ANNEX 2 – PART 2/2

ANNEX

to the

Proposal for a Council Decision

**on the signing, on behalf of the European Union, of the Interim Agreement on Trade
between the European Union and the Republic of Chile**

INTRODUCTORY NOTES TO PRODUCT-SPECIFIC RULES OF ORIGIN

Note 1

General principles

1. This Annex sets out the general rules for the applicable requirements of Annex 3-B provided for in subparagraph (c) of Article 3.2(1).
2. For the purposes of this Annex and Annex 3-B, the requirements for a product to be originating in accordance with subparagraph (c) of Article 3.2(1) are a change in tariff classification, a production process, a maximum value of non-originating materials, or any other requirement specified in this Annex or Annex 3-B.
3. Reference to weight in a product-specific rule of origin means the net weight, which is the weight of a material or a product, not including the weight of packaging.
4. This Annex and Annex 3-B are based on the Harmonized System, as amended on 1 January 2022.

Note 2

The structure of Annex 3-B

1. Notes on Sections or Chapters, where applicable, are read in conjunction with the product specific rules of origin for the relevant Section, Chapter, heading or subheading.
2. Each product-specific rule of origin set out in Column 2 of Annex 3-B applies to the corresponding product identified in Column 1 of that Annex.
3. If a product is subject to alternative product-specific rules of origin, the product shall be originating if it satisfies one of the alternatives. If a product is subject to a product-specific rule of origin that includes multiple requirements, the product shall be originating only if it satisfies all of the requirements.
4. For the purposes of this Annex and Annex 3-B:
 - (a) "Section" means a section of the Harmonized System;
 - (b) "Chapter" means the first two-digits in the tariff classification number under the Harmonized System;
 - (c) "heading" means the first four-digits in the tariff classification number under the Harmonized System;

- (d) "subheading" means the first six-digits in the tariff classification number under the Harmonized System.
5. For the purposes of product-specific rules of origin, the following abbreviations apply¹:
- (a) "CC" means production from non-originating materials of any Chapter, except that of the product, or a change to the Chapter, heading or subheading from any other Chapter; this means that all non-originating materials used in the production of the product must undergo a change in tariff classification at the 2-digit level (i.e. a change in Chapter) of the Harmonized System;
- (b) "CTH" means production from non-originating materials of any heading, except that of the product, or a change to the Chapter, heading or subheading from any other heading; this means that all non-originating materials used in the production of the product must undergo a change in tariff classification at the 4-digit level (i.e. a change in heading) of the Harmonized System;
- (c) "CTSH" means production from non-originating materials of any subheading, except that of the product, or a change to the Chapter, heading or subheading from any other subheading; this means that all non-originating materials used in the production of the product must undergo a change in tariff classification at the 6-digit level (i.e. a change in sub-heading) of the Harmonized System; and

¹ For greater certainty, if a requirement of a change in tariff classification provides for exception for a change from certain Chapters, headings or subheadings, none of the non-originating materials of those Chapters, headings or subheadings may be used, individually or jointly.

- (d) "production from non-originating materials of any heading" means that the working or processing from non-originating materials is more than insufficient.

Note 3

Application of Annex 3-B

1. Article 3.2(2), concerning products having acquired originating status which are incorporated as a material in another product, applies irrespective of whether or not that status has been acquired inside the same factory in a Party where those products are used.
2. If a product-specific rule of origin provides that a specified non-originating material shall not be used or that the value or weight of a specified non-originating material cannot exceed a specific threshold, those requirements do not apply to non-originating materials classified elsewhere in the Harmonized System.
3. If a product-specific rule of origin provides that a product shall be produced from a particular material, this does not prevent the use of other materials if these cannot satisfy the requirement because of their inherent nature.

Note 4

Calculation of a maximum value of non-originating materials

1. For the purposes of this Annex and Annex 3-B:
 - (a) "customs value" means the value as determined in accordance with the Agreement on implementation of Article VII of the General Agreement on Tariffs and Trade 1994;
 - (b) "EXW" means the price paid for the product ex-works to the manufacturer in whose undertaking the last working or processing is carried out, provided that the price includes the value of all the materials used and all other costs related to its production, minus any internal taxes which are, or may be, repaid when the product obtained is exported;
 - (c) "MaxNOM" means the maximum value of non-originating materials expressed as a percentage; and
 - (d) "VNM" means the value of non-originating materials used to manufacture the product, and which is its customs value at the time of importation including freight, insurance, where appropriate, packing and all the other costs incurred in transporting the materials to the importation port in the Party where the producer of the product is located; where that customs value is not known and cannot be ascertained, the first ascertainable price paid for the non-originating materials in either Party is used; the value of the non-originating materials used in the production of the product may be calculated on the basis of the weighted average value formula or other stock valuation method under accounting principles which are generally accepted in the Party's territory;

Where the actual price paid does not reflect all costs related to the manufacturing of the product which are actually incurred in the European Union or in Chile, the ex-works price means the sum of all those costs, minus any internal taxes which are, or may be, repaid when the product obtained is exported.

2. For the calculation of MaxNOM, the following formula applies:

$$\text{MaxNOM}(\%) = \frac{\text{VNM}}{\text{EXW}} \times 100$$

Note 5

Definitions of processes referred to in Sections V to VII of Annex 3-B

For the purposes of Sections V to VII of Annex 3-B:

(a) "biotechnological processing" means:

- (i) biological or biotechnological culturing, including cell culture, hybridisation or genetic modification of micro-organisms, bacteria, viruses, including phages, or human, animal or plant cells; or
- (ii) production, isolation or purification of cellular or intercellular structures, such as isolated genes, gene fragments and plasmids, or fermentation;

- (b) "change in particle size" means the deliberate and controlled modification in particle size of a product, other than by merely crushing or pressing, resulting in a product with a defined particle size, defined particle size distribution or defined surface area, which is relevant to the purposes of the resulting product and with physical or chemical characteristics different from those of the input materials;
- (c) "chemical reaction" means a process, including a biochemical processing, which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule, with the exception of the following, which are not considered to be chemical reactions for the purpose of this definition:
 - (i) dissolving in water or other solvents;
 - (ii) the elimination of solvents including solvent water; or
 - (iii) the addition or elimination of water of crystallisation;
- (d) "distillation" means:
 - (i) atmospheric distillation: a separation process in which petroleum oils are converted, in a distillation tower, into fractions according to boiling point and the vapour then condensed into different liquefied fractions; products produced from petroleum distillation may include liquefied petroleum gas, naphtha, gasoline, kerosene, diesel or heating oil, light gas oils and lubricating oil; or

- (ii) vacuum distillation: distillation at a pressure below atmospheric but not so low that it would be classed as molecular distillation; vacuum distillation is used for distilling high-boiling and heat-sensitive materials such as heavy distillates in petroleum oils to produce light to heavy vacuum gas oils and residuum;
- (e) "isomer separation" means the isolation or separation of isomers from a mixture of isomers;
- (f) "mixing and blending" means the deliberate and proportionally controlled mixing or blending, including dispersing, of materials, other than the addition of diluents, only to conform to predetermined specifications which results in the production of a product having physical or chemical characteristics that are relevant to the purposes or uses of the product and are different from the input materials;
- (g) "production of standard materials including standard solutions" means a production of a preparation suitable for analytical, calibrating or referencing uses with precise degrees of purity or proportions certified by the manufacturer;
- (h) "purification" means a process which results in the elimination of at least 80 % of the content of existing impurities or the reduction or elimination of impurities resulting in a product suitable for one or more of the following applications:
 - (i) pharmaceutical, medicinal, cosmetic, veterinary, or food grade substances;

- (ii) chemical products and reagents for analytical, diagnostic or laboratory uses;
- (iii) elements and components for use in micro-elements;
- (iv) specialised optical uses;
- (v) non-toxic uses for health and safety;
- (vi) biotechnical use;
- (vii) carriers used in a separation process; or
- (viii) nuclear grade uses.

Note 6

Definitions of terms used in Section XI of Annex 3-B

For the purposes of Section XI of Annex 3-B:

- (a) "man-made staple fibres" means synthetic or artificial filament tow, staple fibres or waste, of headings 55.01 to 55.07;

- (b) "natural fibres" means fibres other than synthetic or artificial fibres. Their use is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun; "natural fibres" includes horsehair of heading 05.11, silk of headings 50.02 and 50.03, wool-fibres and fine or coarse animal hair of headings 51.01 to 51.05, cotton fibres of headings 52.01 to 52.03, and other vegetable fibres of headings 53.01 to 53.05;
- (c) "printing" means a technique by which an objectively assessed function, such as colour, design, or technical performance, is given to a textile substrate with a permanent character, using screen, roller, digital or transfer techniques; and
- (d) "printing (as standalone operation)" means a technique by which an objectively assessed function, such as colour, design, or technical performance, is given to a textile substrate with a permanent character, using screen, roller, digital or transfer techniques combined with at least two preparatory or finishing operations, such as scouring, bleaching, mercerizing, heat setting, raising, calendaring, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling, shearing, singeing, process of air-tumbler, process of stenter, milling, steam and shrinking, and wet decatizing, provided that the value of all the non-originating materials used does not exceed 50 % of the EXW of the product.

Note 7

Tolerances applicable to products containing two or more basic textile materials

1. For the purposes of this Note, basic textile materials are the following:

- (a) silk;
- (b) wool;
- (c) coarse animal hair;
- (d) fine animal hair;
- (e) horsehair;
- (f) cotton;
- (g) paper-making materials and paper;
- (h) flax;
- (i) true hemp;

- (j) jute and other textile bast fibres;
- (k) sisal and other textile fibres of the genus *Agave*;
- (l) coconut, abaca, ramie and other vegetable textile fibres;
- (m) synthetic man-made filaments;
- (n) artificial man-made filaments;
- (o) current-conducting filaments;
- (p) synthetic man-made staple fibres of polypropylene;
- (q) synthetic man-made staple fibres of polyester;
- (r) synthetic man-made staple fibres of polyamide;
- (s) synthetic man-made staple fibres of polyacrylonitrile;
- (t) synthetic man-made staple fibres of polyimide;
- (u) synthetic man-made staple fibres of polytetrafluoroethylene;

- (v) synthetic man-made staple fibres of poly (phenylene sulphide);
- (w) synthetic man-made staple fibres of poly (vinyl chloride);
- (x) other synthetic man-made staple fibres;
- (y) artificial man-made staple fibres of viscose;
- (z) other artificial man-made staple fibres;
- (aa) yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped;
- (bb) yarn made of polyurethane segmented with flexible segments of polyester whether or not gimped;
- (cc) products of heading 56.05 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film irrespective of whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film;
- (dd) other products of heading 56.05;

(ee) glass fibres; and

(ff) metal fibres.

2. Where reference to this Note is made in Annex 3-B, the requirements set out in its Column 2 shall not apply, as a tolerance, to non-originating basic textile materials which are used in the manufacture of a product, provided that:

(a) the product contains two or more basic textile materials; and

(b) the weight of the non-originating basic textile materials, taken together, does not exceed 10 % of the total weight of all the basic textile materials used; for example:

for a woollen fabric of heading 51.12 containing woollen yarn of heading 51.07, synthetic yarn of staple fibres of heading 55.09 and materials other than basic textile materials, non-originating woollen yarn which does not satisfy the requirement set out in Annex 3-B, or non-originating synthetic yarn which does not satisfy the requirement set out in Annex 3-B, or a combination of both, may be used, provided that their total weight does not exceed 10 % of the weight of all the basic textile materials.

3. Notwithstanding subparagraph (b) of paragraph 2, for products containing yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped, the maximum tolerance is 20 %. However, the percentage of the other non-originating basic textile materials shall not exceed 10 %.

4. Notwithstanding subparagraph (b) of paragraph 2, for products containing strip consisting of a core of aluminium foil or of a core of plastic film irrespective of whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film, the maximum tolerance is 30 %. However, the percentage of the other non-originating basic textile materials shall not exceed 10 %.

Note 8

Other tolerances applicable to certain textile products

1. Where reference to this Note is made in Annex 3-B, non-originating textile materials, with the exception of linings and interlinings, which do not satisfy the requirements set out in its Column 2 for a made-up textile product may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the EXW of the product.

2. Non-originating materials which are not classified in Chapters 50 to 63 of the Harmonized System may be used without restriction in the manufacture of textile products classified in Chapters 61 to 63 of the Harmonized System, whether or not they contain textiles. For example:

if a requirement set out in Annex 3-B provides that yarn shall be used, for a certain textile item, such as trousers, this does not prevent the use of non-originating metal items, such as buttons, because metal items are not classified in Chapters 50 to 63 of the Harmonized System; for the same reasons, it does not prevent the use of non-originating slide fasteners, even though slide-fasteners normally contain textiles.

3. Where a requirement set out in Annex 3-B consists in a maximum value of non-originating materials, the value of the non-originating materials which are not classified in Chapters 50 to 63 of the Harmonized System shall be taken into account in the calculation of the value of the non-originating materials.

Note 9

Agricultural products

1. Agricultural products classified in Chapters 6, 7, 8, 9, 10, 12 and heading 24.01 of the Harmonized System which are grown or harvested in the territory of a Party shall be treated as originating in the territory of that Party, even if grown from seeds, bulbs, rootstock, cuttings, slips, grafts, shoots, buds, or other live parts of plants imported from another country.

2. Notwithstanding Article 3.5, for products classified in subheadings 1602.31, 1602.32, 1602.41 and 1602.50 of the Harmonized System the value set out in subparagraph (a) of Article 3.5(1) shall not exceed 15 % of the ex-works price of the product.

PRODUCT-SPECIFIC RULES OF ORIGIN

SECTION VI	PRODUCTS OF THE CHEMICAL OR ALLIED INDUSTRIES Section note: For definitions of horizontal processing rules within this Section, see Note 5 of Annex 3-A.
Chapter 28	Inorganic chemicals; organic or inorganic compounds of precious metals, of rare-earth metals, of radioactive elements or of isotopes
28.01-28.53	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).
Chapter 29	Organic chemicals
2901.10-2905.42	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).
2905.43-2905.44	CTH except from heading subheading 3824.60; or MaxNOM 40 % (EXW).

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
2905.45	CTSH; however, materials of the same sub-heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product; or MaxNOM 50 % (EXW).
2905.49-2942	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).
Chapter 30	Pharmaceutical products
30.01-30.06	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).
Chapter 31	Fertilisers
31.01-31.04	CTH, however, non-originating materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the EXW of the product; or MaxNOM 40 % (EXW).

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
31.05	
-Sodium nitrate -Calcium cyanamide -Potassium sulphate -Magnesium potassium sulphate	CTH, however, non-originating materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the EXW of the product; or MaxNOM 40 % (EXW).
-Others	CTH, however, non-originating materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the EXW of the product, and in which the value of non-originating materials used does not exceed 50 % of the EXW of the product; or MaxNOM 40 % (EXW).
Chapter 32	Tanning or dyeing extracts; tannins and their derivatives; dyes, pigments and other colouring matter; paints and varnishes; putty and other mastics; inks
32.01-3215.90	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
Chapter 33	Essential oils and resinoids; perfumery, cosmetic or toilet preparations
3301.12-3301.90	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).
3302.10	CTH, however, non-originating materials of subheading 3302.10 may be used, provided that their total value does not exceed 20 % of the EXW of the product; or MaxNOM 50 % (EXW).
3302.90	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).
33.03	Manufactures from non-originating materials of any heading.

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
3304-33.07	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).
Chapter 34	Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing or scouring preparations, candles and similar articles, modelling pastes, "dental waxes" and dental preparations with a basis of plaster
34.01-34.07	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).
Chapter 35	Albuminoidal substances; modified starches; glues; enzymes
35.01	CTH
3502.11-3502.19	CTH except from headings 04.07 and 04.08.
3502.20-3504.00	CTH
35.05	CTH except from heading 11.08.

<p>Column 1</p> <p>Harmonized System classification (2022) including specific description</p>	<p>Column 2</p> <p>Product-specific rule of origin</p>
<p>35.06-35.07</p>	<p>CTSH;</p> <p>A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone;</p> <p>or</p> <p>MaxNOM 50 % (EXW).</p>
<p>Chapter 36</p>	<p>Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations</p>
<p>36.01-36.06</p>	<p>CTSH;</p> <p>A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone;</p> <p>or</p> <p>MaxNOM 50 % (EXW).</p>
<p>Chapter 37</p>	<p>Photographic or cinematographic goods</p>
<p>37.01-37.07</p>	<p>CTSH;</p> <p>A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone;</p> <p>or</p> <p>MaxNOM 50 % (EXW).</p>

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
Chapter 38	Miscellaneous chemical products
38.01-38.08	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).
3809.10	CTH except from headings 11.08 and 35.05.
3809.91-3822.90	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).
38.23	Manufacture from non-originating material of any heading; or MaxNOM 50 % (EXW).
3824.10-3824.50	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
3824.60	CTH except from subheadings 2905.43 and 2905.44.
3824.81-3825	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).
38.26	Manufacture in which biodiesel is obtained through transesterification, esterification or hydro-treatment.
38.27	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation, or biotechnological processing is undergone; or MaxNOM 50 % (EXW).
SECTION VII	PLASTICS AND ARTICLES THEREOF; RUBBER AND ARTICLES THEREOF Section note: For definitions of horizontal processing rules within this Section, see Note 5 of Annex 3-A.

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
Chapter 39	Plastics and articles thereof
39.01-39.15	CTSH; A chemical reaction, purification, mixing and blending, production of standard materials, a change in particle size, isomer separation or biotechnological processing is undergone; or MaxNOM 50 % (EXW).
39.16-39.26	CTH; or MaxNOM 50 % (EXW).
Chapter 40	Rubber and articles thereof
40.01-40.11	CTH; or MaxNOM 50 % (EXW).
4012.11-4012.19	CTSH; or Retreading of used tyres.
4012.20-4017.00	CTH; or MaxNOM 50 % (EXW).
SECTION VIII	RAW HIDES AND SKINS, LEATHER, FURSKINS AND ARTICLES THEREOF; SADDLERY AND HARNESS; TRAVEL GOODS, HANDBAGS AND SIMILAR CONTAINERS; ARTICLE OF ANIMAL GUT(OTHER THAN SILK-WORM GUT)
Chapter 41	Raw hides and skins (other than furskins) and leather

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
41.01-4104.19	CTH
4104.41-4104.49	CTSH except from subheadings 4104.41 to 4104.49.
4105.10	CTH
4105.30	CTSH
4106.21	CTH
4106.22	CTSH
4106.31	CTH
4106.32-4106.40	CTSH
4106.91	CTH
4106.92	CTSH
41.07-41.13	CTH except subheadings 4104.41, 4104.49, 4105.30, 4106.22, 4106.32 and 4106.92. However, non-originating materials of subheadings 4104.41, 4104.49, 4105.30, 4106.22, 4106.32 or 4106.92 may be used provided that they undergo a retanning operation.
4114.10	CTH
4114.20	CTH except subheadings 4104.41, 4104.49, 4105.30, 4106.22, 4106.32, 4106.92 and 4107. However, non-originating materials of subheadings 4104.41, 4104.49, 4105.30, 4106.22, 4106.32, 4106.92 and 4107 may be used provided that they undergo a retanning operation.
41.15	CTH

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
Chapter 42	Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)
42.01-42.06	CTH; or MaxNOM 50 % (EXW).
Chapter 43	Furskins and artificial fur; manufactures thereof
43.01-4302.20	CTH; or MaxNOM 50 % (EXW).
4302.30	CTSH
43.03-43.04	CTH; or MaxNOM 50 % (EXW).
SECTION IX	WOOD AND ARTICLES OF WOOD; WOOD CHARCOAL; CORK AND ARTICLES OF CORK; MANUFACTURES OF STRAW, OF ESPARTO OR OF OTHER PLATING MATERIALS; BASKETWARE AND WICKERWORK
Chapter 44	Wood and articles of wood; wood charcoal
44.01-44.21	CTH; or MaxNOM 50 % (EXW).
Chapter 45	Cork and articles of cork
45.01-45.04	CTH
Chapter 46	Manufactures of straw, of esparto or of other plaiting materials; basketware and wickerwork

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
46.01-46.02	CTH; or MaxNOM 50 % (EXW).
SECTION X	PULP OF WOOD OR OF OTHER FIBROUS CELLULOSIC MATERIAL; RECOVERED (WASTE AND SCRAP) PAPER OR PAPERBOARD; PAPER AND PAPERBOARD AND ARTICLES THEREOF
Chapter 47	Pulp of wood or of other fibrous cellulosic material; recovered (waste and scrap) paper or paperboard
47.01-47.07	CTH; or MaxNOM 50 % (EXW).
Chapter 48	Paper and paperboard; articles of paper pulp, of paper or of paperboard
48.01-48.23	CTH; or MaxNOM 50 % (EXW).
Chapter 49	Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans
49.01-49.11	CTH; or MaxNOM 50 % (EXW).
SECTION XI	TEXTILES AND TEXTILE ARTICLES Section note: For definitions of horizontal processing rules within this Section, see Notes 6,7 and 8 of Annex 3-A.
Chapter 50	Silk
50.01-50.02	CTH

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
50.03	
- Carded or combed:	Carding or combing of silk waste.
- Others:	CTH
50.04-50.05	Spinning of natural fibres; Extrusion of man-made continuous filament combined with spinning; Extrusion of man-made continuous filament combined with twisting; or Twisting combined with any mechanical operation.
50.06	
- Silk yarn and yarn spun from silk waste:	Spinning of natural fibres; Extrusion of man-made continuous filament combined with spinning; Extrusion of man-made continuous filament combined with twisting; or Twisting combined with any mechanical operation.
- Silk-worm gut:	CTH
50.07	Spinning of natural or man-made staple fibres combined with weaving; Extrusion of man-made filament yarn combined with weaving; Twisting or any mechanical operation combined with weaving; Weaving combined with dyeing; Yarn dyeing combined with weaving; Weaving combined with printing; or Printing (as standalone operation).

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
Chapter 51	Wool, fine or coarse animal hair; horsehair yarn and woven fabric
51.01-51.05	CTH
51.06-51.10	Spinning of natural fibres; Extrusion of man-made fibres combined with spinning; or Twisting combined with any mechanical operation.
51.11-51.13	Spinning of natural or man-made staple fibres combined with weaving; Extrusion of man-made filament yarn combined with weaving; Weaving combined with dyeing; Yarn dyeing combined with weaving; Weaving combined with printing; or Printing (as standalone operation).
Chapter 52	Cotton
52.01-52.03	CTH
52.04-52.07	Spinning of natural fibres; Extrusion of man-made fibres combined with spinning; or Twisting combined with any mechanical operation.

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
52.08-52.12	Spinning of natural or man-made staple fibres combined with weaving; Extrusion of man-made filament yarn combined with weaving; Twisting or any mechanical operation combined with weaving; Weaving combined with dyeing or with coating or with laminating; Yarn dyeing combined with weaving; Weaving combined with printing; or Printing (as standalone operation).
Chapter 53	Other vegetable textile fibres; paper yarn and woven fabrics of paper yarn
53.01-53.05	CTH
53.06-53.08	Spinning of natural fibres; Extrusion of man-made fibres combined with spinning; or Twisting combined with any mechanical operation.
53.09-53.11	Spinning of natural or man-made staple fibres combined with weaving; Extrusion of man-made filament yarn combined with weaving; Weaving combined with dyeing or with coating or with laminating; Yarn dyeing combined with weaving; Weaving combined with printing; or Printing (as standalone operation).

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
Chapter 54	Man-made filaments; strip and the like of man-made textile materials
54.01-54.06	Spinning of natural fibres; Extrusion of man-made fibres combined with spinning; or Twisting combined with any mechanical operation.
54.07-54.08	Spinning of natural or man-made staple fibres combined with weaving; Extrusion of man-made filament yarn combined with weaving; Yarn dyeing combined with weaving; Weaving combined with dyeing or with coating or with laminating; Twisting or any mechanical operation combined with weaving; Weaving combined with printing; or Printing (as standalone operation).
Chapter 55	Man-made staple fibres
55.01-55.07	Extrusion of man-made fibres.
55.08-55.11	Spinning of natural fibres; Extrusion of man-made fibres combined with spinning; or Twisting combined with any mechanical operation.

<p>Column 1</p> <p>Harmonized System classification (2022) including specific description</p>	<p>Column 2</p> <p>Product-specific rule of origin</p>
<p>55.12-55.16</p>	<p>Spinning of natural or man-made staple fibres combined with weaving; Extrusion of man-made filament yarn combined with weaving; Twisting or any mechanical operation combined with weaving; Weaving combined with dyeing or with coating or with laminating; Yarn dyeing combined with weaving; Weaving combined with printing; or Printing (as standalone operation).</p>
<p>Chapter 56</p>	<p>Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof</p>
<p>56.01</p>	<p>Spinning of natural fibres; Extrusion of man-made fibres combined with spinning; Wadding formation; Flocking combined with dyeing or with printing; or Bonding, coating, flocking, laminating, or metalizing combined with at least two other main preparatory or finishing operations (such as calendering, shrink-resistance processes, heat setting, permanent finishing), provided that the value of non-originating materials used does not exceed 50 % of the EXW of the product.</p>
<p>56.02</p>	

<p>Column 1</p> <p>Harmonized System classification (2022) including specific description</p>	<p>Column 2</p> <p>Product-specific rule of origin</p>
<p>- Needleloom Felt:</p>	<p>Extrusion of man-made fibres combined with fabric formation; however:</p> <ul style="list-style-type: none"> – non-originating polypropylene filament of heading 54.02; – non-originating polypropylene fibres of heading 55.03 or 55.06; or – non-originating polypropylene filament tow of heading 55.01; <p>of which the denomination in all cases of a single filament or fibre is less than 9 decitex, may be used, provided that their total value does not exceed 40 % of the EXW of the product; or</p> <p>Non-woven fabric formation alone in the case of felt made from natural fibres.</p>
<p>- Others:</p>	<p>Extrusion of man-made fibres combined with fabric formation; or</p> <p>Non-woven fabric formation alone in the case of other felt made from natural fibres.</p>
<p>5603.11-5603.14</p>	<p>Manufacture from</p> <ul style="list-style-type: none"> - directionally or randomly oriented filaments; or - substances or polymers of natural or man-made origin; <p>followed in both cases by bonding into a nonwoven.</p>
<p>5603.91-5603.94</p>	<p>Manufacture from</p> <ul style="list-style-type: none"> - directionally or randomly oriented staple fibres; or - chopped yarns, of natural or man-made origin; <p>followed in both cases by bonding into a nonwoven.</p>
<p>5604.10</p>	<p>Manufacture from rubber thread or cord, not textile covered.</p>

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
5604.90	Spinning of natural fibres; Extrusion of man-made fibres combined with spinning; or Twisting combined with any mechanical operation.
56.05	Spinning of natural or man-made staple fibres; Extrusion of man-made fibres combined with spinning; or Twisting combined with any mechanical operation.
56.06	Extrusion of man-made fibres combined with spinning; Twisting combined with gimping; Spinning of natural or man-made staple fibres; or Flocking combined with dyeing.
56.07-56.09	Spinning of natural fibres; or Extrusion of man-made fibres combined with spinning.
Chapter 57	Carpets and other textile floor coverings Chapter note: For products of this Chapter non-originating jute fabric may be used as a backing.

<p>Column 1</p> <p>Harmonized System classification (2022) including specific description</p>	<p>Column 2</p> <p>Product-specific rule of origin</p>

58.10	Embroidering in which the value of non-originating materials of any heading, except that of the product, used does not exceed 50 % of the EXW of the product.
58.11	<p>Spinning of natural or man-made staple fibres combined with weaving or with tufting;</p> <p>Extrusion of man-made filament yarn combined with weaving or with tufting;</p> <p>Weaving combined with dyeing or with flocking or with coating or with laminating or with metalizing;</p> <p>Tufting combined with dyeing or with printing;</p> <p>Flocking combined with dyeing or with printing;</p> <p>Yarn dyeing combined with weaving;</p> <p>Weaving combined with printing; or</p> <p>Printing (as standalone operation).</p>

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
Chapter 59	Impregnated, coated, covered or laminated textile fabrics; textile articles of a kind suitable for industrial use
59.01	Weaving combined with dyeing or with flocking or with coating or with laminating or with metalising; or Flocking combined with dyeing or with printing.
59.02	
- Containing not more than 90 % by weight of textile materials:	Weaving.
- Others:	Extrusion of man-made fibres combined with weaving.
59.03	Weaving combined with impregnating or with coating or with covering or with laminating or with metalising; Weaving combined with printing; or Printing (as standalone operation).
59.04	Calendaring combined with dyeing, coating, laminating or metalizing. Non-originating jute fabric may be used as a backing. or Weaving combined with dyeing or with coating or with laminating or with metalising. Non-originating jute fabric may be used as a backing.

<p>- Others:</p>	<p>Spinning of natural or man-made staple fibres combined with weaving; Extrusion of man-made filament yarn combined with weaving; Weaving, knitting or nonwoven fabric formation combined with dyeing or with coating or with laminating; Weaving combined with printing; or Printing (as standalone operation).</p>
59.06	
<p>- Knitted or crocheted fabrics:</p>	<p>Spinning of natural or man-made staple fibres combined with knitting or with crocheting; Extrusion of man-made filament yarn combined with knitting or with crocheting; Knitting or crocheting combined with rubberising; or Rubberising combined with at least two other main preparatory or finishing operations (such as calendering, shrink-resistance processes, heat setting, permanent finishing) provided that the value of non-originating materials used does not exceed 50 % of the EXW of the product.</p>

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
- Other fabrics made of synthetic filament yarn, containing more than 90 % by weight of textile materials:	Extrusion of man-made fibres combined with weaving.
- Others:	Weaving, knitting or nonwoven process combined with dyeing or with coating or with rubberising; Yarn dyeing combined with weaving, knitting or nonwoven process; or Rubberising combined with at least two other main preparatory or finishing operations (such as calendering, shrink-resistance processes, heat setting, permanent finishing) provided that the value of non-originating materials used does not exceed 50 % of the EXW of the product.
59.07	Weaving, knitting or nonwoven fabric formation combined with dyeing or with printing or with coating or with impregnating or with covering; Flocking combined with dyeing or with printing; or Printing (as standalone operation).
59.08	
- Incandescent gas mantles, impregnated:	Manufacture from tubular knitted or crocheted gas-mantle fabric.
- Others:	CTH

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
Chapter 61	Articles of apparel and clothing accessories, knitted or crocheted
61.01-61.17	
- Obtained by sewing together or otherwise assembling, two or more pieces of knitted or crocheted fabric which have been either cut to form or obtained directly to form:	Knitting or crocheting combined with making-up including cutting of fabric.
- Others:	Spinning of natural or man-made staple fibres combined with knitting or with crocheting; Extrusion of man-made filament yarn combined with knitting or with crocheting; or Knitting and making-up in one operation.
Chapter 62	Articles of apparel and clothing accessories, not knitted or crocheted
62.01	Weaving combined with making-up including cutting of fabric; or Making-up including cutting of fabric preceded by printing (as standalone operation).

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
62.02	
- Embroidered:	Weaving combined with making-up including cutting of fabric; or Manufacture from unembroidered fabric, provided that the value of non-originating unembroidered fabric used does not exceed 40 % of the EXW of the product.
- Others:	Weaving combined with making-up including cutting of fabric; or Making-up including cutting of fabric preceded by printing (as standalone operation).
62.03	Weaving combined with making-up including cutting of fabric; or Making-up including cutting of fabric preceded by printing (as standalone operation).

-
- (1) If the statement on origin is completed for multiple shipments of identical originating products within the meaning of subparagraph (b) of Article 3.17(5) of this Agreement, indicate the period for which the statement on origin is to apply. That period shall not exceed 12 months. All importations of the product must occur within the period indicated. If a period is not applicable, the field may be left blank.
- (2) Indicate the reference number by which the exporter is identified. For the European Union exporter, this will be the number assigned in accordance with the laws and regulations of the European Union. For the Chilean exporter, this will be the number assigned in accordance with the laws and regulations applicable within Chile. Where the exporter has not been assigned a number, this field may be left blank.
- (3) Indicate the origin of the product: Chile or the European Union (EU). If the statement on origin relates, in whole or in part, to products originating in Ceuta and Melilla within the meaning of Article 3.29 of this agreement, the exporter must clearly indicate them in the document on which the declaration is made out by means of the symbol "CM".
- (4) Place and date may be omitted if the information is contained on the document itself.
- (5) In cases where the exporter is not required to sign, the exemption of signature also implies the exemption of the name of the signatory.

JOINT DECLARATIONS

JOINT DECLARATION CONCERNING THE PRINCIPALITY OF ANDORRA

1. Chile shall accept products originating in the Principality of Andorra falling within Chapters 25 to 97 of the Harmonized System as originating in the European Union within the meaning of this Agreement.
2. Paragraph 1 applies provided that, by virtue of the customs union established by the Agreement in the form of an exchange of letters between the European Economic Community and the Principality of Andorra, done at Luxembourg on 28 June 1990, the Principality of Andorra applies to products originating in Chile the same preferential tariff treatment as the European Union applies to such products.
3. Chapter 3 shall apply *mutatis mutandis* for the purposes of defining the originating status of products referred to in paragraph 1 of this Joint Declaration.

JOINT DECLARATION CONCERNING THE REPUBLIC OF SAN MARINO

1. Chile shall accept products originating in the Republic of San Marino as originating in the European Union within the meaning of this Agreement.
2. Paragraph 1 applies provided that, by virtue of the Agreement on Cooperation and Customs Union between the European Community and its Member States, of the one part, and the Republic of San Marino, of the other part, done at Brussels on 16 December 1991, the Republic of San Marino applies to products originating in Chile the same preferential tariff treatment as the European Union applies to such products.
3. Chapter 3 shall apply *mutatis mutandis* for the purposes of defining the originating status of products referred to in paragraph 1 of this Joint Declaration.

EXPLANATORY NOTES

1. When applying Article 3.17 the Parties shall comply with the following guidelines:
 - (a) when an invoice or other commercial document includes originating and non-originating products, the products should be identified as such in these documents, and non-originating products shall be clearly identified separately. There is no set way to identify separately the non-originating products. However, it could be done by:
 - (i) indicating in brackets behind every item of goods on the commercial document whether the products are originating or not;
 - (ii) using two headings on the invoice, namely originating products and non–originating products and listing the products under the corresponding heading; or
 - (iii) attributing a number to each of the products and indicate which of the numbers relate to originating products and which relate to non–originating products;
 - (b) a statement on origin made out on the back of the invoice or any other commercial document is acceptable;

- (c) a statement on origin can be made out by typing, printing, handwriting or stamping the text on the invoice or other commercial document, including a photocopy of the document; the document should show the name and full address of the exporter and consignee, as well as a detailed description of the products, to enable their identification, and the date on which the statement on origin was made out, if different to the date of the invoice or other commercial document; the tariff classification should preferably be indicated at least at a heading level (four-digit code) under the Harmonized System on the invoice or other commercial document; as appropriate, the gross mass (kg) or other unit of measurement, such as liters or m³, of all the originating products should also be indicated;
- (d) a statement on origin can be made out on a separate sheet of paper, with or without a letterhead; if it is made out on a separate sheet of paper, that sheet shall be made part of the invoice or other commercial document by including a reference to that sheet in the invoice or other commercial document;
- (e) if the invoice or other commercial document contains several pages, each page should be numbered and the total number of pages should be mentioned; a separate sheet with the statement of origin can make reference to that invoice or other commercial document;
- (f) the statement on origin may be made out on a label that is permanently affixed to an invoice or other commercial document provided that there is no doubt that the label has been affixed by the exporter;

- (g) For greater certainty, while the statement on origin shall be made out by the exporter, and the exporter shall bear the responsibility to provide sufficient detail to identify the originating product, there is no condition regarding the identity or the place of establishment of the person completing the invoice or other commercial document, provided that that document allows to clearly identify the exporter;
- (h) If it is not possible for the exporter to make out the statement on origin on the invoice or other commercial document, an invoice or other commercial document of a third country may be used, for example where a consignment of originating products is split in a third country under the conditions of Article 3.14;
- (i) other commercial documents can be, for example, an accompanying delivery note, a pro-forma invoice or a packing list.

2. When applying Article 3.18, the Parties shall not reject a claim for preferential tariff treatment on the basis of discrepancies between the statement on origin and the documents submitted to the customs office, or minor errors in the statement on origin, which do not raise doubts concerning the accuracy of the information contained in the import documentation and which do not affect the originating status of the products; such discrepancies or minor errors may include:

- (a) typing errors in the description of the product, the exporter's or consignee's name or address, or the commercial document number;

- (b) errors in additional information regarding the exporter or consignee, such as the phone number, postal code or email address;
- (c) an incorrect reference to the tariff classification, unless it affects the originating status or preferential tariff treatment of the product.

3. However, a claim for preferential tariff treatment may be rejected on the basis of the following errors in the statement on origin:

- (a) an incorrect exporter reference number; and
- (b) an inaccurate description of the product or tariff classification that affects its originating status or preferential tariff treatment.

COMPETENT AUTHORITIES

1. For the European Union, with respect to its competent authorities, control in the area of sanitary and phytosanitary matters is shared between the relevant authorities of the Member States and the European Commission. In this respect the following applies:

- (a) as regards exports to Chile, the relevant authorities of the Member States are responsible for control of the circumstances and requirements of production, including statutory inspections, and for the issuance of health certificates, including animal welfare, attesting the agreed standards and requirements;
- (b) as regards imports from Chile, the relevant authorities of the Member States are responsible for control of the compliance of imports with the import conditions of the European Union; and
- (c) the European Commission is responsible for the overall coordination, inspection, audits of inspection systems and the legislative actions necessary to ensure uniform application of standards and requirements within the internal European Union market.

2. For Chile, the Ministry of Agriculture, through the Servicio Agrícola y Ganadero, is the competent authority for the administration of all requirements, related to:

- (a) sanitary and phytosanitary measures applied to the import and export of terrestrial animals, terrestrial animal products, plants, plant products and other products covered by sanitary and phytosanitary measures;
- (b) sanitary and phytosanitary measures adopted to reduce the risk of terrestrial animal diseases and plant pests entering Chile and to control their eradication or spread; and
- (c) the issuing of sanitary and phytosanitary export certificates for terrestrial animal and plant products.

3. The Ministry of Health of Chile is the competent authority for food safety control of all foods, whether domestically produced or imported, intended to human consumption, as well as for the food safety certification of elaborated nutritious products for export, except for aquatic products.

4. The Servicio Nacional de Pesca y Acuicultura of the Ministry of Economy of Chile is the competent authority for the control of food safety of aquatic products for export and for the issuance of the corresponding official certificates. It is also responsible for the protection of the health of aquatic animals, the sanitary certification of aquatic animals for export, and the control of imports of aquatic animals, bait and food used in aquaculture.

LIST OF ANIMAL DISEASES AND PESTS, SUBJECT TO NOTIFICATION,
FOR WHICH REGIONAL FREEDOM MAY BE RECOGNISED

TERRESTRIAL AND AQUATIC ANIMAL DISEASES SUBJECT TO NOTIFICATION,
FOR WHICH THE STATUS OF A PARTY IS RECOGNISED
AND FOR WHICH REGIONALISATION DECISIONS MAY BE TAKEN

All the animal diseases listed in the most recent version of the World Organisation for Animal Health ("WOAH") list, included in the International Animal Health Code for terrestrial and aquatic animals.

PESTS SUBJECT TO NOTIFICATION,
FOR WHICH THE STATUS OF A PARTY IS RECOGNISED
AND FOR WHICH REGIONALISATION DECISIONS MAY BE TAKEN

1. For the European Union:
 - (a) pests not known to occur in any part of the European Union and relevant for the entire European Union, or for part of it, as listed in Part A of Annex II to Commission Implementing Regulation (EU) 2019/2072;¹
 - (b) pests known to occur in the European Union and relevant for the entire European Union, as listed in Part B of Annex II to Commission Implementing Regulation (EU) 2019/2072; and
 - (c) pests known to occur in the European Union and for which pest free areas or protected zones are established, as listed in Annex III to Commission Implementing Regulation (EU) 2019/2072.

¹ Commission Implementing Regulation (EU) 2019/2072 of 28 November 2019 establishing uniform conditions for the implementation of Regulation (EU) 2016/2031 of the European Parliament and the Council, as regards protective measures against pests of plants, and repealing Commission Regulation (EC) No 690/2008 and amending Commission Implementing Regulation (EU) 2018/2019 (OJ EU L 319, 10.12.2019, p. 1).

2. For Chile:

- (a) pests not known to occur in any part of Chile, as listed in Article 20 of Resolution N° 3080/2003 of Servicio Agrícola y Ganadero;¹
- (b) pests known to occur in Chile and under official control, as listed in Article 21 of Resolution N° 3080/2003 of Servicio Agrícola y Ganadero; and
- (c) pest known to occur in Chile, under official control and for which pest free areas are established, as listed in Articles 6 and 7 of Resolution N° 3080/2003 of Servicio Agrícola y Ganadero.

¹ *Resolución N° 3080 Exenta del Servicio Agrícola y Ganadero, que establece criterios de regionalización en relación a las plagas cuarentenarias para el territorio de Chile (Diario Oficial 7 de noviembre de 2003) (Resolution N° 3080 Exempt of Servicio Agrícola y Ganadero, establishing criteria for regionalisation in relation to the quarantine pests for the territory of Chile (Official Gazette 7 November 2003)).*

REGIONALISATION AND ZONING

1. Basis for recognition of status and regionalisation decisions with regard to terrestrial and aquatic animal diseases:

(a) animal diseases:

- (i) the basis for recognition of the status of a Party or a region of a Party with regard to an animal disease shall be the "Recognition of the disease/infection free status of a country or a zone and epidemiological surveillance systems" of the International Animal Health Code of the World Organisation for Animal Health ("WOAH"); and
- (ii) the basis for recognition of regionalisation decisions for an animal disease shall be the "Zoning and regionalisation" of the International Animal Health Code of the WOAH; and

(b) aquatic animal diseases: the basis for recognition of regionalisation decisions for aquaculture diseases shall be the International Aquatic Health Code of the WOAH.

2. Criteria for the establishment of a region free from certain pests, pursuant to Article 6.7(2), shall comply with:

- (a) the FAO International Standard for Phytosanitary Measures 4 "Requirements for the establishment of pest free areas" and the relevant definitions of the FAO International Standard for Phytosanitary Measures 5 "Glossary of phytosanitary terms"; or
- (b) Article 32 of Regulation (EU) 2016/2031¹.

3. Criteria for the recognition of the special status of a territory or a region of a Party with respect to a specific animal diseases:

- (a) where the importing Party considers that its territory or part of its territory is free from an animal disease other than those diseases listed in the most recent version of the WOAHL list, it shall present to the exporting Party appropriate supporting documentation setting out, in particular, the following criteria:
 - (i) the nature of the disease and the history of its occurrence in its territory;
 - (ii) the results of surveillance testing based on serological, microbiological, pathological or epidemiological investigation and on the fact that the disease must be notified to the competent authorities;

¹ Regulation (EU) 2016/2031 of the European Parliament of the Council of 26 October 2016 on protective measures against pests of plants, amending Regulations (EU) No 228/2013, (EU) No 652/2014 and (EU) No 1143/2014 of the European Parliament and of the Council and repealing Council Directives 69/464/EEC, 74/647/EEC, 93/85/EEC, 98/57/EC, 2000/29/EC, 2006/91/EC and 2007/33/EC (OJ EU L 317, 23.11.2016, p. 4).

- (iii) the period during which the surveillance was carried out;
 - (iv) where applicable, the period during which vaccination against the disease has been prohibited and the geographical area concerned; and
 - (v) the arrangements for verifying the absence of the disease;
- (b) if the importing Party requires additional guarantees pursuant to subparagraph (c) of Article 6.6(1), general or specific, those guarantees shall not exceed the guarantees that the importing Party implements; and
- (c) a Party shall notify the other Party of any change in the criteria specified in subparagraph (a) of this paragraph which relate to the disease. Any additional guarantees established by the importing Party in accordance with subparagraph (b) of this paragraph may, following that notification, be amended or withdrawn.

CONDITIONS AND PROCEDURE FOR APPROVAL
OF ESTABLISHMENTS FOR IMPORTS OF ANIMALS, ANIMAL PRODUCTS,
PRODUCTS OF ANIMAL ORIGIN AND ANIMAL BY-PRODUCTS

1. The importing Party may require the approval of establishments of the exporting Party for the importation of animals, animal products, products of animal origin and animal by-products.
2. The importing Party shall approve establishments of the exporting Party on the basis of appropriate guarantees provided by the exporting Party without prior verification by the importing Party of the individual establishments.
3. The importing Party shall apply the procedure for the approval to all categories of establishments of animals, animal products, products of animal origin and animal by-products.
4. The importing Party shall draw up lists of approved establishments and make those lists publicly available. It shall modify or complete those lists to take account of new applications and guarantees received.

5. Approval is subject to the following conditions and procedure:

- (a) the importing Party has authorised the import of the animal product concerned from the exporting Party and the relevant import conditions and certification requirements for the products concerned have been established;
- (b) the competent authority of the exporting Party has provided the importing Party with satisfactory guarantees that the establishments appearing on its list or lists meet the relevant health requirements of the importing Party, and has officially approved the establishments appearing on the lists for exportation to the importing Party;
- (c) the competent authority of the exporting Party is empowered to suspend activities for exportation to the importing Party from an establishment for which that authority has provided guarantees in the event of non-compliance with those guarantees; and
- (d) verification by the importing Party, carried out in accordance with Article 6.11, may be part of the approval procedure and may relate to the following:
 - (i) the structure and organisation of the competent authority responsible for the approval of the establishment, as well as the empowerment of that competent authority and the guarantees it is able to provide regarding the implementation of the rules of the importing Party;

(ii) on the spot inspection of a representative number of establishments appearing on the list or lists provided by the exporting Party; or

(iii) in the European Union, that verification may relate to individual Member States.

6. Based on the results of the verification provided for in subparagraph (d) of paragraph 5, the importing Party may amend the existing list of establishments.

PROCESS FOR DETERMINATION OF EQUIVALENCE

1. The following principles for determination of equivalence apply:
 - (a) the Parties can determine equivalence for an individual measure or a group of measures or systems related to animals, animal products, plants, plant products and other products covered by sanitary or phytosanitary measures;
 - (b) The consideration of determination of equivalence shall not be a reason to disrupt or suspend trade of those animals, animal products, plants, plant products and other products covered by sanitary or phytosanitary measures;
 - (c) determination of equivalence of measures is an interactive process between the exporting Party and the importing Party, consisting of an objective demonstration of equivalence of individual measures by the exporting Party and the objective assessment of that demonstration with a view to the possible recognition of equivalence by the importing Party; and
 - (d) the final recognition of equivalence of the relevant measures of the exporting Party rests solely with the importing Party.

2. The following preconditions for initiation of the process for determination of equivalence apply:

- (a) the exporting Party shall not initiate a process of determination of equivalence if the importing Party has not authorised the import of the animals, animal products, plants, plant products and other products covered by sanitary or phytosanitary measures for which equivalence is sought; the authorisation depends on the health or pest status, the laws and regulations and the effectiveness of the inspection and control system related to the animals, animal products, plants, plant products and other products covered by sanitary or phytosanitary measures in the exporting Party; the laws and regulations applicable to the sector concerned shall be taken into account, as well as the structure of the competent authority of the exporting Party, its chain of command, its powers, its operational procedures and resources, and the performance of the competent authorities as regards inspection and control systems, including its level of enforcement related to the animals, animal products, plants, plant products and other products covered by sanitary or phytosanitary measures and the regularity and rapidity of information to the importing Party in case of identified hazards; the process of determination of equivalence may be supported by documentation, verification, and earlier documented experience;
- (b) the Parties shall initiate the process for determination of equivalence in accordance with the priorities established in Appendix 6-E-1; and

- (c) the exporting Party shall only initiate the process if no safeguard measures imposed by the importing Party apply to the exporting Party as regards the animals, animal products, plants, plant products and other products covered by sanitary or phytosanitary measures concerned.

3. The following applies for the process for determination of equivalence:

- (a) the exporting Party shall submit to the importing Party a request for recognition of equivalence of an individual measure or a group of measures or systems applicable to animals, animal products, plants, plant products and other products covered by sanitary or phytosanitary measures;

(b) the request of the exporting Party shall:

- (i) explain the importance for trade of the animals, animal products, plants, plant products and other products covered by sanitary or phytosanitary measures in relation to which recognition of equivalence is requested;
- (ii) identify all of those measures from the import conditions applicable to the animals, animal products, plants, plant products and other products covered by sanitary or phytosanitary measures of the importing Party, with which the exporting Party can comply; and

- (iii) identify all of those measures from the import conditions applicable to the animals, animal products, plants, plant products and other products covered by sanitary or phytosanitary measures of the importing Party, for which the exporting Party seeks equivalence;
 - (c) the exporting Party shall objectively demonstrate to the importing Party, in accordance with paragraph 4, that the measure it has identified is equivalent to the import conditions for that commodity;
 - (d) the importing Party shall objectively assess, in accordance with paragraph 4, the demonstration of equivalence by the exporting Party;
 - (e) the importing Party shall determine whether equivalence is achieved or not; and
 - (f) the importing Party shall provide the exporting Party with a full explanation and supporting data for its determination and decision on request of the exporting Party.
4. The following applies for the demonstration of equivalence by the exporting Party and the assessment therefore by the importing Party:
- (a) the exporting Party shall objectively demonstrate equivalence for the measure of the importing Party identified pursuant to subparagraph (b)(ii) of paragraph 3; if appropriate, equivalence shall be objectively demonstrated for any plan or programme required by the importing Party as a condition to allow import, for example, a residue plan; and

- (b) the Parties shall, to the extent possible, base the objective demonstration and assessment on:
 - (i) internationally recognised standards;
 - (ii) standards based on proper scientific evidence;
 - (iii) risk assessment;
 - (iv) objective earlier documented experience;
 - (v) legal status or level of administrative status of the measures; or
 - (vi) level of implementation and enforcement which shall be based on, in particular:
 - (A) results of surveillance and monitoring programmes;
 - (B) results of verification by the exporting Party;
 - (C) results of analysis with recognised analysis methods;
 - (D) results of verification and import checks carried out by the importing Party;
 - (E) the performance of the competent authorities of the exporting Party; and
 - (F) earlier experiences.

5. If, following the assessment of the demonstration of equivalence, the importing Party determines that equivalence is not achieved, it shall provide the exporting Party with an explanation.

PRIORITY SECTORS OR SUB-SECTORS
FOR WHICH EQUIVALENCE MAY BE RECOGNISED

The Sub-Committee referred to in Article 6.16 may recommend to the Trade Council to amend this Appendix pursuant to Article 6.8(5).

GUIDELINES FOR CONDUCTING VERIFICATIONS

1. For the purposes of this Annex:
 - (a) "auditee" means the Party subject to the verification; and
 - (b) "auditor" means the Party that carries out the verification.
2. The following general principles apply to verifications:
 - (a) a Party may carry out verifications on the basis of audits or on the spot checks;
 - (b) verifications shall be made in cooperation between the auditor and the auditee in accordance with this Annex;
 - (c) the auditor shall design the verifications to check the effectiveness of the controls of the auditee rather than to reject individual animals, groups of animals, consignments of food establishments or individual lots of plants or plant products;
 - (d) where a verification reveals a serious risk to human, animal or plant health, the auditee shall take immediate corrective action;

- (e) the verification may include study of the relevant regulations, method of implementation, assessment of the result, level of compliance and subsequent corrective actions;
- (f) a Party shall base the frequency of verifications on performance; a low level of performance shall result in an increased frequency of verifications; unsatisfactory performance shall be corrected by the auditee to the auditor's satisfaction; and
- (g) a Party shall carry out verifications, and the decisions based on them, in a transparent and consistent manner.

3. The auditor shall prepare a plan, preferably in accordance with recognised international standards, that covers the following elements:

- (a) the subject and scope of the verification;
- (b) the date and place of the verification, accompanied by a timetable up to and including the issuing of the final report;
- (c) the language or languages in which the verification will be conducted and the report will be written;
- (d) the identity of the auditor or auditors, including the leader, if a team approach is used; specialised professional skills of auditors may be required to carry out verification of specialised systems and programmes;

- (e) a schedule of meetings with officials and visits to establishments or facilities, as appropriate; it is not necessary for the auditor to state in advance the identity of establishments or facilities to be visited;
- (f) the auditor shall respect commercial confidentiality, subject to provisions on freedom of information, and avoid any conflict of interest; and
- (g) the auditor shall respect the rules governing occupational health and safety and the rights of the operator; the auditor shall give the representatives of the auditee the opportunity to review the plan in advance.

4. The following principles apply to actions taken by the auditee, in order to facilitate verification:

- (a) the auditee shall fully cooperate with the auditor and shall nominate personnel responsible for that cooperation; cooperation may include, *inter alia*, facilitating:
 - (i) access to all relevant regulations and standards, compliance programmes, and appropriate records and documents;
 - (ii) access to audit and inspection reports;
 - (iii) access to documentation concerning corrective actions and sanctions; and

- (iv) entry to establishments; and
 - (b) the auditee shall operate a documented programme to demonstrate to the auditor that standards are being met on a consistent and uniform basis.
5. The following procedures and principles apply to verifications:
- (a) the representatives of the Parties shall hold an opening meeting, at which the auditor shall review the verification plan and confirm that adequate resources, documentation, and any other necessary facilities are available for conducting the verification;
 - (b) a document review may consist of a review of:
 - (i) the documents and records referred to in subparagraph (a);
 - (ii) the structure and powers of the auditee;
 - (iii) any relevant changes to the inspection and certification systems made after the entry into force of this Agreement or after the previous verification;
 - (iv) implementation of the system of inspection and certification for animals, animal products, plants or plant products; and

(v) relevant inspection and certification records and documents;

(c) the following principles apply to on the spot checks:

(i) a decision to include on the spot checks shall be based on a risk assessment, taking into account factors such as the animals, animal products, plants or plant products concerned, the history of conformity with requirements by the industry sector or exporting country, the production volume and import or export production, changes in infrastructure and the national inspection and certification systems; and

(ii) on the spot checks may include visits to production and manufacturing facilities, food-handling or storage areas and control laboratories to check the compliance with the information contained in the documentation referred to in subparagraph (a); and

(d) if a follow-up verification is carried out in order to verify the correction of deficiencies, it may be sufficient to verify only those points which have been found to require correction.

6. The Parties shall, to the largest possible extent, standardise forms for reporting audit findings and conclusions in order to achieve a more uniform, transparent and efficient verification. The working documents may include a checklist of elements to verify, which may cover:

(a) legislation;

- (b) structure and operations of inspection and certification services;
- (c) establishment details and working procedures, health statistics, sampling plans and results;
- (d) compliance action and procedures;
- (e) reporting and complaint procedures; and
- (f) training programmes.

7. The representatives of the Parties, including, where appropriate, officials responsible for national inspection and certification programs, shall hold a closing meeting. At that meeting, the auditor shall present the findings of the verification in a clear and concise manner, so that the conclusions of the audit are clearly understood by the auditee. The auditee shall draw up an action plan for correction of any deficiencies noted, preferably with target dates for completion.

8. A draft report of verification shall, within 20 working days, be forwarded to the auditee, who shall have 25 working days to comment on the draft report. Comments made by the auditee shall be attached to and, where appropriate, included in the final report. However, where a significant human, animal or plant health risk has been identified during the verification, the auditee shall be informed as quickly as possible, and in any case within 10 working days of the end of the verification.

IMPORT CHECKS AND INSPECTION FEES

1. The following principles for import checks apply:
 - (a) import checks consist of documentary checks, identity checks and physical checks;
 - (b) as regards animals and animal products, the physical checks and their frequency rate applied shall be based on the risk associated with such imports;
 - (c) in carrying out the checks for plant health purposes, the importing Party shall ensure that the plants, plant products and other goods and their packaging shall be meticulously inspected on an official basis, either in their entirety or by a representative sample, and that, if necessary, the vehicles transporting them shall be inspected meticulously on an official basis in order to make sure that they, as far as can be determined, are not contaminated by pests; and
 - (d) in the event that the checks reveal non-conformity with the relevant standards or requirements, the importing Party shall take official measures proportionate to the risk identified; whenever possible, the importer or its representative shall be given access to the consignment and the opportunity to contribute any relevant information to assist the importing Party in taking a final decision concerning the consignment; such decision shall be proportionate to the risk involved.

2. The following frequency rates for physical checks apply:

(a) for animals and animal products:

(i) for imports into the European Union:

CERTIFICATION

1. The following principles of certification apply:
 - (a) with respect to certification of plants and plant products and other goods, the competent authorities shall implement Articles 100 and 101 of Regulation (EU) 2016/2031 of the European Parliament of the Council¹ and the principles laid down in the FAO International Standards for Phytosanitary Measures 7 "Export Certification System" and in the FAO International Standards for Phytosanitary Measures 12 "Guidelines for Phytosanitary Certificates"; and
 - (b) with respect to the certification of animals and animal products:
 - (i) the competent authorities of each Party shall ensure that certifying officers have a satisfactory knowledge of the veterinary legislation with regard to the animals or animal products to be certified and, in general, are informed of the rules to be followed for drawing up and issuing the certificates and, if necessary, regarding the nature and extent of the enquiries, tests or examinations which are to be carried out before certification;

¹ Regulation (EU) 2016/2031 of the European Parliament of the Council of 26 October 2016 on protective measures against pests of plants, amending Regulations (EU) No 228/2013, (EU) No 652/2014 and (EU) No 1143/2014 of the European Parliament and of the Council and repealing Council Directives 69/464/EEC, 74/647/EEC, 93/85/EEC, 98/57/EC, 2000/29/EC, 2006/91/EC and 2007/33/EC (OJ EU L 317, 23.11.2016, p. 4).

- (ii) certifying officers shall not certify data of which they have no personal knowledge, or which cannot be ascertained by them;
- (iii) certifying officers shall not sign blank or incomplete certificates, or certificates relating to animals or animal products, which they have not inspected, or which have passed out of control of the certifying officers; where a certificate is signed on the basis of another certificate or attestation, the certifying officer shall be in possession of that certificate or attestation before signing;
- (iv) a certifying officer may certify data which have been:
 - (A) ascertained on the basis of subparagraphs (b)(i), (b)(ii) and (b)(iii) by another person so authorised by the competent authority and acting under the control of that authority, provided that the certifying authority can verify the accuracy of the data to be certified; or
 - (B) obtained, within the context of monitoring programmes, by reference to officially recognised quality assurance schemes or by means of an epidemiological surveillance system, that are authorised under veterinary legislation;

- (v) the competent authorities of each Party shall take all necessary steps to ensure the integrity of the certification; in particular, they shall ensure that certifying officers designated by them:
 - (A) have a status which ensures their impartiality and have no direct commercial interest in the animals or products being certified or in the holdings or establishments in which they originate; and
 - (B) are fully aware of the significance of the contents of each certificate which they sign;
- (vi) certificates shall be drawn up as to ensure a link between the certificate and the consignment, at least in a language understood by the certifying officer and at least in one of the official languages of the importing Party as set out in paragraph 3;
- (vii) each competent authority shall be able to link certificates to the relevant certifying officer and ensure that a copy of all certificates issued is available for a period to be determined by that competent authority;
- (viii) each Party shall introduce the necessary checks and take the control measures necessary to prevent the issuing of false or misleading certification and the fraudulent production or use of certificates purportedly issued for the purposes of veterinary legislation; and

(ix) without prejudice to legal proceedings or penalties, the competent authorities shall carry out investigations or checks and take appropriate measures to impose sanctions for any false or misleading certification brought to their attention; such measures may include the temporary suspension of the certifying officers from their duties until the investigation is over; in particular:

(A) if, in the course of the checks, a certifying officer is found to have intentionally issued a fraudulent certificate, the competent authority shall take all necessary measures to ensure, as far as possible, that the officer concerned will not be able to repeat the offence; and

(B) if, in the course of the checks, an individual or an undertaking is found to have made fraudulent use of, or to have altered an official certificate, the competent authority shall take all necessary measures to ensure, as far as possible, that the individual or undertaking will not be able to repeat the offence; such measures may include a refusal to issue an official certificate to the individual or undertaking concerned.

2. With regards to the certificate referred to in Article 6.9(5), the health attestation in the certificate shall reflect the status of equivalence of the product concerned. The health attestation shall state compliance with the production standards of the exporting Party recognised as equivalent by the importing Party.

3. The following official languages for certification apply:
- (a) for import into the European Union:
 - (i) for plants, plant products and other goods, the certificate shall be drawn up in at least one of the official languages of the European Union and preferably in one of the official languages of the Member State of destination;
 - (ii) for animals and animal products, the health certificate shall be drawn up in at least one of the official languages of the Member State of destination and in one of the official languages of the Member State in which the import checks provided for in Article 6.12 are carried out; and
 - (b) for import into Chile, the health certificate shall be drawn up in Spanish, or in another language, in which case a translation into Spanish shall be provided.

EXPORT PRICING CONDITIONS REFERRED TO IN ARTICLE 8.5(2)

1. A measure that Chile introduces or maintains pursuant to Article 8.5(2) shall meet all of the following conditions:
 - (a) it shall not result in an export restriction for exports to the European Union pursuant to Article 2.11;
 - (b) it shall not adversely affect the capacity of the European Union to source raw materials from Chile;
 - (c) if the raw material is supplied at a preferential price to any economic operator in any third country, that shall be accorded immediately and unconditionally to economic operators in like situations in the European Union; and
 - (d) it shall not result in a preferential price that is below the lowest price for exports of the same good realised during the preceding 12 months.
2. In accordance with the laws and regulations of Chile, the measure referred to in paragraph 1 and the way it is implemented shall be made publicly available and upon request of the European Union, Chile shall share with the European Union detailed and reliable information on the product scope, the production volume that is covered by the measure, whether domestic sales at preferential prices have taken place, and the domestic price that has resulted from the measure.

CONFORMITY ASSESSMENT – FIELDS AND SPECIFICITIES

1. List of fields¹:

- (a) safety aspects of electrical and electronic equipment as defined in paragraph 2;
- (b) safety aspects of machinery as defined in paragraph 2;
- (c) electromagnetic compatibility of equipment as defined in paragraph 2;
- (d) energy efficiency including eco-design requirements;
- (e) restriction of the use of certain hazardous substances in electrical and electronic equipment;
and
- (f) sanitary appliances.

¹ For greater certainty, this Annex does not cover whole aircraft, vessels, railways, motor vehicles as well as specialised maritime, railway, aviation or vehicle equipment.

2. For the purposes of this Annex:

- (a) "electromagnetic compatibility of equipment" means the electromagnetic compatibility (disturbance and immunity) of equipment which is dependent on electric currents or electromagnetic fields in order to work properly and equipment for the generation, transfer and measurement of such currents, with the exception of:
 - (i) equipment for use in an explosive atmosphere;
 - (ii) equipment for use for radiology or medical purposes;
 - (iii) electrical parts for goods and passenger lifts;
 - (iv) radio equipment used by radio amateurs;
 - (v) measuring instruments;
 - (vi) non-automatic weighing instruments;
 - (vii) inherently benign equipment; and
 - (viii) custom built evaluation kits destined for professionals to be used solely at research and development facilities for such purposes;

- (b) "energy efficiency" means the ratio of output of performance, service, goods or energy to input of energy of a product with an impact on energy consumption during use, and in light of the efficient allocation of resources;
- (c) "safety aspects of electrical and electronic equipment" means the safety aspects of equipment, other than machinery, which is dependent on electric currents in order to work properly and equipment for the generation, transfer and measurement of such currents and which is designed for use with a voltage rating between 50 V and 1 000 V for alternating current and between 75 V and 1 500 V for direct current, as well as equipment which intentionally emits or receives electromagnetic waves of frequencies lower than 3 000 GHz with the purpose of radio communication or radiodetermination, with the exception of:
 - (i) equipment for use in an explosive atmosphere;
 - (ii) equipment for use for radiology or medical purposes;
 - (iii) electrical parts for goods and passenger lifts;
 - (iv) radio equipment used by radio amateurs;
 - (v) electricity meters;
 - (vi) plugs and socket outlets for domestic use;

(vii) electric fence controllers;

(viii) toys;

(ix) custom built evaluation kits destined for professionals to be used solely at research and development facilities for such purposes; or

(x) construction products for permanent incorporation in buildings or civil engineering works and the performance of which has an effect on the performance of the building or civil engineering works, such as cables, fire alarms, electric doors;

(d) "safety aspects of machinery" means the safety aspects of an assembly consisting of at least one moving part, powered by a drive system using one or more sources of energy such as thermal, electric, pneumatic, hydraulic or mechanical energy, arranged and controlled so that they function as an integral whole, with the exception of high-risk machinery, as defined by each Party.

(e) "sanitary appliances" means toilets, whirlpools, kitchen sinks, urinals, baths, shower trays, bidets or wash basins.

3. Pursuant to Article 9.9(7) of this Agreement, the Trade Council may amend the list of fields in paragraph 1 of this Annex.

4. Notwithstanding paragraph 1, a Party may introduce requirements for mandatory third-party testing or certification for the fields specified in this Annex, for products falling within the scope of this Annex, under the following conditions:

- (a) there are compelling reasons related to the protection of human health and safety that justify the introduction of any such requirements;
- (b) introduction of any such requirements is supported by substantiated technical or scientific information regarding the performance of those products;
- (c) any such requirements is not more trade-restrictive than necessary to fulfil the Party's legitimate objective, taking account of the risks that non-fulfilment would create; and
- (d) the Party could not have reasonably foreseen the need for introducing any such requirements at the time of entry into force of this Agreement.

Before introducing any such requirements, the Party shall notify the other Party and, following consultations, take the comments of the other Party into account, to the greatest extent possible, in devising any such requirements.

ON MOTOR VEHICLES AND EQUIPMENT AND PARTS THEREOF

1. For the purposes of this Annex:
 - (a) "1958 Agreement" means the Agreement Concerning the Adoption of Uniform Technical Prescriptions for Wheeled Vehicles, Equipment and Parts which can be Fitted and/or be Used on Wheeled Vehicles and the Conditions for Reciprocal Recognition of Approvals Granted on the Basis of these Prescriptions, done at Geneva on 20 March 1958;
 - (b) "HS 2017" means the 2017 edition of Harmonized System Nomenclature issued by the World Custom Organization;
 - (c) "UNECE" means the United Nations Economic Commission for Europe; and
 - (d) "UN Regulations" means Technical Regulations adopted in accordance with the 1958 Agreement.
2. Terms used in this Annex shall have the same meaning as the terms defined in the 1958 Agreement or in Annex 1 of the TBT Agreement.

3. This Annex applies to trade between the Parties in all categories of motor vehicles, equipment and parts thereof, as defined in paragraph 1.1. of UNECE Consolidated Resolution on the Construction of Vehicles (R.E.3)¹, falling, *inter alia*, under Chapters 40, 84, 85, 87, 90 and 94 of the HS 2017 (hereinafter referred to as "products covered").

4. With regard to the products covered, the objectives of this Annex are to:

- (a) eliminate and prevent non-tariff barriers to bilateral trade;
- (b) facilitate the approval of new motor vehicles based on approval schemes set out, *inter alia*, in the 1958 Agreement;
- (c) establish competitive market conditions based on principles of openness, non-discrimination and transparency; and
- (d) secure the protection of human health, safety and the environment, recognising the right of each Party to determine its desired level of protection and regulatory approaches.

5. The Parties recognise that the UN Regulations are relevant international standards for the products covered.

¹ ECE/TRANS/WP.29/78/Rev.6 of 11 July 2017.

6. The importing Party shall accept on its market new motor vehicles or new motor vehicle equipment or parts thereof provided the manufacturer has certified in accordance with the importing Party's applicable laws and regulations that the vehicle or equipment or parts thereof comply with the corresponding safety standards or technical regulations applicable in the importing Party.¹

7. The Parties acknowledge that Chile has incorporated in its technical regulations certain technical regulations of the European Union and UNECE and the acceptance of the corresponding test reports and type-approval certificates.

8. Chile shall accept type-approval certificates of the European Union and of UNECE issued in accordance with the technical regulations of the European Union and of UNECE as attesting compliance of products covered with the technical regulations of Chile, without further testing or marking requirements to verify or attest compliance with a requirements covered by those type-approvals of the European Union or of UNECE, unless it would create a risk for human health, safety or the environment, according to the technical regulations of Chile.

¹ For greater certainty, nothing in this paragraph shall be construed as preventing a Party from accepting on its market new motor vehicles or new motor vehicle equipment and parts certified according to a third country safety and emission standards or from requiring certification of compliance with existing motor vehicle safety and emission standards that a Party maintains on the date of entry into force of this Agreement, subject to paragraph 7.

9. Chile may amend its technical regulations if it considers that the technical regulations of the European Union or of UNECE no longer represent its desired level of protection, or create a risk for human health, safety or the environment. Before introducing such amendments, Chile shall inform the European Union through the contact points designated pursuant to Article 9.13 of this Agreement, and upon request, provide information on the rationale those amendments.
10. The competent authorities of the importing Party may verify that the products covered comply with all the relevant technical regulations of the importing Party. The verification shall be carried out by random sampling in the market and in accordance with the technical regulations of the importing Party.
11. The importing Party may require the supplier to withdraw a product from its market if the product concerned does not comply with those technical regulations.
12. Without prejudice to the right of each Party to adopt measures necessary for road safety, the protection of the environment or public health and the prevention of deceptive practices according to its desired level of protection, each Party shall refrain from nullifying or impairing the benefits accruing to the other Party under this Annex through regulatory measures specific to the products covered.

13. The importing Party shall endeavour to permit the importation and marketing of products incorporating a new technology or a new feature, which the importing Party has not yet regulated, unless it has a reasonable doubt about its safety, based on scientific or technical information, to the effect that this new technology or new feature creates a risk for human health, safety or environment. The importing Party refusing placement on the market shall notify this decision to the other Party as soon as possible.

14. The Parties shall cooperate and exchange information on any matter relevant to the implementation of this Annex in the Sub-Committee on Technical Barriers to Trade.

ARRANGEMENT REFERRED TO IN SUBPARAGRAPH (b) OF ARTICLE 9.7(5)
FOR THE REGULAR EXCHANGE OF INFORMATION
IN RELATION TO THE SAFETY OF NON-FOOD PRODUCTS
AND RELATED PREVENTIVE, RESTRICTIVE
AND CORRECTIVE MEASURES

Trade Council may amend this Annex pursuant to Article 9.7(10).

ARRANGEMENT REFERRED TO IN ARTICLE 9.7(6)
FOR THE REGULAR EXCHANGE OF INFORMATION
REGARDING MEASURES TAKEN ON NON-COMPLIANT NON-FOOD PRODUCTS,
OTHER THAN THOSE COVERED BY ARTICLE 9.7(5)

Trade Council may amend this Annex pursuant to Article 9.7(10).

RESERVATIONS FOR EXISTING MEASURES

Headnotes

1. The Schedules of the Parties in Appendices 10-A-1 and 10-A-2, set out pursuant to Articles 10.11 and 11.8, the reservations taken by the Parties with respect to existing measures that do not conform with obligations imposed by:

- (a) Article 11.6;
- (b) Article 10.6 or 11.4;
- (c) Article 10.8;
- (d) Article 10.10; or
- (e) Article 10.9.

2. The reservations of a Party are without prejudice to the rights and obligations of the Parties under GATS.

3. Each reservation sets out the following elements:

- (a) "sector" refers to the general sector in which the reservation is taken;
- (b) "sub-sector" refers to the specific sector in which the reservation is taken;
- (c) "industry classification" refers, where applicable, to the activity covered by the reservation according to the CPC, ISIC Rev. 3.1, or as expressly otherwise described in that reservation;
- (d) "type of reservation" specifies the obligation referred to in paragraph 1 of this Annex for which the reservation is taken;
- (e) "level of government" indicates the level of government maintaining the measure for which the reservation is taken;
- (f) "measures" identifies the laws or other measures as qualified, where indicated, by the "description" element for which the reservation is taken. A "measure" cited in the "measures" element:
 - (i) means the measure as amended, continued or renewed as of the date of entry into force of this Agreement;

- (ii) includes any subordinate measure adopted or maintained under the authority of and consistent with the measure; and
 - (iii) in respect of the Schedule of the European Union, includes any laws or other measures which implement a directive at Member State level; and
- (g) "description" sets out the non-conforming aspects of the existing measure for which the reservation is taken.

4. For greater certainty, if a Party adopts a new measure at a level of government different to that at which the reservation was originally taken, and this new measure effectively replaces, within the territory to which it applies, the non-conforming aspect of the original measure cited in the "measures" element, the new measure shall be deemed to constitute a modification or an amendment to the original measure within the meaning of subparagraph (c) of Article 10.11(1) or subparagraph (c) of Article 11.8(1).

5. In the interpretation of a reservation, all elements of the reservation shall be considered. A reservation shall be interpreted in the light of the relevant obligations laid down in the against which the reservation is taken. The "measures" element shall prevail over all other elements.

6. For the purposes of the Schedules of the Parties, "ISIC Rev. 3.1" means the International Standard Industrial Classification of All Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No. 4, ISIC Rev. 3.1, 2002.

7. For the purposes of the Schedules of the Parties, a reservation for a requirement to have a local presence in the territory of the Parties is taken with respect to Article 11.6, and not with respect to Article 11.4 or, in Annex 10-C, with respect to Article 11.7. Furthermore, such a requirement is not taken as a reservation with respect to Article 10.6.

8. A reservation taken at the level of the European Union applies to a measure of the European Union, to a measure of a Member State at the central level or to a measure of a government within a Member State, unless the reservation excludes a Member State. A reservation taken by a Member State applies to a measure of a government at the central, regional or local level within that Member State. For the purposes of the reservations of Belgium, the central level of government covers the federal government and the governments of the regions and the communities as each of them holds equipollent legislative powers. For the purposes of the reservations of the European Union and its Member States, a regional level of government in Finland means the Åland Islands. A reservation taken at the level of Chile applies to a measure of the central government or a local government.

9. The Schedules of the Parties do not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures where they do not constitute a limitation within the meaning of Article 10.6, 11.4 or 11.6. These measures may include, in particular, the need to obtain a licence, to satisfy universal service obligations, to have recognised qualifications in regulated sectors, to pass specific examinations, including language examinations, to fulfil a membership requirement of a particular profession, such as membership in a professional organisation, to have a local agent for service, or to maintain a local address, or any other non-discriminatory requirements that certain activities may not be carried out in protected zones or areas. While not listed in this Annex, such measures continue to apply.

10. For greater certainty, for the European Union, the obligation to grant national treatment does not entail the requirement to extend to natural or juridical persons of Chile the treatment granted in a Member State, pursuant to the Treaty on the Functioning of the European Union, or any measure adopted pursuant to that Treaty, including their implementation in the Member States, to:

- (a) natural persons or residents of another Member State; or
- (b) juridical persons constituted or organised under the law of another Member State or of the European Union and having their registered office, central administration or principal place of business in the European Union.

11. Treatment granted to juridical persons established by investors of a Party in accordance with the law of the other Party (including, in the case of the European Union, the law of a Member State) and having their registered office, central administration or principal place of business within that other Party, is without prejudice to any condition or obligation, consistent with Chapter 10, which may have been imposed on such juridical person when it was established in that other Party, and which shall continue to apply.

12. The Schedules of the Parties apply only to the territories of the Parties in accordance with Article 33.8 and are only relevant in the context of trade relations between the European Union and its Member States with Chile. They do not affect the rights and obligations of the Member States under European Union law.

Type of reservation: National treatment

Most-favoured-nation treatment

Performance requirements

Senior management and boards of directors

Chapter/Section: Investment liberalisation and Cross-border trade in services

Level of government: EU/Member State (unless otherwise specified)

Description:

(a) Type of establishment

With respect to Investment liberalisation – National treatment:

The EU: Treatment granted pursuant to the Treaty on the Functioning of the European Union to juridical persons formed in accordance with the law of the European Union or of a Member State and having their registered office, central administration or principal place of business within the European Union, including those established in the European Union by investors of Chile, is not accorded to juridical persons established outside the European Union, nor to branches or representative offices of such juridical persons, including to branches or representative offices of juridical persons of Chile.

Treatment less favourable may be accorded to juridical persons formed in accordance with the law of the European Union or of a Member State which have only their registered office in the European Union, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States.

Measures:

EU: Treaty on the Functioning of the European Union.

With respect to Investment liberalisation – National treatment, Senior management and boards of directors:

This reservation applies only to health, social or education services:

The EU (applies also to the regional level of government): Any Member State, when selling or disposing of its equity interests in, or the assets of, an existing state enterprise or an existing governmental entity providing health, social or education services (CPC 93, 92), may prohibit or impose limitations on the ownership of such interests or assets, and/or restrict the ability of owners of such interests and assets to control any resulting enterprise, with respect to investors of Chile or their enterprises. With respect to such a sale or other disposition, any Member State may adopt or maintain any measure relating to the nationality of senior management or members of the boards of directors.

For the purposes of this reservation:

- (i) any measure maintained or adopted after the date of entry into force of this Agreement that, at the time of the sale or other disposition, prohibits or imposes limitations on the ownership of equity interests or assets or imposes nationality requirements as described in this reservation shall be deemed to be an existing measure; and
- (ii) "state enterprise" means an enterprise owned or controlled through ownership interests by any Member State and includes an enterprise established after the date of entry into force of this Agreement solely for the purposes of selling or disposing of equity interests in, or the assets of, an existing state enterprise or governmental entity.

Measures:

EU: As set out in the description element as indicated above.

With respect to Investment liberalisation – National Treatment:

In AT: For the operation of a branch, non-European Economic Area (non-EEA) corporations must appoint at least one person responsible for its representation who is resident in Austria.

Executives (managing directors, natural persons) responsible for the observance of the Austrian Trade Act (Gewerbeordnung) must be domiciled in Austria.

In BG: Foreign juridical persons, unless established under the law of a Member State of the EEA, may conduct business and pursue activities if established in the Republic of Bulgaria in the form of a company registered in the Commercial Register. Establishment of branches is subject to authorisation.

Representative offices of foreign enterprises are to be registered with Bulgarian Chamber of Commerce and Industry and may not engage in economic activity but are only entitled to advertise their owner and act as representatives or agents.

In EE: If the residence of at least half of the members of the management board of a private limited company, a public limited company or a branch is not in Estonia, in another Member State of the EEA or in the Swiss Confederation, the private limited company, the public limited company or the foreign company shall appoint a point of contact whose Estonian address can be used for the delivery of the procedural documents of the undertaking and the declarations of intent addressed to the undertaking (i.e. the branch of a foreign company).

With respect to Investment liberalisation – National treatment, Senior management and boards of directors, and Cross-border trade in services – Local presence:

In FI: At least one of the partners in a general partnership or of general partners in a limited partnership needs to have residency in the EEA or, if the partner is a juridical person, be domiciled (no branches allowed) in the EEA. Exemptions may be granted by the registration authority.

To carry on trade as a private entrepreneur, residency in the EEA is required.

If a foreign organisation from a country outside the EEA intends to carry on a business or trade by establishing a branch in Finland, a trade permit is required.

Residency in the EEA is required for at least one of the ordinary and one of the deputy members of the board of directors and for the managing director. Company exemptions may be granted by the registration authority.

In SE: A foreign company, which has not established a legal entity in Sweden or is conducting its business through a commercial agent, shall conduct its commercial operations through a branch, registered in Sweden, with independent management and separate accounts. The managing director and the vice-managing director, if appointed, of the branch, must reside in the EEA. A natural person not resident in the EEA, who conducts commercial operations in Sweden, shall appoint and register a resident representative responsible for the operations in Sweden. Separate accounts shall be kept for the operations in Sweden. The competent authority may in individual cases grant exemptions from the branch and residency requirements. Building projects with duration of less than a year, conducted by a company located or a natural person residing outside the EEA, are exempted from the requirements of establishing a branch or appointing a resident representative.

For limited liability companies and co-operative economic associations, at least 50 % of the members of the board of directors, at least 50 % of the deputy board members, the managing director, the vice-managing director, and at least one of the persons authorised to sign for the company, if any, must reside within the EEA. The competent authority may grant exemptions from this requirement. If none of the company's or society's representatives reside in Sweden, the board must appoint and register a person resident in Sweden, who has been authorised to receive servings on behalf of the company or society.

Corresponding conditions prevail for establishment of all other types of legal entities.

In SK: A foreign natural person whose name is to be registered in the appropriate register (Commercial register, Entrepreneurial or other professional register) as a person authorised to act on behalf of an entrepreneur is required to submit a residence permit for Slovakia.

With respect to Investment liberalisation –National Treatment and Performance requirements:

In BG: Established enterprises may employ third country nationals only for positions for which there is no requirement for Bulgarian nationality. The total number of third country nationals employed by an established enterprise over a period of the preceding 12 months must not exceed 20 percent (35 percent for small and medium-sized enterprises) of the average number of Bulgarian nationals, nationals of other Member States, of states parties to the Agreement on the EEA or of the Swiss Confederation hired on an employment contract. In addition, the employer must demonstrate that there is no suitable Bulgarian, EU, EEA or Swiss worker for the respective position by conducting a labour market test before employing a third country national.

For highly qualified, seasonal and posted workers, as well as for intra-corporate transferees, researchers and students there is no limitation on the number of third country nationals working for a single enterprise. For the employment of third country nationals in these categories, no labour market test is required.

Measures:

BG: Labour Migration and Labour Mobility Act.

With respect to Investment liberalisation – National treatment:

In PL: The scope of operations of a representative office may only encompass advertising and promotion of the foreign parent company represented by the office. For all sectors except legal services, establishment by non-European Union investors and their enterprises may only be in the form of a limited partnership, limited joint-stock partnership, limited liability company, and joint-stock company, while domestic investors and enterprises have access also to the forms of non-commercial partnership companies (general partnership and unlimited liability partnership).

Measures:

PL: Act of 6 March 2018 on rules regarding economic activity of foreign entrepreneurs and other foreign persons in the territory of the Republic of Poland.

(b) Acquisition of real estate

With respect to Investment liberalisation – National treatment:

In AT (applies to the regional level of government): The acquisition, purchase and rental or leasing of real estate by non-European Union natural persons and enterprises requires authorisation by the competent regional authorities (Länder). Authorisation will only be granted if the acquisition is considered to be in the public (in particular economic, social and cultural) interest.

In CY: Cypriots or persons of Cypriot origin, as well as nationals of a Member State, are allowed to acquire any property in Cyprus without restrictions. A foreigner shall not acquire, otherwise than *mortis causa*, any immovable property without obtaining a permit from the Council of Ministers. For foreigners, where the acquisition of immovable property exceeds the extent necessary for the erection of a premises for a house or professional roof, or otherwise exceeds the extent of two donums (2 676 square meter), any permit granted by the Council of Ministers shall be subject to such terms, limitations, conditions and criteria which are set by Regulations made by the Council of Ministers and approved by the House of Representatives. A foreigner is any person who is not a citizen of the Republic of Cyprus, including a foreign controlled company. The term does not include foreigners of Cypriot origin or non-Cypriot spouses of citizens of the Republic of Cyprus.

In CZ: Specific rules apply to agricultural land under state ownership. State agricultural land can be acquired only by Czech nationals, nationals of another Member State, or states parties to the Agreement on the EEA or the Swiss Confederation. Juridical persons can acquire state agriculture land from the state only if they are agricultural entrepreneurs in the Czech Republic or persons with similar status in other Member State, or states parties to the Agreement on the EEA or the Swiss Confederation.

In DK: Natural persons who are not resident in Denmark, and who have not previously been resident in Denmark for a total period of five years, must in accordance with the Danish Acquisition Act obtain permission from the Ministry of Justice to acquire title to real property in Denmark. This also applies for juridical persons that are not registered in Denmark. For natural persons, acquisition of real property will be permitted if the applicant is going to use the real property as his or her primary residence.

For juridical persons that are not registered in Denmark, acquisition of real property will in general be permitted, if the acquisition is a prerequisite for the business activities of the purchaser. Permission is also required if the applicant is going to use the real property as a secondary dwelling. Such permission will only be granted if the applicant through an overall and concrete assessment is regarded to have particular strong ties to Denmark.

Permission under the Acquisition Act is only granted for the acquisition of a specific real property. The acquisition of agricultural land by natural or juridical persons is in addition governed by the Danish Agricultural Holdings Act, which imposes restrictions on all persons, Danish or foreign, when acquiring agricultural property. Accordingly, any natural or juridical person, who wishes to acquire agricultural real property, must fulfil the requirements in this Act. This generally means a limited residence requirement on the agricultural holding applies. The residence requirement is not personal. Legal entities must be of the types listed in §20 and §21 of the Act and must be registered in the Union or EEA.

In EE: A juridical person from an OECD Member State has the right to acquire an immovable which contains:

- (i) less than ten hectares of agricultural land, forest land or agricultural and forest land in total without restrictions;
- (ii) ten hectares or more of agricultural land if the juridical person has been engaged, for three years immediately preceding the year of making the transaction of acquisition of the immovable, in production of agricultural products listed in Annex I to the Treaty on the Functioning of the European Union, except fishery products and cotton ("agricultural product");

- (iii) ten hectares or more of forest land if the juridical person has been engaged, for three years immediately preceding the year of making the transaction of acquisition of the immovable, in forest management within the meaning of the Forest Act (hereinafter "forest management") or production of agricultural products;
- (iv) less than ten hectares of agricultural land and less than ten hectares of forest land, but ten hectares or more of agricultural and forest land in total, if the juridical person has been engaged, for three years immediately preceding the year of making the transaction of acquisition of the immovable, in production of agricultural products or forest management.

If a juridical person does not meet the requirements provided for in subparagraphs (ii), (iii) and (iv), the juridical person may acquire an immovable which contains ten hectares or more of agricultural land, forest land or agricultural and forest land in total only with the authorisation of the council of the local government of the location of the immovable to be acquired.

Restrictions on acquiring immovable property apply in certain geographical areas for non-EEA nationals.

In EL: Real estate acquisition or tenancy in the border regions is prohibited to natural or juridical persons whose nationality or base is outside the Member States and the European Free Trade Association. The ban may be lifted with a discretionary decision taken by a committee of the appropriate Decentralized Administration (or the Minister of National Defense in case the properties to be exploited belong to the Fund for the Exploitation of Private Public Property).

In HR: Foreign companies are only allowed to acquire real estate for the supply of services if they are established and incorporated in Croatia as juridical persons. Acquisition of real estate necessary for the supply of services by branches requires the approval of the Ministry of Justice. Agricultural land cannot be acquired by foreigners.

In MT: Non-nationals of a Member State may not acquire immovable property for commercial purposes. Companies with 25 % (or more) of non-European Union shareholding must obtain an authorisation from the competent authority (Minister responsible for Finance) to buy immovable property for commercial or business purposes. The competent authority will determine whether the proposed acquisition represents a net benefit to the Maltese economy.

In PL: The acquisition of real estate, direct and indirect, by foreigners requires a permit. A permit is issued through an administrative decision by a minister competent in internal affairs, with the consent of the Minister of National Defence, and in the case of agricultural real estate, also with the consent of the Minister of Agriculture and Rural Development.

Reservation No. 2 – Professional services (except health-related professions)

Sector – sub-sector:	Professional services – legal services; patent agent, industrial property agent, intellectual property attorney; accounting and bookkeeping services; auditing services, taxation advisory services; architecture and urban planning services, engineering services and integrated engineering services
Industry classification:	CPC 861, 862, 863, 8671, 8672, 8673, 8674, part of 879
Type of reservation:	National treatment Most-favoured-nation treatment Senior management and boards of directors Local presence
Chapter/Section:	Investment liberalisation, Cross-border trade in services
Level of government:	EU/Member State (unless otherwise specified)

Description:

(a) Legal services (part of CPC 861)¹

For greater certainty, consistent with the Headnotes, in particular paragraph 9 requirements to register with a Bar may include a requirement to have obtained a law degree in the host country or its equivalent, or to have completed some training under the supervision of a licensed lawyer, or to have an office or a postal address within the jurisdiction of a specific Bar in order to be eligible to apply for membership in that Bar. Some Member States may impose the requirement of having the right to practise host-jurisdiction law on those natural persons holding certain positions within a law firm/company/enterprise or for shareholders.

¹ For the purposes of this reservation:

- (a) "domestic law" means the law of the specific Member State and European Union law;
- (b) "public international law" excludes European Union law and includes law established by international treaties and conventions, as well as international customary law;
- (c) "legal advice" includes provision of advice to and consultation with clients in matters, including transactions, relationships and disputes, involving the application or interpretation of law; participation with or on behalf of clients in negotiations and other dealings with third parties in such matters; and preparation of documents governed in whole or in part by law, and the verification of documents of any kind for purposes of and in accordance with the requirements of law;
- (d) "legal representation" includes preparation of documents intended to be submitted to administrative agencies, the courts or other duly constituted official tribunals; and appearance before administrative agencies, the courts or other duly constituted official tribunals;
- (e) "legal arbitration, conciliation and mediation" means the preparation of documents to be submitted to, the preparation for and appearance before, an arbitrator, conciliator or mediator in any dispute involving the application and interpretation of law. It does not include arbitration, conciliation and mediation services in disputes not involving the application and interpretation of law, which fall under services incidental to management consulting. It also does not include acting as an arbitrator, conciliator or mediator. As a sub-category, international legal arbitration, conciliation or mediation services refers to the same services when the dispute involves parties from two or more countries.

With respect to Investment liberalisation – National Treatment and Cross-border trade in services – National treatment, Local presence:

In EU: Legal representation of natural or juridical persons before the European Union Intellectual Property Office (EUIPO) may only be undertaken by a legal practitioner qualified in one of the Member States of the EEA and having their place of business within the EEA, to the extent that they are entitled, within the said Member State, to act as a representative in trade mark matters or in industrial property matters and by professional representatives whose names appear on the list maintained for this purpose by the EUIPO. (Part of CPC 861)

In AT: EEA or Swiss nationality as well as residency (commercial presence) is required for the practice of legal services in respect of domestic (European Union and Member State) law, including representation before courts. Only lawyers of EEA or Swiss nationality are allowed to provide legal services through commercial presence. The practice of legal services in respect of public international law and home country law is only allowed on a cross-border basis. Equity participation and shares in the operating result of any law firm by foreign lawyers (who must be fully qualified in their home country) is allowed up to 25 %; the rest must be held by fully qualified EEA or Swiss lawyers and only the latter may exercise decisive influence in the decision making of the law firm.

In BE: (with respect also to Most-favoured-nation treatment) Residency is required for full admission to the Bar, and necessary for the practice of legal services in respect of Belgian domestic law, including representation before courts. The residency requirement for a foreign lawyer to obtain full admission to the Bar is at least six years from the date of application for registration, three years under certain conditions. Requirement to have a certificate issued by the Belgian Minister of Foreign Affairs under which the national law or international convention allows reciprocity (reciprocity condition).

Foreign lawyers may practise as legal consultants. Lawyers who are members of foreign (non-EU) Bars and want to establish in Belgium but do not meet the conditions for registration on the Tableau of fully qualified lawyers, on the EU-list or on the List of Trainee Lawyers, may request registration on the "B-List". Only at the Brussels Bar there exists such a "B-List". A lawyer on the B-List is allowed to give advice. Representation before "the Cour de Cassation" is subject to nomination on a specific list.

In BG: (with respect also to Most-favoured-nation treatment) Reserved to nationals of a Member State, of another State which is a party to the Agreement on the EEA, or of the Swiss Confederation who has been granted authorisation to pursue the profession of lawyer according to the legislation of any of the aforementioned countries. A foreign national (except for the above mentioned) who has been authorised to pursue the profession of lawyer in accordance with the legislation of his or her own country, may appeal before judicial bodies of the Republic of Bulgaria as defence-counsel or mandatary of a national of his or her own country, acting on a specific case, together with a Bulgarian attorney-at-law, in cases where this has been envisaged in an agreement between the Bulgarian and the respective foreign state, or on the basis of mutuality, making a preliminary request to this effect to the Chairperson of the Supreme Bar Council. Countries, in respect of which mutuality exists, shall be designated by the Minister of Justice, upon request of the Chairperson of the Supreme Bar Council. In order to provide legal mediation, a foreign national must have a permit for long-term or permanent residence in the Republic of Bulgaria and has been entered in the Uniform Register of Mediators with the Minister of Justice.

In CY: EEA or Swiss nationality as well as residency (commercial presence) is required. Only advocates enrolled in the Bar may be partners or shareholders or members of the board of directors in a law company in Cyprus.

In CZ: Full admission to the Bar is required. For the practice of legal services in respect of domestic (European Union and Member State) law, including representation before courts, EEA or Swiss nationality is required. For all legal services, residence (commercial presence) is required.

In DE: Only lawyers with EEA and Swiss qualification may be admitted to the Bar and are thus entitled to provide legal services in respect of domestic law. Commercial presence is required in order to obtain full admission to the Bar. Exemptions may be granted by the competent bar association. For foreign lawyers (with other than EEA and Swiss qualification) there may be restrictions for holding shares of a lawyers company which provides legal services in domestic law. Foreign lawyers can offer legal services in foreign law and in public international law when they prove expert knowledge, registration is required to provide legal services in Germany.

In DK: Legal services provided under the title "advokat" (advocate) or any similar title, as well as representation before the courts, is reserved for advocates with a Danish license to practice. EU, EEA and Swiss advocates may practice under the title of their country of origin.

Shares of a law firm can only be owned by advocates who actively practice law in the firm, its parent company or its subsidiary company, other employees in the firm, or another law firm registered in Denmark. Other employees in the firm may collectively only own less than 10 % of the shares and of the voting rights, and in order to be shareholders they must pass an exam on the rules of particular importance for the practice of law.

Only advocates who actively practice law in the firm, its parent company or its subsidiary company, other shareholders, and representatives of employees, may be members of the board. The majority of the members of the board must be advocates who actively practice law in the firm, its parent company or its subsidiary company. Only advocates who actively practice law in the firm, its parent company or its subsidiary company, and other shareholders having passed the exam mentioned above, may be a director of the law firm.

In EE: Residency (commercial presence) is required for the practice of legal services in respect of domestic (European Union and Member State) law, and participation in criminal proceedings representation before the Supreme Court.

In EL: EEA or Swiss nationality and residency (commercial presence) is required for the practice of legal services in respect of domestic (European Union and Member State) law, including representation before courts.

In ES: EEA or Swiss nationality is required for the practice of legal services in respect of domestic law, including representation before courts. The competent authorities may grant nationality waivers. Professional address is required in order to provide any legal services.

In FI: EEA or Swiss residency and Bar membership is required for the use of the professional title of "advocate" (in Finnish "asianajaja" or in Swedish "advokat"). Legal services, including Finnish domestic law, may also be provided by non-Bar members.

In FR: Residency or establishment in the EEA is required for full admission to the Bar, which is necessary for the practice of legal services in respect of domestic law, including representation before courts. Representation before "the Cour de Cassation" and "Conseil d'Etat" is subject to quotas and reserved for French and EU nationals. Members of a Bar in Chile may register as foreign legal consultant in France to offer certain legal services in France on a temporary or permanent basis, in respect of Chilean law and public international law. A business address within the jurisdiction of the French Bar of registration or establishment in the EEA is required to practice on a permanent basis.

In HR: European Union nationality is required for the practice of legal services in respect of domestic (European Union and Member State) law, including representation before courts. In proceedings involving public international law, parties may be represented before arbitration courts and ad hoc courts by foreign lawyers who are members of their home country bar association. Only a lawyer who has the Croatian title of lawyer can establish a law firm (Chilean firms can establish branches, which may not employ Croatian lawyers)

In HU: Full admission to the Bar is subject to EEA or Swiss nationality and residency (commercial presence) for the practice of legal services in respect of domestic law, including representation before courts. Foreign lawyers may provide legal advice on home country and public international law in partnership with a Hungarian attorney or a law firm. A cooperation contract concluded with a Hungarian attorney (ügyvéd) or law firm (ügyvédi iroda) is required. A foreign legal adviser cannot be a member of a Hungarian law firm. A foreign lawyer is not authorized for the preparation of documents to be submitted to, or act as the client's legal representative before an arbitrator, conciliator or mediator in any dispute.

In LT: (With respect also to Most-favoured-nation treatment) EEA or Swiss nationality and residency (commercial presence) is required for the practice of legal services in respect of domestic (European Union and Member State) law, including representation before courts.

Attorneys from foreign countries can practice as advocates in court only in accordance with international agreements, including specific provisions regarding representation before courts.

In LU (with respect also to Most-favoured-nation treatment): EEA or Swiss nationality and residency (commercial presence) is required for the practice of legal services in respect of domestic law, including representation before courts.

The Council of the Order may, on the basis of reciprocity, agree to waive the nationality requirement for a foreign national.

In LV (with respect also to Most-favoured-nation treatment): EEA or Swiss nationality is required for the practice of domestic law, including representation before courts. Attorneys from foreign countries can practice as advocates in court only in accordance with bilateral agreements on mutual legal assistance.

For European Union or foreign advocates, special requirements exist. For example, participation in court proceedings in criminal cases is only permitted in association with an advocate of the Latvian Collegium of Sworn Advocates.

In MT: EEA or Swiss nationality as well as residency (commercial presence) is required for the practice of legal services in respect of domestic law, including representation before courts.

In NL: Only locally-licensed lawyers registered in the Dutch registry can use the title "advocate". Instead of using the full term "advocate", (non-registered) foreign lawyers are obliged to mention their home country professional organisation for the purposes of their activities in the Netherlands.

In PT (with respect also to Most-favoured-nation treatment): residency (commercial presence) is required in order to practice Portuguese domestic law. For representation before courts, full admission to the Bar is required. Foreigners holding a diploma awarded by any Faculty of Law in Portugal, may register with the Portuguese Bar (Ordem dos Advogados), under the same terms as Portuguese nationals, if their respective country grants Portuguese nationals reciprocal treatment.

Other foreigners holding a Degree in Law which has been acknowledged by a Faculty of Law in Portugal may register as members of the Bar Association provided they undergo the required training and pass the final assessment and admission exam. Only law firms where the shares belong exclusively to lawyers admitted to the Portuguese Bar can practise in Portugal.

Legal consultation is allowed in any area of foreign and public international law by jurists of recognized merit, masters and doctors in law (even if non-lawyers and non-university professors), provided they have their professional residence ("domiciliação") in PT, pass an admission exam and are registered in the Bar.

In RO: A foreign lawyer may not make oral or written conclusions before the courts and other judicial bodies, except for international arbitration.

In SE: (with respect also to Most-favoured-nation treatment) EEA or Swiss residency is required for admission to the Bar and use of the title of "advokat". Exemptions may be granted by the board of the Swedish Bar Association. Admission to the Bar is not necessary for the practice of Swedish domestic law. A member of the Swedish Bar Association may not be employed by anyone other than a Bar member or a company conducting the business of a Bar member. However, a Bar member may be employed by a foreign company conducting the business of an advocate, provided that the company in question is domiciled in a country within the European Union, the EEA or Switzerland. Subject to an exemption from the Board of the Swedish Bar Association, a member of the Swedish Bar Association may also be employed by a non-European Union law firm.

Bar members conducting their practice in the form of a company or a partnership may not have any other objective and may not carry out any other business than the practice of an advocate. Collaboration with other advocate businesses is permitted, however, collaboration with foreign businesses requires permission by the Board of the Swedish Bar Association. Only a Bar member may directly or indirectly, or through a company, practice as an advocate, own shares in the company or be a partner. Only a member may be a member or deputy member of the Board or deputy managing director, or an authorised signatory or secretary of the company or the partnership.

In SI: (with respect also to Most-favoured-nation treatment) Representing clients before the court against payment is conditioned by commercial presence in Republic of Slovenia. A foreign lawyer who has the right to practice law in a foreign country may perform legal services or practice law under the conditions laid down in Article 34a of the Attorneys Act, provided the condition of actual reciprocity is fulfilled.

Commercial presence for appointed attorneys by the Slovene Bar Association is restricted to sole proprietorship, law firm with limited liability (partnership) or to a law firm with unlimited liability (partnership) only. The activities of a law firm shall be restricted to the practice of law. Only attorneys may be partners in a law firm.

In SK: (with respect also to Most-favoured-nation treatment) EEA nationality as well as residency (commercial presence) in the Slovak Republic is required for the practice of legal services in respect of domestic law, including representation before courts. For non-EU lawyers actual reciprocity is required.

Reservation No. 15 – Mining and Energy related activities

Sector – sub-sector:	Mining and quarrying – energy producing materials; mining and quarrying – metal ores and other mining; Energy related activities – production, transmission and distribution on own account of electricity, gas, steam and hot water; pipeline transportation of fuels; storage and warehouse of fuels transported through pipelines; and services incidental to energy distribution
Industry classification:	ISIC Rev. 3.1 10, 11, 12, 13, 14, 40, CPC 5115, 63297, 713, part of 742, 8675, 883, 887
Type of reservation:	National treatment Senior management and boards of directors Local presence
Chapter:	Investment liberalisation; Cross-border trade in services
Level of government:	EU/Member State (unless otherwise specified)

Description:

- (a) Mining and quarrying (ISIC Rev. 3.1 10, 11, 12: CPC 5115, 7131, 8675, 883)

With respect to Investment liberalisation – National treatment, Most-favoured nation treatment:

In BG: The activities of prospecting or exploration of underground natural resources on the territory of the Republic of Bulgaria, in the continental shelf and in the exclusive economic zone in the Black Sea are subject to permission, while the activities of extraction and exploitation are subject to concession granted under the Underground Natural Resources Act.

It is forbidden for companies registered in preferential tax treatment jurisdictions (that is, offshore zones) or related, directly or indirectly, to such companies to participate in open procedures for granting permits or concessions for prospecting, exploration or extraction of natural resources, including uranium and thorium ores, as well as to operate an existing permit or concession which has been granted, as such operations are precluded, including the possibility to register the geological or commercial discovery of a deposit as a result of exploration.

The mining of uranium ore is closed by Decree of the Council of Ministers No. 163 of 20 August 1992.

With regard to exploration and mining of thorium ore, the general regime of permits and concessions applies. Decisions to allow the exploration or mining of thorium ore are taken on a non-discriminatory individual case-by-case basis.

According to Decision of the National Assembly of the Republic of Bulgaria of 18 January 2012 (ch. 14 June 2012) any usage of hydraulic fracturing technology that is, fracking, for activities of prospecting, exploration or extraction of oil and gas is forbidden.

Exploration and extraction of shale gas is forbidden (ISIC 10, 11, 12, 13, 14).

Measures:

BG: Underground Natural Resources Act;

Concessions Act;

Law on Privatisation and Post-Privatisation Control;

Safe Use of Nuclear Energy Act; Decision of the National Assembly of the Republic of Bulgaria of 18 January 2012; Economic and Financial Relations with Companies Registered in Preferential Tax Treatment Jurisdictions, the Persons Controlled Thereby and Their Beneficial Owners Act; and Subsurface Resources Act.

With respect to Investment liberalisation – National treatment, Most-favoured nation treatment:

In CY: The Council of Ministers may refuse to allow the activities of prospection, exploration and exploitation of hydrocarbons to be carried out by any entity which is effectively controlled by Chile or by nationals of Chile. After the granting of an authorisation, no entity may come under the direct or indirect control of Chile or a national of Chile without the prior approval of the Council of Ministers. The Council of Ministers may refuse to grant an authorisation to an entity which is effectively controlled by Chile or by a national of Chile, if Chile does not grant entities of the Republic of Cyprus or entities of Member States as regards access to and exercise of the activities of prospecting, exploring for and exploiting hydrocarbons, treatment comparable to that which the Republic of Cyprus or Member State grants entities from Chile (ISIC Rev 3.1 1110).

Measures:

CY: The Hydrocarbons (Prospection, Exploration and Exploitation Law) of 2007, (Law 4(I)/2007) as amended.

With respect to Investment liberalisation – National treatment and Cross-border services –
Local presence:

In SK: For mining, activities related to mining and geological activity, incorporation in the EEA is required (no branching). Mining and prospecting activities covered by Act of the Slovak Republic 44/1988 on protection and exploitation of natural resources are regulated on a non-discriminatory basis, including through public policy measures seeking to ensure the conservation and protection of natural resources and the environment such as the authorisation or prohibition of certain mining technologies. For greater certainty, such measures include the prohibition of the use of cyanide leaching in the treatment or refining of minerals, the requirement of a specific authorisation in the case of fracking for activities of prospecting, exploration or extraction of oil and gas, as well as prior approval by local referendum in the case of nuclear/radioactive mineral resources. This does not increase the non-conforming aspects of the existing measure for which the reservation is taken. (ISIC 10, 1112, 13, 14, CPC 5115, 7131, 8675 and 883).

Measures

SK: Act 51/1988 on Mining, Explosives and State Mining Administration; and Act 569/2007 on Geological Activity, Act 44/1988 on protection and exploitation of natural resources.

With respect to Cross-border trade in services – Local presence:

In FI: The exploration for and exploitation of mineral resources are subject to a licensing requirement, which is granted by the Government in relation to the mining of nuclear material. A permit of redemption for a mining area is required from the Government. Permission may be granted to a natural person resident in the EEA or a juridical person established in the EEA. (ISIC Rev. 3.1 120, CPC 5115, 883, 8675).

In IE: Exploration and mining companies operating in Ireland are required to have a presence there. In the case of minerals exploration, there is a requirement that companies (Irish and foreign) employ either the services of an agent or a resident exploration manager in Ireland while work is being undertaken. In the case of mining, it is a requirement that a State Mining Lease or License be held by a company incorporated in Ireland. There are no restrictions as to ownership of such a company (ISIC Rev. 3.1 10, 3.1 13, 3.1 14, CPC 883).

In LT: All subsurface mineral resources (energy, metals, industrial and construction minerals) in Lithuania are of exclusive state-ownership. Licenses of geological exploration or exploitation of mineral resources may be granted to a natural person resident in the EU and in the EEA or a juridical person established in the EU and in the EEA.

With respect only to Investment – National treatment and Cross-border trade in services –
Local presence:

In SI: The exploration for and exploitation of mineral resources, including regulated mining services, are subject to establishment in or citizenship of the EEA, the Swiss Confederation or an OECD Member (ISIC Rev. 3.1 10, ISIC Rev. 3.1 11, ISIC Rev. 3.1 12, ISIC Rev. 3.1 13, ISIC Rev. 3.1 14, CPC 883, CPC 8675).

Measures

SI: Mining Act 2014.

- (b) Production, transmission and distribution on own account of electricity, gas, steam and hot water; pipeline transportation of fuels; storage and warehouse of fuels transported through pipelines; services incidental to energy distribution (ISIC Rev. 3.1 40, 401, CPC 63297, 713, part of 742, 74220, 887)

With respect to Investment liberalisation – National treatment, Senior management and boards of directors and Cross-border trade in services – National treatment, Local presence:

In AT: With regard to the transportation of gas authorisation is only granted to nationals of a Member State of the EEA domiciled in the EEA. Enterprises and partnerships must have their seat in the EEA. The operator of the network must appoint a Managing Director and a Technical Director who is responsible for the technical control of the operation of the network, both of whom must be nationals of a member state of the EEA. With regard to the activity performed by a balance responsible party authorisation is only granted to Austrian citizens or citizens of another Member State of the EU or the EEA.

The competent authority may waive the nationality and domiciliation requirements where the operation of the network is considered to be in the public interest.

For the transportation of goods other than gas and water, the following applies:

- (i) with regard to natural persons, authorisation is only granted to EEA-nationals who must have a seat in Austria; and

- (ii) enterprises and partnerships must have their seat in Austria. An Economic Needs Test or interest test is applied. Cross border pipelines must not jeopardise Austria's security interests and its status as a neutral country. Enterprises and partnerships have to appoint a managing director who must be a national of a member state of the EEA. The competent authority may waive the nationality and seat requirements if the operation of the pipeline is considered to be in the national economic interest (CPC 713).

Measures:

AT: Rohrleitungsgesetz (Law on Pipeline Transport), BGBl. Nr. 411/1975 as amended, §§ 5, 15;

In CZ: For electricity generation, transmission, distribution, trading, and other electricity market operator activities, as well as gas generation, transmission, distribution, storage and trading, as well as heat generation and distribution, authorisation is required. Such authorisation may only be granted to a natural person with a residence permit or a juridical person established in the European Union. (ISIC Rev. 3.1 40, CPC 7131, 63297, 742, 887).

In LT: The licences for transmission, distribution, public supply and organizing of trade of electricity may only be issued to juridical persons established in the Republic of Lithuania or branches of foreign juridical persons or other organisations of another Member State established in the Republic of Lithuania. The permits to generate electricity, develop electricity generation capacities and build a direct line may be issued to individuals with residency in the Republic of Lithuania or to juridical persons established in the Republic of Lithuania, or to branches of juridical persons or other organizations of another Member State established in the Republic of Lithuania. This reservation does not apply to consultancy services related to the transmission and distribution on a fee or contract basis of electricity (ISIC Rev. 3.1 401, CPC 887).

In the case of fuels, establishment is required. Licences for transmission and distribution, storage of fuels and liquefaction of natural gas may only be issued to juridical persons established in the Republic of Lithuania or branches of juridical persons or other organisations (subsidiaries) of another Member State established in the Republic of Lithuania.

This reservation does not apply to consultancy services related to the transmission and distribution on a fee or contract basis of fuels (CPC 713, CPC 887).

In PL: the following activities are subject to licensing under the Energy Law Act:

- (i) generation of fuels or energy, except for: generation of solid or gaseous fuels; generation of electricity using electricity sources of the total capacity of not more than 50 MW other than renewable energy sources; cogeneration of electricity and heat using sources of the total capacity of not more than 5 MW other than renewable energy sources; generation of heat using the sources of the total capacity of not more than 5 MW;
- (ii) storage of gaseous fuels in storage installations, liquefaction of natural gas and regasification of liquefied natural gas at LNG installations, as well as the storage of liquid fuels, except for: the local storage of liquid gas at installations of the capacity of less than 1 MJ/s capacity and the storage of liquid fuels in retail trade;

- (iii) transmission or distribution of fuels or energy, except for: the distribution of gaseous fuels in grids of less than 1 MJ/s capacity and the transmission or distribution of heat if the total capacity ordered by customers does not exceed 5 MW;
- (iv) trade in fuels or energy, except for: the trade in solid fuels; the trade in electricity using installations of voltage lower than 1 kV owned by the customer; the trade in gaseous fuels if their annual turnover value does not exceed the equivalent of EUR 100 000; the trade in liquid gas, if the annual turnover value does not exceed EUR 10 000; and the trade in gaseous fuels and electricity performed on commodity exchanges by brokerage houses which conduct the brokerage activity on the exchange commodities on the basis of the Act of 26 October 2000 on commodity exchanges, as well as the trade in heat if the capacity ordered by the customers does not exceed 5 MW. The limits on turnover do not apply to wholesale trade services in gaseous fuels or liquid gas or to retail services of bottled gas.

A licence may only be granted by the competent authority to an applicant that has registered their principal place of business or residence in the territory of a Member State of the EEA or the Swiss Confederation (ISIC Rev. 3.1 040, CPC 63297, 74220, CPC 887).

Chile may only dispose of the ownership or other rights over "State land" to Chilean natural or juridical persons, unless the applicable legal exceptions, such as in Decree Law 1.939 (Decreto Ley 1.939), apply. "State land" for these purposes refers to State owned land up to a distance of 10 kilometres from the border and up to a distance of five kilometres from the coastline, measured from the high-tide line.

Immovable property situated in areas declared "the borderland zone" by virtue of D.F.L. 4 of the Ministry of Foreign Affairs, 1967 (D.F.L. 4 del Ministerio de Relaciones Exteriores, 1967) may not be acquired, either as property or in any other title, by (1) natural persons with nationality of a neighbouring country; (2) juridical persons with their principal seat in a neighbouring country; (3) juridical persons with 40 % or more of capital owned by natural persons with nationality of a neighbouring country; or (4) juridical persons effectively controlled by such natural persons. Notwithstanding the foregoing, this limitation may not apply if an exemption is granted by a Supreme Decree (Decreto Supremo) based on considerations of national interest.

A minimum of 85 % of employees who work for the same employer shall be Chilean natural persons or foreigners with more than five years of residence in Chile. This rule applies to employers with more than 25 employees under a contract of employment (contrato de trabajo¹). Expert technical personnel shall not be subject to this provision, as determined by the Directorate of Labour (Dirección del Trabajo).

An employee shall be understood to mean any natural person who supplies intellectual or material services, under dependency or subordination, pursuant to a contract of employment.

¹ For greater certainty, a contract of employment (contrato de trabajo) is not mandatory for the supply of cross-border trade in services.

Description:

Investment and Cross-Border Trade in Services

The owner of a social communication medium, such as those that transmit on a regular basis sounds, texts or images, or a national news agency shall, in the case of a natural person, have a duly established domicile in Chile, and in the case of a juridical person, shall be constituted with domicile in Chile or have an agency authorised to operate within the territory of Chile.

Only Chilean nationals may be presidents, administrators or legal representatives of such a juridical person.

The owner of a concession to supply (a) public telecommunication services; (b) intermediate telecommunication services supplied to telecommunications services through facilities and networks established for that purpose; and (c) sound broadcasting, shall be a juridical person constituted and domiciled in Chile.

Only Chilean nationals may be presidents, managers, administrators or legal representatives of such a juridical person.

In the case of public radio broadcasting services, the board of directors may include foreigners, only if they do not represent the majority.

In the case of a social communication medium, the legally responsible director and the person who subrogates him or her must be Chilean, with domicile and residence in Chile, unless the social communication medium uses a language other than Spanish.

Requests for public radio broadcasting concessions submitted by juridical persons in which foreigners hold an interest exceeding 10 % of the capital shall be granted only if proof is previously provided verifying that similar rights and obligations as those that the applicants will enjoy in Chile are granted to Chilean nationals in their country of origin.

The National Television Council (Consejo Nacional de Televisión) may establish, as a general requirement that, programs broadcasted through public (open) television channels include up to 40 % of Chilean production.

The exploration, exploitation, and treatment (beneficio) of lithium, deposits of any kind existing in sea waters subject to national jurisdiction, and deposits of any kind wholly or partially located in areas classified as important to national security with mining effects, which qualification shall be made by law only, can be the object of administrative concessions or special operating contracts, subject to the requirements and the conditions to be determined, in each case by a Supreme Decree.

Chile has the right of first offer at market prices and terms for the purchase of mineral products when thorium and uranium are contained in significant quantities.

For greater certainty, Chile may require that producers separate from mining products the portion of:

- (a) liquid or gaseous hydrocarbons;

- (b) lithium;
- (c) deposits of any kind existing in sea waters subject to national jurisdiction; and
- (d) deposits of any kind wholly or partially located in areas classified as important to national security with mining effects, which qualification shall be made by law only, that exists, in significant amounts, in such mining products and that can be economically and technically separated, for delivery to or for sale on behalf of the State. For these purposes, "economically and technically separated" means that the costs incurred to recover the four types of substances referred to in subparagraphs (a), (b) and (c) above through a sound technical procedure and to commercialise and deliver those substances shall be lower than their commercial value.

For greater certainty, the procedures for the granting of administrative concessions or special operation contracts do not, as applicable, *per se*, establish discriminatory treatment towards foreign investors. However, if Chile decides to exploit any of the above-mentioned mining resources by means of a competitive process granting to investors a concession or a special operating contract, the decision will be based solely on the terms of the tender in a transparent process of competitive non-discriminatory bidding.

Unless the conditions of the contract or concession stated otherwise, a subsequent transfer or disposal of whole or part of any right conferred under the contract or concession, shall not be conditioned upon the nationality of the acquirer.

Furthermore, only the Chilean Nuclear Energy Commission (Comisión Chilena de Energía Nuclear), or parties authorised by the Commission, may execute or enter into juridical acts regarding extracted natural atomic materials and lithium, as well as their concentrates, derivatives and compounds.

Description:

Investment and Cross-Border Trade in Services

Only Chilean natural persons or juridical persons constituted in accordance with Chilean law and foreigners with permanent residency may hold permits to harvest and catch hydrobiological species.

Only Chilean vessels are permitted to fish in internal waters, in the territorial sea and in the exclusive economic zone of Chile. "Chilean vessels" are those defined in the Navigation Law (Ley de Navegación). Access to industrial extractive fishing activities shall be subject to prior registration of the vessel in Chile.

Only a Chilean natural or juridical person may register a vessel in Chile. Such juridical person must be constituted in Chile with principal domicile and real and effective seat in Chile. The president, manager and the majority of the directors or administrators must be Chilean natural persons. In addition, more than 50 % of its equity capital must be held by Chilean natural or juridical persons. For these purposes, a juridical person with ownership participation in another juridical person that owns a vessel has to comply with all the requirements mentioned above.

A joint ownership (comunidad) may register a vessel if (1) the majority of the joint ownership is Chilean with domicile and residency in Chile; (2) the administrators are Chilean natural persons; and (3) the majority of the rights of the joint ownership (comunidad) belong to a Chilean natural or juridical person. For these purposes, a juridical person with ownership participation in a joint ownership (comunidad) that owns a vessel has to comply with all the requirements mentioned above.

An owner (natural or juridical person) of a fishing vessel registered in Chile prior to 30 June 1991 shall not be subject to the nationality requirement mentioned above.

In cases of reciprocity granted to Chilean vessels by any other country, fishing vessels specifically authorised by the maritime authorities pursuant to powers conferred by law may be exempted from the requirements mentioned above on equivalent terms provided to Chilean vessels by that country.

Access to artisanal fishing (pesca artesanal) activities shall be subject to registration in the Registry for Artisanal Fishing (Registro de Pesca Artesanal). Registration for artisanal fishing (pesca artesanal) is only granted to Chilean natural persons and foreign natural persons with permanent residency, or a Chilean juridical person constituted by those persons.

Description:

Investment and Cross-Border Trade in Services

Only a Chilean natural or juridical person may register a vessel in Chile. Such juridical person must be constituted with principal domicile and real and effective seat in Chile. In addition, more than 50 % of its capital must be held by Chilean natural or juridical persons. For these purposes, a juridical person with ownership participation in another juridical person that owns a vessel has to comply with all the aforementioned requisites. The president, manager and majority of the directors or administrators must be Chilean natural persons.

A joint ownership (comunidad) may register a vessel if (1) the majority of the joint ownership is Chilean with domicile and residency in Chile; (2) the administrators are Chileans; and (3) the majority of the rights of the joint ownership belong to a Chilean natural or juridical person. For these purposes, a juridical person with ownership participation in a joint ownership (comunidad) that owns a vessel has to comply with all the aforementioned requisites to be considered Chilean.

Special vessels owned by foreign natural or juridical persons may be registered in Chile, if those persons meet the following conditions: (1) domicile in Chile; (2) principal head office in Chile; or (3) undertaking a profession or commercial activity in a permanent way in Chile.

"Special vessels" are those used in services, operations or for specific purposes, with special features for the functions they perform, such as tugboats, dredgers, scientific or recreational vessels, among others. For the purposes of this paragraph, a special vessel does not include a fishing vessel.

The maritime authority may provide better treatment based on the principle of reciprocity.

Description:

Cross-Border Trade in Services

Foreign vessels shall be required to use pilotage, anchoring and harbour pilotage services when the maritime authorities so require. In tugging activities or other manoeuvres performed in Chilean ports, only tugboats flying the Chilean flag shall be used.

Captains shall be required to be Chilean nationals and to be acknowledged as such by the pertinent authorities. Officers on Chilean vessels must be Chilean natural persons registered in the Officers' Registry (Registro de oficiales). Crewmembers of a Chilean vessel must be Chilean, have the permit granted by the Maritime Authority (Autoridad Marítima) and be registered in the respective Registry. Professional titles and licences granted by a foreign country may be considered valid for the discharge of officers' duties on Chilean vessels pursuant to a substantiated resolution (resolución fundada) issued by the Director of the Maritime Authority.

Ship captains (patrón de nave) shall be Chilean nationals. A ship captain is a natural person who, pursuant to the corresponding title awarded by the Director of the Maritime Authority, is empowered to exercise command on smaller vessels and on certain special larger vessels.

Fishing boat captains (patrones de pesca), machinists (mecánicos-motoristas), machine operators (motoristas), sea-faring fishermen (marineros pescadores), small-scale fishermen (pescadores), industrial or maritime trade technical employees or workers, and industrial and general ship service crews on fishing factories or fishing boats shall be required to be Chilean nationals. Foreigners with domicile in Chile shall also be authorised to perform those activities when so requested by ship operators (armadores) for being indispensable to initiate those activities.

In order to fly the Chilean flag, the ship captain (patrón de nave), officers and crew must be Chilean nationals. Nevertheless, if indispensable, the General Directorate for the Maritime Territory and Merchant Fleet (Dirección General del Territorio Marítimo y de Marina Mercante), on the basis of a substantiated resolution (resolución fundada) and on a temporary basis, may authorise the hiring of foreign personnel, with the exception of the captain, who must always be a Chilean national.

Only Chilean natural or juridical persons shall be authorised to act in Chile as multimodal operators.

Description:

Investment and Cross-Border Trade in Services

Shipping agents or representatives of ship operators, owners or captains, whether they are natural or juridical persons, shall be required to be Chilean.

Work of stowage and dockage performed by natural persons is reserved to Chileans who are duly accredited by the corresponding authority to carry out such work and have an office established in Chile. Whenever these activities are carried out by juridical persons, they must be legally constituted in Chile and have their principal domicile in Chile. The chairman, administrators, managers or directors must be Chilean. More than 50 % of the corporate capital must be held by Chilean natural or juridical persons. Such enterprises shall designate one or more empowered agents, who will act in their representation and who shall be Chilean nationals.

Anyone unloading, transshipping and, generally, using continental or insular Chilean ports, particularly for landing fish catches or processing fish catches on board, shall also be required to be a Chilean natural or juridical person.
