.

2. Os produtos originários do México, quando importados para Ceuta ou Melilha, beneficiarão, em todos os aspectos, do mesmo regime aduaneiro que é aplicado aos produtos originários do território aduaneiro da Comunidade, ao abrigo do Protocolo n.º 2 dos Actos de Adesão do Reino de Espanha e da República Portuguesa às Comunidades Europeias. O México aplicará às importações dos produtos abrangidos pela decisão originários de Ceuta e Melilha o mesmo regime aduaneiro que é aplicado aos produtos importados e originários da Comunidade.

3. O presente anexo aplica-se *mutatis mutandis* aos produtos originários de Ceuta e Melilha, sob reserva das condições especiais estabelecidas no artigo 37.º

Artigo 37.º

Condições especiais

1. Sob reserva de terem sido objecto de transporte directo em conformidade com o artigo 13.º, consideram-se:

(1) Produtos originários de Ceuta e Melilha:

a) Os produtos inteiramente obtidos em Ceuta e Melilha;

b) Os produtos obtidos em Ceuta e Melilha em cuja fabricação sejam utilizados produtos diferentes dos referidos na alínea a), desde que:

i) Esses produtos tenham sido objecto de operações de complemento de fabrico ou de transformação suficientes, na acepção do artigo 5.º; ou

ii) Esses produtos sejam originários do México ou da Comunidade na acepção do presente anexo, desde que tenham sido objecto de operações de complemento de fabrico ou de transformação que excedam as operações de complemento de fabrico ou de transformação insuficientes referidas no n.º 1 do artigo 6.º;

(2) Produtos originários do México:

a) Os produtos inteiramente obtidos no México;

b) Os produtos obtidos no México em cuja fabricação sejam utilizados produtos diferentes dos referidos na alínea a), desde que:

i) Esses produtos tenham sido objecto de operações de complemento de fabrico ou de transformação suficientes, na acepção do artigo 5.º; ou

ii) Esses produtos sejam originários de Ceuta e Melilha ou da Comunidade na acepção do presente anexo, desde que tenham sido objecto de operações de complemento de fabrico ou de transformação que excedam as operações de complemento de fabrico ou de transformação insuficientes referidas no n.º 1 do artigo 6.º

2. Ceuta e Melilha são consideradas um único território.

3. O exportador ou o seu representante habilitado aporão as menções «México» ou «Ceuta e Melilha» na casa 2 do certificado de circulação EUR.1 ou na declaração na factura. Além disso, no caso de produtos originários de Ceuta e Melilha, a qualidade de originário deve ser indicada na casa 4 do certificado de circulação EUR.1 ou na declaração na factura.

4. As autoridades aduaneiras espanholas são responsáveis pela aplicação do presente anexo em Ceuta e Melilha.

TÍTULO VIII

DISPOSIÇÕES FINAIS

Artigo 38.º

Alteração do anexo

O Comité Misto pode alterar o presente anexo.

Artigo 39.º

Notas explicativas

1. As partes aprovarão as «Notas explicativas» relativas à interpretação, aplicação e administração do presente anexo no âmbito do Comité Especial de cooperação aduaneira e das regras de origem.

2. As partes aplicarão simultaneamente as notas explicativas assim aprovadas, em conformidade com os respectivos procedimentos internos.

Artigo 40.º

Mercadorias em trânsito ou depósito temporário

As mercadorias que satisfaçam as disposições do presente anexo e que, na data de entrada em vigor da decisão, estejam em trânsito ou em depósito temporário num entreposto aduaneiro ou numa zona franca no México ou na Comunidade, podem beneficiar das disposições da decisão, sob reserva da apresentação às autoridades aduaneiras do país de importação, no prazo de quatro meses a contar da referida data, de um certificado EUR.1 emitido *a posteriori* pelas autoridades aduaneiras ou pela autoridade governamental competente do país de exportação, bem como dos documentos comprovativos de que foram objecto de transporte directo.

Apêndice I

NOTAS INTRODUTÓRIAS À LISTA DOS APÊNDICES II E II (A)

Nota 1

A lista estabelece as condições necessárias para que os produtos sejam considerados como tendo sido objecto de operações de complemento de fabrico ou de transformação suficientes na acepção do artigo 5.º do anexo III.

Nota 2

2.1. As duas primeiras colunas da lista designam o produto obtido. A primeira coluna indica o número da posição, ou o número do capítulo utilizado no Sistema Harmonizado e a segunda coluna contém a designação das mercadorias desse sistema para essa posição ou capítulo. Em relação a cada inscrição nas duas primeiras colunas, é especificada uma regra na coluna 3 ou 4. Quando, nalguns casos, o número da posição na primeira coluna é precedido de um «ex», isso significa que a regra da coluna 3 ou da coluna 4 se aplica unicamente à parte dessa posição ou capítulo designada na coluna 2.

2.2. Quando várias posições são agrupadas na coluna 1 ou é dado um número de capítulo e a designação do produto na correspondente coluna 2 é feita em termos gerais, a regra adjacente nas colunas 3 e 4 aplica-se a todos os produtos que, no Sistema Harmonizado, são classificados nas diferentes posições do capítulo em causa ou em qualquer das posições agrupadas na coluna 1.

2.3. Quando existem regras diferentes na lista aplicáveis a diferentes produtos dentro de uma mesma posição, cada travessão contém a designação da parte da posição abrangida pela regra correspondente das colunas 3 ou 4.

2.4. Quando, para uma inscrição nas duas primeiras colunas, estiver especificada uma regra nas colunas 3 e 4, o exportador pode optar, em alternativa, por aplicar tanto a regra estabelecida na coluna 3 como a estabelecida na coluna 4. Se não estiver prevista uma regra de origem na coluna 4, é aplicada obrigatoriamente a regra estabelecida na coluna 3.

Nota 3

3.1. Aplicam-se as disposições do artigo 5.º do anexo III relativas aos produtos que adquiriram a qualidade de produtos originários, utilizados na fabricação de outros produtos, independentemente do facto de terem sido fabricados na mesma fábrica ou numa outra fábrica no México ou na Comunidade.

Exemplo:

Um motor da posição 8407, para o qual a regra estabelece que o valor das matérias não originárias que podem ser incorporadas não pode exceder 40 % ([1]) do preço à saída da fábrica, é fabricado a partir de «esboços de forja de ligas de aço» da posição ex 7224.

Se este esboço foi obtido na Comunidade a partir de um lingote não originário, já adquiriu a qualidade de produto originário por força da regra prevista na lista para os produtos da posição ex 7224. Este esboço pode então ser considerado originário para o cálculo do valor do motor, independentemente do facto de ter sido fabricado no México ou na Comunidade. O valor do lingote não originário não deve ser tomado em consideração na adição do valor das matérias não originárias utilizadas.

3.2. A regra constante da lista representa as operações de complemento de fabrico ou de transformação mínimas requeridas e a execução de operações de complemento de fabrico ou de transformação complementares confere igualmente a qualidade de originário; inversamente, a execução de um número de operações de complemento de fabrico ou transformações inferiores a esse mínimo não pode conferir a qualidade de originário. Por outras palavras, se uma regra estabelecer que, a um certo nível de fabricação, se pode utilizar matéria não originária, a sua utilização é permitida num estádio anterior da fabricação mas não num estádio posterior.

3.3. Sem prejuízo da nota 3.2, quando uma regra especifica que podem ser utilizadas «matérias de qualquer posição», podem igualmente ser utilizadas matérias da mesma posição da do produto, sob reserva, porém, de quaisquer limitações específicas que a regra possa conter. No entanto, a expressão «fabricado a partir de matérias de qualquer posição, incluindo outras matérias da posição ...» significa que apenas podem ser utilizadas matérias classificadas na mesma posição que o produto com uma designação diferente da sua, tal como consta da coluna 2 da lista.

([1]) Ver nota 11 do apêndice II (a).

3.4. A unidade de qualificação para a determinação da origem é o produto específico, tal como classificado na nomenclatura do Sistema Harmonizado. Daí decorre que as embalagens classificadas com os produtos, isto é, os invólucros em que os produtos são acondicionados para a venda a retalho, devem ser consideradas como parte dos produtos na determinação da origem dos mesmos. As embalagens concebidas exclusivamente para o transporte de produtos para a parte de importação não são consideradas.

Exemplo:

Aos computadores da posição 8471 aplica-se uma regra segundo a qual o valor das matérias não originárias utilizadas não deve exceder 40 % do preço à saída da fábrica do produto. Os computadores são acondicionados em caixas para venda a retalho e exportados em contentores de madeira, em número de 10 por contentor. A fim de determinar se os computadores respeitam a percentagem estabelecida para o produto, o valor dos contentores de madeira não deve ser considerado. Todavia, é considerado o valor das embalagens para venda a retalho.

3.5. Quando uma regra constante da lista especifica que um produto pode ser fabricado a partir de mais do que uma matéria, tal significa que podem ser utilizadas uma ou várias dessas matérias. A regra não exige a utilização de todas as matérias.

Exemplo:

A regra aplicável ao tecidos das posições 5208 a 5212 prevê que podem ser utilizadas fibras naturais e que, entre outras, podem igualmente ser utilizadas matérias químicas. Tal não significa que ambas as matérias tenham de ser utilizadas, sendo possível utilizar uma, outra ou ambas.

3.6. Quando uma regra da lista especifica que um produto tem que ser fabricado a partir de uma determinada matéria, esta condição não impede evidentemente a utilização de outras matérias que, pela sua própria natureza, não podem satisfazer a regra (ver igualmente a nota 6.2 em relação aos têxteis).

Contudo, esta regra não se aplica a produtos que, se bem que não possam ser fabricados a partir das matérias específicas referidas na lista, podem sê-lo a partir de matérias da mesma natureza num estádio anterior de fabricação.

Exemplo:

A regra relativa a preparações alimentícias da posição 1904, que exclui especificamente a utilização de cereais e dos seus derivados, não impede a utilização de sais minerais, produtos químicos e outros aditivos que não sejam obtidos a partir de cereais.

Exemplo:

Se no caso de um artigo de vestuário do ex capítulo 62 [1] feito de falsos tecidos estiver estabelecido que este artigo só pode ser obtido a partir de fio não originário, não é possível utilizar falsos tecidos, embora estes não possam normalmente ser feitos a partir de fios. Nestes casos, é conveniente utilizar a matéria que se encontra num estádio de transformação anterior ao fio, ou seja, no estádio de fibra.

3.7. Se numa regra da lista forem indicadas duas percentagens para o valor máximo de matérias não originárias que podem ser utilizadas, estas percentagens não podem ser adicionadas. Por outras palavras, o valor máximo de todas as matérias não originárias utilizadas nunca pode exceder a mais alta das percentagens indicadas. Além disso, as percentagens específicas não podem ser excedidas em relação às matérias específicas a que se aplicam.

Nota 4

4.1. A expressão «fibras naturais» é utilizada na lista para designar as fibras que não são artificiais nem sintéticas e é reservada aos estádios anteriores à fiação, incluindo os desperdícios e, salvo indicação em contrário, abrange as fibras que foram cardadas, penteadas ou preparadas de outro modo, mas não fiadas.

4.2. A expressão «fibras naturais» inclui crinas da posição 0503, seda das posições 5002 e 5003, bem como as fibras de lã, os pêlos finos ou grosseiros das posições 5101 a 5105, as fibras de algodão das posições 5201 a 5203 e outras fibras vegetais das posições 5301 a 5305.

[1] Ver nota 6 do apêndice II (a).

4.3. As expressões «pastas têxteis», «matérias químicas» e «matérias destinadas à fabricação de papel», utilizadas na lista, designam matérias não classificadas nos capítulos 50 a 63 que podem ser utilizadas para a fabricação de fibras ou fios sintéticos, artificiais ou fios ou fibras de papel.

4.4. A expressão «fibras sintéticas ou artificiais, descontínuas», utilizada na lista, inclui os cabos de filamento, as fibras descontínuas e os desperdícios de fibras sintéticas ou artificiais descontínuas das posições 5501 a 5507.

Nota 5

5.1. No caso de um dado produto da lista remeter para a presente nota, não se aplicam as condições estabelecidas na coluna 3 da lista às matérias têxteis de base utilizadas na sua fabricação que, no seu conjunto, representem 8 % ou menos do peso total de todas as matérias têxteis de base utilizadas (ver igualmente as notas 5.3 e 5.4).

5.2. Todavia, a tolerância referida na nota 5.1 só pode ser aplicada a produtos mistos que tenham sido fabricados a partir de uma ou várias matérias têxteis de base.

São as seguintes as matérias têxteis de base:

— seda,

— lã,

— pêlo grosseiro (de animal),

— pêlo fino (de animal),

— crina de cavalo,

— algodão,

— matérias utilizadas na fabricação de papel e papel,

— linho,

— cânhamo,

— juta e outras fibras têxteis liberianas,

— sisal e outras fibras têxteis do género *Agave*,

— cairo, abacá, rami e outras fibras têxteis vegetais,

— filamentos sintéticos,

— filamentos artificiais,

— filamentos condutores eléctricos,

— fibras de polipropileno sintéticas descontínuas,

— fibras de poliéster sintéticas descontínuas,

— fibras de poliamida sintéticas descontínuas,

— fibras de poliacrilonitrilo sintéticas descontínuas,

— fibras de poliimida sintéticas descontínuas,

— fibras de politetrafluoroetileno sintéticas descontínuas,

— fibras de polisulfureto de fenileno sintéticas descontínuas,

— fibras de policloreto de vinilo sintéticas descontínuas,

— outras fibras sintéticas descontínuas,

— fibras de viscose artificiais descontínuas,

— outras fibras artificiais descontínuas,

— fio fabricado a partir de segmentos de fios de poliuretano segmentado, com segmentos flexíveis de poliéster, reforçado ou não,

— fio fabricado a partir de segmentos de poliuretano segmentado, com segmentos flexíveis de poliéster, reforçado ou não,

— produtos da posição 5605 (fio metalizado) em que esteja incorporada uma alma, constituída por uma folha de alumínio ou uma película de matéria plástica, revestida ou não de pó de alumínio, cuja largura não exceda 5 mm, colada por meio de uma fita adesiva colocada entre duas películas de matéria plástica,

— outros produtos da posição 5605.

Exemplo:

Um fio da posição 5205 fabricado a partir de fibras de algodão da posição 5203 e de fibras sintéticas descontínuas da posição 5506 constitui um fio misto. Por conseguinte, podem ser utilizadas as fibras sintéticas descontínuas não originárias que não satisfaçam as regras de origem (que requerem a utilização de matérias químicas ou de pastas têxteis) até ao limite máximo de 8 %, em peso, do fio.

Exemplo:

Um tecido de lã posição 5112 fabricado a partir de fio de lã da posição 5107 e de fios sintéticos de fibras descontínuas da posição 5509 constitui um tecido misto. Por conseguinte, podem ser utilizados o fio sintético que não satisfaz as regras de origem (que requerem a utilização de matérias químicas ou de pastas têxteis) ou o fio de lã que não satisfaz as regras de origem (que requerem a utilização de fibras naturais não cardadas, nem penteadas nem preparadas de outro modo para fiação), ou uma mistura de ambos, desde que o seu peso total não exceda 8 % do peso do tecido.

Exemplo:

Os tecidos têxteis tufados da posição 5802 fabricados a partir de fio de algodão da posição 5205 e de tecido de algodão da posição 5210 só será considerado como um produto misto se o próprio tecido de algodão for um tecido misto fabricado a partir de fios classificados em duas posições distintas, ou se os próprios fios de algodão utilizados forem mistos.

Exemplo:

Se os referidos tecidos tufados forem fabricados a partir de fio de algodão da posição 5205 e de tecido sintético da posição 5407, é então evidente que os fios utilizados são duas matérias têxteis de base distintas, pelo que o tecido tufado constitui um produto misto.

5.3. No caso de produtos em que estejam incorporados «fios de poliuretano segmentado, com segmentos flexíveis de poliéter, reforçado ou não» a tolerância é de 8 % no que respeita a estes fios.

5.4. No caso de produtos em que esteja incorporada «uma alma, constituída por uma folha de alumínio ou uma película de matéria plástica, revestida ou não de pó de alumínio, cuja largura não exceda 5 mm, colada por meio de uma fita adesiva colocada entre duas películas de matéria plástica», a tolerância é de 30 % no que respeita a esta alma.

Nota 6

6.1. No caso dos produtos têxteis assinalados na lista com uma nota de pé-de-página que remete para a presente nota, podem ser utilizadas matérias têxteis, com excepção dos forros e das entretelas, que não satisfazem a regra estabelecida na coluna 3 da lista para a confecção em causa, contanto que estejam classificadas numa posição diferente da do produto e que o seu valor não exceda 8 % do preço à saída da fábrica do produto.

6.2. Sem prejuízo da nota 6.3, as matérias que não estejam classificadas nos capítulos 50 a 63 podem ser utilizadas à discrição na fabricação de produtos têxteis, quer contenham ou não matérias têxteis.

Exemplo:

Se uma regra da lista prevê que para um determinado artigo têxtil, tal como um par de calças, tem de ser utilizado fio, tal não impede a utilização de artigos de metal, tais como botões, visto estes não estarem classificados nos capítulos 50 a 63. Daí que também não impeça a utilização de fechos de correr muito embora estes normalmente contenham matérias têxteis.

6.3. Quando se aplica a regra percentual, o valor das matérias que não estão classificadas nos capítulos 50 a 63 deve ser tido em conta no cálculo do valor das matérias não originárias incorporadas.

Nota 7

7.1. Na acepção das posições ex 2707, 2713 a 2715, ex 2901, ex 2902 e ex 3403, consideram-se como «tratamento definido» as seguintes operações:

([1]) Ver nota introdutória 7.4.

l) Apenas no que respeita aos produtos da posição 2710, desparafinagem por um processo diferente da simples filtração;

m) Apenas no que respeita aos óleos pesados da posição ex 2710, tratamento pelo hidrogénio, diferente da dessulfuração, no qual o hidrogénio participa activamente numa reacção química realizada a uma pressão superior a 20 bar e a uma temperatura superior a 250 °C, com a intervenção de um catalisador. Os tratamentos de acabamento, pelo hidrogénio, dos óleos lubrificantes da posição ex 2710 que se destinem, designadamente, a melhorar a sua cor ou a sua estabilidade (por exemplo: *hydrofinishing* ou descoloração) não são, pelo contrário, considerados como tratamentos definidos;

n) Apenas no que respeita aos fuelóleos da posição ex 2710, destilação atmosférica, desde que estes produtos destilem, em volume, compreendendo as perdas, menos de 30 % à temperatura de 300 °C, segundo o método ASTM D 86;

o) Apenas no que respeita aos óleos pesados da posição ex 2710, excluídos o gasóleo e os fuelóleos, tratamento por descargas eléctricas de alta frequência.

7.3. Na acepção das posições ex 2707, 2713 a 2715, ex 2901, ex 2902 e ex 3403, as operações simples, tais como a limpeza, decantação, dessalinização, separação da água, filtragem, coloração, marcação de que se obtém um teor de enxofre através da mistura de produtos com teores de enxofre diferentes, bem como qualquer realização conjunta destas operações ou operações semelhantes não conferem a origem.

7.4. Entende-se por «redestilação por um processo de fraccionamento muito "apertado"», a destilação (excluída a destilação primária) por um processo contínuo ou descontínuo em instalações industriais que utilizem destilados das posições 2710 00, 2711 11, 2711 12 a 2711 19, 2711 21 e 2711 29 (com exclusão do propano de grau de pureza não inferior a 99 %) com o objectivo de obter:

1. Hidrocarbonetos isolados de pureza elevada (não inferior a 90 % no caso de olefinas e a 95 % no caso de outros hidrocarbonetos), sendo as misturas de isómeros com a mesma composição consideradas hidrocarbonetos isolados.

   Só são admissíveis os processos através dos quais se obtêm, pelo menos, três produtos diferentes, embora esta restrição não se aplique a processos que consistam na separação de isómeros. No que respeita aos xilenos, considera-se o etilbenzeno como isómero de xileno;

2. Produtos das posições 2707 10 a 2707 30, 2707 50 e 2710 00:

   a) Sem sobreposição do limite superior do intervalo de ebulição correspondente a uma determinada fracção com o limite inferior do intervalo de ebulição correspondente à fracção seguinte e com uma amplitude entre as temperaturas de destilação de 5 % e de 90 %, em volume, do produto, incluindo as perdas, não superior a 60 °C, segundo o método ASTM D 86-67 (reaprovado em 1972);

   b) Com uma sobreposição do limite superior do intervalo de ebulição correspondente a uma determinada fracção com o limite inferior do intervalo de ebulição correspondente à fracção seguinte e com uma amplitude entre as temperaturas de destilação de 5 % e de 90 %, em volume, do produto, incluindo as perdas, não superior a 30 °C, segundo o método ASTM D 86-67 (reaprovado em 1972).

Caso o México exceda num determinado ano o valor total dos contratos que podem ser isentados para esse ano, de acordo com o disposto no ponto 6 ou nos pontos 1, 2 e 4 da secção 1, o México consulta a Comunidade a fim de chegar a acordo sobre uma compensação sob forma de oportunidades adicionais de contratos públicos durante o ano seguinte. As consultas serão efectuadas sem prejuízo dos direitos das partes previstos no título VI.

ANEXO XV

(referido no artigo 39.º)

CAPÍTULO I

DISPOSIÇÕES GERAIS

Artigo 1.º

Objectivos

1. As partes comprometem-se a aplicar a respectiva legislação em matéria de concorrência por forma a evitar que os benefícios decorrentes da presente decisão possam ser reduzidos ou anulados por actividades anti-concorrenciais.

2. Os objectivos deste mecanismo são os seguintes:

a) Promover a cooperação e a coordenação entre as partes no que respeita à aplicação das suas legislações da concorrência nos respectivos territórios e prestar assistência mútua em qualquer domínio da concorrência que considerem necessário;

b) Eliminar as actividades anti-concorrenciais através da aplicação da legislação adequada, a fim de evitar efeitos negativos sobre o comércio e sobre o desenvolvimento económico, bem como o possível impacto negativo de tais actividades sobre os interesses da outra parte; e

c) Promover a cooperação a fim de elucidar eventuais divergências a nível da aplicação das respectivas legislações da concorrência.

3. A fim de evitar distorções ou restrições à concorrência que possam afectar o comércio entre a Comunidade e o México, ao aplicarem o presente mecanismo, as partes prestarão especial atenção aos seguintes aspectos:

a) Relativamente à Comunidade, aos acordos entre empresas, às decisões de associação entre empresas e às práticas concertadas entre empresas, ao abuso de posição dominante e às fusões;

b) Relativamente ao México, às práticas monopolistas, absolutas ou relativas, e às fusões.

Artigo 2.º

Definições

Para efeitos do presente anexo, entende-se:

a) Por «legislação da concorrência»:

   i) relativamente à Comunidade, os artigos 81.º, 82.º, 85.º e 86.º do Tratado que institui a Comunidade Europeia, o Regulamento (CEE) nº 4064/89 do Conselho relativo ao controlo das operações de concentração de empresas, os artigos 65.º e 66.º do Tratado que institui a Comunidade Europeia do Carvão e do Aço (CECA) e os seus regulamentos de aplicação, incluindo a Decisão n.º 24/54 da Alta Autoridade,

   ii) relativamente ao México, a *Ley Federal de Competencia* de 24 de Dezembro de 1992, o *Reglamento Interior de la Comisión Federal de Competencia* de 28 de Agosto de 1998 e o *Reglamento de la Ley Federal de Competencia* de 4 de Março de 1998, e

   iii) quaisquer alterações que possam ser introduzidas na legislação acima referida, e

   iv) eventual legislação adicional, na medida em que a mesma possa ter implicações para a concorrência em termos deste mecanismo;

b) Por «autoridade da concorrência»:

   i) relativamente à Comunidade, a Comissão das Comunidades Europeias,

   ii) relativamente ao México, a *Comisión Federal de Competencia*;

c) por «actividades de aplicação da legislação», qualquer aplicação da legislação da concorrência através de um inquérito ou procedimento conduzido pelas autoridades da concorrência de uma das partes, de que possam resultar sanções ou medidas correctivas.

d) por «actividades anti-concorrenciais» e por «condutas e práticas que restringem a concorrência», qualquer conduta, transacção ou acto, tal como definido na legislação da concorrência de uma das partes, que esteja sujeito a sanções ou a medidas correctivas.

CAPÍTULO II

COOPERAÇÃO E COORDENAÇÃO

Artigo 3.º

Notificação

1. Cada autoridade da concorrência notificará à autoridade da concorrência da outra parte uma actividade de aplicação da legislação se a mesma:

a) For pertinente para as actividades de aplicação da legislação da outra parte;

b) Puder afectar interesses importantes da outra parte;

c) Respeitar a restrição à concorrência que possa afectar o território da outra parte;

d) Puderem ser adoptadas decisões que condicionem ou proíbam acções no território da outra parte.

2. Na medida do possível, e desde que não seja contrária à legislação da concorrência das partes e não afecte de forma negativa qualquer inquérito em curso, a notificação será efectuada na fase inicial do processo, a fim de permitir à autoridade da concorrência notificada manifestar a sua opinião. As observações recebidas podem ser tomadas em consideração pela autoridade da concorrência da outra parte aquando da tomada de decisões.

3. As notificações previstas no n.º 1 serão suficientemente pormenorizadas para permitir uma avaliação à luz dos interesses da outra parte. As notificações incluirão, designadamente, as seguintes informações:

a) Uma descrição dos efeitos restritivos da transacção sobre a concorrência e uma indicação da base jurídica aplicável;

b) Elementos sobre o mercado do produto ou do serviço em questão e o seu âmbito geográfico, as características do sector económico em questão e os dados relativos aos agentes económicos implicados na transacção;

c) Os prazos estimados de resolução, nos casos em que o procedimento tenha sido iniciado, e, na medida do possível, uma indicação do seu resultado provável, bem como das medidas que possam ser adoptadas ou previstas.

4. Tendo em conta o disposto no n.º 1, cada autoridade da concorrência notificará à autoridade da concorrência da outra parte, logo que possível, a existência de medidas, que não as actividades de aplicação da legislação, que possam afectar interesses importantes da outra parte. Fá-lo-ão, em especial, nos seguintes casos:

a) Processos administrativos ou judiciais;

b) Medidas adoptadas por outros serviços governamentais, incluindo organismos reguladores, existentes ou futuros, que possam ter um impacto na melhoria da concorrência em sectores sujeitos a regulamentação específica.

Artigo 4.º

Intercâmbio de informações

1. A fim de facilitar a aplicação efectiva das suas respectivas legislações da concorrência e de promover uma melhor compreensão dos seus respectivos enquadramentos jurídicos, as autoridades da concorrência trocarão os seguintes tipos de informação:

a) Na medida do possível, textos de doutrina jurídica, jurisprudência ou estudos de mercado do domínio público ou, na falta de tais documentos, dados ou resumos não confidenciais;

b) Informações relacionadas com a aplicação da legislação da concorrência, desde que tal não afecte negativamente a pessoa que fornecer tais informações e unicamente com o objectivo de contribuir para resolver o processo;

c) Informações relativas a quaisquer actividades anti-concorrenciais conhecidas e a quaisquer inovações introduzidas nos respectivos ordenamentos jurídicos a fim de melhorar a aplicação das suas respectivas legislações da concorrência.

2. As autoridades da concorrência prestarão ajuda recíproca com o objectivo de recolher outros tipos de informação nos respectivos territórios, se as circunstâncias o exigirem.

3. Os representantes das autoridades da concorrência de cada parte reunir-se-ão a fim de promover o conhecimento das respectivas legislações e políticas em matéria de concorrência e de avaliar os resultados do mecanismo de cooperação. Podem reunir-se informalmente, bem como em reuniões institucionais num contexto multilateral, quando as circunstâncias o permitirem.

Artigo 5.º

Coordenação das actividades de aplicação da legislação

1. Uma autoridade da concorrência poderá notificar a sua vontade de coordenar actividades de aplicação da legislação relativamente a um caso específico. Esta coordenação não impedirá as partes de tomarem decisões autónomas.

2. Ao determinarem o âmbito da coordenação, as partes ponderarão:

a) Os resultados efectivos que poderão resultar da coordenação;

b) As informações adicionais a obter;

c) A redução dos custos para as autoridades da concorrência e para os agentes económicos envolvidos;

d) Os prazos aplicáveis nas respectivas legislações.

Artigo 6.º

Consultas quando interesses importantes de uma das partes forem afectados de forma negativa no território da outra parte

1. Quando uma autoridade da concorrência considerar que um inquérito ou processo conduzido pela autoridade da concorrência da outra parte pode afectar os seus interesses importantes, deverá transmitir as suas observações sobre o assunto à outra autoridade da concorrência ou solicitar a realização de consultas com essa autoridade. Sem prejuízo da prossecução de qualquer acção em conformidade com a sua legislação no domínio da concorrência e da sua total liberdade quanto à decisão final, a autoridade da concorrência requerida deverá considerar de forma integral e favorável as observações da autoridade da concorrência requerente e, em especial, quaisquer sugestões quanto a um modo alternativo de cumprir as necessidades ou os objectivos do inquérito ou do processo no domínio da concorrência.

2. Quando a autoridade da concorrência de uma das partes considerar que os interesses dessa parte estão a ser substancial e negativamente afectados por práticas anti-concorrenciais, independentemente da origem, pelas quais foram ou são responsáveis uma ou mais empresas estabelecidas na outra parte, pode solicitar a realização de consultas com a outra autoridade da concorrência, reconhecendo que o estabelecimento de tais consultas não prejudica qualquer acção em conformidade com a sua legislação da concorrência e a total liberdade quanto à decisão final da autoridade da concorrência em questão. A autoridade da concorrência requerida deverá considerar de forma integral e favorável as observações e elementos de facto eventualmente fornecidos pela autoridade da concorrência requerente e, em especial, a natureza das práticas anti-concorrenciais em questão, as empresas envolvidas e os alegados efeitos prejudiciais sobre os interesses da autoridade da concorrência requerente.

Artigo 7.º

Prevenção de conflitos

1. Sempre que possível e em conformidade com a sua própria legislação, cada uma das partes tomará em consideração os interesses importantes da outra parte no decurso das suas actividades de aplicação da legislação.

2. Se, não obstante o respeito pelo disposto no nº 1, os interesses de uma parte forem negativamente afectados, as autoridades da concorrência procurarão chegar a uma solução mutuamente aceitável. Neste contexto, poderão ponderar os seguintes elementos:

a) A importância da medida e o seu impacto nos interesses de uma parte, comparativamente aos benefícios que a outra parte possa obter;

b) A presença ou a ausência da intenção de afectar os consumidores, os fornecedores ou os concorrentes nas acções dos agentes económicos em questão;

c) O grau de incompatibilidade entre a legislação de uma parte e as medidas a aplicar pela outra parte;

d) A eventualidade de os agentes económicos em questão serem sujeitos a pedidos incompatíveis por ambas as partes;

e) O início do processo ou a imposição de sanções ou medidas correctivas;

f) A localização dos activos agentes económicos em questão;

g) A importância da sanção a aplicar no território da outra parte.

Artigo 8.º

Confidencialidade

O intercâmbio de informações estará sujeito às normas de confidencialidade aplicáveis em cada uma das partes. As informações confidenciais cuja divulgação seja expressamente proibida ou que, em caso de divulgação, possa afectar negativamente as partes, não será fornecida sem o consentimento expresso da fonte que forneceu as informações. Cada autoridade da concorrência manterá a confidencialidade de qualquer informação que lhe tenha sido fornecida com carácter confidencial pela outra autoridade da concorrência ao abrigo do presente mecanismo e opor-se-á a qualquer pedido de divulgação de tal informação por uma terceira parte que não esteja autorizada pela autoridade da concorrência que forneceu a informação.

Artigo 9.º

Cooperação técnica

1. As partes prestarão assistência técnica mútua a fim de tirar partido das respectivas experiências e de reforçar a aplicação das suas legislações e políticas em matéria de concorrência.

2. A cooperação incluirá as seguintes actividades:

a) A formação de funcionários das autoridades da concorrência de ambas as partes, a fim de lhes permitir adquirir experiência prática;

b) Seminários, em especial para funcionários públicos.

3. As partes poderão realizar estudos conjuntos no domínio da concorrência ou da legislação e das políticas em matéria de concorrência, a fim de apoiar o seu desenvolvimento.

4. As partes reconhecem que os avanços a nível dos sistemas de comunicação e informáticos são pertinentes para as actividades que desejam desenvolver e que deveriam ser utilizados para promover a comunicação e facilitar o acesso à informação sobre políticas da concorrência, na medida do possível. Para o efeito, procurarão:

a) Aumentar a dimensão dos respectivos portais por forma a fornecer informações sobre os desenvolvimentos das suas actividades;

b) Promover a divulgação de temas relacionados com estudos sobre a concorrência através de publicações como o *Boletín Latinoamericano de Competencia*, o *Competition Policy Newsletter* da Direcção-Geral da Concorrência da Comunidade Europeia, bem como os relatórios anuais e a *Gaceta de Competencia Económica* publicada pela *Comisión Federal de Competencia* do México; e

c) Desenvolver um arquivo electrónico da jurisprudência respeitante aos casos investigados, que permita identificar casos particulares, a natureza da prática ou a conduta analisada, o seu enquadramento jurídico e os resultados e datas de resolução.

Artigo 10.º

Alterações

O Comité Misto poderá alterar o presente anexo.

16. Salvo disposição em contrário prevista nas presentes regras, o painel de arbitragem pode desempenhar as suas funções por qualquer meio, incluindo o telefone, o fax ou as redes informáticas.

17. Nas deliberações do painel de arbitragem, apenas podem participar os árbitros. No entanto, o painel de arbitragem pode autorizar a presença de assistentes, pessoal administrativo, intérpretes ou tradutores durante essas deliberações.

54. Quando, por força do disposto na regra n.º 14, uma parte receber um documento numa data diferente daquela em que o mesmo documento for recebido pela outra parte, qualquer prazo que deva começar a ser calculado a partir da recepção do documento será calculado a partir da data da sua recepção pela última das partes.

«Pessoal», relativamente a um membro, as pessoas, que não os assistentes, que estejam sob a direcção e a supervisão desse membro.

B. Qualquer referência feita no presente código de conduta a um número ou título constitui uma referência ao número, anexo ou título pertinente sobre a resolução de litígios da presente decisão.

I. **Responsabilidades no âmbito do processo**

Todos os candidatos, membros e antigos membros deverão respeitar os princípios deontológicos e demonstrar esse respeito, bem como observar elevados níveis de conduta por forma a preservar a integridade e a imparcialidade do processo de resolução de litígios.

II. **Obrigação de declaração**

Nota introdutória

O presente código de conduta assenta no princípio fundamental de que todos os candidatos ou membros devem comunicar qualquer interesse, relação ou assunto susceptível de afectar a sua independência ou imparcialidade ou de razoavelmente suscitar dúvidas quanto à sua honestidade ou imparcialidade. Existe uma aparência de desonestidade ou parcialidade quando uma pessoa razoável, com conhecimento de todas as circunstâncias pertinentes que um inquérito razoável possa revelar, conclua que a capacidade de um candidato ou membro exercer as suas funções com integridade, imparcialidade e competência está comprometida.

No entanto, esta obrigação de declaração não deve ser interpretada por forma a que o dever de efectuar uma declaração pormenorizada impossibilite que juristas ou pessoas do meio empresarial aceitem assumir as funções de membros, privando desse modo as partes e os participantes da colaboração das pessoas mais habilitadas para o exercício de tais funções. Consequentemente, os candidatos e os membros não deverão declarar interesses, relações ou assuntos cuja relação com o seu papel no procedimento seja negligenciável.

Ao longo do procedimento, os candidatos e os membros têm uma obrigação constante de declarar interesses, relações e assuntos que possam afectar a integridade ou imparcialidade do processo de resolução de litígios.

O presente código de conduta não precisa as circunstâncias em que as partes poderão recusar a designação de um candidato ou membro de um comité ou painel de arbitragem, ou a sua manutenção como membro de qualquer desses órgãos, com base nas declarações efectuadas.

A. Os candidatos declararão quaisquer interesses, relações ou assuntos susceptíveis de afectarem a independência ou imparcialidade do candidato ou que possam suscitar dúvidas razoáveis quanto ao seu respeito pelos princípios deontológicos e à sua imparcialidade no âmbito do processo. Para o efeito, os candidatos envidarão todos os esforços razoáveis para se inteirarem de tais interesses, relações e assuntos.

Os candidatos declararão tais interesses, relações e assuntos preenchendo a declaração inicial fornecida pelo Comité Misto, que enviarão a este último.

Sem limitar o alcance geral do que precede, os candidatos declararão os seguintes interesses, relações e assuntos:

1. Qualquer interesse financeiro do candidato:

   a) No processo ou no seu resultado;

   b) Num processo administrativo, num processo perante um tribunal nacional ou qualquer outro processo no âmbito de um comité ou painel de arbitragem que envolva questões que possam ser decididas no âmbito do processo para o qual a sua candidatura está a ser ponderada.

2. Qualquer interesse financeiro da entidade patronal, sócio, associado ou membro da família do candidato:

   a) No processo ou no seu resultado;

   b) Num processo administrativo, num processo perante um tribunal nacional ou qualquer outro processo no âmbito de um comité ou painel de arbitragem que envolva questões que possam ser decididas no âmbito do processo para o qual a sua candidatura está a ser ponderada.

3. Qualquer relação, passada ou presente, de carácter financeiro, comercial, profissional, familiar ou social com qualquer das partes interessadas no processo, ou com os seus advogados, ou qualquer relação desse tipo em que esteja implicada a entidade patronal, o sócio, associado ou membro da família do candidato.

4. Defesa oficiosa, patrocínio ou outra representação respeitante a uma questão em litígio no âmbito do processo ou que respeite aos mesmos bens.

B. Uma vez designado, o membro deverá continuar a envidar todos os esforços razoáveis por forma a se inteirar de quaisquer interesses, relações ou assuntos referidos na secção A, devendo declará-los. A obrigação de declaração constitui um dever constante que exige que os membros declarem os interesses, relações e assuntos que possam surgir durante qualquer fase do processo.

O membro declarará tais interesses, relações e assuntos comunicando-os por escrito ao Comité Misto, a fim de serem considerados pelas partes.

III. **Desempenho das funções pelos candidatos e pelos membros**

A. O candidato que aceite ser designado como membro deverá estar disponível para desempenhar de forma expedita a integralidade das suas funções de membro, e fazê-lo efectivamente, durante todo o processo.

B. Os membros deverão cumprir todos os seus deveres de forma justa e diligente.

C. Os membros deverão cumprir todas as disposições previstas neste título e no modelo das regras processuais aplicáveis previstas no anexo XVI ou quaisquer outras.

D. Um membro não deverá negar aos outros membros a oportunidade de participar em todos os aspectos do processo.

E. Os membros deverão considerar exclusivamente as questões suscitadas no âmbito do processo que sejam necessárias para uma decisão, não delegarão o dever de decidir em qualquer outra pessoa, salvo disposição em contrário prevista no modelo de regras processuais que figura no anexo XVI ou outras regras aplicáveis.

F. Os membros tomarão todas as medidas razoáveis por forma a assegurar que o seu assistente e pessoal respeitem o disposto nas partes I, II e VI do presente código de conduta.

G. Os membros não estabelecerão contactos *ex parte* no âmbito do processo.

H. Nenhum candidato ou membro comunicará assuntos relacionados com violações efectivas ou potenciais do presente código de conduta, a menos que a comunicação seja dirigida ao Comité Misto ou seja necessária para determinar se o candidato ou membro violou ou poderá violar o código.

IV. **Independência e imparcialidade dos membros**

A. Os membros serão independentes e imparciais. Agirão de forma justa e evitarão criar uma impressão de falta de deontologia ou de parcialidade.

B. Nenhum membro será influenciado por interesses próprios, pressões exteriores, considerações de ordem política, exigências da opinião pública, lealdade para com uma das partes ou receio de críticas.

C. Nenhum membro poderá, directa ou indirectamente, incorrer numa obrigação ou aceitar qualquer benefício que de algum modo interfira, ou pareça interferir, com o correcto desempenho das suas funções.

D. Nenhum membro utilizará a sua posição como membro do comité ou painel de arbitragem para promover quaisquer interesses pessoais ou privados. Os membros deverão evitar acções que possam criar a impressão de que outros estejam numa posição especial para os influenciar. Deverão envidar todos os esforços no sentido de evitar ou desencorajar outras pessoas de darem a impressão de que se encontram em tal posição.

E. Nenhum membro permitirá que as suas decisões ou conduta sejam influenciadas por relações ou responsabilidades, presentes ou passadas, de carácter financeiro, comercial, profissional, familiar ou social.

F. Os membros evitarão estabelecer qualquer relação ou adquirir qualquer interesse financeiro susceptível de afectar a sua imparcialidade ou que possa suscitar dúvidas razoáveis quanto ao seu respeito pelos princípios deontológicos ou à sua imparcialidade.

V. **Deveres específicos**

Os antigos membros evitarão quaisquer acções que possam suscitar dúvidas quanto à sua imparcialidade aquando do desempenho das suas funções como membro ou sugerir que possam ter beneficiado da decisão do comité ou painel de arbitragem.

VI. **Confidencialidade**

A. Os membros ou antigos membros nunca divulgarão ou utilizarão informações confidenciais relacionadas com o processo ou obtidas durante o mesmo, excepto para os fins do próprio processo, e não divulgarão ou utilizarão, em caso algum, tais informações para obter vantagens pessoais ou vantagens para outros ou para afectar negativamente o interesse de terceiros.

B. Nenhum membro revelará o conteúdo do relatório de um painel de arbitragem elaborado em conformidade com este título antes da sua publicação pelo Comité Misto. Os membros ou antigos membros nunca revelarão quais os membros que apoiaram a posição maioritária ou minoritária no âmbito de um processo em conformidade com o presente título.

C. Os membros ou antigos membros nunca revelarão as deliberações de um comité ou painel de arbitragem, ou a posição de qualquer membro, excepto nos casos previstos na lei.

VII. **Responsabilidades dos assistentes e do pessoal**

As partes I (responsabilidades no âmbito do processo), II (obrigação de declaração) e VI (confidencialidade) do presente código de conduta são igualmente aplicáveis aos assistentes e ao pessoal.
