## Establishing the 'Customs' programme for cooperation in the field of customs

\*\*\*I

Amendments adopted by the European Parliament on 15 January 2019 on the proposal for a regulation of the European Parliament and of the Council establishing the 'Customs' programme for cooperation in the field of customs (COM(2018)0442 – C8-0261/2018 – 2018/0232(COD))<sup>1</sup>

(Ordinary legislative procedure: first reading)

### Amendment 1

#### Proposal for a regulation

##### Recital 1

*Text proposed by the Commission*

(1) The Customs 2020 programme **set up under** Regulation (EU) No 1294/2013<sup>18</sup> and its predecessors have significantly **contributed** to facilitating and **enhancing** customs cooperation. Many of the activities **in the customs area** are of a cross-border nature, involving and affecting all Member States, and therefore **they** cannot be effectively and efficiently **delivered by individual Member States**. A customs programme **at Union level**, implemented by the Commission, **offers** Member States a **Union** framework to develop **those cooperation** activities, which is more **cost-efficient** than if each Member State **were to** set up individual cooperation **frameworks on a** bilateral or multilateral **basis**. It is therefore appropriate to ensure the continuity of **Union** financing **of** activities in the field of customs cooperation by establishing a new programme in the same **area**, the Customs

*Amendment*

(1) The Customs 2020 programme, **established by** Regulation (EU) No 1294/2013<sup>18</sup> and its predecessors have **contributed** significantly to facilitating and **strengthening** customs cooperation. Many of the **customs** activities are of a cross-border nature, involving and affecting all Member States and therefore cannot be effectively and efficiently **implemented by each Member State alone**. A **Union-wide** customs programme implemented by the Commission **provides** Member States **with** a framework **at Union level** to develop **such cooperative** activities, which is more **cost-effective** than if each Member State set up **an** individual cooperation **framework at** bilateral or multilateral **level**. **The customs programme also plays an essential role in safeguarding the financial interests of the Union and of the Member States by ensuring the effective collection of customs duties and thus**

*representing an important source of revenue for the Union and national budgets, also by focusing on IT capacity building and increased cooperation in the field of customs. Furthermore, harmonised and standardised controls are necessary in order to track illegal cross-border flows of goods and fight fraud. It is therefore appropriate and in the interest of efficiency to ensure the continuity of the Union's financing activities in the field of customs cooperation by establishing a new programme in the same field, the 'Customs' programme ('the Programme').*

**Proposal for a regulation**  
**Recital 1 a (new)**

*Text proposed by the Commission*

*Amendment*

*(1a) For 50 years, the customs union, implemented by national customs authorities, has been a cornerstone of the Union, one of the largest trading blocks in the world. The customs union is a significant example of successful Union integration, and is essential for the proper functioning of the single market for the benefit of both businesses and citizens. The European Parliament, in its resolution adopted on 14th March 2018, entitled 'The next MFF: Preparing the Parliament's position on the MFF post-2020', expressed particular concern regarding customs fraud. A stronger and a more ambitious Union can only be*

*achieved if it is provided with reinforced financial means, continuous support for existing policies, and increased resources.*

### Amendment 3

#### Proposal for a regulation Recital 2

##### *Text proposed by the Commission*

(2) The customs union has evolved considerably over the last **fifty** years and customs administrations now successfully **perform** a wide **variety of** tasks **at borders**. **Acting** together, they work to facilitate trade and reduce **red tape**, collect **revenues** for national and Union budgets and protect the **public** against terrorist, health, environmental **and** other threats. In particular, **with the introduction of an EU-wide Common Risk Management Framework<sup>19</sup> and** customs **control of movements of** large amounts of cash to combat money laundering and terrorist financing, customs **assume a front line position** in the fight against terrorism **and** organised crime. Given **that broad** mandate, customs **is now effectively the lead authority** for the control of goods at the Union's external borders. **Against that backdrop**, the Customs programme should not only cover customs cooperation but **extend its support to the mission of** customs **authorities at large, as set out** in Article 3 of Regulation (EU) No 952/2013, **i.e. the supervision** of the Union's international trade, the implementation of the external aspects of the internal market, **of the common trade policy and of the** other common **Union** policies having **a** bearing on trade, **as well as** the security of the supply chain. The legal basis **will** therefore cover customs cooperation (Article 33 TFEU), internal market (Article 114 TFEU) and commercial policy (Article

##### *Amendment*

(2) The customs union has evolved considerably over the last **50** years, and customs administrations **are** now successfully **fulfilling** a wide **range of** **border** tasks. **Working** together, they **strive** to facilitate **ethical and fair** trade and reduce **bureaucracy**, collect **revenue** for national and Union budgets, and **help to** protect the **population** against terrorist, health **and** environmental **threats, as well as** other threats. In particular, **by introducing a common framework<sup>19</sup> for** customs **risk management at Union level and by controlling** large amounts of cash **flows** to combat money laundering and terrorist financing, **the** customs **authorities take a leading role** in the fight against terrorism, organised crime **and unfair competition**. Given **their extensive** mandate, **the** customs **authorities are now in reality the main authorities** for the control of goods at the Union's external borders. **In this context**, the Customs programme should not only cover customs cooperation but **also provide support for the wider** customs **mission as provided for** in Article 3 of Regulation (EU) No 952/2013, **namely the supervision** of the Union's international trade, the implementation of the external aspects of the internal market, the common **commercial** policy and other **Union** common policies having **an influence on** trade **and** the security of the supply chain. The legal basis **of this Regulation should** therefore cover customs cooperation

#### **Proposal for a regulation**

#### **Recital 3**

##### *Text proposed by the Commission*

(3) *In* providing a framework for actions that *has as objective* to support the customs union and customs authorities, *the Programme should* contribute to protecting the financial and economic interests of the Union and its Member States; *protecting* the Union from unfair and *illegal trade* while *supporting* legitimate business *activity*; *ensuring* the security and safety of the Union and its residents; and *facilitating* legitimate trade, so that businesses and citizens can benefit from the full potential of the internal market and *of global* trade.

#### **Recital 3 a (new)**

*Text proposed by the Commission*

*Amendment*

***(3a) As it has become evident that some of the systems referred to in Article 278 of the Union Customs Code can only be partially deployed by 31 December 2020, which implies that non-electronic systems will continue in use beyond that date, and in the absence of legislative amendments that extend that deadline, companies and customs authorities will be unable to perform their duties and legal obligations as regards customs operations, one of the primary specific objectives of the Programme should be to assist the Member States and the Commission to set up such electronic systems.***

**Amendment 6  
Proposal for a regulation  
Recital 3 b (new)**

*Text proposed by the Commission*

*Amendment*

***(3b) Customs management and control is a dynamic policy area, facing new challenges generated by constantly evolving global business models and supply chains, as well as changing consumption patterns and digitalisation, such as e-commerce, including the internet of things, data analytics, artificial intelligence and block chain technology. The Programme should support customs management in such situations and enable the use of innovative solutions. Such challenges further underline the need to enforce cooperation between customs authorities and the need for a uniform interpretation and implementation of the customs legislation. When public finances are under pressure, the volume of world trade increases and fraud and smuggling are a growing***

***(3c) In order to ensure maximum efficiency and to avoid overlaps, the Commission should coordinate the implementation of the Programme with related Union programmes and funds. This includes in particular the Fiscalis Programme, the EU anti-fraud Programme and Single Market Programme, as well as with the Internal Security Fund and Integrated Border Management Fund, the Reform Support Programme, the Digital Europe Programme, the Connecting Europe Facility and the Council Decision on the system of Own Resources of the European Union, as well as the implementing regulations and measures.***

*Amendment*

***(3d) With regard to the potential withdrawal of the United Kingdom from the Union, the financial envelope of the Programme does not take into account the costs resulting from the signing of the withdrawal agreement and the potential future relationship between the United Kingdom and the Union. The signing of that agreement, the disengagement of the United Kingdom from all existing customs***

*systems and cooperation, and the lapsing of its legal obligations in this area, could lead to additional costs, which cannot be precisely estimated at the time of establishment of the Programme. The Commission should therefore consider reserving sufficient resources to prepare for those potential costs. However, those costs should not be covered by the envelope of the Programme, as the budget provided for in the Programme will only be sufficient to cover the costs which could realistically be foreseen at the time of establishment of the Programme.*

(5) In order to support the process of accession and association **by** third countries, the Programme should be open to the participation of acceding and candidate countries as well as potential candidates and partner countries of the European Neighbourhood Policy if **certain** conditions are **fulfilled**. It may also be open to other third countries, **in accordance with** the conditions **laid down** in specific agreements between the Union and **those** countries **covering** their participation **to** any Union programme.
