1. Notwithstanding Article 92 of this Agreement and Article 5 of the WTO Agreement on Agriculture, if, given the particular sensitivity of the agricultural markets, a product originating in a Party is being imported into the other Party in such increased quantities and under such conditions as to cause or threaten to cause serious injury or disturbance in the markets of like or directly competitive products of the other Party, that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.

2. If the conditions in paragraph 1 are met, the importing Party may:

(a) suspend the further reduction of any customs duties on the products concerned provided for under this Title; or

(b) increase the customs duty on the product to a level which does not exceed the lesser of:

(i) the most-favoured-nation customs duty; or

(ii) the basic customs duty referred to in Article 60(3).

3. Before applying the measure as defined under paragraph 2, the Party concerned shall refer the matter to the Association Committee for a thorough examination of the situation, with a view to seeking a mutually acceptable solution. If the other Party so requests, the Parties shall hold consultations within the Association Committee. If no solution is found within 30 days of the request for such consultation, safeguard measures may be applied.

4. Where exceptional circumstances require immediate action, the importing Party may take the measures provided for in paragraph 2 on a transitional basis without complying with the requirements of paragraph 3 for a maximum period of 120 days. Such measures shall not exceed what is strictly necessary to limit or redress the injury or disturbance. The importing Party shall inform the other Party immediately.

5. The measures taken under this Article shall not exceed what is necessary to remedy the difficulties which have arisen. The Party imposing the measure shall preserve the overall level of preferences granted for the agricultural sector. To achieve this objective, the Parties may agree on compensation for the adverse effects of the measure on their trade, including the period during which a transitional measure applied in accordance with paragraph 4 is in place.

To this effect, the Parties shall hold consultations to reach a mutually agreed solution. If no agreement is reached within 30 days, the affected exporting Party may, after notification to the Association Council, suspend the application of substantially equivalent concessions under this Title.

6. For the purposes of this Article:

(a) 'serious injury' shall be understood to mean a significant overall impairment in the position of the producers as a whole of the like or directly competitive products operating in a Party;

**NON TARIFF MEASURES**

Section 1

**Common provisions**

*Article 75*

**Scope**

The provisions of this Chapter shall apply to trade in goods between the Parties.

*Article 76*

**Prohibition of quantitative restrictions**

All import or export prohibitions or restrictions in trade between the Parties, other than customs duties and taxes, whether made effective through quotas, import or export licenses or other measures, shall be eliminated upon the entry into force of this Agreement. No new such measures shall be introduced.

*Article 77*

**National treatment on internal taxation and regulation <sup>(1)</sup>**

1. Imported products of the territory of the other Party shall not be subject, either directly or indirectly, to internal taxes or other internal charges of any kind in excess of those applied, directly or indirectly, to like domestic products.

<sup>(1)</sup> Any internal tax or other internal charge, or any law, regulation or requirement of the kind referred to in paragraph 2 which applies to an imported product and to the like domestic product and is collected or enforced in the case of the imported product at the time or point of importation, is nevertheless to be regarded as an internal tax or other internal charge, or a law, regulation or requirement of the kind referred to in paragraph 2, and is accordingly subject to the provisions of this Article.

Moreover, the Parties shall not otherwise apply internal taxes or other internal charges so as to afford protection to domestic production <sup>(2)</sup>.

2. Imported products of the territory of the other Party shall be accorded treatment no less favourable than that accorded to like domestic products in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution or use. The provisions of this paragraph shall not prevent the application of differential internal transportation charges which are based exclusively on the economic operation of the means of transport and not on the nationality of the product.

3. Neither Party shall establish or maintain any internal quantitative regulation relating to the mixture, processing or use of products in specified amounts or proportions which requires, directly or indirectly, that any specified amount or proportion of any product which is the subject of the regulation must be supplied from domestic sources. Moreover, neither Party shall otherwise apply internal quantitative regulations so as to afford protection to domestic production <sup>(3)</sup>.

4. The provisions of this Article shall not prevent the payment of subsidies exclusively to domestic producers, including payments to domestic producers derived from the proceeds of internal taxes or charges applied consistently with the provisions of this Article and subsidies effected through governmental purchases of domestic products.

5. The provisions of this Article shall not apply to laws, regulations, procedures or practices governing public procurement, which shall be subject exclusively to the provisions of Title IV of this Part.

<sup>(2)</sup> A tax conforming to the requirements of the first sentence shall be considered inconsistent with the provisions of the second sentence only in cases where competition is involved between, on the one hand, a taxed product and, on the other hand, a directly competitive or substitutable product which is not similarly taxed.

<sup>(3)</sup> Regulations consistent with the provisions of the first sentence shall not be considered to be contrary to the provisions of the second sentence in any case in which all of the products subject to the regulations are produced domestically in substantial quantities. A regulation cannot be justified as being consistent with the provisions of the second sentence on the ground that the proportion or amount allocated to each of the products which are the subject of the regulation constitutes an equitable relationship between imported and domestic products.

## Section 2

**Antidumping and countervailing measures***Article 78***Antidumping and countervailing measures**

If a Party determines that dumping and/or countervailable subsidisation is taking place in its trade with the other Party, it may take appropriate measures in accordance with the WTO Agreement on Implementation of Article VI of the GATT 1994 and the WTO Agreement on Subsidies and Countervailing Measures.

## Section 3

- (c) simplify requirements and formalities in respect of the release and clearance of goods, including, to the extent possible, collaboration on the development of procedures enabling the submission of import or export data to a single agency; and to coordinate between customs and other control agencies so as to enable official controls upon import or export to be carried out, as far as possible, by a single agency;

- (a) ensure that the highest standards of integrity be maintained, through application of measures reflecting the principles of the relevant international conventions and instruments in this field, as provided for in each Party's legislation;
- (b) take further steps wherever possible, towards the reduction, simplification and standardisation of data in the documentation required by customs, including the use of a single customs entry document or data message and a single customs exit document or data message, based on international standards and relying as far as possible on commercially available information;

3. The Parties agree that their respective trade and customs provisions and procedures shall be based upon:

- (b) the protection of legitimate trade through the effective enforcement of legislative requirements;
- (c) the application of modern customs techniques, including risk assessment, simplified procedures for entry and release of goods, post release controls, and company audit methods, whilst respecting the confidential nature of commercial data in accordance with the provisions applicable in each Party. - (i) rules that ensure that any penalties imposed for minor breaches of customs regulations or procedural requirements are proportionate and, in their application, do not give rise to undue delays in customs clearance, in accordance with Article VIII of the GATT 1994.

4. The Parties agree:

- (a) on the need for timely consultation with economic operators on substantial matters concerning legislative proposals and general procedures related to customs. To that end, appropriate consultation mechanisms between administrations and the operators shall be established by each Party;

- (d) to ensure that their respective customs and related requirements and procedures continue to meet the needs of the trading community and follow best practices.

5. #### **Special Committee on Customs Cooperation and Rules of Origin**

1. The Parties hereby establish a Special Committee on Customs Cooperation and Rules of Origin, composed of representatives of the Parties. The Committee shall meet on a date and with an agenda agreed in advance by the Parties. The office of chairperson of the Committee shall be held alternately by each of the Parties. #### Article 82

##### **Enforcement of preferential treatment**

1. The Parties agree that administrative cooperation is essential for the implementation and control of the preferences granted under this Title and reaffirm their commitment to combat irregularities and fraud related to origin, including customs classification and customs value.

2. In this regard, a Party may temporarily suspend the preferential treatment granted under this Title for a product or products in respect of which that Party determines, in accordance with this Article, that there has been systematic failure to provide administrative cooperation or fraud by the other Party.

3. For the purpose of this Article, systematic failure to provide administrative cooperation shall mean:

- (a) the absence of administrative cooperation, such as a failure to provide names and addresses of customs or government authorities responsible for issuing and checking certificates of origin, or specimens of stamps used to authenticate the certificates, or a failure to update that information where appropriate;

(d) the absence or systematic lack of administrative cooperation in verifying conduct where there is a presumption of origin-related fraud. For this purpose, a Party may presume the existence of fraud, inter alia, where imports of a product or products under this Agreement massively exceed the usual levels of production and export capacity of the other Party.

4. The Party which has made a finding of systematic failure to provide administrative cooperation or presumption of fraud shall, before applying the temporary suspension provided under this Article, supply the Association Committee with all relevant information required for a thorough examination of the situation with a view to seeking a solution acceptable to the Parties. At the same time, it shall publish in its Official Journal a notice to the importers indicating the product or products for which a finding of systematic failure to provide administrative cooperation or presumption of fraud has been made. The legal consequences of this publication shall be governed by the domestic law of each Party.

5. Within 10 days after the day of notification of the information referred to in paragraph 4, the Parties shall hold consultations within the Association Committee. If the Parties do not reach an agreement on a solution to avoid application of the temporary suspension of the preferential treatment within 30 days from the initiation of such consultations, the Party concerned may suspend temporarily the preferential treatment of the product or products concerned.

The temporary suspension shall not exceed what is necessary to protect the financial interests of the Party concerned.

6. Temporary suspensions under this Article shall be notified immediately after their adoption to the Association Committee. They shall not exceed a period of six months which may be renewed. They shall be subject to periodic consultations within the Association Committee, particularly with a view to their abolition as soon as circumstances permit.

#### Article 83

##### **Objective**

The objective of this section is to facilitate and increase trade in goods by eliminating and preventing unnecessary barriers to trade while taking into account the legitimate objectives of the Parties and the principle of non-discrimination, within the meaning of the WTO Agreement on Technical Barriers to Trade ('the TBT Agreement').

*Article 84***Scope and coverage**

The provisions of this section apply to trade in goods in the area of standards, technical regulations and conformity assessment procedures, as defined in the TBT Agreement. They do not apply to measures covered by section 5 of this Chapter. *Article 87***Specific actions to be pursued under this Agreement**

With a view to fulfilling the objective of this section:

1. The Parties shall intensify their bilateral cooperation in the field of standards, technical regulations and conformity assessment with a view to facilitating access to their respective markets, by increasing the mutual knowledge, understanding and compatibility of their respective systems.
2. In their bilateral cooperation the Parties shall aim at identifying which mechanisms or combination of mechanisms are the most appropriate for particular issues or sectors. Such mechanisms include aspects of regulatory cooperation, inter alia convergence and/or equivalence of technical regulations and standards, alignment to

international standards, reliance on the supplier's declaration of conformity and use of accreditation to qualify conformity assessment bodies, and mutual recognition agreements.

3. Based on progress made in their bilateral cooperation, the Parties shall agree on what specific arrangements should be concluded with a view to implementing the mechanisms identified.
4. To this end, the Parties shall work towards:
  - (a) developing common views on good regulatory practices, including, but not limited to:
    - (i) transparency in the preparation, adoption and application of technical regulations, standards and conformity assessment procedures;
    - (ii) necessity and proportionality of regulatory measures and related conformity assessment procedures, including the use of suppliers declaration of conformity;

    - (iv) enforcement of technical regulations and market surveillance activities;
    - (v) the necessary technical infrastructure, in terms of metrology, standardisation, testing, certification and accreditation, to support technical regulations; and
    - (vi) mechanisms and methods for reviewing technical regulations and conformity assessment procedures;
  - (b) reinforcing regulatory cooperation through, for example, exchange of information, experiences and data, and through scientific and technical cooperation with a view to improving the quality and level of their technical regulations and making efficient use of regulatory resources;
  - (c) compatibility and/or equivalence of their respective technical regulations, standards and conformity assessment procedures;
  - (d) promoting and encouraging bilateral cooperation between their respective organisation, public and/or private, responsible for metrology, standardisation, testing, certification and accreditation;

The Committee, made up of representatives of the Parties, shall be co-chaired by a representative of each Party. The Committee shall meet at least once a year, unless otherwise agreed by the Parties. The Committee shall report to the Association Committee.

2. The Committee may address any matter related to the effective functioning of this section. In particular, it shall have the following responsibilities and functions:

#### Section 5

### **Sanitary and Phytosanitary Measures**

#### Article 89

### **Sanitary and phytosanitary measures**

1. The objective of this section is to facilitate trade between the Parties in the field of sanitary and phytosanitary legislation, whilst safeguarding public, animal and plant health by further implementing the principles of the WTO on the Application of Sanitary and Phytosanitary Measures (the WTO SPS Agreement). An additional objective of this section is to consider animal welfare standards.

2. The objectives of this section are pursued through the 'Agreement on Sanitary and Phytosanitary Measures Applicable to Trade in Animals and Animal Products, Plants, Plant Products and other Goods and Animal Welfare', which is attached as Annex IV.

3. By way of derogation from Article 193, the Association Committee, when dealing with sanitary or phytosanitary measures, shall be composed of representatives of the Community and Chile with responsibility for sanitary and phytosanitary matters. This Committee shall then be called the 'Joint Management Committee for Sanitary and Phytosanitary Matters'. The functions of the Committee are set out in Article 16 of Annex IV.

4. For the purpose of Article 184, consultations held under Article 16 of Annex IV shall be deemed to constitute the consultations referred to in Article 183, unless the Parties decide otherwise.

The Agreement on Trade in Wine and the Agreement on Trade in Spirit Drinks and Aromatised Drinks are attached as Annex V and VI, respectively.

## CHAPTER III

## EXCEPTIONS

*Article 91***General exception clause**

Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between the Parties where the same conditions prevail, or a disguised restriction on trade between the Parties, nothing in this Title shall be construed to prevent the adoption or enforcement by either Party of measures which:

- (a) are necessary to protect public morals;
- (b) are necessary to protect human, animal or plant life or health;
- (c) are necessary to secure compliance with laws or regulations which are not inconsistent with this Agreement, including those relating to customs enforcement, the protection of intellectual property rights, and the prevention of deceptive practices;
- (d) relate to the importation or exportation of gold or silver;
- (e) relate to the protection of national treasures of artistic, historic or archaeological value;
- (f) relate to the conservation of exhaustible natural resources if such measures are made effective in conjunction with restrictions on domestic production or consumption; or
- (g) relate to the products of prison labour.

*Article 92***Safeguard clause**

1. Unless otherwise provided by this Article, the provisions of Article XIX of the GATT 1994 and of the WTO Agreement on Safeguards shall apply between the Parties. The provisions of paragraphs 2, 3, 4, 5, 7, 8 and 9 of this Article shall apply only when a Party has a substantial interest as exporter of the product concerned, as defined in paragraph 10.

2. Each Party shall provide, immediately and in any case no later than seven days from the event, ad hoc written notification to the Association Committee of all pertinent

information on the initiation of a safeguard investigation and on the final findings of the investigation.

3. The information provided under paragraph 2 shall include in particular an explanation of the domestic procedure on the basis of which the investigation will be carried out and an indication of the time schedules for hearings and other appropriate opportunities for interested parties to present their views on the matter. Furthermore, each Party shall provide advance written notification to the Association Committee of all pertinent information on the decision to apply provisional safeguard measures. Such notice must be received at least seven days before the application of such measures.

4. Upon notification of the final findings of the investigation and before applying safeguard measures pursuant to the provisions of Article XIX of the GATT 1994 and of the WTO Agreement on Safeguards, the Party intending to apply such measures shall refer the matter to the Association Committee for a thorough examination of the situation with a view to seeking a mutually acceptable solution. In order to find such a solution and if the Party concerned so requests, the Parties shall hold prior consultations within the Association Committee.

5. Notwithstanding paragraph 4, nothing shall prevent a Party from applying measures pursuant to the provisions of Article XIX of the GATT 1994 and of the WTO Agreement on Safeguards.

6. In the selection of safeguard measures referred to in this Article, the Parties shall give priority to those which cause least disturbance to the achievement of the objectives of this Agreement. Such measures shall not exceed what is necessary to remedy the serious injury, and shall preserve the level/margin of preference granted under this Title.

7. The Parties confirm their rights and obligations under paragraphs 1 and 2 of Article 8 of the WTO Safeguard Agreement.

8. The right of suspension referred to in Article 8(2) of the WTO Safeguard Agreement shall not be exercised between the Parties for the first 18 months that a safeguard measure is in effect, provided that the safeguard measure has been taken as a result of an absolute increase in imports and that such a measure conforms to the provisions of the WTO Safeguard Agreement.

9. Safeguard measures shall upon application be notified immediately to the Association Committee and shall be the subject of consultations once a year within the Committee, particularly with a view to their liberalisation or abolition.

10. For the purposes of this Article, it is considered that a Party has a substantial interest when it is among the five largest suppliers of the imported product during the most recent three-year period of time, measured in terms of either absolute volume or value.

11. In the event of either Party subjecting to a surveillance procedure imports of products liable to give rise to the conditions for the application of a safeguard measure pursuant to this Article, it shall inform the other Party.

#### Article 93

#### Shortage clause

1. Where compliance with the provisions of this Title leads to:

- (a) a critical shortage, or threat thereof, of foodstuffs or other products essential to the exporting Party; or
- (b) a shortage of essential quantities of domestic materials for a domestic processing industry during periods when the domestic price of such materials is held below the world price as part of a governmental stabilisation plan;

and where the situations referred to above give rise or are likely to give rise to major difficulties for the exporting Party, that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.

2. In the selection of measures, priority must be given to those which least disturb the functioning of the arrangements in this Agreement. Such measures shall not be applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination where the same conditions prevail, or a disguised restriction on trade, and shall be eliminated when the conditions no longer justify their maintenance. In addition, the measures which may be adopted pursuant to paragraph 1(b) shall not operate to increase the exports of or the protection afforded to the domestic processing industry concerned, and shall not depart from the provisions of this Agreement relating to non-discrimination.

3. Before taking the measures provided for in paragraph 1, or as soon as possible in cases to which paragraph 4 applies, the Party intending to take the measures shall supply the Association Committee with all relevant information, with a view to seeking a solution acceptable to the Parties. The Parties within the Association Committee may agree on any means needed to put an end to the difficulties. If no agreement is reached within 30 days of the matter being referred to the Association Committee, the exporting Party may apply measures under this Article on the exportation of the product concerned.

4. Where exceptional and critical circumstances requiring immediate action make prior information or examination impossible, the Party intending to take the measures may apply forthwith the precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.

5. Any measures applied pursuant to this Article shall be immediately notified to the Association Committee and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their elimination as soon as circumstances permit.

In the sectors inscribed in its Schedule, and subject to the conditions and qualifications set out therein, each Party shall grant to services and service suppliers of the other Party, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and services suppliers <sup>(2)</sup>.

<sup>(1)</sup> Paragraph 2(c) does not cover measures of a Party which limit inputs for the supply of services.

<sup>(2)</sup> Specific commitments assumed under this Article shall not be construed to require the Parties to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

2. A Party may meet the requirement of paragraph 1 by according to services and service suppliers of the other Party, either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of a Party compared to like services or service suppliers of the other Party.

#### *Article 99*

#### *Article 100*

This review may also address the revision of the definition of natural person provided in Article 96(g).

#### Article 102

### Domestic regulation

1. In sectors where a Party has undertaken commitments in its Schedule, and with a view to ensuring that any measure relating to the requirements and procedures of licensing and certification of service suppliers of the other Party does not constitute an unnecessary barrier to trade, that Party shall endeavour to ensure that any such measure:

- (a) is based on objective and transparent criteria, such as, *inter alia*, competence and the ability to provide the service;
- (b) is not more trade-restrictive than necessary to ensure the achievement of a legitimate policy objective;

#### Article 103

### Mutual recognition

1. Each Party shall ensure that its competent authorities, within a reasonable period of time after the submission by a services supplier of the other Party of an application for a licence or certification:

- (b) where the application is not complete, inform the applicant without undue delay of the status of the application and the additional information that is required under the Party's domestic law.

2. The Parties shall encourage the relevant bodies in their respective territories to provide recommendations on mutual recognition, for the purpose of enabling service suppliers to fulfil, in whole or in part, the criteria applied by each Party for the authorisation, licensing, accreditation, operation and certification of service suppliers and in particular professional services.

3. The Association Committee, within a reasonable period of time and considering the level of correspondence of the respective regulations, shall decide whether a recommendation referred to in paragraph 2 is consistent with this Chapter. If that is the case, such a recommendation shall be implemented through an agreement on mutual recognition of requirements, qualifications, licences and other regulations to be negotiated by the competent authorities.

- (b) that its entities do not discriminate against a locally-established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of the other Party.

4. This Article shall not apply to measures concerning customs duties or other charges of any kind imposed on or in connection with importation, the method of levying such duties and charges, other import regulations, including restrictions and formalities, nor to measures affecting trade in services other than measures specifically governing procurement covered by this Title.

#### Article 141

##### **Valuation rules**

1. 2. In calculating the value of a contract, an entity shall take into account all forms of remuneration, such as premiums, fees, commissions and interests, as well as the maximum permitted total amount, including option clauses, provided for by the contract.

3. When, due to the nature of the contract, it is not possible to calculate in advance its precise value, entities shall estimate this value on the basis of objective criteria.

#### Article 142

##### **Transparency**

1. 2. Each Party shall promptly publish in the same manner all modifications to such measures.

#### Article 143

##### **Tendering procedures**

1. Entities shall award their public contracts by open or selective tendering procedures according to their national procedures, in compliance with this Title and in a non-discriminatory manner.

2. For the purposes of this Title:

- (a) open tendering procedures are those procedures whereby any interested supplier may submit a tender.

(b) selective tendering procedures are those procedures whereby, consistent with Article 144 and other relevant provisions of this Title, only suppliers satisfying qualification requirements established by the entities are invited to submit a tender.

3. However, in the specific cases and only under the conditions laid down in Article 145, entities may use a procedure other than the open or selective tendering procedures referred to in paragraph 1 of that Article, in which case the entities may choose not to publish a notice of intended procurement, and may consult the suppliers of their choice and negotiate the terms of contract with one or more of these.

4. Entities shall treat tenders in confidence. In particular, they shall not provide information intended to assist particular participants to bring their tenders up to the level of other participants.

#### *Article 144*

#### **Selective tendering**

1. In selective tendering, entities may limit the number of qualified suppliers they will invite to tender, consistent with the efficient operation of the procurement process, provided that they select the maximum number of domestic suppliers and suppliers of the other Party, and that they make the selection in a fair and non-discriminatory manner and on the basis of the criteria indicated in the notice of intended procurement or in tender documents.

2. Entities maintaining permanent lists of qualified suppliers may select suppliers to be invited to tender from among those listed, under the conditions of Article 146(7). Any selection shall allow for equitable opportunities for suppliers on the lists.

#### *Article 145*

#### **Other procedures**

1. Provided that the tendering procedure is not used to avoid maximum possible competition or to protect domestic suppliers, entities shall be allowed to award contracts by means other than an open or selective tendering procedure in the following circumstances and subject to the following conditions, where applicable:

(a) when no suitable tenders or request to participate have been submitted in response to a prior procurement, on condition that the requirements of the initial procurement are not substantially modified;

(b) when, for technical or artistic reasons, or for reasons connected with protection of exclusive rights, the contract may be performed only by a particular supplier and no reasonable alternative or substitute exists;

(c) for reasons of extreme urgency brought about by events unforeseeable by the entity, the goods or services could not be obtained in time by means of open or selective tendering procedures;

(d) for additional deliveries of goods or services by the original supplier where a change of supplier would compel the entity to procure equipment or services not meeting requirements of interchangeability with already existing equipment, software or services;

(e) when an entity procures prototypes or a first product or service which are developed at its request in the course of, and for, a particular contract for research, experiment, study or original development;

(f) when additional services which were not included in the initial contract but which were within the objectives of the original tender documentation have, through unforeseeable circumstances, become necessary to complete the services described therein. However, the total value of contracts awarded for the additional construction services may not exceed 50 % of the amount of the main contract;

(g) for new services consisting of the repetition of similar services and for which the entity has indicated, in the notice concerning the initial service, that tendering procedures other than open or selective might be used in awarding contracts for such new services;

(h) in the case of contracts awarded to the winner of a design contest, provided that the contest has been organised in a manner which is consistent with the principles of this Title; in case of several successful candidates, all successful candidates shall be invited to participate in the negotiations; and

(i) for quoted goods purchased on a commodity market and for purchases of goods made under exceptionally advantageous conditions which only arise in the very short term in the case of unusual disposals and not for routine purchases from regular suppliers.

2. The Parties shall ensure that, whenever it is necessary for entities to resort to a procedure other than the open or selective tendering procedures based on the circumstances set forth in paragraph 1, the entities shall maintain a record or

prepare a written report providing specific justification for the contract awarded under that paragraph.

#### Article 146

### Qualification of suppliers

1. Any conditions for participation in procurement shall be limited to those that are essential to ensure that the potential supplier has the capability to fulfil the requirements of the procurement and the ability to execute the contract in question.

2. In the process of qualifying suppliers, entities shall not discriminate between domestic suppliers and suppliers of the other Party.

3. A Party shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by an entity of that Party or that the supplier has prior work experience in the territory of that Party.

4. Entities shall recognise as qualified suppliers all suppliers who meet the conditions for participation in a particular intended procurement. Entities shall base their qualification decisions solely on the conditions for participation that have been specified in advance in notices or tender documentation.

5. Nothing in this Title shall preclude the exclusion of any supplier on grounds such as bankruptcy or false declarations or conviction for serious crime such as participation in criminal organisations.

6. Entities shall promptly communicate to suppliers that have applied for qualification their decision on whether or not they qualify.

#### Permanent lists of qualified suppliers

7. Entities may establish permanent lists of qualified suppliers provided that the following rules are respected:

- (a) entities establishing permanent lists shall ensure that suppliers may apply for qualification at any time.
- (b) any supplier having requested to become a qualified supplier shall be notified by the entities concerned of the decision in this regard.

(c) suppliers requesting to participate in a given intended procurement who are not on the permanent list of qualified suppliers shall be given the possibility to participate in the procurement by presenting the equivalent certifications and other means of proof requested from suppliers who are on the list.

(d) when an entity operating in the utilities sector uses a notice on the existence of a permanent list as a notice of intended procurement, as provided in Article 147(7), suppliers requesting to participate who are not on the permanent list of qualified suppliers shall also be considered for the procurement, provided there is sufficient time to complete the qualification procedure; in this event, the procuring entity shall promptly start procedures for qualification and the process of, and the time required for, qualifying suppliers shall not be used in order to keep suppliers of other Parties off the suppliers' list.

#### Article 147

### Publication of notices

#### General provisions

1. Each Party shall ensure that its entities provide for effective dissemination of the tendering opportunities generated by the relevant government procurement processes, providing suppliers of the other Party with all the information required to take part in such procurement.

2. For each contract covered by this Title, except as set out in Articles 143(3) and 145, entities shall publish in advance a notice inviting interested suppliers to submit tenders, or where appropriate, requests for participation for that contract.

3. The information in each notice of intended procurement shall include at least the following:

- (a) name, address, telefax number, electronic address of the entity and, if different, the address where all documents relating to the procurement may be obtained;
- (b) the tendering procedure chosen and the form of the contract;
- (c) a description of the intended procurement, as well as essential contract requirements to be fulfilled;
- (d) any conditions that suppliers must fulfil to participate in the procurement;

- (e) time-limits for submission of tenders and, where appropriate, other time limits;
- (f) main criteria to be used for award of the contract; and
- (g) if possible, terms of payment and any other terms.

#### **Notice of planned procurement**

4. Each Party shall encourage its entities to publish as early as possible in each fiscal year, a notice of planned procurement containing information regarding entities' future procurement plans. Such notice should include the subject matter of the procurement and the planned date of the publication of the notice of intended procurement.

5. Entities operating in the utilities sector may use a notice of planned procurement as a notice of intended procurement, under the condition that such notice contains as much of the information referred to in paragraph 3 as is available, and that it explicitly invites interested suppliers to express their interest in the procurement to the entity.

6. Entities having used a notice of planned procurement as a notice of intended procurement shall subsequently communicate to all suppliers who have expressed an initial interest further information that shall include, at least, the information referred to in paragraph 3 and ask them to confirm their interest on that basis.

#### **Notice regarding permanent lists of qualified suppliers**

7. Entities which intend to maintain permanent lists shall, consistently with paragraph 2, publish a notice which shall identify the entity, and indicate the purpose of the permanent list and the availability of the rules concerning its operation, including criteria for qualification and disqualification, as well as its duration.

8. Where the permanent list is of a duration greater than three years, the notice shall be published annually.

9. Entities operating in the utilities sector may use a notice on the existence of permanent lists of qualified suppliers as a notice of intended procurement. In that case, they shall provide, in a timely manner, information which allows all those who have expressed an interest to assess their interest in participating in the procurement. This information shall include the information contained in the notice referred to in

paragraph 3, to the extent that such information is available. Information provided to one interested supplier shall be provided in a non-discriminatory manner to the other interested suppliers.

#### **Common provisions**

10. Each notice referred to in this Article shall be accessible during the entire time period established for tendering for the relevant procurement.

11. Entities shall publish the notices in a timely manner through means which offer the widest possible and non-discriminatory access to the interested suppliers of the Parties. These means shall be accessible free of charge through a single point of access specified in Annex XIII, Appendix 2.

#### *Article 148*

#### **Tender documentation**

1. Tender documentation provided to suppliers shall contain all information necessary to permit them to submit responsive tenders.

2. Where contracting entities do not offer free direct access to the entire tender documents and any supporting documents by electronic means, entities shall make promptly available the tender documentation at the request of any supplier of the Parties.

3. Entities shall promptly reply to any reasonable request for relevant information relating to the intended procurement, on condition that such information does not give that supplier an advantage over its competitors.

#### *Article 149*

#### **Technical specifications**

1. Technical specifications shall be set out in the notices, tender documents or additional documents.

2. Each Party shall ensure that its entities do not prepare, adopt or apply any technical specifications with a view to, or with the effect of, creating unnecessary barriers to trade between the Parties.

3. Technical specifications prescribed by entities shall
- (a) be in terms of performance and functional requirements rather than design or descriptive characteristics; and
  - (b) be based on international standards, where these exist or, in their absence, on national technical regulations <sup>(1)</sup>, recognised national standards <sup>(2)</sup>, or building codes.
4. The provisions of paragraph 3 do not apply when the entity can objectively demonstrate that the use of technical specifications referred to in that paragraph would be ineffective or inappropriate for the fulfilment of the legitimate objectives pursued.
5. In all cases, entities shall consider bids which do not comply with the technical specifications but meet the essential requirements thereof and are fit for the purpose intended. The reference to technical specifications in the tender documents must include words such as 'or equivalent'.
6. There shall be no requirement for or reference to a particular trademark or trade name, patent, design or type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that words, such as 'or equivalent', are included in the tender documentation.
7. The tenderer shall have the burden of proving that his bid meets the essential requirements.

#### *Article 150*

qualifying. In determining any such time-limit, entities shall, consistent with their own reasonable needs, take into account such factors as the complexity of the intended procurement and the normal time for transmitting tenders from foreign as well as domestic points.

2. Each Party shall ensure that its entities shall take due account of publication delays when setting the final date for receipt of tenders or of request for participation or for qualifying for the supplier's list.

3. The minimum time-limits for the receipt of tenders are specified in Annex XIII, Appendix 3.

#### *Article 151*

#### **Negotiations**

1. A Party may provide for its entities to conduct negotiations:

- (a) in the context of procurements in which they have indicated such intent in the notice of intended procurement; or
- (b) when it appears from evaluation that no one tender is obviously the most advantageous in terms of the specific evaluation criteria set forth in the notices or tender documentation.

2. Negotiations shall primarily be used to identify the strengths and weaknesses in tenders.

3. Entities shall not, in the course of negotiations, discriminate between tenderers. In particular, they shall ensure that:

- (a) any elimination of participants is carried out in accordance with the criteria set forth in the notices and tender documentation;
- (b) all modifications to the criteria and to the technical requirements are transmitted in writing to all remaining participants in the negotiations; and
- (c) on the basis of the revised requirements and/or when negotiations are concluded, all remaining participants are afforded an opportunity to submit new or amended tenders in accordance with a common deadline.

#### *Article 152*

2. Entities shall receive and open bids from tenderers under procedures and conditions guaranteeing the respect of the principles of transparency and non-discrimination.

#### *Article 153*

#### **Awarding of contracts**

1. To be considered for award, a tender must, at the time of opening, conform to the essential requirements of the notices or tender documentation and be submitted by a supplier which complies with the conditions for participation.

2. Entities shall make the award to the tenderer whose tender is either the lowest tender or the tender which, in terms of the specific objective evaluation criteria previously set forth in the notices or tender documentation, is determined to be the most advantageous.

#### *Article 154*

#### **Information on contract award**

1. Each Party shall ensure that its entities provide for effective dissemination of the results of government procurement processes.

2. Entities shall promptly inform tenderers of decisions regarding the award of the contract and of the characteristics and relative advantages of the selected tender. Upon request, entities shall inform any eliminated tenderer of the reasons for the rejection of its tender.

3. Entities may decide to withhold certain information on the contract award where release of such information would prevent law enforcement or otherwise be contrary to the public interest, would prejudice the legitimate commercial interests of suppliers, or might prejudice fair competition between them.

#### *Article 155*

#### **Bid challenges**

1. Entities shall accord impartial and timely consideration to any complaints from suppliers regarding an alleged breach of this Title in the context of a procurement procedure.

2. Each Party shall provide non-discriminatory, timely, transparent and effective procedures enabling suppliers to challenge alleged breaches of this Title arising in the context of procurements in which they have, or have had, an interest.

3. Challenges shall be heard by an impartial and independent reviewing authority. A reviewing authority which is not a court shall either be subject to judicial review or shall have procedural guarantees similar to those of a court.

4. Challenge procedures shall provide for:

(a) rapid interim measures to correct breaches of this Title and to preserve commercial opportunities. Such action may result in suspension of the procurement process. However, procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account in deciding whether such measures should be applied; and

(b) if appropriate, correction of the breach of this Title or, in the absence of such correction, compensation for the loss or damages suffered, which may be limited to costs for tender preparation and protest.

#### *Article 156*

#### **Information technology**

1. The Parties shall, to the extent possible, endeavour to use electronic means of communication to permit efficient dissemination of information on government procurement, particularly as regards tender opportunities offered by entities, while respecting the principles of transparency and non-discrimination.

2. With a view to improving access to government procurement markets, each Party shall endeavour to implement an electronic information system, which is compulsory for their respective entities.

3. The Parties shall encourage the use of electronic means for the transmission of offers.

#### *Article 157*

#### **Cooperation and assistance**

The Parties shall endeavour to provide each other with technical cooperation and assistance through the development of training programs with a view to achieving a better understanding of their respective government procurement systems and statistics and better access to their respective markets.

#### *Article 158*

#### **Statistical reports**

Where a Party does not ensure an acceptable level of compliance with Article 147(11), it shall, upon request of the

other Party, collect and provide to the other Party on an annual basis statistics on its procurements covered by this Title. Such reports shall contain the information established in Annex XIII, Appendix 4.

#### Article 159

##### **Modifications to coverage**

1. Either Party may modify its coverage under this Title, provided that it:

3. Where appropriate, the Association Committee shall by decision modify the relevant Annex to reflect the modification notified by the Party concerned.

#### Article 160

##### **Further negotiations**

If either Party should offer in the future a third party additional advantages with regard to access to their respective procurement markets beyond what has been agreed under this Title, it shall agree to enter into negotiations with the other Party with a view to extending these advantages to it on a reciprocal basis by means of a decision of the Association Committee.

#### Article 161

##### **Exceptions**

Provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable

discrimination between the Parties or a disguised restriction on trade between them, nothing in this Title shall be construed to prevent any Party from adopting or maintaining measures:

- (a) necessary to protect public morals, order or safety;
- (b) necessary to protect human life, health or security;
- (c) necessary to protect animal or plant life or health;
- (d) necessary to protect intellectual property; or

*Article 172*

### **Objectives**

1. The Parties undertake to apply their respective competition laws in a manner consistent with this Part of the Agreement so as to avoid the benefits of the liberalisation process in goods and services being diminished or cancelled out by anti-competitive business conduct. To this end, the Parties agree to cooperate and coordinate among their competition authorities under the provisions of this Title.

2. With a view to preventing distortions or restrictions of competition which may affect trade in goods or services between them, the Parties shall give particular attention to anti-competitive agreements, concerted practices and abusive behaviour resulting from single or joint dominant positions.

3. The Parties agree to cooperate and coordinate among themselves for the implementation of competition laws. This cooperation includes notification, consultation, exchange of non-confidential information and technical assistance. The Parties acknowledge the importance of embracing principles on competition that would be accepted by both Parties in multilateral fora, including the WTO.

*Article 173*

### **Definitions**

For the purpose of this Title:

1. 'competition laws' includes:

If the competition authority of a Party considers that an investigation or proceeding being conducted by the competition authority of the other Party may adversely affect such Party's important interests it may transmit its views on the matter to, or request consultation with, the other competition authority. Without prejudice to the continuation of any action under its competition laws and to its full freedom of ultimate decision, the competition authority so addressed should give full and sympathetic consideration to the views expressed by the requesting competition authority.

*Article 174*

### **Notifications**

- (c) concerns anti-competitive acts taking place principally in the territory of the other Party.

2. The competition authority of a Party which considers that the interests of that Party are being substantially and adversely affected by anti-competitive practices of whatever origin that are or have been engaged in by one or more enterprises situated in the other Party may request consultations with the competition authority of that Party. Such consultations shall be without prejudice to the full freedom of ultimate decision of the competition authority concerned. A competition authority so consulted may take whatever corrective measures under its competition laws it deems appropriate, consistent with its own domestic law, and without prejudice to its full enforcement discretion.

2. Provided that this is not contrary to the Parties' competition laws and does not affect any investigation being carried out, notification shall take place at an early stage of the procedure. The opinions received may be taken into consideration by the other competition authority when taking decisions.

*Article 177*

3. The notifications provided for in paragraph 1 should be detailed enough to permit an evaluation in the light of the interests of the other Party.

### **Exchange of information and confidentiality**

4. The Parties undertake to use their best efforts to ensure that notifications are made in the circumstances set out above, taking into account the administrative resources available to them.

1. With a view to facilitating the effective application of their respective competition laws, the competition authorities may exchange non-confidential information.

2. For the purpose of improving transparency, and without prejudice to the rules and standards of confidentiality applicable in each Party, the Parties hereby undertake to

exchange information regarding sanctions and remedies applied in the cases that, according to the competition authority concerned, are significantly affecting important interests of the other Party and to provide the grounds on which those actions were taken, when requested by the competition authority of the other Party.

3. Each Party shall provide the other Party with information on state aid on an annual basis, including the overall amount of aid and, if possible, the segregation by sector. Each Party may request information on individual cases affecting trade between the Parties. The requested Party will use its best efforts to provide non-confidential information.

4. All exchange of information shall be subject to the standards of confidentiality applicable in each Party. Confidential information whose dissemination is expressly prohibited or which, if disseminated, could adversely affect the interest of the Parties, shall not be provided without the express consent of the source of the information.

5. Each competition authority shall maintain the confidentiality of any information provided to it in confidence by the other competition authority, and oppose any application for disclosure of such information by a third party that is not authorised by the competition authority that supplied the information.

6. In particular, where the laws of a Party so provides, confidential information may be provided to their respective courts of justice, subject to maintaining its confidentiality by the respective courts.

*Article 178*

**Technical assistance**

The Parties may provide each other technical assistance in order to take advantage of their respective experience and to strengthen the implementation of their competition laws and policies.

*Article 179*

**Public enterprises and enterprises entrusted with special or exclusive rights, including designated monopolies**

1. Nothing in this Title prevents a Party from designating or maintaining public or private monopolies according to their respective laws.

2. With regard to public enterprises and enterprises to which special or exclusive rights have been granted, the Association Committee shall ensure that, following the date of entry into force of this Agreement, there is neither enacted nor maintained any measure distorting trade in goods or services between the Parties to an extent contrary to the Parties'

interests and that such enterprises shall be subject to the rules of competition insofar as the application of such rules does not obstruct the performance, in law or in fact, of the particular tasks assigned to them.

*Article 180*

**Dispute settlement**

Neither Party may have recourse to dispute settlement under this Agreement for any matter arising under this Title.

TITLE VIII

**DISPUTE SETTLEMENT**

CHAPTER I

**OBJECTIVE AND SCOPE**

*Article 181*

**Objective**

The objective of this Title is to avoid and settle disputes between the Parties concerning the good faith application of this Part of the Agreement and to arrive to a mutually satisfactory resolution of any matter that might affect its operation.

*Article 182*

**Scope**

The provisions of this Title shall apply with respect to any matter arising from the interpretation and application of this Part of the Agreement, except otherwise expressly provided.

CHAPTER II

**DISPUTE AVOIDANCE**

*Article 183*

**Consultations**

1. The Parties shall at all times endeavour to agree on the interpretation and application of this Part of the Agreement and shall make every attempt through cooperation and consultations to avoid and settle disputes between them and to arrive at a mutually satisfactory resolution of any matter that might affect its operation.

2. Each Party may request consultations within the Association Committee with respect to an existing or proposed measure or any matter relating to the application or interpretation of this Part of the Agreement or any other matter that it considers might affect its operation. For the purposes of this Title, a 'measure' shall also include a practice. The Party shall state in the request the measure or other matter complained of, indicate the provisions of this Agreement that it considers applicable and deliver the request to the other Party.

3. The Association Committee shall convene within 30 days of delivery of the request. Upon initiation of consultations, the Parties shall provide information to enable the examination of how the measure or any other matter might affect the operation and application of this Part of the Agreement, and give confidential treatment to the information exchanged during consultations. The Association Committee shall endeavour to resolve the dispute promptly by means of a decision. That decision shall specify the implementing measures to be taken by the Party concerned, and the timeframe for doing so.

#### CHAPTER III

#### DISPUTE SETTLEMENT PROCEDURE

##### *Article 184*

#### **Initiation of the procedure**

1. Parties shall at all times endeavour to reach a mutually satisfactory agreement on the dispute.

2. Where a Party considers that an existing measure of the other Party is in breach of an obligation under the provisions referred to in Article 182 and such matter has not been resolved within 15 days after the Association Committee has convened pursuant to Article 183(3) or 45 days after the delivery of the request for consultations within the Association Committee, whichever is earlier, it may request in writing the establishment of an arbitration panel.

3. The complaining Party shall state in the request the existing measure it considers to be in breach of this Part of the Agreement and indicate the provisions of this Agreement that it considers relevant, and shall deliver the request to the other Party and to the Association Committee.

##### *Article 185*

#### **Appointment of arbitrators**

1. Arbitration panels shall consist of three arbitrators.

2. The Association Committee shall, no later than six months after the entry into force of this Agreement, establish a list of at least 15 individuals who are willing and able to serve as arbitrators, a third of whom must not be national of either Party and are identified as chairperson of arbitration panels. The Association Committee shall ensure that the list always contains 15 individuals at any point in time. Those individuals shall have specialised knowledge or experience in law, international trade or other matters relating to this Part of the Agreement or in the resolution of disputes deriving from international trade agreements, be independent, serve in their individual capacities and not be affiliated with, nor take instructions from, any Party or organisation and shall comply with the Code of Conduct set out in Annex XVI. Such list may be amended every three years.

3. Within three days of the request for the establishment of the arbitration panel, the three arbitrators shall be selected by lot by the chairperson of the Association Committee from the list referred to in paragraph 2, one among the individuals proposed to the Association Committee by the complaining Party, one among the individuals proposed to the Association Committee by the Party complained against and the chairperson among the individuals identified for that purpose under paragraph 2.

4. The date of establishment of the arbitration panel shall be the date on which the three arbitrators are selected by lot.

5. Where a Party considers that an arbitrator does not comply with the requirements of the Code of Conduct, the Parties shall consult and, if so agreed, they shall replace that arbitrator and select a new one pursuant to paragraph 6.

6. If an arbitrator is unable to participate in the proceeding, withdraws or is replaced, a replacement shall be selected within three days in accordance with the selection procedure followed to select that arbitrator. In such a case, any timeframe applicable to the arbitration panel proceeding shall be suspended for a period beginning on the date the arbitrator is unable to participate in the proceeding, withdraws or is replaced and ending on the date the replacement is selected.

##### *Article 186*

#### **Information and technical advice**

At the request of a Party or on its own initiative, the panel may obtain the information and technical advice of persons and bodies that it deems appropriate. Any information so obtained shall be submitted to the Parties for comments.

*Article 187***Arbitration panel ruling**

1. The arbitration panel shall transmit its ruling containing its findings and conclusions to the Parties and the Association Committee, as a general rule not later than three months from the date of establishment of the arbitration panel. In no case should it do so later than five months from this date. The arbitration panel shall base its ruling on the submissions and communications of the Parties and on any information it has received pursuant to Article 186. The ruling is final and shall be publicly available.

2. The ruling shall set out the findings of fact, the applicability of the relevant provisions of this Agreement and the basic rationale behind any findings and conclusions that it makes.

3. Arbitration panels shall interpret the provisions of this Agreement in accordance with customary rules of interpretation of public international law, due account being taken of the fact that the Parties must perform this Agreement in good faith and avoid circumvention of their obligations.

4. A Party asserting that a measure of the other Party is inconsistent with the provisions of this Part of the Agreement shall have the burden of establishing such inconsistency. A Party asserting that a measure is subject to an exception under this Part of the Agreement shall have the burden of establishing that the exception applies.

5. In cases of urgency, including those involving perishable goods, the arbitration panel shall make every effort to issue its ruling to the Parties within 75 days from the date of establishment of the arbitration panel. In no case should it do so later than four months from that date. The arbitration panel may give a preliminary ruling on whether a case is urgent.

6. All decisions of the arbitration panel, including the adoption of the ruling and of any preliminary ruling, shall be taken by majority vote.

7. The complaining Party may, with the agreement of the Party complained against, withdraw its complaint at any time before the ruling is transmitted to the Parties and the Association Committee. Such withdrawal is without prejudice to its right to introduce a new complaint regarding the same matter at a later point in time.

8. The arbitration panel may, with the agreement of the Party complained against, suspend its work at any time at the request of the complaining Party for a period not to exceed 12 months. In the event of such a suspension, the time-frames set out in paragraphs 1 and 5 shall be extended by the amount of time that the work was suspended. If the work of the panel has been suspended for more than 12 months, the authority

for establishment of the panel shall lapse, without prejudice to the right of the complaining Party to request at a later stage the establishment of an arbitration panel on the same subject matter.

*Article 188***Compliance**

1. Each Party shall be bound to take the measures necessary to comply with the ruling of the arbitration panel.

2. The Parties shall endeavour to agree on the specific measures that are required for complying with the ruling.

3. Within 30 days after the ruling has been transmitted to the Parties and the Association Committee, the Party complained against shall notify the other Party:

- (a) of the specific measures required for complying with the ruling;
- (b) of the reasonable timeframe for doing so; and
- (c) of a concrete proposal for a temporary compensation until the full implementation of the specific measures required for compliance with the ruling.

4. In the event of disagreement between the Parties on the content of such notification, the complaining Party shall request the original arbitration panel to rule on whether the proposed measures referred to under paragraph 3(a) would be consistent with this Part of the Agreement, on the duration of the timeframe and on whether the compensation proposal is manifestly disproportionate. The ruling shall be given within 45 days after that request.

5. The Party concerned shall notify to the other Party and to the Association Committee the implementing measures adopted in order to put an end to the violation of its obligations under this Part of the Agreement, before the expiry of the reasonable timeframe agreed by the Parties or determined in accordance with paragraph 4. Upon that notification, that other Party may request the original arbitration panel to rule on the conformity of those measures with this Part of the Agreement if they are not similar to the measures which the arbitration panel, acting under paragraph 4, has ruled that they would be consistent with this Part of the Agreement. The ruling of the arbitration panel shall be given within 45 days from that request.

6. If the Party concerned fails to notify the implementing measures before the expiry of the reasonable timeframe or if the arbitration panel rules that the implementing measures notified by the Party concerned are inconsistent with its obligations under this Part of the Agreement, the complaining Party shall, if no agreement on compensation has been found,

be entitled to suspend the application of benefits granted under this Part of the Agreement equivalent to the level of nullification and impairment caused by the measure found to violate this Part of the Agreement.

7. In considering what benefits to suspend, a complaining Party should first seek to suspend benefits in the same Title or Titles of this Part of the Agreement as that affected by the measure that the arbitration panel has found to violate this Part of the Agreement. A complaining Party that considers that it is not practicable or effective to suspend benefits in the same Title or Titles may suspend benefits in other Titles, provided it submits written justification. In the selection of the benefits to suspend, priority must be given to those which least disturb the functioning of this Agreement.

8. The complaining Party shall notify the other Party and the Association Committee of the benefits which it intends to suspend. Within five days from that notification, the other Party may request the original arbitration panel to rule on whether the benefits which the complaining Party intends to suspend are equivalent to the level of nullification and impairment caused by the measure found to violate this Part of the Agreement, and whether the proposed suspension is in accordance with paragraph 7. The ruling of the arbitration panel shall be given within 45 days from that request. Benefits shall not be suspended until the arbitration panel has issued its ruling.

9. The suspension of benefits shall be temporary and shall only be applied by the complaining Party until the measure found to violate this Part of the Agreement has been withdrawn or amended so as to bring it into conformity with this Part of the Agreement, or the Parties have reached agreement on a resolution of the dispute.

10. At the request of any of the Parties, the original arbitration panel shall rule on the conformity with this Part of the Agreement of any implementing measures adopted after the suspension of benefits and, in the light of such ruling, whether the suspension of benefits should be terminated or modified. The ruling of the arbitration panel shall be given within 45 days from the date of that request.

11. The rulings provided for in this Article shall be final and binding. They shall be transmitted to the Association Committee and be publicly available.

#### CHAPTER IV

#### **General provisions**

1. Any time-period mentioned in this Title may be modified by mutual agreement of the Parties.

2. Unless the Parties otherwise agree, the procedure before the arbitration panel shall be governed by the Model Rules of Procedure set out in Annex XV. (d) Once dispute settlement procedures have been initiated, the forum selected, if it has not declined its jurisdiction, shall be used to the exclusion of the other. Any question on the jurisdiction of the arbitration panels established under this Title shall be raised within 10 days of the establishment of the panel, and shall be settled by a preliminary ruling of the panel within 30 days of the establishment of the panel.

#### *Article 5*

#### **Sufficiently worked or processed products**

1. For the purposes of Article 2, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the list in Appendix II are fulfilled.

The conditions referred to above indicate, for all products covered by this Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials.

Accordingly, it follows that if a product, which has acquired originating status by fulfilling the conditions set out in Appendix II is used in the manufacture of another product, the conditions applicable to the resulting product do not apply to the incorporated product, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, the products which are not wholly obtained and listed in Appendix II (a) are considered to be sufficiently worked or processed when the conditions set out in the list in Appendix II (a) are fulfilled. The provisions of this paragraph shall apply for three years following the entry into force of this Agreement.

3. Notwithstanding paragraphs 1 and 2, non-originating materials which, according to the conditions set out in Appendix II or Appendix II(a), should not be used in the manufacture of a product may nevertheless be used, provided that:

- (a) their total value does not exceed 10 per cent of the ex-works price of the product;
- (b) any of the percentages given in Appendix II or in Appendix II(a) for the maximum value of non-originating materials are not exceeded through the application of this paragraph.

4. Paragraphs 1, 2 and 3 shall apply except as provided in Article 6.

*Article 6*

- (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonised System in a single heading, the whole constitutes the unit of qualification;

(b) when a consignment consists of a number of identical products classified under the same heading of the Harmonised System, each product must be taken individually when applying the provisions of this Annex.

2. Where, under General Rule 5 of the Harmonised System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin. Any other packaging shall not be included for the purposes of determining origin.

#### *Article 8*

  - (b) in the cases specified in Article 20(1), a declaration, subsequently referred to as the 'invoice declaration', given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified. The text of the invoice declaration appears in Appendix IV.
2. Notwithstanding paragraph 1, originating products within the meaning of this Annex shall, in the cases specified in Article 25, benefit from this Agreement without it being necessary to submit any of the documents referred to above.

*Article 16***Procedure for the issue of a movement certificate EUR.1**

1. A movement certificate EUR.1 shall be issued by the customs authorities or competent governmental authorities of the exporting country on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorised representative.

2. The procedure for the completion of both the movement certificate EUR.1 and the application form is set out in Appendix III.
3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities or competent governmental authorities of the exporting country where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Annex.
4. A movement certificate EUR.1 shall be issued by the customs authorities or competent governmental authorities of a Member State of the Community or Chile if the products concerned can be considered as products originating in the Community or Chile and fulfil the other requirements of this Annex.
5. The issuing customs authorities or competent governmental authorities shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Annex. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. The issuing customs authorities or competent governmental authorities shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.
6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the certificate.
7. A movement certificate EUR.1 shall be issued by the customs authorities or competent governmental authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

#### *Article 17*

#### **Movement certificate EUR.1 issued retrospectively**

1. Notwithstanding Article 16(7), a movement certificate EUR.1 may exceptionally be issued after exportation of the products to which it relates if:
  - (a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances,
  - or
  - (b) it is demonstrated to the satisfaction of the customs authorities or competent governmental authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.
2. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates and state the reasons for his request.
3. The customs authorities or competent governmental authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.
4. Movement certificates EUR.1 issued retrospectively must be endorsed with one of the following phrases:
 

‘NACHTRÄGLICH AUSGESTELLT’, ‘DÉLIVRÉ A POSTERIORI’, ‘RILASCIATO A POSTERIORI’, ‘AFGEGEVEN A POSTERIORI’, ‘ISSUED RETROSPECTIVELY’, ‘UDSTEDT EFTERFØLGENDE’, ‘ΕΚΔΟΘΕΝ ΕΚ ΤΩΝ ΥΣΤΕΡΩΝ’, ‘EXPEDIDO A POSTERIORI’, ‘EMITIDO A POSTERIORI’, ‘ANNETTU JÄLKIKÄTEEN’, ‘UTFÄRDAT I EFTERHAND’.
5. The endorsement referred to in paragraph 4 shall be inserted in the ‘Remarks’ box of the movement certificate EUR.1.

#### *Article 18*

#### **Issue of a duplicate movement certificate EUR.1**

1. In the event of theft, loss or destruction of a movement certificate EUR.1, the exporter by stating the reasons for his request may apply to the customs authorities or competent governmental authorities which issued it for a duplicate made out on the basis of the export documents in their possession.

2. The duplicate issued in this way must be endorsed with one of the following words:

'DUPLIKAT', 'DUPLICATA', 'DUPLICATO', 'DUPLICAAT', 'DUPLICATE', 'ΑΝΤΙΓΡΑΦΟ', 'DUPLICADO', 'SEGUNDA VIA', 'KAKSOISKAPPALE'.

3. The endorsement referred to in paragraph 2 shall be inserted in the 'Remarks' box of the duplicate movement certificate EUR.1.

4. The duplicate, which must bear the date of issue of the original movement certificate EUR.1, shall take effect as from that date.

#### Article 19

##### **Issue of movement certificates EUR.1 on the basis of a proof of origin issued or made out previously**

When originating products are placed under the control of a customs office in the Community or in Chile, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 for the purpose of sending all or some of these products elsewhere within the Community or Chile. The replacement movement certificate(s) EUR.1 shall be issued by the customs office of first entry in the Community or in Chile under whose control the products are placed.

#### Article 20

##### **Conditions for making out an invoice declaration**

1. An invoice declaration as referred to in Article 15(1)(b) may be made out:

(a) by an approved exporter within the meaning of Article 21;

or

(b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6 000.

2. An invoice declaration may be made out if the products concerned can be considered as products originating in the Community or in Chile and fulfil the other requirements of this Annex.

3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs authorities or competent governmental authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Annex.

4. An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Appendix IV. Specific requirements as for the making out of an invoice declaration are set out in Appendix IV.

5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 21 shall not be required to sign such declarations provided that he gives the customs authorities or competent governmental authorities of the exporting country a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.

6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented to the customs authorities of the importing country no longer than two years after the importation of the products to which it relates.

#### Article 21

##### **Approved exporter**

1. The customs authorities or competent governmental authorities of the exporting country may authorise any exporter, hereinafter referred to as 'approved exporter', who makes frequent shipments of originating products under this Agreement to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the customs authorities or competent governmental authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Annex.

2. The customs authorities or competent governmental authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.
3. The customs authorities or competent governmental authorities shall grant to the approved exporter a customs authorisation number, which shall appear on the invoice declaration.
4. The customs authorities or competent governmental authorities shall monitor the use of the authorisation by the approved exporter.
5. The customs authorities or competent governmental authorities may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, no longer fulfils the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

#### *Article 22*

### **Validity of proof of origin**

1. A proof of origin as referred to in Article 15(1) shall be valid for ten months from the date of issue in the exporting country and must be submitted within the said period to the customs authorities of the importing country.
2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted to them before the said final date.
4. In accordance with the internal legislation of the importing country, preferential treatment may also be granted, where applicable by repayment of duties, within a period of at least two years from the date of acceptance of the import declaration, where a proof of origin is produced indicating that the imported goods were at that date eligible for preferential tariff treatment.

#### *Article 23*

### **Submission of proof of origin**

1. Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin, which can be drawn up by the importer. They may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.
2. The requirements mentioned in paragraph 1 relating to translation and the statement by the importer shall not be systematic and should only be imposed with a view to clarifying the submitted information or to ensuring that the importer endorses the full responsibility for the declared origin.

#### *Article 24*

### **Importation by instalments**

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonised System classified within Sections XVI and XVII or headings 7308 and 9406 of the Harmonised System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

#### *Article 25*

### **Exemptions from proof of origin**

1. Products sent from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Annex and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on the customs declaration CN22/CN23 or other certificates established by the Universal Postal Union, or on a sheet of paper annexed to that document.

2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. Furthermore, the total value of these products shall not exceed EUR 500, in the case of products sent from private persons to private persons or EUR 1 200, in the case of products forming part of travellers' personal luggage.

#### Article 26

##### **Supporting documents**

The documents referred to in Articles 16(3) and 20(3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in the Community or in Chile and fulfil the other requirements of this Annex may consist inter alia of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal book-keeping;
- (b) documents proving the originating status of materials used, issued or made out in the Community or Chile where these documents are used in accordance with the internal legislation;
- (c) documents proving the working or processing of materials in the Community or Chile, issued or made out in the Community or Chile, where these documents are used in accordance with the internal legislation;
- (d) movement certificates EUR.1 or invoice declarations proving the originating status of materials used, issued or made out in the Community or Chile in accordance with this Annex.

#### Article 27

##### **Preservation of proof of origin and supporting documents**

1. The exporter applying for the issue of a movement certificate EUR.1 shall keep for at least three years the documents referred to in Article 16(3).
2. The exporter making out an invoice declaration shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 20(3).
3. The customs authorities or competent governmental authorities of the exporting country issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 16(2).
4. The customs authorities in the Community shall keep for at least three years the movement certificates EUR.1 and the invoice declarations submitted to them on importation. The customs authorities of Chile must have at their disposal for five years the movement certificates EUR.1 and the invoice declarations submitted to them on importation.

#### Article 28

##### **Discrepancies and formal errors**

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

*Article 29***Amounts expressed in euro**

1. For the application of the provisions of Article 20(1)(b) and Article 25(3) in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the Member States of the Community or Chile equivalent to the amounts expressed in euro shall be fixed annually by each of the countries concerned.
2. A consignment shall benefit from the provisions of Article 20(1)(b) or Article 25(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.
3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the Commission of the European Communities by 15 October and shall apply from 1 January the following year. The Commission of the European Communities shall notify all countries concerned of the relevant amounts.
4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 per cent. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 per cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.
5. The amounts expressed in euro shall be reviewed by the Association Committee at the request of the Community or Chile. When carrying out this review, the Association Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

## TITLE VI

**ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION***Article 30***Mutual assistance**

1. The customs authorities or competent governmental authorities of the Member States of the Community and of Chile shall provide each other, through the Commission of the European Communities, with specimen impressions of stamps used in their customs offices or competent governmental authorities for the issue of movement certificates EUR.1 and with the addresses of the customs authorities or competent governmental authorities responsible for verifying those certificates and invoice declarations.
2. In order to ensure the proper application of this Annex, the Community and Chile shall assist each other, through their respective administrations, in checking the authenticity of the movement certificates EUR.1 or the invoice declarations and the correctness of the information given in these documents.

*Article 31***Verification of proofs of origin**

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Annex.
2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities or competent governmental authorities of the exporting country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.
3. The verification shall be carried out by the customs authorities or competent governmental authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in the Community or in Chile and fulfil the other requirements of this Annex.

6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

#### *Article 32*

### **Resolution of disputes**

Where disputes arise in relation to the verification procedures of Article 31, which cannot be settled between the customs authorities requesting a verification and the customs authorities or competent governmental authorities responsible for carrying out this verification, or where they raise a question as to the interpretation of this Annex, they shall be submitted to the Special Committee on Customs Cooperation and Rules of Origin.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall be under the legislation of the said country.

#### *Article 33*

### **Penalties**

Penalties may be imposed in accordance with internal legislation for infringement to provisions of this Annex. In particular, penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

#### *Article 34*

### **Confidentiality**

In accordance with the applicable internal legislation, each Party shall treat as confidential the information submitted under the provisions of this Annex by a person or authority of the other Party when such information is designated by that Party as confidential. Accordingly, access to the said information may be refused where disclosure would undermine the protection of the commercial interest of the person that submitted the information.

#### *Article 35*

### **Free zones**

1. The Community and Chile shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By means of an exemption from paragraph 1, when products originating in the Community or in Chile are entered into a free zone of the exporting country under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request, if the treatment or processing undergone is in conformity with the provisions of this Annex.

## TITLE VII

### **CEUTA AND MELILLA**

#### *Article 36*

### **Application of this Annex**

1. The term 'Community' used in Article 2 does not cover Ceuta and Melilla.

2. Products originating in Chile, when imported into Ceuta or Melilla, shall enjoy in all respects the same customs regime as that which is applied to products originating in the customs territory of the Community under Protocol 2 of the 'Act of Accession of the Kingdom of Spain and the Portuguese Republic to the European Communities'. Chile shall grant to imports of products covered by this Agreement and originating in Ceuta and Melilla the same customs regime as that which is granted to products imported from and originating in the Community.

3. For the purpose of the application of paragraph 2 concerning products originating in Ceuta and Melilla, this Annex shall apply *mutatis mutandis* subject to the special conditions set out in Article 37.

#### Article 37

(1) products originating in Ceuta and Melilla:

(a) products wholly obtained in Ceuta and Melilla;

(b) products obtained in Ceuta and Melilla in the manufacture of which products other than those referred to in (a) are used, provided that:

(i) the said products have undergone sufficient working or processing within the meaning of Article 5; or that

(ii) those products are originating in Chile or the Community within the meaning of this Annex, provided that they have been submitted to working or processing which goes beyond the insufficient working or processing referred to in Article 6.

(2) products originating in Chile:

(a) products wholly obtained in Chile;

(b) products obtained in Chile, in the manufacture of which products other than those referred to in (a) are used, provided that:

(i) the said products have undergone sufficient working or processing within the meaning of Article 5; or that

(ii) those products are originating in Ceuta and Melilla or the Community within the meaning of this Annex, provided that they have been submitted to working or processing which goes beyond the insufficient working or processing referred to in Article 6.

2. Ceuta and Melilla shall be considered as a single territory.

3. The exporter or his authorised representative shall enter 'Chile' and 'Ceuta and Melilla' in Box 2 of movement certificates EUR.1 or on invoice declarations. In addition, in the case of products originating in Ceuta and Melilla, this shall be indicated in Box 4 of movement certificates EUR.1 or on invoice declarations.

4. The Spanish customs authorities shall be responsible for the application of this Annex in Ceuta and Melilla.

#### TITLE VIII

#### FINAL PROVISIONS

*Article 39***Explanatory Notes**

The Parties shall agree on the 'Explanatory Notes' regarding the interpretation, application and administration of this Annex within the Special Committee on Customs Cooperation and Rules of Origin.

*Article 40***Transitional provision for goods in transit or storage**

The provisions of this Agreement may be applied to goods which comply with the provisions of this Annex and which on the date of entry into force of this Agreement are either in transit or are in the Community or in Chile in temporary storage in customs warehouses or in free zones, subject to the submission to the customs authorities of the importing country, within four months of the said date, of a movement certificate EUR.1 issued retrospectively by the customs authorities or competent governmental authorities of the exporting country together with the documents showing that the goods have been transported directly in accordance with the provisions of Article 12.

*Appendix I***INTRODUCTORY NOTES TO THE LIST IN APPENDIX II AND APPENDIX II(a)****Note 1:**

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 5 of this Annex.

**Note 2:**

- 2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonised System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an 'ex', this signifies that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 or 4 apply to all products which, under the Harmonised System, are classified in headings of the chapter or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.
- 2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 is to be applied.

**Note 3:**

- 3.1. The provisions of Article 5 of this Annex, concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the Community or in Chile.

*Example:*

An engine of heading 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 % of the ex-works price, is made from 'other alloy steel roughly shaped by forging' of heading ex 7224.

If this forging has been forged in the Community from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading ex 7224 in the list. The forging can then count as originating in the value-calculation for the engine, regardless of whether it was produced in the same factory or in another factory in the Community. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2. The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.
- 3.3. Without prejudice to Note 3.2, where a rule uses the expression 'Manufacture from materials of any heading', then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

However, the expression 'Manufacture from materials of any heading, including other materials of heading ...' or 'Manufacture from materials of any heading, including other materials of the same heading as the product' means that materials of any heading(s) may be used, except those of the same description as the product as given in column 2 of the list.

- 3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

*Example:*

The rule for fabrics of headings 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other, or both.

- 3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

*Example:*

The rule for prepared foods of heading 1904, which specifically excludes the use of cereals and their derivatives, does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

*Example:*

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth — even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn — that is, the fibre stage.

- 3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

**Note 4:**

- 4.1. The term 'natural fibres' is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.
- 4.2. The term 'natural fibres' includes horsehair of heading 0503, silk of headings 5002 and 5003, as well as wool-fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable fibres of headings 5301 to 5305.
- 4.3. The terms 'textile pulp', 'chemical materials' and 'paper-making materials' are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 4.4. The term 'man-made staple fibres' is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

**Note 5:**

- 5.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10 % or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4)
- 5.2. However, the tolerance mentioned in Note 5.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus Agave,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current-conducting filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of poly(phenylene sulphide),
- synthetic man-made staple fibres of poly(vinyl chloride),
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,

- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading 5605.

*Example:*

A yarn, of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp) may be used, provided that their total weight does not exceed 10 % of the weight of the yarn.

*Example:*

A woollen fabric, of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin-rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used, provided that their total weight does not exceed 10 % of the weight of the fabric.

*Example:*

Tufted textile fabric, of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is a only mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

*Example:*

If the tufted textile fabric concerned had been made from cotton yarn of heading 5205 and synthetic fabric of heading 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

- 5.3. In the case of products incorporating 'yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped', this tolerance is 20 % in respect of this yarn.
- 5.4. In the case of products incorporating 'strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film', this tolerance is 30 % in respect of this strip.

**Note 6:**

- 6.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.
- 6.2. Without prejudice to Note 6.3, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

*Example:*

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

- 6.3. Where a percentage-rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

**Note 7:**

7.1. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the 'specific processes' are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation-process <sup>(1)</sup>,
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation.

7.2. For the purposes of headings 2710, 2711 and 2712, the 'specific processes' are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation-process <sup>(1)</sup>,
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (ij) isomerisation;
- (k) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85 % of the sulphur-content of the products processed (ASTM D 1266—59 T method);
- (l) in respect of products of heading 2710 only, deparaffining by a process other than filtering;
- (m) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 °C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
- (n) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;
- (o) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush-discharge;
- (p) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0,75 % of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.

<sup>(1)</sup> See introductory Note 7.4.

- 7.3. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, water-separation, filtering, colouring, marking, obtaining a sulphur-content as a result of mixing products with different sulphur-contents, or any combination of these operations or like operations, do not confer origin.
- 7.4. Redistillation by a very thorough fractionation process means distillation (other than topping) by a continuous or batch process employed in industrial installations using distillates of subheading Nos 2710 11 to 2710 99, 2711 11, 2711 12 to 2711 19, 2711 21 and 2711 29 (other than propane of a purity of 99 % or more) to obtain:
  1. isolated high-purity hydrocarbons (90 % or more in the case of olefins and 95 % or more in the case of other hydrocarbons), mixtures of isomers having the same organic composition being regarded as isolated hydrocarbons;

only those process by means of which at least three different products are obtained are admissible, but this restriction does not apply in any instance where the process consists in the separation of isomers. In so far this concerns xylenes, ethylbenzene is included with xylene isomers;
  2. Products of subheading Nos 2707 10 to 2707 30, 2707 50 and 2710 11 to 2710 99,
    - (a) with no overlapping of the final boiling point of one fraction and the initial boiling point of the succeeding fraction and a difference of not more than 60 °C between the temperatures at which 5 and 90 % by the volume (including losses) distil by the ASTM D 86—67 method (reapproved 1972);
    - (b) with an overlapping of the final boiling point of one fraction and the initial boiling point of the succeeding fraction and a difference of not more than 30 °C between the temperatures at which 5 and 90 % by volume (including losses) distil by the ASTM D 86—67 method (reapproved 1972).

- (b) In accordance with the provisions of Article 12, the importing Party shall inform the exporting Party of any proposal for amendment of its measures on which recognition of equivalence has been based and the likely effect of the proposed measures on the equivalence which has been recognised. Should the importing Party not continue to recognise equivalence, the Parties may agree on the conditions to re-initiate the process referred to in paragraph 3 on the basis of the proposed measures.

6. Without prejudice to Article 14, the importing Party may not withdraw or suspend equivalence before the proposed new measures of either Party enter into force.

7. The recognition or withdrawal or suspension of equivalence rests solely with the importing Party acting in accordance with its administrative and legislative framework including, as regards plants, plant products and other goods, appropriate communications in accordance with FAO International Standard for Phytosanitary Measures No 13 'Guidelines for the notification of non-compliances and emergency action' and other International Standards for Phytosanitary Measures, as appropriate. That Party shall provide to the exporting Party in writing full explanation and

supporting data used for the determinations and decisions covered by this Article. For these commodities, the model for the official certificate or

official document required by the importing Party may, then, be replaced by a certificate drawn up as provided for in Appendix IX.B.

- (b) For commodities in sectors or sub-sectors for which one or some but not all measures are recognised as equivalent, trade shall continue on the basis of compliance with the conditions referred to in paragraph 1. Upon request of the exporting Party, the provisions of paragraph 5 shall apply.

If agreed, the importing Party shall take the necessary legislative and/or administrative measures to allow import on that basis, within 90 days.

6. (a) For the import of animal products referred to in Appendix I.A., upon request of the exporting Party accompanied by the appropriate guarantees, the importing Party shall provisionally approve processing establishments referred to in Appendix V.B.(2) which are situated on the territory of the exporting Party, without prior inspection of individual establishments. Such approval shall be consistent with the conditions and provisions set out in Appendix V.B. Unless additional information is requested, the importing Party shall take the necessary legislative and/or administrative measures to allow import on that basis within 30 working days after the importing Party has received the request and guarantees.

The initial list of establishments shall be approved in accordance with the provisions of Appendix V.B.

- (b) For the import of animal products referred to in paragraph 3(a), the exporting Party shall inform the importing Party of its list of establishments meeting the exporting Party's requirements.

7. Upon request of a Party, the other Party shall provide full explanation and supporting data for the determinations and decisions covered by this Article.

List of priorities referred to in Article 7(4), to be completed by the Committee referred to in Article 16.

B. Conditions and provisions for provisional approval of establishments

1. Provisional approval of establishments means that the importing Party for the purpose of import approves provisionally the establishments in the exporting Party on the basis of the appropriate guarantees provided by that Party without prior inspection by the importing Party of the individual establishments in accordance with the provisions of paragraph 4. With the same procedure and under the same conditions, the Parties shall modify or complete the lists provided for in paragraph 2 to take account of new applications and guarantees received. Only as regards the initial list of establishments verification may be part of the procedure in accordance with the provisions of paragraph 4(d).

The provisional approval shall initially be limited to the following categories of establishments:

2. The provisional approval shall initially be limited to the following categories of establishments:

Slaughter houses for fresh meat of domestic species (Appendix IA.2.I)

All establishments except slaughterhouses for fresh meat of domestic species

All establishments for fresh meat of wild and farmed game

  - (c) The competent authority of the exporting Party must have a real power to suspend the activities for exportation to the importing Party from an establishment for which that authority has provided guarantees, in the event of non-compliance with the said guarantees.

- (d) Verification in accordance with the provisions of Article 10 of the Agreement by the importing Party may be part of the provisional approval procedure. This verification concerns the structure and organisation of the competent authority responsible for the approval of the establishment as well as the powers available to that competent authority and the guarantees that it can provide in regard to the implementation of importing Party's rules. These checks may include on the spot inspection of a certain representative number of establishments appearing on the list or lists provided by the exporting Party.

*Appendix VI***PROCESS OF DETERMINATION OF EQUIVALENCE****1. Principles**

- (a) Equivalence can be determined for an individual measure and/or groups of measures and/or systems related to a certain commodity or categories of commodities.
- (b) The consideration of equivalence by the importing Party of a request by the exporting Party for recognition of its measures with regards to a specific commodity shall not be a reason to disrupt trade or suspend on-going imports from the exporting party of the commodity in question.
- (c) Determination of equivalence of measures is an interactive process between the exporting Party and the importing Party. The process consists of an objective demonstration of equivalence of individual measures by the exporting Party and the objective assessment of this demonstration with a view to the possible recognition of equivalence by the importing Party.
- (d) The final recognition of equivalence of the relevant measures of the exporting Party rests solely with the importing Party.

**2. Preconditions**

- (a) The exporting Party can only initiate the process of determination of equivalence when the importing Party has recognised the exporting Party for import of the commodity for which equivalence is sought in its agreed country list. The listing depends on the health or pest status, the legislation and the effectiveness of the inspection and control system related to the commodity in the exporting Party. To this end the legislation in the sector concerned shall be taken into account, as well as the structure of the competent authority of the exporting Party, its command chain, its authority, its operational procedures and resources, and the performance of the competent authorities as regards inspection and control systems, including its level of enforcement related to the commodity and the regularity and rapidity of information to the importing Party in case of identified hazards. This recognition may be supported by documentation, verification and earlier documented experience.
- (b) The Parties shall initiate the process of determination of equivalence based upon the priorities established in Appendix V.A.
- (c) The exporting Party shall only initiate the process when no safeguard measures imposed by the importing Party apply to the exporting Party as regards the commodity.

**3. The process**

- (a) The exporting Party initiates the process by submitting to the importing Party a request for recognition of equivalence of an individual measure and/or groups of measures and/or systems for a commodity or a category of commodities in a sector or sub-sector.
- (b) When appropriate, this request includes also the request and required documentation for approval by the importing Party on the basis of equivalence of any programme or plan of the exporting Party required by the importing Party as a condition for allowing import of that commodity (e.g. residue plan).
- (c) With this request, the exporting Party:
  - (i) explains the importance for trade of that commodity;
  - (ii) identifies the individual measure(s) with which it can comply with out of the total of the measures expressed in the import conditions of the importing Party applicable to that commodity;
  - (iii) identifies the individual measure(s) for which it seeks equivalence out of the total of the measures expressed in the import conditions of the importing Party, applicable to that commodity.

- (d) In reply to this request the importing Party explains the overall and individual objective and the rationale behind its measure(s), including the identification of the risk.
- (e) With this explanation, the importing Party informs the exporting Party on the relationship of its domestic measures and the import conditions for that commodity.
- (f) The exporting Party objectively demonstrates to the importing Party that the measures that it has identified are equivalent to the import conditions for that commodity.
- (g) The importing Party objectively assesses the demonstration of equivalence by the exporting party.
- (h) The importing Party concludes whether equivalence is achieved or not.
- (i) The importing Party provides to the exporting Party full explanation and supporting data for its determination and decision if so required by the exporting Party.

**4. Demonstration of equivalence of measures by the exporting party and assessment of this demonstration by the importing Party**

- (a) The exporting Party shall objectively demonstrate equivalence for each of the identified measures of the importing Party expressed in its import conditions. When appropriate, equivalence shall objectively be demonstrated for any plan or programme required by the importing Party as a condition to allow import (e.g. residue plan, etc).
- (b) Objective demonstration and assessment in this context should be based, as far as possible, on:
  - internationally recognised standards; and/or
  - standards based on proper scientific evidence; and/or
  - risk assessment; and/or
  - objective earlier documented experience; and
  - legal status or level of administrative status of the measures; and
  - level of implementation and enforcement on the basis of in particular:
    - corresponding results of surveillance and monitoring programmes;
    - inspection results by the exporting Party;
    - results of analysis with recognised analysis methods;
    - verification and import check results by the importing Party;
    - the performance of the competent authorities of the exporting Party; and
    - earlier experiences.

**5. Judgement by the importing Party**

In case the importing Party arrives at a negative conclusion, it shall provide the exporting Party with an explanation.

*Appendix VII***GUIDELINES FOR CONDUCTING VERIFICATIONS**

Verifications may be carried out on the basis of or audits and/or on the spot checks.

For the purposes of this Appendix:

- (a) the 'auditee' is the Party subject to the verification;
- (b) the 'auditor' is the Party that carries out the verification

**1. General principles of verification**

- 1.1. Verifications should be made in Cooperation between the 'auditor' and the 'auditee' in accordance with the provisions set out in this Appendix.
- 1.2. Verifications should be designed to check the effectiveness of the controls of the auditee rather than to reject individual animals, groups of animals, consignments of food establishments or individual lots of plants or plant products. Where a verification reveals a serious risk to animal, plant or human health, the auditee shall take immediate corrective action. The process may include study of the relevant regulations, method of implementation, assessment of the end result, level of compliance and subsequent corrective actions.
- 1.3. The frequency of verifications should be based on performance. A low level of performance should result in an increased frequency of verifications; unsatisfactory performance must be corrected by the auditee to the auditor's satisfaction.
- 1.4. Verifications, and the decisions based on them, shall be made in a transparent and consistent manner.

**2. Principles relating to the auditor**

The auditors should prepare a plan, preferably in accordance with recognised international standards, that covers the following points:

- 2.1. the subject, depth and scope of the verification;
- 2.2. the date and place of the verification, along with a timetable up to and including the issue of the final report;
- 2.3. the language or languages in which the verification will be conducted and the report written;
- 2.4. the identity of the auditors including, if a team approach is used, the leader. Specialised professional skills may be required to carry out verification of specialised systems and programmes;
- 2.5. a schedule of meetings with officials and visits to establishments or facilities, as appropriate. The identity of establishments or facilities to be visited need not be stated in advance;
- 2.6. subject to provisions on freedom of information, respect of commercial confidentiality shall be observed by the auditor. Conflicts of interest must be avoided;
- 2.7. respect of the rules governing occupational health and safety, and the rights of the operator. This plan should be reviewed in advance with representatives of the auditee.

**3. Principles relating to the auditee**

The following principles apply to actions taken by the auditee, in order to facilitate verification:

- 3.1. The auditee must Cooperate fully with the auditor and should nominate personnel responsible for this task. Cooperation may include, for example:
  - access to all relevant regulations and standards,
  - access to compliance programmes and appropriate records and documents,

- access to audit and inspection reports,
- documentation concerning corrective actions and sanctions,
- facilitating entry to establishments.

3.2. The auditee must operate a documented programme to demonstrate to the auditor that standards are being met on a consistent and uniform basis.

#### 4. **Procedures**

##### 4.1. *Opening meeting*

An opening meeting should be held between representatives of the Parties. At this meeting the auditor will be responsible for reviewing the verification plan and confirming that adequate resources, documentation, and any other necessary facilities are available for conducting the verification.

##### 4.2. *Document review*

The document review may consist of a review of the documents and records referred to in paragraph 3.1, the structures and powers of the auditee, and any relevant changes to inspection and certification systems since the entry into force of this Agreement or since the previous verification, with emphasis on the implementation of elements of the system of inspection and certification for animals, animal products plants or plant products of interest. This may include an examination of relevant inspection and certification records and documents.

##### 4.3. *On the spot checks*

4.3.1. The decision to include this step should be based on a risk assessment, taking into account factors such as the animals, animal products, plants or plant products concerned, the history of conformity with requirements by the industry sector or exporting country, the volume of product produced and imported or exported, changes in infrastructure and the national inspection and certification systems.

4.3.2. On the spot checks may involve visits to production and manufacturing facilities, food-handling or storage areas and control laboratories to check on compliance with the information contained in the documentary material referred to in 4.2.

##### 4.4. *Follow-up verification*

Where a follow-up verification is being conducted in order to verify the correction of deficiencies, it may be sufficient to examine only those points which have been found to require correction.

#### 5. **Working documents**

Forms for reporting audit findings and conclusions should be standardised as much as possible in order to make the approach to verification more uniform, transparent and efficient. The working documents may include any checklists of elements to evaluate. Such checklists may cover:

- legislation;
- structure and operations of inspection and certification services;
- establishment details and working procedures, — health statistics, sampling plans and results;
- compliance action and procedures;
- reporting and complaint procedures; and
- training programmes.

6. **Closing meeting**

A closing meeting shall be held between representatives of the Parties, including, where appropriate, officials responsible for the national inspection and certification programs. At this meeting the auditor shall present the findings of the verification. The information shall be presented in a clear, concise manner so that the conclusions of the audit are clearly understood. An action plan for correction of any deficiencies noted shall be drawn up by the auditee, preferably with target dates for completion.

7. **Report**

The draft report of verification shall be forwarded to the auditee within 20 working days. The auditee shall have 25 working days to comment on the draft report. Comments made by the auditee shall be attached to and, where appropriate included in the final report. However, where a significant public, animal or plant health risk has been identified during the verification, the auditee shall be informed as quickly as possible and in any case within 10 working days following the end of the verification.

In the event that the checks reveal non-conformity with the relevant standards and/or requirements, the importing Party shall take official measures proportionate to the risk involved. Wherever possible, the importer or his representative shall be given access to the consignment and the opportunity to contribute any relevant information to assist the importing Party in taking a final decision concerning the consignment. Animals and animal products:

1. The competent authorities of the Parties shall ensure that certifying officers have a satisfactory knowledge of the veterinary legislation as regards the animals or animal products to be certified and, in general, are informed as to the rules to be followed for drawing up and issuing the certificates and — if necessary — as to the nature and extent of the enquiries, tests or examinations which should be carried out before certification.
2. Certifying officers must not certify data of which they have no personal knowledge or which cannot be ascertained by them.
3. Certifying officers must not sign blank or incomplete certificates, or certificates relating to animals or animal products, which they have not inspected or which have passed out of their control. Where a certificate is signed on the basis of another certificate or attestation, the certifying officer shall be in possession of that document before signing.
4. A certifying officer may certify data which have been:

#### TITLE I

### MUTUAL PROTECTION OF GEOGRAPHICAL INDICATIONS OF NAMES FOR WINE

#### Article 5

### Protection of geographical indications

1. The Parties shall take all necessary steps in accordance with this Agreement to ensure mutual protection of the names referred to in Article 6 and used for describing and presenting wine that, within the meaning of Article 3, originate in the Parties. To that end, each Party shall make use of the appropriate legal means referred to in Article 23 of the WTO TRIPS Agreement to ensure an effective protection and prevent geographical indications from being used to describe wine not covered by the indications or descriptions concerned.
2. The names referred to in Article 6 shall be reserved exclusively for the products originating in the Party to which they apply and may be used only under the conditions laid down in the laws and regulations of that Party.
3. Protection as referred to in paragraphs 1 and 2 shall provide in particular for the exclusion of any use of the names referred to in Article 6 for wines that do not originate in the geographical area in question, even if:
  - (a) the actual origin of the product is shown;
  - (b) the name in question is used as a translation;

- (c) the name is accompanied by terms such as 'kind', 'type', 'style', 'imitation', 'method' or other expressions of the sort.

  - (b) where a geographical indication protected under this Agreement is homonymous with the name of a geographical area outside the Parties, the latter name may be used to describe and present a wine of the geographical area to which the name refers, provided it is traditionally and consistently used, its use for that purpose is regulated by the country of origin and consumers are not misled into believing that the wine originates in the Party concerned.
5. The Parties may, where necessary, lay down the practical conditions of use to make a distinction between the homonymous geographical indications referred to in paragraph 4, bearing in mind the need to treat the producers concerned fairly and to ensure that consumers are not misled.

6. The provisions of this Article shall in no way prejudice the right of any legal or natural person to use, in the course of trade, that person's name or the name of that person's predecessor in business, except where such name is used in such a manner as to mislead the public. Further, Article 7(1) shall not apply to such names which are registered trademarks at the date of entry into force of this Agreement.

7. Where a Party, in the context of negotiations with a third country, proposes to protect a geographical indication for wine of that third country, and that name is homonymous with a geographical indication of the other Party, the latter shall be informed and be given a chance to comment before the name becomes protected.

2. The Parties shall inform one another of the names and addresses of the bodies and authorities referred to in paragraph 1 within two months after the entry into force of this Agreement. There shall be close and direct cooperation between those bodies.
3. The bodies and authorities referred to in paragraph 1 shall seek ways of improving assistance to each other in implementing this Agreement and combating fraudulent practices, in accordance with the respective Party's legislation.

#### Article 28

##### Enforcement activities

1. If one of the bodies or authorities designated in accordance with Article 27 has reason to suspect that:
  - (a) there is or has been a failure to comply with this Agreement or with provisions laid down in the laws and regulations of a Party in respect of a wine which is being or which has been traded between the Parties, and
  - (b) this failure to comply is of particular interest to the other Party and could result in the adoption of administrative measures or initiation of legal proceedings being taken,

it shall immediately inform the competent bodies and the liaison authority of the other Party.

2. The information to be provided in accordance with paragraph 1 shall be accompanied by official, commercial or other appropriate documents, as well as an indication of the administrative measures or legal proceedings to be taken or initiated, if necessary. The information shall include, in particular, the following details of the wine concerned:

- (a) the producer and the legal or natural person who has power to dispose of the wine;

- (b) the composition and organoleptic characteristics of the wine;

  - (g) notify each other legislative, administrative and judicial decisions concerning the implementation of this Agreement and inform each other of measures adopted on the basis of such decisions.

### GENERAL PROVISIONS

#### Article 31

#### Transit – small quantities

Titles I, II and III shall not apply to wines:

- (a) that are in transit through a Party, or
- (b) that originate in a Party and are consigned in small quantities between the Parties under the terms and conditions conforming to the procedures provided for in Appendix VIII (Protocol).

#### Article 32

#### Consultations

1. If a Party considers that the other Party has failed to fulfil an obligation under this Agreement, it shall submit a written notice to this effect to the other Party. This notice may request the other Party to hold consultations within a specified period.

2. The Party which requests consultations shall provide the other Party with all the information necessary for a detailed examination of the case in question.

3. In cases where a delay could endanger human health or impair the effectiveness of measures to control fraud, appropriate provisional protective measures may be taken, without prior consultation, provided that consultations are held as soon as possible after taking these measures.

4. If, following the consultations provided for in paragraphs 1 and 3, the Parties have not reached an agreement:

(a) the Party which has requested the consultations or adopted the measures referred to in paragraph 3 may take appropriate protective measures so as to permit the proper implementation of this Agreement;

(b) each Party may invoke the dispute settlement mechanism set out in Article 33.

#### Article 33

#### Dispute settlement

1. Any dispute relating to the implementation or interpretation of this Agreement, other than a dispute to be settled under Title II as set out in Article 23, shall be settled by recourse to the dispute settlement mechanism referred to in Part IV of the Association Agreement.

2. By way of derogation from Article 184 of the Association Agreement, where the Parties have held consultations under Article 23, the complaining Party may proceed directly to request the establishment of an arbitration panel.

#### Article 34

1. Wines which, at the date of or prior to the entry into force of this Agreement, have been produced, described and presented in accordance with the internal laws and regulations of the respective Party, but in a manner prohibited by this Agreement, may be marketed under the following conditions:

- (a) where wine has been produced using one or more oenological practices or processes not referred to in Appendices V or VIII (Protocol), it may be marketed until stocks are exhausted;

To that end, each Party shall make use of the appropriate legal means referred to in Article 23 of the WTO TRIPS Agreement to ensure an effective protection and prevent protected designations from being used to describe a spirit drink or an aromatised drink not covered by the indications or descriptions concerned.

2. The names referred to in Article 6 shall be reserved exclusively for the products originating in the Party to which they apply and may be used only under the conditions laid down in the laws and regulations of that Party.

3. Protection as referred to in paragraphs 1 and 2 shall provide, in particular, for the exclusion of any use of the names referred to in Article 6 for spirit drinks and aromatised drinks that do not originate in the geographical area in question, even if:

5. The Parties may, where necessary, lay down the practical conditions of use to make a distinction among the homonymous protected designations referred to in paragraph 4, bearing in mind the need to treat the producers concerned fairly and to ensure that consumers are not misled.

6. The provisions of this Article shall in no way prejudice the right of any natural or legal person to use, in the course of trade, that person's name or the name of that person's

predecessor in business, except where such name is used in such a manner as to mislead the public. Further, Article 7(1) shall not apply to such names which are registered trademarks at the date of entry into force of this Agreement.

7. Where a Party, in the context of negotiations with a third country, proposes to protect a protected designation for a spirit drink or an aromatised drink of that third country, and that name is homonymous with a protected designation of the other Party, the latter shall be informed and be given a chance to comment before the name becomes protected.

2. The measures and proceedings laid down in paragraph 1 shall be taken, in particular, in the following cases:

- (c) where, for packaging, containers are used which are misleading as to the origin of spirit drinks or aromatised drinks.

## ANNEX VII

**SCHEDULE OF SPECIFIC COMMITMENTS ON SERVICES**

(Referred to in Article 99 of the Association Agreement)

## PART A

**COMMUNITY'S SCHEDULE****Introductory Note**

1. The specific commitments in this schedule apply only to the territories in which the Treaties establishing the Community are applied and under the conditions laid down in these Treaties. These commitments apply only to the relations between the Community and its Member States on the one hand, and non-Community countries on the other. They do not affect the rights and obligations of Member States arising from Community law.
2. The following abbreviations are used to indicate the Member States:

A	Austria
B	Belgium
I	Italy
D	Germany
IRL	Ireland
DK	Denmark
L	Luxembourg
E	Spain
NL	The Netherlands
F	France
FIN	Finland
P	Portugal
GR	Greece
S	Sweden
UK	United Kingdom

3. A glossary of terms used by individual Member States is attached to this schedule.

'Subsidiary' of a legal person means a legal person which is effectively controlled by another legal person.

'Branch' of a legal person means a place of business not having legal personality which has the appearance of permanency, such as the extension of a parent body, has a management and is materially equipped to negotiate business with third parties so that the latter, although knowing that there will if necessary be a legal link with the parent body, the head office of which is abroad, do not have to deal directly with such parent body but may transact business at the place of business constituting the extension.

I. HORIZONTAL COMMITMENTS			
ALL SECTORS INCLUDED IN THIS SCHEDULE	3) In all Member States <sup>(1)</sup> services considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators <sup>(2)</sup> .	3) a) Treatment accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State and having their registered office, central administration or principal place of business within the Community is not extended to branches or agencies established in a Member State by a Chilean company. However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a Chilean company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by Community law.  b) Treatment less favourable may be accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State which have only their registered office or central administration in the territory of the Community, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States.  Formation of Legal Entity 3) S: A limited liability company (joint stock company) may be established by one or several founders. A founding party shall either reside within the EEA (European Economic Area) or be an EEA legal entity. A partnership can only be a founding party if each partner resides within the EEA <sup>(3)</sup> . Corresponding conditions prevail for establishment of all other types of legal entities.	

<sup>(1)</sup> In the case of Austria, Finland and Sweden no horizontal reservation has been taken for services considered as public utilities.

<sup>(2)</sup> Explanatory Note: Public utilities exist in sectors such as related scientific and technical consulting services, R&D services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical.

<sup>(3)</sup> Exceptions from these requirements may be granted, if it can be proved that residency is not necessary.

#### Definitions concerning maritime transport:

- Without prejudice to the scope of activities which may be considered as 'cabotage' under the relevant national legislation, this schedule does not include 'maritime cabotage services', which are assumed to cover transportation of passengers or goods between a port located in a Member State and another port located in the same Member State and traffic originating and terminating in the same port located in a Member State provided that this traffic remains within this Member State's territorial waters.
- 'Other forms of commercial presence for the supply of international maritime transport services' means the ability of international maritime transport service suppliers of the other Party to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service within which the maritime transport constitutes a substantial element. (This commitment shall not, however, be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery).

These activities include, but are not limited to:

- marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
  - the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated services;
  - the preparation of documentation concerning transport documents, customs documents, or other documents related to the origin and character of the goods transported;
  - the provision of business information by any means, including computerised information systems and electronic data interchange (subject to the provisions of this Agreement);
  - the setting up of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal commitment on movement of personnel) with any locally established shipping agency;
  - acting on behalf of the companies, organising the call of the ship or taking over cargoes when required.
- 'Multimodal transport operators' means the person on whose behalf the bill of lading/multimodal transport document, or any other document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.

## ANNEX VIII

## SCHEDULE OF SPECIFIC COMMITMENTS ON FINANCIAL SERVICES

(Referred to in Article 120)

## PART A

## COMMUNITY'S SCHEDULE

**Introductory Note**

1. The specific commitments in this schedule apply only to the territories in which the Treaties establishing the Community are applied and under the conditions laid down in these Treaties. These commitments apply only to the relations between the Communities and their Member States on the one hand, and non-Community countries on the other. They do not affect the rights and obligations of Member States arising from Community law.
2. The following abbreviations are used to indicate the Member States:

A	Austria
B	Belgium
I	Italy
D	Germany
IRL	Ireland
DK	Denmark
L	Luxembourg
E	Spain
NL	The Netherlands
F	France
FIN	Finland
P	Portugal
GR	Greece
S	Sweden
UK	United Kingdom

'Subsidiary' of a legal person means a legal person which is effectively controlled by another legal person.

'Branch' of a legal person means a place of business not having legal personality which has the appearance of permanency, such as the extension of a parent body, has a management and is materially equipped to negotiate business with third parties so that the latter, although knowing that there will if necessary be a legal link with the parent body, the head office of which is abroad, do not have to deal directly with such parent body but may transact business at the place of business constituting the extension.

Modes of supply: 1) Cross-border supply 2) Consumption abroad 3) Commercial presence 4) Presence of natural persons

I. HORIZONTAL COMMITMENTS			
ALL SECTORS INCLUDED IN THIS SCHEDULE	3) In all EC Member States <sup>(1)</sup> services considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators <sup>(2)</sup> .	3) a) Treatment accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State and having their registered office, central administration or principal place of business within the Communities is not extended to branches or agencies established in a Member State by a Chilean company. However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a Chilean company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by Community law.  b) Treatment less favourable may be accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State which have only their registered office or central administration in the territory of the Communities, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States.  Formation of Legal Entity  3) S: A limited liability company (joint stock company) may be established by one or several founders. A founding party shall either reside within the EEA (European Economic Area) or be an EEA legal entity. A partnership can only be a founding party if each partner resides within the EEA <sup>(3)</sup> . Corresponding conditions prevail for establishment of all other types of legal entities.	

<sup>(1)</sup> In the case of Austria, Finland and Sweden no horizontal reservation has been taken for services considered as public utilities.

<sup>(2)</sup> Explanatory Note: Public utilities exist in sectors such as related scientific and technical consulting services, R&D services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical.

<sup>(3)</sup> Exceptions from these requirements may be granted, if it can be proved that residency is not necessary.

Company exemptions may, however, be granted.</p>	<p>Law on Foreign Companies' Branches</p> <p>3) S: The managing director and at least 50 per cent of the members of the board shall reside within the EEA (European Economic Area).</p> <p>S: The managing director of a branch shall reside within the EEA (European Economic Area) <sup>(1)</sup>.</p> <p>S: Foreign or Swedish citizens not residing in Sweden, wishing to conduct commercial operations in Sweden, shall appoint and register with the local authority a resident representative responsible for such activities.</p> <p>FIN: A foreigner living outside the European Economic Area and carrying on a trade as a private entrepreneur or as a partner in a Finnish limited or general partnership needs a trade permit. If a foreign organisation or foundation which is resident outside the European Economic Area intends to carry on a business or trade by establishing a branch in Finland, a trade permit is required.</p> <p>FIN: If at least half of the members of the Board or the Managing Director are resident outside the European Economic Area, a permission is required. 3. The market access commitments in respect of modes 1) and 2) apply only to the transactions indicated in paragraphs B.3 and B.4 of the market access section of the Understanding respectively.

Therefore, such branches receive an authorisation to operate in the territory of a Member State under conditions equivalent to those applied to domestic financial institutions of that Member State, and may be required to satisfy a number of specific prudential requirements such as, in the case of banking and securities, separate capitalisation and other solvency requirements and reporting and publication of accounts requirements or, in the case of insurance, specific guarantee and deposit requirements, a separate capitalisation, and the localisation in the Member State concerned of the assets representing the technical reserves and at least one third of the solvency margin. Member States may apply the restrictions indicated in this schedule only with regard to the direct establishment from Chilean of a commercial presence or to the provision of cross-border services from Chile; consequently, a Member State may not apply these restrictions, including those concerning establishment, to Chilean subsidiaries established in other Member States of the Community, unless these restrictions can also be applied to companies or nationals of other Member States in conformity with Community law.

## UNDERSTANDING ON COMMITMENTS IN FINANCIAL SERVICES

The Community has been enabled to take on specific commitments with respect to financial services under this Agreement on the basis of an alternative approach to that covered by the general provisions of Part IV, Chapter II (Financial Services). It was agreed that this approach could be applied subject to the following understanding:

- (i) it does not conflict with the provisions of this Agreement;
- (ii) no presumption has been created as to the degree of liberalisation to which a Party is committing itself under this Agreement.

The Community, on the basis of negotiations, and subject to conditions and qualifications where specified, has inscribed in its schedule specific commitments conforming to the approach set out below.

## **A. Market Access**

### *Cross-border Trade*

1. The Community shall permit non-resident suppliers of financial services to supply, as a principal, through an intermediary or as an intermediary, and under terms and conditions that accord national treatment, the following services:
  - (a) insurance of risks relating to:
    - (i) maritime shipping and commercial aviation and space launching and freight (including satellites), with such insurance to cover any or all of the following: the goods being transported, the vehicle transporting the goods and any liability arising therefrom; and
    - (ii) goods in international transit;
  - (b) reinsurance and retrocession and the services auxiliary to insurance as referred to in subparagraph (iv) of Article 117(9);
  - (c) provision and transfer of financial information and financial data processing as referred to in subparagraph (xv) of Article 117(9) and advisory and other auxiliary services, excluding intermediation, relating to banking and other financial services as referred to in subparagraph (xvi) of Article 117(9).
2. The Community shall permit its residents to purchase in the territory of Chile the financial services indicated in:
  - (a) subparagraph 1(a);
  - (b) subparagraph 1(b); and
  - (c) subparagraphs (v) to (xvi) of Article 117(9).

### *Commercial Presence*

3. The Community shall grant financial service suppliers of Chile the right to establish or expand within its territory, including through the acquisition of existing enterprises, a commercial presence.
4. The Community may impose terms, conditions and procedures for authorisation of the establishment and expansion of a commercial presence in so far as they do not circumvent its obligation under paragraph 3 and they are consistent with the other obligations of this Agreement.

### *Temporary Entry of Personnel*

5. (a) The Community shall permit temporary entry into its territory of the following personnel of a financial service supplier of Chile that is establishing or has established a commercial presence in the territory of the Community:
  - (i) senior managerial personnel possessing proprietary information essential to the establishment, control and operation of the services of the financial service supplier; and
  - (ii) specialists in the operation of the financial service supplier.
- (b) The Community shall permit, subject to the availability of qualified personnel in its territory, temporary entry into its territory of the following personnel associated with a commercial presence of a financial service supplier of Chile:
  - (i) specialists in computer services, telecommunication services and accounts of the financial service supplier; and
  - (ii) actuarial and legal specialists.

*Non-discriminatory Measures*

6. The Community shall endeavour to remove or to limit any significant adverse effects on financial service suppliers of Chile of:
- (a) non-discriminatory measures that prevent financial service suppliers from offering in the Community's territory, in the form determined by the Community, all the financial services permitted by the Community;
  - (b) non-discriminatory measures that limit the expansion of the activities of financial service suppliers into the entire territory of the Community;
  - (c) measures of the Community, when it applies the same measures to the supply of both banking and securities services, and a financial service supplier of Chile concentrates its activities in the provision of securities services; and
  - (d) other measures that, although respecting the provisions of this Agreement, affect adversely the ability of financial service suppliers of Chile to operate, compete or enter the Community's market;

provided that any action taken under this paragraph would not unfairly discriminate against financial service suppliers of the Party taking such action.

7. With respect to the non-discriminatory measures referred to in subparagraphs 6(a) and (b), the Community shall endeavour not to limit or restrict the present degree of market opportunities nor the benefits already enjoyed by financial service suppliers of Chile as a class in the territory of the Community, provided that this commitment does not result in unfair discrimination against financial service suppliers of the Community.

**B. National Treatment**

1. Under terms and conditions that accord national treatment, the Community shall grant to financial service suppliers of Chile established in its territory access to payment and clearing systems operated by public entities, and to official funding and refinancing facilities available in the normal course of ordinary business. This paragraph is not intended to confer access to the Community's lender of last resort facilities.
2. When membership or participation in, or access to, any self-regulatory body, securities or futures exchange or market, clearing agency, or any other organisation or association, is required by the Community in order for financial service suppliers of Chile to supply financial services on an equal basis with financial service suppliers of the the Community, or when the Community provides directly or indirectly such entities, privileges or advantages in supplying financial services, the Community shall ensure that such entities accord national treatment to Chilean financial service suppliers resident in its territory.

**C. Definitions**

For the purposes of this approach:

1. A non-resident supplier of financial services is a financial service supplier of Chile which supplies a financial service into the territory of the Community from an establishment located in the territory of Chile, regardless of whether such a financial service supplier has or has not a commercial presence in the territory of the Community.
2. 'Commercial presence' means an enterprise within the Community's territory for the supply of financial services and includes wholly- or partly-owned subsidiaries, joint ventures, partnerships, sole proprietorships, franchising operations, branches, agencies, representative offices or other organisations.

As an alternative to the common regime for the entry of capital into Chile, potential investors may apply to the Foreign Investment Committee to be subject to the regime set out in Decree Law 600.

The obligations and commitments contained in the financial services chapter and in this Annex do not apply to Decree Law 600 (Foreign Investment Statute), Law 18.657 (Foreign Capital Investment Funds Law), to the continuation or prompt renewal of such laws, to amendments to those laws or to any special and /or voluntary investment regime that may be adopted in the future by Chile.

For greater certainty, it is understood that the Foreign Investment Committee of Chile has the right to reject applications to invest through Decree Law 600 and Law 18657. Additionally, the Foreign Investment Committee has the right to regulate the terms and conditions of foreign investment under the aforementioned Decree Law 600 and Law 18.657.

3. The Chilean financial services sector is partially compartmentalised, that is to say the institutions, domestic and foreign, authorised to operate as banks may not participate directly in the insurance and securities business and vice versa. However, subject to authorisation from the Superintendencia de Bancos e Instituciones Financieras, SBIF (Superintendency of Banks and Financial Institutions), domestic and foreign banks operating in Chile may set up subsidiaries, with their own and separate capital, to supply other financial services in addition to their main line of business. The main business of banks is accepting or receiving money from the public on a regular basis and granting money credits represented by securities or commercial paper or any other credit instrument.

4. The subsectors and services included in this schedule are defined in accordance with the relevant Chilean legislation.

5. Payments and capital movements made under this Chapter shall be subject to the provisions of paragraph 3 of Annex XIV.

6. With respect to mode 4 (movement of natural persons):

Unbound, except for transfers of natural persons within a foreign enterprise established in Chile in accordance with 3) (commercial presence), of senior and specialised personnel who have been employed by those organisations for a period of at least two years immediately preceding the date of their application for admission, performing the same type of duties in the parent company of their country of origin. In any case, foreign natural persons may not represent more than 15 % of the total staff employed in Chile, when the employer hires more than 25 persons.

Senior personnel are those executives who come under the direct supervision of the board of directors of the enterprise established in Chile and who, inter alia:

- conduct the management of the organisation or one of its departments or subdivisions;
- supervise and control the work of other supervisory, professional or managerial employees;
- are personally authorised to hire and fire or recommend hiring or firing or any other measure related to personnel.

Specialised personnel are those highly qualified persons who are indispensable to the supply of the service because of their professional knowledge or:

- possession of qualifications for a particular type of work or activity requiring specialised technical expertise;
- essential knowledge for the supply of the service, research equipment, techniques or management; and
- the non-availability of such specialised personnel in Chile.

The category of senior and specialised personnel does not include the members of the board of directors of a company established in Chile (Directorio).

For all legal purposes, senior and specialised personnel must establish domicile or residence in Chile. Providers of services are admitted temporarily, for a period of two years, extendable to two more years. Personnel admitted under these conditions will be subject to the provisions of the labour and social security legislation in force.

Chile's commitments relating to the voluntary pension savings plans (planes de ahorro previsional voluntario) shall apply from 1 March 2005.</p> <p>11. The same insurance company may not be constituted in such a way as to cover both categories of risk.
2. Credit insurance companies, even though classified in the first group, must be established as corporations with the sole purpose of covering this type of risk, i.e. loss of or damage to the patrimony of the insured as a result of the non-payment of a money debt or loan, being also permitted to cover guarantee and fidelity risks.
3. The Chilean insurance schedule does not include insurance related to the social security system.
4. 1. HORIZONTAL COMMITMENTS	
<b>All sectors included in this schedule</b>	
	<p>a) Treatment accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State and having their registered office, central administration or principal place of business within the Community is not extended to branches or agencies established in a Member State by a Chilean company. However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a Chilean company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by Community law.</p>
	<p>b) Treatment less favourable may be accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State which have only their registered office or central administration in the territory of the Community, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States.</p>
	<p><i>Formation of Legal Entity</i></p> <p>A: Without prejudice to existing treaties, foreign natural persons may exercise a business on equal terms as Austrian nationals. However, evidence has to be presented to the competent authority that Austrian natural persons are in no way discriminated against in the exercise of the relevant business in the foreigner's home country. If this evidence cannot be presented the foreign natural person has to apply formally for equal status with nationals. If the holder of a business permit is not a permanent resident of Austria, the appointment of a professional representative (<i>gewerberechtlicher Geschäftsführer</i>) permanently residing in Austria is necessary. In order to acquire a business permit, foreign juridical persons or partnerships must set up an establishment and appoint a professional representative permanently residing in Austria. Without prejudice to existing treaties a foreign professional representative has to apply for equal status with nationals.</p>
	<p>FIN: At least half of the founders of a limited company need to be natural persons residing within EEA (European Economic Area) or juridical persons having their domicile in one of the EEA countries, unless the Ministry of Trade and Industry grants an exception.</p>

A foreigner living outside the European Economic Area and carrying on a trade as a private entrepreneur or as a partner in a Finnish limited or general partnership needs a trade permit. Appendix 3

(Referred to in Article 150)

**TIME-LIMITS**

**General minimum time-limit**

1. Except in so far as provided in paragraphs 3 and 4, entities shall provide no less than 40 days between the date on which the notice of intended procurement is published and the final date for the submission of tenders.

Time-limits when using the selective tendering procedure

2. Where an entity requires suppliers to satisfy qualification requirements in order to participate in a procurement, the entity shall provide no less than 25 days between the date on which the notice of intended procurement is published and the final date to submit the requests for participation and no less than 40 days between the date of issuance of the invitation to tender and the final date for submission of tenders.

Possibilities for reducing the general time-limits

3. Under the following circumstances, entities may establish a time period for tendering that is shorter than the periods referred to in paragraphs 1 and 2, provided that such time period is sufficiently long to enable suppliers to prepare and submit responsive tenders and is in no case less than 10 days prior to the final date for the submission of tenders:
  - (a) where a notice of planned procurement has been published 40 days and not more than 12 months in advance;
  - (b) in the case of the second or subsequent publications dealing with contracts of a recurring nature;
  - (c) in the case where the entity procures off-the-shelf goods or services (goods or services with the same technical specifications as those of goods or services that are sold or offered for sale to, and customarily purchased by non-governmental buyers for non governmental purposes); the entity shall not reduce time-limits for this reason if the entity requires that potential suppliers be qualified for participation in the procurement before submitting tenders;
  - (d) where a state of urgency duly substantiated by the procuring entity renders impracticable the periods specified in paragraphs 1 and 2;
  - (e) when the period for the submission of tenders referred to in paragraph 2, for procurements by entities set out in Annexes XI and XII, Appendix 3, be fixed by mutual agreement between the entity and the selected suppliers. In the absence of agreement, the entity may fix periods which shall be sufficiently long to enable responsive tendering;
  - (f) when an entity publishes a notice of intended procurement in accordance with Article 147 in an electronic media listed in Appendix 2 of this Annex and the complete tender documentation is made available electronically since the beginning of the publication of the notice.

  3. The Association Committee shall assess the need to review this provision regularly.
-

*Appendix 5***VALUE OF THRESHOLDS**

**Commencing the arbitration**

8. Unless the Parties otherwise agree, they shall meet with the arbitration panel within seven days following the date of the establishment of the arbitration panel in order to determine such matters that the Parties or the arbitration panel deem appropriate, including the remuneration and expenses that shall be paid to the arbitrators, which normally shall conform to the WTO standards.
9. (a) Unless the Parties otherwise agree, the terms of reference of the arbitration panel shall be:

The arbitration panel shall not be obliged to address, in its ruling, the factual or legal arguments made in such submissions. Any submission obtained by the arbitration panel under this rule shall be submitted to the Parties for comments.

46. Where, by reason of the operation of rule 7, a Party receives a document on a date other than the date on which the same document is received by the other Party, any period of time the calculation of which is dependent on such receipt shall be calculated from the date of receipt of the last such document.

---

**Other proceedings**

47. These rules shall apply to the proceedings established under Article 188 (4), (5), (8) and (10) of this Agreement except that:
- (a) the Party making a request under Article 188(4) shall deliver its initial written submission within 10 days after the date the request is submitted, and the responding Party shall deliver its written counter-submission within 10 days after the date of delivery of the initial written submission;
