<sup>1</sup> The Commission Delegated Regulation (EU) No 1255/2014 of 17 July 2014 lays down the content of the annual and final implementation reports, including the list of common indicators. All data is extracted from the System for Fund Management in the European Union – SFC2014. The Member States have the possibility to change the values reported for an indicator for previous years. The column 'Cumulative', which presents the sum of the values reported for each indicator from 2014 onwards, incorporates any changes that Member States introduced for the values reported for 2014 to 2018 into their 2019 implementation reports.

<sup>2</sup> All data presented in this annex is based on AIR2022, last updated on November 8, 2023, unless otherwise reported

<sup>3</sup> Amounts reported by the Member States in their annual implementation reports based on national sources.

<sup>8</sup> Values for these indicators are determined based on an informed estimation provided by the partner organisations. It is neither expected nor required that they be based on information provided by end recipients. Indicator 14 (including 14a-14f) provides an estimation of the number of people supported per financial year, therefore cumulative values for total number of people have to be read with caution, as the same person may have been counted each year. Furthermore, indicators 14 and 19 (including a-f) have to be viewed together, as in some countries the same people are provided with both food and basic material assistance and are therefore counted twice.
